

# Dementia-Aware — Care at Home —

## Caregivers Specially Trained in Alzheimer's & Dementia Support

*Structured, compassionate caregiving designed  
to keep dementia patients safe, calm,  
and supported at home.*

### Daily Challenges for Dementia Patients

- ✓ Memory loss and confusion
- ✓ Wandering or unsafe behaviors
- ✓ Agitation, anxiety, or mood changes
- ✓ Difficulty with daily tasks and routines
- ✓ Increased fall risk and safety concerns
- ✓ Family caregiver stress and burnout

**Not generic home care —  
dementia-aware caregiving.**

- ✓ Designed to support both  
early-stage and advanced  
dementia patients at home.

### Why Our Dementia Caregivers Are Different

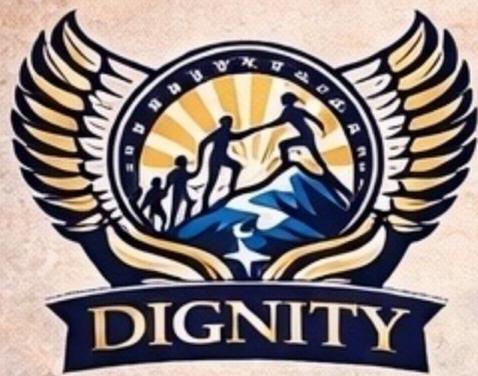

- ✓ Specially trained dementia  
caregivers (not general home care)
- ✓ Understand behaviors, triggers,  
and redirection techniques
- ✓ Provide structured routines to  
reduce confusion and anxiety
- ✓ Support safety and supervision  
to prevent wandering or injury
- ✓ Assist with personal care  
and daily activities
- ✓ Provide consistent, familiar  
caregiver relationships
- ✓ Compassionate companionship  
and emotional support
