MCFPD Operational Changes Due to COVID-19

Our commitment to protecting our community continues through the COVID-19 pandemic situation. We are still just a call away if an emergency arises. We will continue to serve our residents and businesses as efficiently as possible. The main office line is 314-863-4018 for general inquiries or building permits or code related information emails can be sent to smahoney@midcountypd.org.

In effort to protect our residents, firefighters and administrative staff from COVID-19, we are implementing some changes.

We appreciate all the support from the community, but to follow with the St. Louis County Health Guidelines for social distancing and limit contact with others to help prevent the spread of COVID-19.

Visitors must talk with the ranking on duty officer for health screen before allowed into the building call 314-863-4074.

All non-emergency response programs are suspended until further notice. This includes CPR Classes, Smoke Detector Installations, Car Seat Installations, Station Tours, Public Relations Events and Annual Commercial Building Inspections.

The decision to implement these changes was not easy, but we feel it is the right thing to do to protect our community and first responders during these changing times. If you have question please contact us.

Sean Mahoney, Fire Chief
