

Weight Chart

*Figures reflected are rough estimates and can vary depending on options added or units modified.
The only way to really know how much a unit can carry is to weigh the unit empty and then subtract
that from the capacity of the axles.*

Model	GVWR	GAWR	PayLoad	Curb Weight
4X6SA	2990	1560	2390	600
5X8SA	2990	2990	2150	840
