

Introducing the new **RemConex** video creator platform

‘A sensory experience like no other for your loved one’

We’re thrilled to announce our partnership with ‘RemConex’, a revolutionary way for family and friends to stay connected with their loved ones. With RemConex, you can create a stunning 30-minute sensory video experience featuring breathtaking landscapes, calming music, and up to 15 personal photos or video messages. Each experience is available for just £49, providing nearly 40% discount, and includes a downloadable video file, making it simple to share cherished memories with everyone.

Connecting your loved ones to family, friends and memories

RemConex incorporates a combination of 15 cherished photos and videos from your loved ones past and present, giving you, family and friends the opportunity to send video messages as many times as you want, no matter how far away you are*.

**For optimum video engagement, please keep video clips to less than 1 minute.*

Bringing old memories back to life with AI technology

The RemConex AI image enhancer brings colour to black-and-white photos, adding warmth and depth to cherished memories. Simply take a photo of your treasured black-and-white images with your digital device, upload it to the platform, and watch as it’s instantly brought to life.*

**While we strive to restore black-and-white images to the best of our abilities, it's important to note that current technology has limitations. The outcome depends on the quality of the image file uploaded. You will get the opportunity to review and choose if you want to use the enhanced version or not.*

Connecting to the outside world with soothing music

Our collection of breathtaking landscape visuals from around the world, accompanied by your chosen soothing music, sets the perfect backdrop to create a serene and immersive sensory experience for your loved one.

Just gather, upload, and let RemConex do the rest

We recommend gathering your 15 files onto your computer, phone or other digital device, so you're all set to go! Then, just follow the easy, step-by-step guide on the platform and upload your photos and videos. Once they're uploaded, the platform takes care of everything for you. It's that simple!

Make it the perfect gift for an additional £29

For an additional £29, you can opt to have the video preloaded onto a USB device, packaged, and delivered for effortless plug-and-play use. Every purchase supports healthcare charities, making a positive impact.

In just minutes, create a beautiful sensory journey for your loved one - one that you, family and friends can cherish too. Start now.

Important: Use the website link or the code from the email attached to this brochure at checkout to secure your discounted rate.
