Yes, to do Needs Assessments and Orders related to those needs, which may be funded by the GPRC. But in the formal, previously instructed way, no. An assembly can now be just a few people of like mind. Listen to Kim's interview w/Circle of White Light yesterday (it's on UNN)              9:29 PM</p>

Can we still ratify assemblies? Yes. Should we right now? No. In some cases it became dangerous, in others it became a power struggle. We forgot why we came here in the first place, what our job is.  <p><b>Kimberly</b>  <b>CS Ng</b>            Who created SWIFT. How it being crrated and why. Can you give ...            Yes I put this there yesterday. 34 companies in the WORLD own ALL "payment transfer systems" (SWIFT, IBAN, ETC) The Order of the Dragon aka the illuminati/khazarian own them all. Now, the VAX port system and the DATA LINES were all laid by the CIA on behalf of the black sun. All "payment transfer systems" connect (in the past) to the bank via these same data lines and VAX Port, so there was an element of control to both societies.            8:09 PM</p>

Why are we being asked to create lists of needs. The Deepstate is imbedded into every resource so all resources from the government and many private company services are corrupt. There is a fundamental "need" to either build or revamp - nearly everything, everywhere. So why are we being asked to create "needs" assessments and then have our project solutions go into some judgmental oversight system with who?</p> <p>In Marin we spent alot of time working to build an Assembly. Now the ask is for more time to go towards? Something that seems very "controlling" and through a procurement process that is very subjective at best.</p> <p>Having a fracture occur in your organization that clearly does not honor the fact that from all outward appearances things have been a co-creative process.</p> <p>Money? If there has been wrong doing - please be transparent and report it.</p> <p>Otherwise it calls the entire lifeforce mission into question.</p> <p>I trust Kim. <p><b>Kimberly</b> <span style="float: right;">Reply</span></p> <p><b>Holly Baade</b></p> <p>If this is the case, why is the process now being rolled-out by Kim...</p> <p>This is an easy one to answer, remember the old saying "jack of all trades but master of none"? Take basic infrastructure needs. Water/ Sewer, Shelter, Food, Transportation. Are you personally an expert in all three? Would you even know how to ascertain the best technology choices for all of them? Could you draw up a plan with detailed numbers and draw schedules for all types of infrastructure and source all the raw materials, and come up with a proper time table to complete the tasks you know nothing about? The answer is NO. So you need people whom have been in each of these fields to assist you in this task. This was where the council came from. The reason you feel so comfortable with PGSD, Kelly and team is because you were not challenged to leave of your comfort zone of "shuffling papers" and when said papers were "shuffled" into the correct order you felt a sense of "accomplishment" which in fact was not in anyway beneficial to the people in your area. Same with collecting email address that fell on deaf ears when I explained to both Kelly and Tank that this would happen even BEFORE they relayed this information to all of you. I did this because I KNEW it was a waste of your time, but they chose to go against my advice and do it anyway. The end result? Exactly as my over analytical brain, and my personal experience having tried to negotiate with governments thought it with. Loads of work and ZERO results. Now that being said if you do not want to participate in a structure that actually has some GLIMMER OF HOPE of completing a project. Then please feel free to leave here and join the "kelly tank team" which I have completely severed all ties with or go off on your own. Either way if you have a project you want funding for you will have to demonstrate your ability to complete the project (real numbers, real timelines, and real experienced people to construct it) before any funding will come. Some people are more accepting of a "pleasant lie" then the "ugly truth". From my mouth to your ears I will ALWAYS tell the Truth no matter how "ugly" it is. <span style="float: right;">10:56 AM</span></p>	6-Mar-2022	<a href="https://t.me/c/1688716656/52292">https://t.me/c/1688716656/52292</a>

