DAKOTA COLLECTION

The Dakota Collection was introduced and the results were astonishing. Courses around the world embraced this incredible assembly of products based on one predominate factor. Quality! The design of the products is built around The Dakota Leather. This thick and stiff leather undergoes dying in multiple layers to achieve a unique rustic, vintage look which ages beautifully over time. Naturally through wear and tear, the Dakota Leather will leave scratched and rubbed areas that show the changes in the shades of colors creating a patina that truly reflects a vintage look that is rugged, rare and matured.

EISINGER SMITH

Titania Bling

Frosted Etch

Make your logo stand out with the multi-dimensional look to enhance the fine details in your logo. Frosted etch is known for its durability. The etching combines the artistry of chemical engraving to create an extraordinary ball marker that is unmatched!

Color Doming

Is a four-color process with unlimited colors to enrich the details in your logo. It's finished with an epoxy dome to preserve the colors and add a finish that will last for years to come.

Die Cast

Is a popular option to create a custom ball marker. A mold is created to achieve your desired result. This process is ideal for large quantity orders, offering high detail and durability. Antique gold, silver and bronze. Bright gold, silver and bronze.

Enamel

Enamel is the most popular type of process for a pin. The colored paint is recessed into the metal mold, giving the pins a textured feel. Soft enamel is a dimensional look that most find very attractive.

Cloisonné

Is a step up from soft enamel. Instead of paint, a powdered glass is applied by hand to the areas needed. Through a several step process, air drying, the front of the emblem is ground flat, hand polished, and electroplated. the end result is the look of cloisonné.

IMPORTANT INFORMATION

Rush Service: Quoted upon request. Rush charge may be applied to any order with a ship date under the item stated production times:
In house items

Direct Print Products: 5-7 days production, next day with rush service.

Color Domed Products: 5-7 days production, next day with rush service.

Frosted Etch: 3 weeks production

Custom products: 4-6 weeks production

Artwork Submission: The key to a great product is sending quality artwork. In most cases we can have your art proof in as little as 24 hours. Send art to art@eisingersmith.com

AI or EPS files required

Logos that use a specific font, please send an embedded font file to guarantee an exact duplication. If additional artwork is needed a \$50.00 per hour art charge will be applied.

Proofs:

There is no charge for art proofs with submitted purchase orders. A pre-production proof is \$50.00 plus die charges.
