

Who we are

The flood group was restarted by Karen Lucioni in 2021 when we had the last very bad surface water flooding. After the October 2023 floods we formalised the group and now have a terms of reference, which gives us a focus on work we need to achieve together as a community

What are we doing ?

Karen is actively talks with all agencies regularly and they come to the flood meetings

Making sure everyone knows the Property Flood Resilience Repair Grant Scheme is open to apply for

Inform residents who have Insurance about the Build Back Better Scheme

Regular updates on all reports when they are released

MONKTONMEAD FLOOD GROUP
NEXT MEETING 22 MAY
6.30pm
Simeon Arms

Aim of our flood group

To mitigate the impacts of flooding in the Monktonmead Area

What are we trying to achieve

That the flood defence system in place works.

That all residents and businesses are given information on what help is available

That all agencies are involved in flood mitigation

Securing assurance from the agencies, especially the Environment Agency, that the defences, and deployment protocols, are fit for purpose going forward and that such assurance is communicated to insurers and home lenders

Terms of Reference of our flood Group

- Influence Decision makers
- Look at and identify flood risks and create an effective grass roots flood plan.
- Sign up to flood warnings.
- Look at flood insurance.
- Create a community network.
- Identify inform and prioritise vulnerable residents.
- Monitoring local conditions i.e., blocked drains etc.
- Awareness of Community skills to help where needed.
- Look at PFD's – Personal Flood Defence grants.
