

Our Formula

Rather than just putting anyone into our automated funnels, our team uses a checklist to make sure candidates match up with our score card. Before we add them, we use the following parameters.

- ✓ Work history (Less than 2 jobs in the last 5 years)
- ✓ Online reviews/social media activity (If in customer facing position)
- ✓ Past production reports for sales oriented
- ✓ Candidate skill set in relation to job description requirements
- ✓ Certifications if applicable to job requirements
