

THIRD PARTY?

One of corporate America's favorite attacks upon workers seeking a union is "we don't want a third party to come between us and our employees."

Which translates to "We want to continue doing whatever we want to do to our employees!"

The truth is, it's not just you and your boss. It's you against the entire Cascades Mill Corp, along with its cadre of lawyers, lobbyists and layers of management.

It's a corporate machine. One that doesn't care about you, your family, or your needs. If you are a hard-working American who comes to work every day and gives them an honest eight hours of work, you should have some rights on the job!

The IAM isn't a third party, it's YOU. YOU ARE THE UNION! You elect your stewards, officers and negotiators. Your contract is negotiated by shop-floor workers YOU elect, with expert experienced advice from professional IAM negotiators. You will have a contract that is LEGALLY enforceable.