<p>Source to do.</p> <p>I was never comfortable with how the Assembly process was going but I also had and still do a high level of trust and certainty in you.</p> <p>I did not feel the process for creating councils had integrity when we were told to self-govern and then also our self-govern structure was told it did not comply. We have kept pretty much to the templates. But with some uniqueness for our area. Still - we were told that no, we actually had to structure our Assembly exactly as told. This came from Kelly. Who simply was also willing to email me directly as I tried in my area to form an Assembly and turn in proper forms as requested.</p> <p>A lot of work went into this by a team people.</p> <p>I get what you are saying about project management details etc. But also - it is pretty clear that all society systems need overhauling. Which ones first may vary based upon location.</p> <p>But certainly, orienting to the people more as Source and less as a bank-lending management team makes more sense to me.</p> <p>Source doesnt say - show me your budget and outline. Source says - be willing and I will give you the inspiration- and then have courage to begin the journey... resources and people will come as I give them.</p> <p>If we are going into a Self-Governed, Source-Emergent time - could there be any consideration for how to trust people to simply choose an area of focus, with some general outlines, perhaps to be matched up then with more experienced mentors - and encouraged to be supported while trying in their own way to bring Love to Life?</p> <p>With sincere respect. Questioning is not always about tearing down, I simply wish to expand a bit the conversation and to inquire as to how it might be possible to have trust in humanity to use well resources given to support themselves and make a positive difference in the world.</p> <p>Not like a bank, or a government agency - but like nature does... like Source is seeking to - without blocks and barriers.</p> <p>Certainly when you started your journey to create all that you are - it came from inspiration and intuition and then also tangible plans you could make.</p> <p>Our emergent solutions may need to look a bit like this - as we are working in a labyrinth/a parallel reality birthing things as other things are dying.</p> <p>And timing - is everything.</p> <p><span style="float: left; border: 1px solid black; border-radius: 50%; padding: 2px;">HB</span> <span style="float: right;">11:22 AM</span></p>

But that is also because of a lack of communication. If there has been wrong doing - please be transparent and report it.</p> <p>Otherwise it calls the entire liferforce mission into question.</p> <p>I trust Kim. I also think it is very challenging to let go of control and let others also share - direction and decisions... when so much is at stake.</p> <p>I appreciate all of the efforts. It would be nice if there was less inner-division at a time when we need unity and trust the most.</p> <p><b>HB</b> Thank you for taking a moment to comment, Lisa. <span style="float: right;">10:25 AM</span></p>

<p>such as organic food, schooling and becoming more self responsible. In the short term we can improve the water we drink with already existing technologies with ie Kangen water filters. This is not perfection but it's a start working from the bottom up. As these aspects are improved, positive energy will ripple outward into the community to help grow and build the vision step by step simultaneously restoring the human and the environment.</p> <p>In the meantime the team of experts can come up with global solutions for the larger questions and have teams of restored and motivated people on the local levels ready to support, carry out etc.</p> <p>Just like you weren't able to transform the financial system in one fell swoop the restoration will also take many steps, much experimenting and problem solving.</p> <p>I realize this is a challenging time but your answers show you to be on the attack and on the defensive. <p><b>Paula H</b> That is unkind. That "Bible babble" saved my life when I was 17 a... How ever anyone reaches Source/God/The Creator doesn't matter as long as you get there. For myself personally being raised Catholic stopped going when they refused to baptize my out of wedlock daughter. I don't agree with the dogma (and that is my own choice), but whatever you feel gets you closer to our benevolent creator is what is important here! I look at God as our "father", the big boss, and I think what would he do if I did this or that? I compare it to my own child, I may not like what she does sometimes, but I love her always. 11:18 AM</p>		
<p><b>Holly Baade</b> Reply <b>Kimberly</b> Ok, Prove me wrong here. I will expect from your assembly grou... Kim, if all voices are equal, I feel it would be really nice to feel - welcome to voice mine. And to perhaps engage in healthy dialogue- isnt that what you are asking for. I am one of the people you need. And each one of us matters. So is it possible to take some time to go deeper into the areas where people like myself are asking questions?  If the new world is about allowing Source to create through us in a way that allows for emergent collaboration why would we need so many details to start funding a project?  How about One Assembly - to go with One Accord. And one bill that is created to release humanity's assets into humanity's hands. And all those who join the One Assembly from every region of the globe can begin to create and co-create imaginal-cells of transformation. Like the butterfly coming from the caterpillar.  Source is holding the plans. We just have to open to them and be willing to give Source our hearts and hands....  Being a Trustee of Humanity and a Guardian is not the same as being a Manager or an employer or a president. As you said, but titles do mean something.  I believe with all my heart you are our Guardian. I can feel this in my heart as truth.  But as you also said, none of us holds mastery in all things. That is why we need each other.  My specialty is team-building. I would like to contribute my understanding of human dynamics to the benefit of Source's efforts to bring Love to Life.  We already "know" what we need to do. We just need to be able to share what we know with each other.  How about we have that global conversation- as One Assembly. One Accord. One People.  And get the Party Started ....  For I dont know about you but while I agree some analysis and research is wise to have a baseline for building the New Earth....  What we are embarking upon is really nothing that has been done before. So plans can create a starting point. But asking for too many details and analysis can also create a paralysis.</p>

