Providing new child safety seats to families in need

Every week 15 children die and thousands are seriously injured as a result of vehicle crashes. Our agency believes that no family should have to experience that kind of grief when it can largely be prevented.

The use of Child Safety Seats can reduce that number by up to 71%.

Help us save children's lives by providing new, age-appropriate safety seats for the most vulnerable families in the Tallahassee area.

Buy a pack of our hometown Lucky Goat Coffee and drink to the lives of our hometown kids riding safely to all of the great opportunities our hometown has to offer.
