

Penis: Male Reproductive organ

Function: _____
•

Function: _____
•

Function: _____
•

Function: _____
•

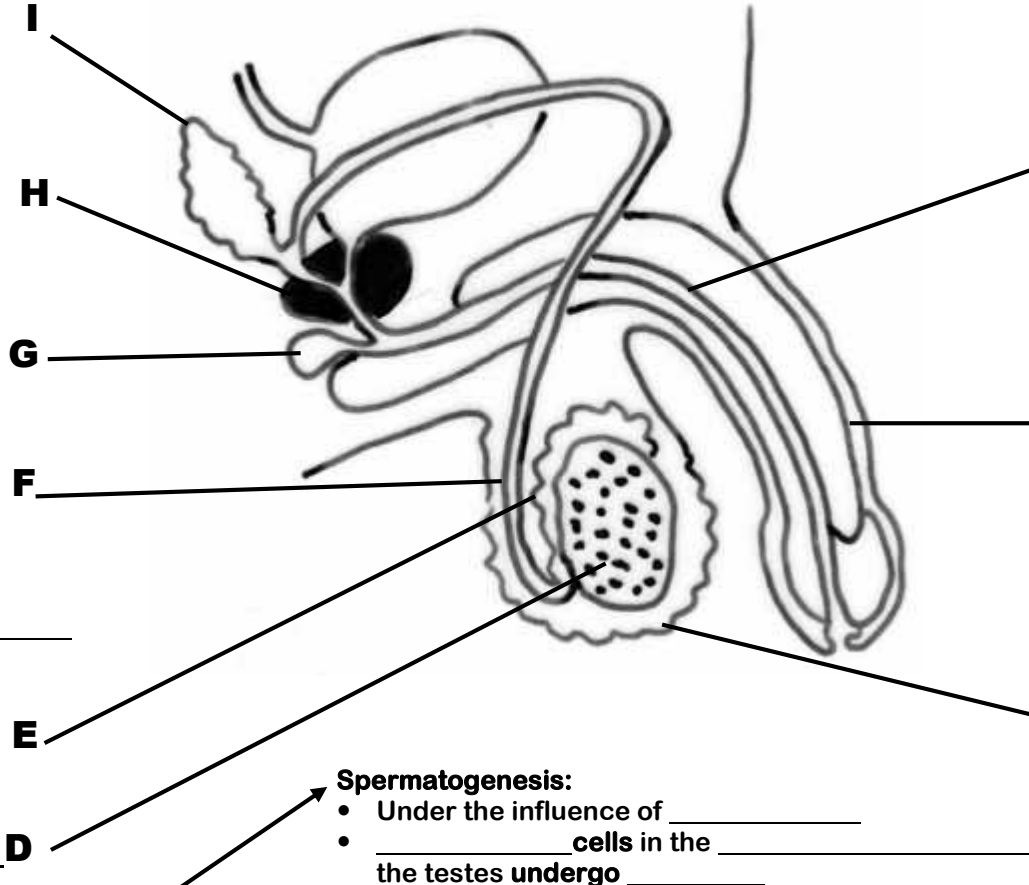

When cut = _____

Function: _____
•

Produces _____ (Spermatogenesis)
(By cell division-meiosis)
_____ (Male hormone)

Explain the consequences for reproduction if part D is found inside the body. (3)

-
-
-

Spermatogenesis:
• Under the influence of _____
• _____ cells in the _____ of
the testes undergo _____
• to form _____ sperm cells

A _____
Function

•
_____ (Copulator)

B Functions

-
-

C _____
Explain the functions of C

- *Protects the testes*
-

Draw a labelled diagram of a sperm cell
