EBV linked to Chromosome 1P, placed here by the Chimera race 3,000,000 years ago. It wiped out an entire civilization. Also known as Human Gamma Herpes virus 4. Not exactly an Archon but a related operating system. Every human on Earth has EBV. They attach software to the EBV operating system to increase degeneration.

They placed a marker in Chromosome 1P that detects a weakness in the immune system and sends the EBV Chimera AI to that location to make degeneration more rapid. The 1P marker also sends it to other chromosomes and is connected to an operating system in the heart chakra stomach area. EBV is stored in the Omentum main lymph system.

The immune section of the system was complete. A flash of light happened and then system started recalibrating automatically...photo finish and we were told that we reached 100%.

System kept flashing then recalibrating as it integrated 3 systems into 1.

Kim had a conversation with Council that the elites don't listen and are bent on destroying Earth and beyond.

Transitory team gave a deadline. Started talking to 5 top generals. They all chose death. Of the 20 below them, 18 are left. Some are already plotting against the restoration and will be the next to go.

They were plotting and explosion around the White House or nearby Cathedral or Basilica.

CRADLE = Core Reactivation Agreement for Delivery of Leveraged Energy

April 1, 2022:

Today, they thought they were going to take over the Hall of Records and the Alpha System through the Andorra issue that was disabled—April Fools!

Yellin submitted a proposal to the Hall of Records at the exact time that the Deep State was supposed to be in charge of everything. It was denied by Kim.

More negative gate/gateways were found and closed. Three were found (Haiti, Hawaii, Mogadishu). All were demolecularized and sealed.

Ran programs to neutralize archon entanglement for the universe.

General George Carrington appeared before Kim and was very angry as he wanted to walk-in in to a down-line relative. This attempt was avoided.

April 2, 2022:

Found a plug in port under the Vatican Seal in the floor at St. Peters. It was located on Level 4 of the system.

Dark side sending a signal and trying to reconnect Metatron's cube that bound Earth to the Black Sun, and trying to open a portal. Also doing this in China, Russia and France.

Jupiter Meeting/Jupiter Accords/Artemis agreements not approved.

Deep Space was supposedly controlled by the SSP (some are permanent members of the UN Security Council), acting and projecting that they control everything in the galaxy even though the agreements were never approved. This is why they aren't recognizing Kim as the Ground Commander. Kim sent out a message through the diplomatic line setting the records straight and exposing the deception.

April 3, 2022:

Abraxus started using the Central Sun for retaliation due to the Ground Commander's message sent out yesterday.

Council said, "The Abraxus empire has fallen. Earth was the last hope of raising the dark overlord. Due to the breaking of the Intergalactic Treaty, the Abraxus are retaliating on Earth and beyond." They were going to blow up all the Suns and a full-on War in Space had broken out. They tried to escape through the 5th plane. The control panel was taken out and the old power pack is dying. We are all experiencing brain fog from the creation of an unnatural space between us and our connection to Source God Creator, which stunted our growth and kept us as slaves.

Intergalactic Treaties of One – Simian

April 4, 2022:

Jay's Treaty of 1796...Amity, Commerce, Navigation between His Britannic Majesty and the USA.
Found a Treaty of Ghent

Loopholes that Kim can use to control the black market. The Black Sun always controlled the black market.

Kim cancelled all the Black Sun agreements in the Hall of Records and replaced all trade agreements and treaties with the Gold Sun. No more Black Sun trading deal for on and off world commerce. Bonds and derivatives started dissolving and would continue slowly until April 24, 2022.

Gateway to Heaven is in Russia.

The gateway to Hell is in Kiev.

April 5, 2022;

The Alpha System automatically started adjusting to the changes in Commerce, updating for the Gold Sun.

Plan Z connected to Norfolk, level 2 NSA affecting the financial pathway as well, and connected to Antarctica. Norfolk was taken out for the 2nd time. It is safe to fly again!