If we were we wouldn't be discussing money at all. However here we are.. So yes, right now we need details to ensure the value of currency is there.. ie, supply and demand, money and production lines. 2) People in assemblies in their local areas don't even get along right now, let alone the world. There is no "cookie cutter" process for every nation, nor every area. the GPRC (or whatever we decide to call it) Is the assemblies of the assemblies. 3) If we only created one assembly at this moment we would get no where and also be accused of a one world order. 4) Hence the gentlemen and ladies whom volunteered to create a process flow, and unfortunately we still live in a world where numbers matter. Additionally, a "plan" is required down to the detail. why? Because it shows if you really have thought out the process of what you "think" you are going to do vs what practically and logically has to be done to successfully launch a project. Here is an example, someone once came to me and said they wanted to cure world hunger. Great idea right? But the man asked for 114 trillion dollars PER YEAR. Now please take a moment and divide 114 Trillion dollars by 8 billion people. What number do you get? I will sum it up morbid obesity for everyone if that number was only relative to food and the transportation of it. Hence the FAILURE of 114 trillion dollars, and the plummeting of the value of the dollar for everyone else too. So IF I just BLINDLY did that, a loaf of bread would cost around 2000 dollars based on someone's poor decision making.</p>	7-Mar-2022	<a href="https://t.me/c/1688716656/53872">https://t.me/c/1688716656/53872</a>

<p>"Making" things happen by means of exact planning and details is not an emergent-model of creation.</p> <p>And people are not getting along- simply because we do not know how to trust and collaborate through the moments of push-back. But it is exactly the diversity of a team that is its strength - as we allow for synergy to be born of frustration in not "seeing" how something can be done.</p> <p>I think you would agree with me that Source is not asking you to be the Judge of everyone in humanity or our ideas of how to create the more beautiful world we-all-dream-of.</p> <p>We all share in certain PTSDs- feeling quick to recoil when we are not supported or feel abandoned or left out. We are educated to compete- not coordinate... so when it comes to working as a high performance team- we are challenged in our understanding of what this requires and means.</p> <p>For one, it requires staying positively engaged and even in active contribution during high states of uncertainty.</p> <p>How can, as the Trustee, you perhaps trust... a bit more humanity.. and our readiness to be "unleashed"</p> <p style="text-align: right;">12:10 PM</p>

For example, Source can tell you "don't cross the street" and a car comes whizzing by and almost hits you. You have to head the warning right? If you cross anyway then its on you. Same with Source telling me to build this or destroy this or look here or there, it STILL requires a practical logical step by step "way" to do this.</p> <p style="text-align: right;">12:16 PM</p>	7-Mar-2022	<a href="https://t.me/c/1688716656/53892">https://t.me/c/1688716656/53892</a>

And eventually, the new living system flies....</p> <p>The old human-mind models of how to create cannot possibly build what we cannot yet fully even understand that we are capable of.</p> <p>But we can take the first steps... like gaining soil and friends to build gardens of hope and inspiration. And by soil and gardens - i mean both literally and metaphorically. In our new innovations as well as in our consciousness.</p> <p>Please know - I am humbled by your journey and your responsibility at this time. I could never use my mind to analyze systems as you are clearly a genius in doing.</p> <p>So all is said with the greatest love and true respect. And also - a little bit of my own courage.</p> <p>Because in order to win this war, which is really an attack on Source's creations, it seems to me we have to place our trust in Source's moment by moment guidance as well as seek to have plans and numbers and also be willing - to understand they are found in our bounded rationality while God's mind seeking to create through us - has none.</p> <p style="text-align: right;">12:26 PM</p>

