ABOUT US

Hailing from the heart of Western Canada's music scene, **Freeze the Fall** brings a fresh blend of nostalgia and innovation.

Led by Quinn (17) on vocals and guitar, Aria (15) on bass and backup vocals, and Jonah (15) on drums, this trio embodies extraordinary musicianship.

Inspired by bands like *Bring Me The Horizon*, *Spiritbox* and *The Warning*, they compose songs that delve into the complexities of the human experience.

With emotive vocals, blistering riffs, and thunderous bass lines, they pay homage to '90s grunge while pushing the boundaries of modern rock.

Their debut EP: **THRONES**, is just the beginning of their journey to redefine the sound and vibe of angst melodic metal.

Get ready to be swept away by Freeze the Fall's musical mastery!

"This band truly exemplifies 'the hunger of the young'. There is obviously a voracious appetite for writing, creating music & performing. They carry themselves well beyond their years, and I can only imagine where the future will take them."

"There's attention to detail in everything: marketing, promotion, stage presence... even the banter and crowd interaction are dialled into an unbelievable level."

"You would expect to see this kind of stuff from a much more seasoned band. Yet, they already have it in heaps and spades!"

"Freeze the Fall has a whole lot of stages waiting with their name on them, of that much I am 100% sure. It's a pleasure to have been part of the beginning of what I know are much grander things to come."