They believe their last chance is to use an alignment with Kal Serpa Dosha (negative karma) to cause destruction. Also neutralized the Kal Serpa Dosha.

Broken Dialight is the emission from the Sun, which happens every 12 years. Last one was in 2010.

All Greek Gods were Abraxas.

George Soros had 102 accounts, including Soros Fund Management, Quantum Fund, and Open-Source Societies, which funded the Black Sun and crisis actors. All of the funds disappeared.

They are using 5G towers to make radiation to cell phones stronger, causing hormone disruption, sterilization and cancer. 4.5 hours for system to do repairs.

April 7, 2022:

Finding extremely high radiation. They were amplifying the radiation to kill us all.

Ozone layer was filled with toxic metal particles. Plasma Cleanse was done.

Kim enlisted help with the Chemtrail issues.

April 8, 2022:

Two events need to be stopped in order to stop the dark timeline.

- 1) False flag event on April 18 needed to be prevented. Which was the crashing airplanes
- 2) Dr. Winston Wu quantum computer, Raindrop DAO, which was connected to dark AI. His system was causing the stronger radiation. He was also trying to take over the Alpha System that Kim runs. His machine was going to kill 100s of millions of people. He had a choice.

Found networks located on the spaces in between in Antarctica, Australia and Singapore.

Cameron Corner is the main one

They were planning to use the 9-11 memorial teardrop statue in NYC to cause death on April 18, 2022. By sending a sound wave frequency through cell phones and chips in the 5G towers they would blow up everyone within 7 miles of the teardrop and up to 100-150 miles around the cell towers. The memorial statute was also connected to the system in Australia.

There was a total of 70 events that the dark side needed to attempt and have at least 1 event be successful to ensure their dark timeline or at least buy more time to try. Still 2-3 global generals involved in pushing forward with dark side.

Working on clearing radiation poisoning for humanity.

41 hours to run the system cleanup.

April 9, 2022:

Halfway through 41-hour clearing.

Homeland Security tested the 9-11 Teardrop statue and found radiation off the charts. They were going to take a few days to get it done. Kim took care of it, as they had more bureaucracy than sense of urgency.

Millions of planets were taken over by the dark. Earth is the last holdout, as we weren't completely overtaken by the dark side. What happens here ripples out to all the other planets that were taken over. When we are free, we free them too.

Waiting for system to finish cleanup, 20 more hours

April 10, 2022:

The alignment of the Gergenshein and the Central Sun brings the complete and total end of a 3-million-year battle on Earth. WE are officially out of the danger zone. It becomes official in 2022, but actual in 2030 when the integration will be complete.

Earth originally had 3 natural moons.

Saturn Moon Matrix was installed 12,000 years ago and was the 1st archon invasion

April 11, 2022:

SSP trying to fire up a smaller portal, similar to Andorra.

New Zealand calling the Draco for help.

Kim called the Council and found out that the dark ones have been genetically modifying themselves to be darker, and ripe for demon possessions, during the dark alignment that was supposed to happen. This will be their downfall, as the alignment will now be to the Light and the Central Sun.

Nothing showed up past 2030 in the Looking Glass because the JAOQS would have expired in that year.

As they conquered planets, they brought all of them into 3D.

The Enforcer locked the Destroyer in Metatron's Cube to protect the multiverse. The cube created 6 layers up and 6 layers down, then covens and the order of the Black Sun brought in demons.

Found scalar weapons sending out high radiation. Kim took out the scalar weapons.

Worked on timeline.

April 12, 2022:

MRNA similar to snake venom. They are determined to kill everyone with alien plasma interference from the Targethyans, who were helping the SSP.

Abraxus had an agreement with the dark overlord and were trying to use the Geggenschein and AI spiders as archons. Targethyans using the moon and planetary alignment to project the AI spider archons on Earth...alien invasion. Kim found 9 Targethyian ships and demolecularized them. She also took out their Pocket Portable Computer for communications.