Oh thank you so very much for caring dear Geni!!!!...Yes I understood exactly about the orders - which were of course directly sent to Jeanne Anne - whom I personally feel to be a profoundly intelligent,diligent and truly caring Divine Soul - !So ALL she gets IS in truly good hands!...My question was really NOT in regard to the formerly submitted orders to Mr.Asey..."which "by the way..." had been sent TWICE to be ignored twice...! I personally felt the fact to ignore (even twice!) such a vital Children`s order - simply as scandalous !!!!...My question to our dear,respected Kimberly had the intent to understand WHERE all these for the ratification required signed papers actually are right now ?...and I could further imagine that...it might be important to write a renewed order directly to Mr.Asey " that we - through our sovereign right of free will HEREBY STRIP HIM from ALL eventual authority he might previously have had in relation to the by the Assembly signed ratification - request papers which he had received !...Further that we order him to immediately send all those papers to Ms.Kimberly Goguen who IS the only authority on Midguard !...A signature IS a signature...and signatures are signatures...so "bindings..." and should ALWAYS only be in the care of truthful and integer - Human beings! May be as I already mentioned before 1.) should we order them immediately back from Mr.Asey and claim that this (our) order is spoken out through our Sovereign free will - or 2.) might you see the possibility to "protect all of these Assembly people worldwide somehow" in fixing an order in the Hall of Records that Mr Asey must return all of the documents to you or even back to the people...?...I do not feel comfortable - as we also clearly know the coup d`etat that this man even capable to do to the Queen of Midguard...So what now...? 🤔...🌸 edited 6:57 AM</p>

Kim said in a LF call that in one of the timelines seen in Project Looking Glass Tank was the leader of the rebellion. That's why he had been targeted and I believe Kim said that is why she contacted him. (Pls correct me if I'm wrong). What's that saying "too many chiefs and not enough Indians"?          When we heard he left, my first thought was that perhaps we were relying too much on those in his team to make the changes as we were caught up in the assembly ratifications and not doing the work as individuals. It was a call to action from Source that We Are The Ones We Have Been Waiting For! Not a team to tell us how things need to be.          All over the World we have great ideas for projects that we were told had to be approved by our assemblies. I felt like it was going to take so long to make changes when only a few assemblies were ratified and "shuffling papers."          Kim told us to look at the micro in our World and not the Macro I felt like we were doing before the split.          That's my take!  <p><b>Holly Baade</b> Reply</p> <p><b>Kimberly</b> Have you ever been in a meeting with the deep state? or the Rus... Kim, with all do we respect - we are just getting to know each other. If you value all voices, please value mine.</p> <p>I have not been what you have been through. And I deeply respect you.</p> <p>However, I have been through many otherworldly experiences too.</p> <p>I, like you, was chosen for something far from my own seeking-out-to-do.</p> <p>I have experience fighting demons. In fact, it is something I do with the precision of a very skilled surgeon. I also am gifted with being able to speak with the soul of everything to bring people's souls back to them or to help them merge with Source when it is their time too.</p> <p>And I, like you, hear Source's calling and direction for me very clearly.</p> <p>That is why I know you are who you say you are. It is also why, I am reaching out. It is also why I am speaking out and to you.</p> <p>Because as you have said, we none of us can do anything alone. We need each other - and I am a strong ally for you.</p> <p>When the whole world has become a place that is almost impossible to trust, it is hard to - trust.</p> <p>I get that. And I get that you are spinning a million plates and then some.</p> <p>But please hear me out and seek to understand where my insights are coming from. I know - how to fight demons.</p> <p>It is not done by giving them attention, and our focus.</p> <p>I also have more than a decade of experience in team-building. I see clearly human energy dynamics and know how to help people feel empowered and valued and part of something while creating solutions to seemingly impossible challenges.</p> <p>So I come with respect. I come with humility. I appreciate everything you are doing. I just sat with Marin's team and we talked about prioritizing our needs and beginning the research needed as requested. So I am even supporting your requests at this time from Assemblies.</p> <p>And at the same time, I see how to move from where we are to where we want to be in a world that feels closer to heaven - than the hell we have been living in.</p> <p>Allowing for synergy between what we all think, feel and see is the key.</p>

