

## **Kimberly Goguen: Global Guardian with the Highest Clearance on Earth**

*What the Global Intelligence Agency (GIA) Is, Why You Haven't Heard of It — and What It Means for Our Future*

**Posted by Brenda Jean Bullis, Founder of Blueprint HOPE | June 27, 2025**

We are living through one of the most profound turning points in human history — and yet, many of the most important truths remain hidden from view.

If you're reading this, you're likely already seeking something deeper. You're not alone. At [Blueprint HOPE](#), we exist to help people find not only truth — but grounded, actionable ways to reclaim health, dignity, and freedom.

This post introduces someone whose name you've likely *never* heard in mainstream news — and yet she holds the highest level of authority on this planet.

Her name is **Kimberly Goguen**, and she's the **Director of the Global Intelligence Agency (GIA)** and recognized **Global Guardian** — a planetary-level role that transcends national governments, corporate power structures, and even secret military programs.

### **Who Is Kimberly Goguen?**

In 2016, Kimberly Goguen was appointed Director of the **Global Intelligence Agency**, a role granted by an oversight body well above any Earth-based institution.

She holds **Global Clearance Level 74** — the **highest security clearance on Earth**. This surpasses the clearance of **every world leader**, including **the President of the United States**, top military generals, intelligence directors, and even those involved in classified programs like the **Secret Space Program (SSP)**.

What does that mean?

It means she has sovereign access to:

- The most advanced intelligence systems on the planet
- Off-ledger global financial systems
- Technologies and networks previously kept hidden from humanity
- Command protocols for dismantling planetary control structures

But more importantly: Kim is working **on behalf of humanity**, not against it. She's here to help **transition Earth out of covert control systems** and into a new era of sovereignty, peace, and transparency.

## 🌐 What Is the Global Intelligence Agency (GIA)?

Unlike the CIA, MI6, or Mossad, the GIA is **not affiliated with any nation or corporation**. It's a **planetary-level agency** — and Kim is the *only* being with full access to its top systems.

The GIA's mission is to:

- Monitor and dismantle hidden power structures
- Restore lawful systems of global cooperation
- Protect life, sovereignty, and the planet
- Support the peaceful transition to a truly transparent and unified Earth

You can access **weekly GIA Intelligence Reports directly from Kim herself** at [unitednetwork.earth](https://unitednetwork.earth). These reports cover geopolitics, military operations, financial updates, and real-world developments that mainstream and alt media won't touch.

## 🧐 Why Haven't You Heard of Her?

That's the most common question.

The short answer: **You weren't meant to.**

For decades, Earth has been run by hidden networks — shadow banking systems, secret orders, corporate-military alliances, and interdimensional actors. These groups thrived on secrecy, compartmentalization, and control of information.

The media — even much of “alternative” media — has long been steered away from the truth.

Kim has been quietly working to **dismantle these systems from within**. As those structures collapse, her visibility grows — but not through mainstream promotion. The work is real, and the systems being taken down are massive. You can follow that journey and judge for yourself at [unitednetwork.earth](https://unitednetwork.earth).

## Where Does Blueprint HOPE Fit In?

While Kim and the GIA handle the deconstruction of global control systems, platforms like **Blueprint HOPE** (BHOPE) are here to support the **reconstruction** — by you, me, and the people.

**BHOPE** (Blueprint Heaven On Planet Earth aka Brenda's Hub of Peaceful Empowerment) was created to:

- Unite grassroots solution-makers
- Build new systems for health, education, energy, food, and local economy
- Offer resources, collaboration, and visibility for people doing good work
- Restore dignity where institutions have failed

Founded by **Brenda Jean Bullis**, Blueprint HOPE is not a news outlet — it's a **builder's platform**, meant to give *you* a place in the global transition.

## When You're Close to the Core, You Become a Target

Over time, I've come to understand something that still stuns me: the closer you are to the *actual* transition — the one Kim is leading through the GIA — the more resistance you'll face. Not from the public, but from old systems desperately trying to hold on.

In my case, this has looked like **relentless targeting**: character smears, sabotage, strange interference, and repeated attempts to shut me down physically, spiritually, emotionally, and materially — sometimes from people I never expected. I seem to be just one or two degrees removed from many of the most volatile, chaotic events playing out behind the scenes.

I don't share this for sympathy. I share it to say:

**If you're feeling targeted, shaken, or inexplicably pressured right now — you might be closer to the truth than you realize. And you're not alone.**

This is the resistance that rises when the old system knows it's losing.

## Here's the truth:

Doing this kind of work is not easy. It's spiritually driven but materially and physically exhausting. Many of us — not just me — are running on fumes trying to hold space, build community, and provide lifelines while old systems break down around us.

We need support. We need *you*.

Whether that means joining the mission, sharing resources, volunteering, or simply holding this vision with love — it matters. You matter.

And we're not giving up.

## Final Thoughts

If this challenges what you've been told — that's a good thing.

Truth often begins where comfort ends.

If your intuition is nudging you to explore more, **follow it**.

Watch Kim's updates. Read with discernment. Join where you're called.

This planetary transition isn't coming — **it's here**.

Let's walk it together.
