

A photograph of a modern, two-story commercial building with a mix of materials including stone, dark grey panels, and white corrugated metal. The building features large windows and a prominent sign on the upper level. The sky is blue with light clouds. A large, semi-transparent green graphic element is overlaid on the left side of the image.

Our Logo is our Visual Identity

Towne Storage is represented by a clean and controlled logo. It's dynamic use of slants and overlapping letters in an upward rise with bright colors help us stand out from the often messy and monochromatic logos of our competitors. Proper use of this logo and its variations helps maintain brand consistency.

Primary Logo

The primary logo should always be used, except under conditions listed.

Secondary or Channel Letter Logo

This logo is rarely used and is strictly reserved to the three-dimensional building signs at our properties.

Alternative Logo Designs

The Towne Storage logo should *always* be colored with the official color scheme, with very few exceptions.

Colorless Logos

Occasionally, a colorless, grayscale, or black and white logo is used. An example of an appropriate use of these logos is when an advertisement is only printed in black and white.

Using these logos will help retain the integrity of the original design and meet the criteria of colorless printing.

Special Occasion Logo

Some events may benefit from a combination logo. In the example to the left, Towne Storage was a sponsor in the Utah PGA program and only had a very small space to convey what the company is about.. It was therefore appropriate to add in a golfer and our website on this logo.*

*Prior approval is required for any and all logo alterations.

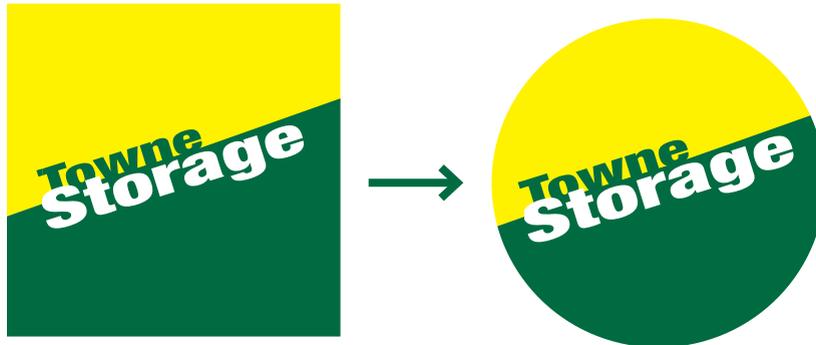

Social Media Logo

To be used as the user photo on social media sites.

Primary Social Media Logo

This is our preferred logo for social media sites.

Secondary Social Media Logo

Please note that the square logo above is formatted with enough bleed that it will be adjustable within a circular format. The dividing line should be a little over halfway in the circle as shown above and only used when restricted to a shape that won't accommodate the primary logo.

Sizing

While this logo can be sized up and down, it is best to keep this rule in mind: If it's unreadable or blurry it's the incorrect size.

No matter the size of the project, the logo should always be among the larger assets and easily readable.

Color Palette

Towne Storage has a very straight forward color palette, consisting of two colors.

Hashtags

Instagram and Facebook limit the number of hashtags that can be attached to each post (usually around 20-30). Hashtags should match the posts message and purpose. Each post must have hashtags in order to keep attention coming to our pages.

Required Tags

#TowneStorage
#StorageFacility
#StorageUnit
#Storage
#SelfStorage

Specific Tags – Contests Example

#Contest
#FreeContest
Hashtag the prize (ex. #Kindle)

01

Headline

Each headline should be clear, concise and relate to the photo/illustration. Headlines should also relate to storage even if the photo is not directly associated with storage.

02

Photo/Illustration

The illustration should be professional and reflect the message of the post.

03

Logo

The logo should be placed in any corner of the post, though lower is preferred.

04

Website

Our website should be listed on each post. When space is available, the website should be listed with the “www” in front.

With all the stress in your life, worrying about late fees should *not* be one of them.

In an effort to assist our customers, we are extending our offer for no late fees through the end of May 2020.

Holiday Posts

Holiday posts are a great way to connect with our audience. They should still follow the guidelines of regular posts, but with a slight twist.

Relates to the holiday →

Holiday posts should always have something that *relates to the holiday*, such as an appropriate phrase, followed up by a sentence on how **storage ties in** to that phrase.