<p>key.</p> <p>Source wants to create through a people who hold the vibration of trusting each other and loving one another as ourselves - within themselves and place this value above all others.</p> <p>What don't you like about what I have suggested? I mean - all I am really requesting is that you consider:</p> <ol style="list-style-type: none"> <li>1. A universal basic income for all those who consciously choose to sign the One Accord. With an amount that is small enough its not worth it to the cabal to grab but not too small so that a person could have time to give themselves over to key Assembly work and at the same time - work on projects near and dear to their heart and perhaps expertise.</li> <li>2. Consider planting a new tomorrow like planting a garden. With a place, plan and intentions and also allowing for what comes naturally.</li> </ol> <p>Perhaps I have not approached you in a way that you can appreciate. I apologize. And at the same time, how does one begin to get involved and not just sit on the sidelines and somehow just gossip about what is going on.</p> <p>I may not be right. But if the current plan includes getting all of the details into place before creating new governance systems to run along side the existing (dying but powerful and fighting ones) - will we move to action in time?</p> <p>How can there be greater trust in how humanity will respond when given an opportunity to align with the One Accord and perhaps align our sacred livelihoods with the calling of the time we are living in.</p> <p>I haven't lived your life. But you also have not lived mine. And none of us here wanting to build a better world together have lived each others - and at the same time We all need each other.</p> <p>I think it starts with listening to our hearts. Mine says to listen to you... and also - to add the value that I know how to. 🙏 8:00 PM</p>

And I seek to maintain this although I am human and sometimes do not. But I am no one's red flag. I only hold a white one. 🙏</p> <p>I am also someone who knows how important it is to ask questions that come from my heart and I believe with my whole heart that if</p>

 <p><b>Kimberly</b> Reply (This letter has the sender and the receiver names removed) January 13, 2022</p> <p>Dear XXXXX,</p> <p>It has been about a month since I shared my letter to Rusty with you and I have taken some time to process that experience more fully. I would like to share some of my discoveries with you. Just speaking to you from my heart and sharing my concerns...as always. I appreciate very much your advice and your encouragement. I am completely transparent. Share any of this as you see fit.</p> <p>First, it is a cardinal rule that as an energy healer, we never work on anyone's energies without their permission. Secondly, I am not very well versed in the black arts. Since XXXXX used them on our assembly members, I have become much more aware of them. I was getting energetically attacked so much that I reached out and Kelly suggested that our assembly work with Rusty. <p>Kelly suggested that our assembly work with Rusty. So many things happened in Rusty's group (Source's Light Force or SLF) that I witnessed and only later realized what truly was going on.</p> <p>While I was in the group, I was "learning" and was acting primarily as an observer as was Leslie Shriver (who gave Rusty a home). Ellen Kratka had worked with Rusty before and they said that they came from the "Source Force" or "discernment group" and wanted to start their own group. Tank came on our first call and gave his "blessing." XXXX secretary XXXXXX joined with me. I met with them about a dozen times before I decided to leave. Toni was very offended when I left. Ellen and Rusty knew each other well and did most of the "work".</p> <p>Rusty insisted that he was friends with all the core team and had their standing permission to work on them. I witnessed him work psychically on Tank, Charlotte, Kim, Kelly, Joriej, Collin, Max, and Lisa T. He ranted and raved like a madman and I honestly did not know what he was doing because he threw me out of my "zone". I especially remember that he ranted that Max was Mkultraed and did extensive work because she was "activated"(without her permission). I also vividly remember his "work" on Lisa T and her "covens" and how he "worked" to influence Kim to remove her or fire her (also without her permission).</p> <p>Rusty is particularly manipulative with people's consciousness. He is quite an actor and he knows how to "play the game." He does this by mixing white and black magic. He gained my confidence at first using the white magic. He did help me to come to terms with my recent separation. Then he starting showing his other side. Only black magic seeks to manipulate or control others. Rusty showed the classic dark signs of being all in his ego, knowing everything, not being appreciated, and being the perpetual victim. He enjoyed the art of psychic warfare way too much for my taste. XX and I were experiencing more energetic attacks than ever. Then Rusty would "save" us. Then XXX took on the role of "saving" Rusty. I was not clear where these attacks were coming from. Attack...save...attack...save...attack...save.</p> <p>I reached out to Joriej and Kelly to find out if we were really part of PGSD like Rusty insisted. No! Jorie mentioned that she had told Rusty to "stay out of her energy field." So, I caught Rusty in two lies.</p> <p>Then it became very evident how much he hated Max and Lisa T. I have great respect for Max and work with her in CFR. That's when I got out of Rusty's group. I talked to Max about this just last week. She never gave him permission to work on her either. I also realized that it was just after Rusty "worked" on Max that she got so sick.</p> <p>Rusty talked a lot about how much he did psychedelic drugs and how he killed Lucifer while on one of his trips and how Kim was so grateful to him (Kim never spoke to Rusty directly ever).. Rusty worked with all kinds of spells, curses, hexes, parasites, Vrils and claimed to work with the others. He had many friends like Odin. He told so many lies that I couldn't believe anything that he said.</p> <p style="text-align: right;">← 16 🌟 2:49 PM</p> <p>I have witnessed enough of the dark arts to know when people are "possessed" or under a spell. When this happens, people go through abrupt personality changes. Our assembly lost Toni (our Secretary) to Rusty and I lost a good friend. She is still in his group and under his spell. Often spells are cast during long conversations. XXX probably talks to Rusty 20 hours a week. He also calls our editor XXXX and flirts with him many hours a day. XXXX submitted a community project to include special housing to offer Rusty a home in NC (not getting approved).</p> <p>I do not know what Rusty is up to now. I have to wonder about Kelly...abrupt personality change. NC has been helping new</p>