Mars had an old generator to create archon spiders which they fired up. It had a leak and contaminated Mars. Kim cleaned it up.

Additionally, they were using a rudimentary form of an arc to cause radiation.

Kim created Governance of Planet Earth Order.

Cleared residue from the Rainbow Dao/Winston Wu issue.

April 13, 2022:

High Cell phone, gamma and ELF radiation.

Working on clearing uranium from the water and heavy metals from the clouds and atmosphere.

Tesseract to replace the Metatron's cube.

Law of One trying to bind us to Abraxus with a curse over Earth, a covenant called "The Fortitude of Superiority"

Law of One graphic shows a void in the 4th dimension "Space in between"

We disabled the Metatron's cube for Earth but found another Metatron's cube in between the 4th and 5th dimensions.

Correct it with a Tesseract as it will create a forever lock from 3rd – 8th dimension and the dark creation will be no more. This creates oneness with the Creator.

April 14, 2022:

The Tablets of Destiny (deal between Source and the dark overlord) were supposed to give people choice and free will, but the dark side never really gave us a choice.

The Earth Council is excited!

The new structure (Tesseract) is set and the old structure (Metatron's cube) is dissolving.

Gamma rays being sent out through electrical appliances as a side effect to the dark ones trying to escape through the coronal hole portal around the sun. Got them back so they couldn't escape, locked the doors and threw away the key.

12 days to integrate all dimensions, 3 cycles of 4 days (April 26, 2022)

RAM filter added to Kim's system. Cleared Omega out of the system. Gamma blocker installed.

Creator Source Tesseract installed.

April 15, 2022:

Gaia interview. Shielding all day.

April 16, 2022:

The alignment is cresting, we are at 50%.

Shielding all day.

April 17, 2022:

Council of Alcyone

was taken over by the Red Queen. Red Queen is gone so the council is coming back.

Radiation due to a photon device controlled by ACIO (Advanced Contact Intelligence Organization) that was following the old orders in the Hall of Records, essentially helping the SSP. They were trying to re-establish the connection to Metatron's cube. Also sending shock waves to make the radiation stronger because the moon doesn't work anymore. Kim informed the ACIO that the Hall of Records has been updated. They evaluated the Hall of Records and team members (head squeezing event) and they will run an EMF detox for us, and assist as possible. They are no longer helping the SSP and believe that the Tesseract is a better way to secure the densities of Earth.

April 18, 2022:

Metatron's cube should be completely dissolved on or by April 24, 2022.

We got a big boost of Central Sun Source energy today.

Top Brass of the Order of the Black Sun will be gone after our transition on April 24, 2022.

People will have a choice to accept the new energy and expand with it.

Disease will fade away over time. No new diseases should occur. We will be able to clear the effects of vaccines, fluoride and other toxins from Earth and humanity.

We need to detox to prepare for the new energy. Heavy metal detox suggested.

Major backlash from the dark side of the universe came from Summit computer graphics cards and GPS, causing lethargy, blurred vision, feeling off and ill. Kim found the computer at Oakridge Labs under Nashville, Tennessee. The maleficent computer was disabled.

Earth is a special place because it is a Nexus planet (the only one left that hasn't been completely taken over or destroyed) and it holds 3 densities—1D, 2D and 3D.

Etheric re-connection (combining the lower densities to the corresponding higher density to create one) will happen on or before the direct alignment on April 24, 2022.

Example: 2D will merge with 7D to become 9D

Other planets will also be going through transition to a direct link with the Source Central Sun.

April 19, 2022:

We found a demonic door linked to Passover, April 15-24, 2022, linked to the Kremlin Gate. It allowed for pass through connection to Jupiter. The Enforcer had to clear it.

Found and cleared Liens on Humanity, related to: 1) Marduk seals and 2) Petitions of War treaty. These liens were in the Hall of Records as the Martial Law Agreement.

