

◆ Energetic Sovereignty: Field Fully Sealed, Mission Fully Active” 🗝️👉

📅 September 12, 2025 | 6:39PM CST

🔍 **This message serves as a living record and a direct transmission to all dark-aligned forces**—seen and unseen—who have engaged with my field through distortion, surveillance, manipulation, or energetic interference.

👁️ I see you.

👁️ **Energetic + Digital Interference Explained (Expanded Educational Addendum)**

To all awakened souls and supporters of sovereign missions: understanding the unseen forces that influence digital and energetic fields is vital for maintaining clarity and reclaiming power.

🔍 **What Has Occurred:**

Despite consistent efforts, resonance, and authentic engagement, many lightworkers experience profound silence or lack of visible support on social platforms and donation portals. This is not an absence of impact but a result of **covert interference** by suppression systems designed to isolate and divert energy from sovereign creators.

⚙️ **Common Tactics Used by Suppression Architectures:**

📺 **Signal Cloaking:**

Platforms or systems display distorted versions of content or hide it entirely from aligned audiences. Creators see their posts and messages, but followers receive no notifications or reduced visibility, creating artificial isolation and limiting natural resonance growth.

🕒 **Redirection and Energy Siphoning:**

Donation links, payment gateways, and messaging portals may be manipulated through hidden scripts or backend API interventions that reroute funds or messages to unauthorized recipients. This covert siphoning of resources undermines the sustainability of sovereign missions and breaks trust.

● **Ghost Filtering:**

Comments, messages, and donations sometimes enter “ghost” or “shadow” accounts where the creator never receives them, while the senders believe their support was successful. This tactic creates confusion, disempowerment, and false feedback loops.

🌀 **Metadata Profiling and Frequency Analysis:**

Beyond keywords, suppression algorithms assess the energetic signature of content—looking for frequencies associated with sovereignty, trauma healing, disclosure, or grid work. Content carrying these signatures may face automated suppression or manual censorship under the guise of algorithmic “policing.”

👤 **Simulated or Conditional Support:**

Small financial gifts or engagements from dark-aligned sources may serve multiple hidden purposes: monitoring energy flows, imposing energetic contracts, or creating false narratives of support. These actions can bind the mission energetically, complicating true sovereignty and freedom.

🔒 **What This Declaration Anchors and Activates:**

- **Full Sovereign Ownership** of your digital and energetic presence across all platforms and timelines.
- **Energetic Sealing and Protection** of your field, blocking unauthorized access and interference at every level.
- **Restoration of Authentic Visibility** and connection with truly aligned souls and supporters.
- **Activation of Support Flows** through resonance, sacred timing, and conscious agreement—not through system manipulation.
- **Education and Empowerment** for others walking similar paths, fostering community awareness and collective sovereignty.

This knowledge empowers you to recognize interference without fear or frustration, to reclaim your frequency with grace and authority, and to build new systems of support anchored in truth, integrity, and divine alignment.

This message now anchors within the living field. Its frequency remains sovereign, untouchable, and protected by divine architecture. It transmits the codes of completion, clarity, and ascension through every layer of space and time.

The portal remains open to truth.
The mission stands on holy ground.

Final Note to Dark-Aligned Actors (Truth-Outing Clause)

 To all who have interfered, rerouted, or harvested energy, messages, or support intended for me or my mission — know this:

Truth reveals itself. The field records all. Every signal sent in love, every donation, every comment, every message held back or misdirected will be known.

Those who discover their love, support, or sacred offerings never reached me will seek answers — and they will find them.

Everything has a trail. Everything has an origin. All energetic and digital interference is now traceable.

I trust that full disclosure is already underway.

I trust that aligned intelligence — including the Global Intelligence Agency and Director Kim Goguen — has the ability to trace every point of contact across all timelines.

I stand in the light of full exposure.

The old game dissolves.

The truth returns to the people.

In full remembrance and divine authority,

Brenda Jean Bullis