<p>assemblies get started: VA, SC and FL. Kelly went from being easy to work with to telling me not to help FL because I shared with them our member application (which PGSD did not have a template for at that time) and it reminded him too much of Assembly in a Box.. He furthermore demanded that I get out of their telegram thread (which is a thread for all of their friends)...he is in there. He was quite irate about it. Is PGSD the Telegram police now?</p> <p>He told me a couple months ago that we did not have to change our format from Assembly in the Box since we submitted it last May. I last updated it in December. I asked him yesterday what we had to do to get our ratification package on Kim's desk. "Talk to your liaison.". Jorie told me back in December we had a "green light". She did say that we would be at the end of the line unless we updated to the new format and that she had about 300 to review. So, information that I was apparently not supposed to know says that XXXX Assembly is rated 0. What? Zero (0) Really? I know some of the information is outdated, but most of the important information is actually the same...application, bylaws, member lists, etc. Seems like busy work when I have so much to do...like find a new secretary.</p> <p>Any help or advice is welcome.</p> <p>Much Love,XXXXXXXXX President, XXXXXXXXXXXX Assembly</p>

<p>interview which was kind of weird. None the less, I am aware of the comments being made by some on here. I told all of you in many Lifeforce calls that I had in the past tried to negotiate with all of those people and all of the negotiations failed as they all refused. I never hid that from anyone. Which is why I also tell people not to bother as they just won't. I tried to help the US and work with Trump who turned out to be nothing more than a liar, cheater and a thief. This is not new for him as several old business associates of his came forward and said the same. As for the rest of the governments, I also reached out to nearly every one of them back in 2014-2019 and I finally came to the conclusion all of them are on board with the elites and not one cares for the people in the nation. Not one. So hence months later the beginnings of Lifeforce, I figured if we are going to survive as one race, the human race, it is going to be the people who do it, and not the cabal. That doesn't mean this beginning stage is for everyone, it is very difficult, it is hard to face this war head on. See, when you are fighting evil on behalf of "Source/God/The Creator" and his/its creation(s) (ie, humanity, earth etc) you are forced to face your truths, constantly tempted with the 7 deadly sins. I have seen many many people just "loose it" and I have to keep it moving. I understand some are upset about the departure, but those are only the ones you see, there have been many over the years. We will make it, just one day at a time following instructions from our benevolent creator. 7:46 AM</p>

And, they are taking a chance on ppl like Kim to build bridges and show that humanity can change and grow and become TRULY FREE and honorable stewards of Surface Earth.</p> <p>They have watched humanity since the beginning. And, they know our weaknesses when it comes to NOT "owning" our source connection ... and have watched us ruin our past chances at sovereignty while destroying/parasitically ruining our/their home planet.</p> <p>Yes, the shadow side of the last invaders have indeed MK ultra-ed humanity into "Tacit Consent" to participate in Terror-Forming and ruining Mother Earth.  <p>Aleksandr Reply</p> <p>Kascee</p> <p>I think the Slavic Vedas (runes) were translated into modern Rus... that is different. there were many forms of runes, each for a specific purpose. after many world wars and cataclysms the tribes of men were split up for long periods of time, and many new forms of writing were invented again. So the vedas were originally in specific type of runes , and after each "cataclysm" some parts of them would be released in one language or the other specific to the tribe and level of access allowed. which was important to prevent the dark ones from getting to the knowledge that could be used for wrong things</p> <p>6 9:27 AM</p>