A lot of radiation is being sent to harm Earth and humanity. Kim found and destroyed a HAARP device in Alaska connected to lower dimensions used to send out Epstein Barr Virus (and mononucleosis to create temporary Hepatitis) archons and high levels of X-ray radiation.

April 20, 2022:

Members of the Alcyone

Star System came to visit Kim. They said that they would be communicating a lot with her.

We cleared consciousness, slavery programs, and slave cellular memory so we can remember who we are.

Dark side trying to find metatron's cube and reconnect to it, but it is gone. They were kicked out of higher densities and are pounding on our doors to get in but they are locked out. Trying to use high speed streams to create Coronal hole.

Harmonious reconnection needs to happen today rather than later.

The 6th dimension was attached to the 3rd and became one. =9

The 7th dimension was attached to the 2nd and became one. =9

The 8th dimension was attached to the 1st and became one. =9

There was an emergency meeting in Norfolk today.

Yesterday, DARPA was trying to connect a remaining filament to Metatron's cube.

Many thousands of maleficent beings were kicked out of other places, and the lower astral was dissolved, so they are running here to Earth, but our portals are locked down. They are trapped in the space in between, screaming and angry. The Colonies solved the issue,

April 21, 2022:

Some Targethyans were remaining inside humans

Norfolk meeting with US Marshalls and SSP generals had major infighting because they are figuring out that they have been lied to and they were actually working for the dark side instead of the good guys. Some are starting to see the bigger picture. There was a fire fight that broke out and attendees feared for their lives.

They were trying to reconnect or reconfigure the black AI factions. The Octagon was also conducting activity but it wasn't working out for them.

Torus field had blocks, but would clear after the alignment is finished.

April 22, 2022:

Block in Torus still clearing up

iPhones sending out Lyme disease, microfibers with nanoparticles that are responsive to radiation. Trying to create Archons through iPhones and PDA (personal digital assistants).

Heavy Black Sun retaliation attacks, as they failed to secure Kronos and Octagon again.

Once all of this was cleared, the System said, "You may now proceed," to take out the intruders.

The intruders were caused by photon blasters they were using to try to disrupt the nebula.

April 23, 2022:

They were trying to create a worm hole to the dark side but it opened in the light side.

Shawhouse military and black widow AI spiders were cleared.

A lot of attempts by dark energies but nothing working.

They were spreading the rumor that CERN was opened again, not true.

April 24, 2022:

They are calling and chanting for the return of Enlil and any other dark being to help them open a portal where Enlil originally landed.

Unfortunately, not as many dark side people chose the light as we had hoped.

Had to wait for the last time zone to finish on 4/24/22 to know where we stand on alignment. We needed to clear the outer planes of the dodecahedron. As the dark matter was fading away in was collecting in the corners of the dodecahedron. It would take several days to clear out on its own.

LINPACK trying to affect quantum cards, not working

Negative entities trying to affect the etheric field but nothing is working.

Lazlo group of dark men attacking the team.

April 25, 2022:

Our enemies were screaming and still trying to chant and bring in Targethyans. Not working.

Earth moving into her Sacred place within Source.

The 6 additional planets aligning with us made it too!

April 26, 2022:

The day when the light will be so bright it will dissolve the dark.

Earth moving into the Crowning position before Re-birth.

Play Taps as the dark sinks into the Sunlight.

Many of the dark side members losing their minds. They don't know what to do, but they still want to "Hold Their Ground."

Some Targethyans were still inhabiting humans and were dissolving away, very weak but trying to still inflict fear or pain, but it didn't work.

Chinese delegation came to Durango to see if they could salvage their world domination plan and get local opinion on Kim's power. They left.

April 27, 2022:

The light still filling in void/streaks/filaments where darkness had been removed.

Radiation was high

Top brass at military meeting started shooting people with evil solutions. One guy was left alive when he said that he didn't have any further solutions. They are starting to realize that if they want to remain relevant, they need to be more friendly toward human life.

