## Who we are

NetMotion was founded in 2001 and has been dedicated to building reliable mobile technologies ever since. Customers choose NetMotion for its powerful software-defined perimeter (SDP), experience monitoring and enterprise VPN functionality. These solutions stand out for their ability to actively improve the employee experience, validated by a satisfaction rating of 97% and a net promoter score (NPS) of 91.

## The NetMotion Platform

NetMotion offers one platform for unparalleled security, visibility and control, differentiated on user experience.

# Platform Features

## Enterprise Virtual Private Network (VPN)

NetMotion provides the only VPN purpose-built with mobile workers in mind, using patented technologies to optimize web traffic, enhance video calls and stabilize the network.

- Actively improves the employee experience
- Unbreakable connectivity using tunnel and session persistence
- Video and audio optimizations
- Powerful policy and prioritization engine

## Software Defined Perimeter (SDP/ZTNA)

NetMotion SDP provides a more intelligent way to deliver secure remote access, protecting users and resources while improving the experience of working remotely.

- Full visibility outside the corporate perimeter
- Continuous risk assessments, using multiple data points to power access policies
- Restrict access to enterprise resources, no matter where they're hosted

## Digital Experience Monitoring (DEM)

NetMotion presents rich insights on the real-time experience of remote and mobile workers, providing both proactive and reactive ways of improving it.

- Diagnostics on device and network to empower helpdesk teams
- Rich analytics on network performance outside the corporate perimeter, from cellular to public Wi-Fi
- Real-time geolocation dashboards
- Reputation and categorization of domains visited by remote workers

# Subscriptions

## N COMPLETE

NetMotion COMPLETE includes access to the full NetMotion platform, including VPN, SDP/ZTNA and DEM (as described above). It is best suited for mature enterprises looking for a complete solution, including security, visibility and connectivity.

## N CORE

NetMotion CORE keeps it simple, providing organizations with a world-class, modernized VPN solution, designed with remote workers in mind. It is best suited for organizations with simple VPN requirements.

## Customers

NetMotion has a base of over 3,000 customers globally. These organizations vary extensively in size, industry, expertise and culture. One thing they have in common is that they rely on NetMotion's platform to keep workers productive and secure.

### Return on investment

**2 hours per week** of productive time is currently lost per employee due to mobile interruptions

**Get those productive hours back with NetMotion**

**55% of all helpdesk tickets** today are related to mobile devices

**Reduce those tickets with NetMotion**

**$25 million** is the average cost of mobile technology interruptions at the average 10,000 person company

**Achieve those savings with NetMotion**

**$3.29 million** was the average cost of a corporate data breach in 2019

**Don't risk your organization's hard-earned dollars. Protect your data with NetMotion.**

## Why IT loves NetMotion

### Modernized security (SDP)

NetMotion works to substantially reduce your organization's attack surface, completing continuous risk assessments and conditional, contextual access for your mobile workers.

### Visibility + experience monitoring

NetMotion provides full visibility to devices outside the four walls of the office, from network status and app usage to categorization and risk profile. With the deepest analytics available for enterprise mobility, you'll be in the know.

### Granular policy enforcement

Along with providing reputation and categorization of domains visited by workers, NetMotion allows admins to set policy based on this data for specific users with its powerful policy & prioritization engine.

## Why mobile workers love NetMotion

### Optimized user experience

NetMotion actively improves the employee experience with low-level, patented traffic-optimization techniques (including video and audio) that make working mobile a breeze.

### Reliable connectivity & access

NetMotion makes connections and applications resilient, even in the most turbulent network conditions. Your team won't be stuck without access again.

### Uncompromised security

Browse, download, read and send without fear of compromise. NetMotion secures every single connection made from your device on a contextual, real-time basis.