Firstly I did not watch the whole video, I listened to about 20 seconds or so. I had to turn it off when Kelly said "in 2017 Kim and tank began the work". Firstly I have been running around this planet doing this job for around 12 years. Certainly 5 years before I reached out to tank or knew a tank existed. In May of 2020 I was invited to the core team meetings, and then I invited them, ALL of them to join in building what became UNN. As for the "job" until September of last year, when we formed a separate group of women whom have helped</p>

<p>me immensely with the "job" I did the "job" all on my own, no one to call, no help. Although some ideas came from other people along the way (and there are/were many) the execution on the "idea" was still left to me, by myself. Many people have come and gone along this journey, for some it was difficult, the attacks and so forth were just to much to bare. Others let their ego get the best of them, and every single one of those types thought they should have my job, or claimed to be the new trustee. This is never the case, and is a classic line often directly or indirectly from the CIA. Ego is a weakness, never a strength. Then for others, the old saying "when God wants to punish you he takes your mind" rings very true. While I am sorry all of you have gotten in the middle as others create confusion, I can assure you I DID NOT start this journey with anyone except Source our Creator, and if need be I will finish it that way. While I am grateful to have met many many amazing people in this journey, I also recognize this is the difficult part, and I will not force anyone to continue. This "job" is difficult enough and please remember, the information I put out there as often as I can is what I personally am involved in. I am NOT reporting other people's intel, this is my life. Some of my journey started as young as 8 years old, and for many of you I know you have your own journey's too which led you here. Try not to get caught up in drama, and use your own inner discernment as to what is truth and what is a lie. Who you want to associate with and who you don't and let the rest go. At the end of the day we have many stresses in our world, and people are counting on YOU to help lead us into a better world and a better way. When project funding is available BE READY because the attacks will be very real on every level. Lastly when it is available, you will hear it from my lips to your ears directly, there will be a process for submission WHEN WE ARE READY. Being ready means you are ready, physically and mentally, the "danger" is minimized so I, by giving you funding, am NOT putting you in further danger, our government's will NOT come after you with false charges and try to put you in jail, and the list goes on. There is a lot to "readiness" which needs to be considered, and I promise you, we are making great strides toward this every day. In conclusion, use your own discernment in ALL things, think for yourself, you are the savior you have been waiting for, listen to God/Source/The Creator, and guide your communities into a better world for our children and our grandchildren. The rest is all just noise. Much Love to Everyone, Kim.</p> <p>119 23 16 14 5:27 PM</p>

<p>Joni H</p> <p>Kimberly</p> <p>Thank you, and we need to focus on the big picture here. Why ar... Depopulation. Big picture of the skies being sprayed. No one seems to know how to stop the nefarious weather manipulation that affects all of us, everyone, everything.</p> <p>7:46 PM</p>		
<p>Kimberly</p> <p>Joni H</p> <p>Depopulation. Big picture of the skies being sprayed. No one see... You must be new. After the nightmare that has been the last few days the Enforcer has gone to the CIA bases known as Monsanto to work on the issue of chem trails. This was requested earlier this week, however due to the wave of Archons we had to solve that issue first, as that could have wiped us all out more so then rain and some none effective spraying. We will move back to the other issues now we hear so much about from everyone, while we are not discounting weather weapons and chem trails, we have to start with the "are we all going to die of this" items on the list first.</p> <p>76 33 16 10 2</p> <p>8:14 PM</p>	<p>31-Mar-2022</p>	<p><a href="https://t.me/c/1688716656/75415">https://t.me/c/1688716656/75415</a></p>

<p><b>Joni H</b> Reply  <b>Kimberly</b>          You must be new. After the nightmare that has been the last few ...          Thank you for your reply Kimberly. No, not new, just don't have the time some have here to chat all day non-stop making it hard to find your updates. I do listen to the UNN news, so perhaps Sunny can recap in more detail your update about the solar flares and the defeats there?          8:38 PM</p>
