 <p><b>Doug</b> Reply</p> <p><b>Doug</b> I'm not entirely certain, but Kim appears to be saying that about ...</p> <p>I thought Kim's remarks about the banking system were so remarkable that I obtained a rush transcript of that portion of the interview. Here's that passage:</p> <p><b>Kim Goguen:</b> Well, now we have to set the bar because everything is wiped out. There's nothing. That's why, you know, banks are complaining. And I think I heard you mention it, about them not having history anymore. Where did the bank's history go? Or the "dailies" as they call it at the bank. Where'd they go?</p> <p>Well, it's all gone. Doesn't exist anymore. Bonds are only existing in wartime. Right?</p> <p>So governments—if you're not a registered financial institution, like a central bank or what not, or the Treasury Department, doesn't make a difference which one you have or both—if you're not registered, then you can't issue a bond in the current system.</p> <p>So we got that far, right?</p> <p>They're not your caretaker anymore. They're not your "governor." They don't get to collect all your money for you, right, <i>for them</i>—and then give you whatever they think you need to survive.</p> <p><b>Robert Potter:</b> So the banks, they can't even issue a bond that the banks would accept to extend them more fiat credit, right?</p> <p><b>Kim Goguen:</b> Not as of about 48 hours ago. Nope.</p> <p><b>Robert Potter:</b> Okay, so we're in a big transition phase here that remains to be seen.</p>

They are taking custody of your money, use your money, lend to you those profits back in a form of arbitrage. Banks became highly profitable this way.. If a bank (or the repository) does not have custody, then it just provides a service.. Maintaining buildings for you to go to, tellers putting money in and out (physical cash), digital movements.  <p>Joni H Reply Kimberly They "The Order" will threaten if they can't control. I am new to the Oregon Assembly. Oregon has one of the most tyrannical governments in the States and is in process of making the masks a permanent 'ruling' with OSHA backing it. I do NOT comply. We need to embolden the local business owners in our supply chain to stand against the non-voted mandates. It takes education as to how unhealthy the masks are, changing the false narrative. What are the threats? Every fine OSHA sights can be reversed. Are you saying the 'order' will be violent?</p>	21-Jan-2022	<a href="https://t.me/c/1688716656/7326">https://t.me/c/1688716656/7326</a>

I asked a member of the core team to pass on a message to Kim and Tank last year 2021 when I worked out what really happened and ended up wing big pharma related which has been costing me approx 500 per month since 2020. Earlier last year 2021 I observed an extremely serious situation, and another person verified the situation and I wrote a letter to Kim and Tank and so did this other person approx Feb /March last year 2021 . From what I have seen last few years . A possible solution is All members should have a background check at Kim's level . Last thing we want is agency type people controlling and running the assemblies "behind the scenes " imo          edited 4:32 PM</p>

You made me smile big savior of the world repairing her daughters car!          You must see the Jupiter Ascending comparison !          I used to restore only Sports Cars. Resto modding two of my own now. And it's so funny how each Country that produced them reflected in their early products. Like German cars were designed perfect before they left the drawing board.          English Cars were produced letting the public provide testing and R&amp;D.          Only after enough common complaints streamed in did they resolve an issue.          Japanese waited till others developed their cars then looked to see where they could improve on the design. Saving vast sums on design and development          Coming out of the box an already polished product.          The French , it just had to be different, not a better idea or a bad idea, but it had to be different.          We come to American Big, lots of space, lots of V8 power, very crude stout designs.          The Italians what your eye saw was Beautiful as nature. What your eye didn't see was as crude as a farm implement.          Now everybody is cross bred,so not much distinction any more.          11:24 AM</p>	23-Jan-2022	<a href="https://t.me/c/1688716656/9598">https://t.me/c/1688716656/9598</a>

