ABOUT US

An accidental meeting of creative energy and musical talent has resulted in a crazy, collaborative alternative/heavy rock mash-up called **Freeze the Fall**.

All born and raised in Kelowna, BC Canada -- Quinn, Jonah & Aria are incredibly talented students influenced by music from Spiritbox, Alter Bridge, Bring Me The Horizon, The Warning and more.

These emerging young musicians write and compose original music rooted in soulful female lead vocals, wildly technical bass rhythms, and powerful drum lines to bring together a sound that's uniquely their own.

Freeze the Fall also love to immerse themselves in their angsty, grungy, rock 'n' roll thing with cover tunes from artists like the Foo Fighters, Smashing Pumpkins, Maneskin, and more.

This two-time award-winning, high-spirited trio might surprise you, and will undoubtedly bring you to your feet!

ORIGINAL MUSIC

** New single & music video **GLITCH** released Feb 1st '24. Debut EP {Thrones} coming out Spring '24.

We're also Gonzo Okanagan People's Choice Music Award 2023 Winners – for Best Heavy Rock Group and Best Young Musicians!

You could say we love what we're creating and how our music seems to be hitting people right in the feels!

> [GLOBAL BC NEWS STORY HERE](#) <

"This band truly exemplifies 'the hunger of the young'. There is obviously a voracious appetite for writing, creating music & performing. They carry themselves well beyond their years, and I can only imagine where the future will take them.

There's attention to detail in everything: marketing, promotion, stage presence... even the banter and crowd interaction are dialled into an unbelievable level.

You would expect to see this kind of stuff from a much more seasoned band. Yet, they already have it in heaps and spades!

Freeze the Fall has a whole lot of stages waiting with their name on them, of that much I am 100% sure. It's a pleasure to have been part of the beginning of what I know are much grander things to come."

- Grayson Riordon, Bookings
[Revelry Kelowna]