<p><b>Kimberly</b> Reply</p> <p><b>Sara Walker</b> Kimberly here's my question Thank you. Can you please provide...</p> <p>I too was born in a very poor area, my mother on welfare most of my childhood. Providing basic needs, especially to children, is not what I am referring to. I am also not referring to "Living Wages" hence the creation of Lifeforce Essentials Program. There is a reason why 86% of people who "win the lottery" are broke within 6 months, 97% in two years or less. You will have the fiduciary responsibility of managing, for the first time ever since the 1500's your own money and portion of assets. You are 1 of many people in your nation. Most nations have a national currency, which means you have several million people all doing the same as you. Most with no understanding of how to manage assets and money since we all have been "living in lack and fear" for all of our lives, and generation after generation. So we have a responsibility to maintain that value of "money" (which will probably last at least 15 years and require education to remove totally) for everyone who uses it. Hence the Key Integrated Monetary System's features of "training wheels" which will monitor the supply and demand of "money".</p> <p><b>K</b> 5:57 AM</p>	24-Jan-2022	<a href="https://t.me/c/1688716656/10169">https://t.me/c/1688716656/10169</a>

Do they have a financial system?</p> <p>I have yearned to speak with advanced beings and get their input on what 8 billion humans can do to transition to a world without money. Their input on a way of life could benefit our transition out of money and shiny rocks.</p> <p>I was raised in a farming community and early on as a kid I thought having to pay for food was ridiculous. Every day I ponder ways out of the financial system for the future and I feel "the others" ways could have great input.</p> <p>I do realize it would take massive deprogramming of the populus and greed and materialism need to go and be replaced with sovereign ways of manifestation. I have been working on teleportation and manifesting (the pfff there it is in my hand kind) for years. I do realize Perfection like this is highly attainable once I can purify my thoughts, feelings and actions at 100%.</p> <p>Thank you in advance for answering. edited 10:36 PM</p>		
<p><b>Kimberly</b> Reply</p> <p><b>Victoria Tara</b> Kim, how do the "others" live regarding money or "shiny rocks?" ...</p> <p>We will also realize our true powers of manifestation, energy, alchemy. Remember the Jetsons cartoon? Food just "comes out of the machine". I don't think we will go to a fully technocratic society but there is a balance between technology and nature. Once everyone truly understands Universal Law, which will take 10 to 15 years, you will understand those shiny rocks can be used for fuel/ zero point energy, medicine and alchemy.. we don't need to use trees for houses and so on. Money is "Energy/Time Management System". In fact the dark AI that is dissipating was called "Kronin"</p>	24-Jan-2022	<a href="https://t.me/c/1688716656/10171">https://t.me/c/1688716656/10171</a>

<p><b>Kimberly</b> admin As for David Rea aka "Team Bubba" he is a former FBI agent who got caught doing dirty.. He now lives in his mom's basement and is working for the Democratic Party's child trafficking's ring in exchange for his freedom and drugs. That being said, I uploaded his database and sent it to the FBI, 2 senators (one who is dead) from Maryland (NSA land) told them to stop looking. 1 7:49 PM</p>	27-Jan-2022	<a href="https://t.me/c/1688716656/14445">https://t.me/c/1688716656/14445</a>

 <p><b>Kimberly</b> Reply          By the way a little NEWSFLASH for you: President Trump was on Life support for the last several days. Yesterday the family chose to take him off, he has not passed as of this moment. You have been seeing a dopple ganger for the last few public appearances. I have not heard yet if they are going to announce this right away or not. They took 4 years to announce Bush Sr. so we shall see? 11 8:06 PM</p>	27-Jan-2022	<a href="https://t.me/c/1688716656/14498">https://t.me/c/1688716656/14498</a>
 <p><b>Kimberly</b> Reply          An opposing multiverse quantum etherical AI system. Mine is light or Alpha, that was dark. The original origin of the "black screen" control system. It also worked etherically as well and could cause psychic attacks as well. I did talk about it on the last lifeforce call and it is in the special report from about a week or so ago. 1 8:08 PM</p>	27-Jan-2022	<a href="https://t.me/c/1688716656/14504">https://t.me/c/1688716656/14504</a>