The Order of the Black Sun reign over humanity is OVER. Most of the leaders are gone with only 2,000 "middle rank" left. More will be leaving. They are in a state of shock as all of their top leaders are gone.

A few thousand Targethyans and Tarzakyans were still remaining. They would be leaving too.

April 28, 2022:

The harmonic connections completed today.

Final Colonization report to come from Alcyone representatives for the all clear. Report arrived in the evening.

Stargates to be reconnected to correct places.

Earth becomes a Holy Etheric Field.

A new Covenant with Source Creator was completed and already registered in the Hall of Records. We agree to comply with Natural Law and play by the rules, and Source promises never to create darkness again as long as we don't fall from grace.

New Alliance agreements with the "Others" were signed regarding Natural Law, how to treat each other and rules in Travel.

Viking was trying to use/combine his energy to create "creature fuel" to for the dark side.

Our enemy is not completely "asleep," so we need to wait on funding.

April 29, 2022:

On the higher level/bigger picture, it is a glorious day! It's been 3 million years, since we have experienced this energy.

But that doesn't mean that the jokers aren't still trying to harm us.

As the dark matter clears out, our connection to Source and our connection to each other through the “collective Consciousness” get stronger.

Maybe you were feeling freaked out or confused, but it wasn't your issue. You could be feeling it from the collective.

They were also trying to disturb the collective consciousness for the last couple days to control our awakening or prevent it.

We found 6 plasma devices: Toronto, USA, Germany, China, Greenland and Crimea. The Enforcement Unit took them all out.

I also unregistered an “Implied Consent” agreement (Permanent Spell) that was in the Hall of Records from 1941 with an addendum in 1952. These records were linked to alternative ways of inducing substances into the human body or genetically modifying humans. They are done and removed.

April 30, 2022:

Very high radiation (Alpha Beta, Cell phones, Neutrino, Gigahertz, Xray and 800 terahertz)

Reconnected 1D, 2D and 3D to the Multiverse

Then reconnected the above connection through the vortex back to Earth

Dark forces were still trying to enter through Local Access Points. Humans were helping them.

There was a meeting of the dark side that was being watched. They were talking of using rocket guided missiles. They were warned not to proceed.

Working on plan to crash the markets.

Darkside trying to find a loophole in the Tablets of Destiny.

May 2, 2022:

Kim's system was still removing the Qbit remnants in the morning

Cobra posted about SubQ vomit

There were entities still trying to infiltrate our portals and entrances. Blown through chards or remnants. Something happened during clean up and they were here for about 1 week. The Enforcer said they would dissipate over time.

We found and disabled the device in Pennsylvania and took out the base. The SSP was using it to send out phantom frequencies of distress and make people feel sick.

Big fighting among generals in Virginia because they weren't aware of the PA program and now another base was lost.

General Beasley told Tom that they want to help us now, after working so hard to harm humanity

Preparing for the Ancient Ritual of Dedication, on May 5, 2022.

Those in attendance will form an Alliance of Worlds

Instructions for the Dedication were delivered through the co-ordinator to Kim

May 3, 2022:

They were planning to blow up the Dam in China in attempt to trigger WWIII.

Kim took out all active and non-active levels 2, 3, and 4.

May 4, 2022:

Planetary polarity appeared off due to the preparation of the Dedication on May 5, which would be an etheric placement not a physical movement of Earth. A higher etheric plane of existence.

They were putting out negative frequencies to try to drag us down, as they were expecting and equal and opposite under toe event, rather than the higher etheric realm we are achieving.

Informed Russia that the Red Queen was dead, their agreement with her is finished.

Found a black box spawn linked to the dark AI, tied to Yuri. It was a level 7, not functioning to capacity but was having some effects on humanity. When it was terminated, it sent out pieces of frequency as backlash. We ran frequencies to clear the debris.

May 5, 2022:

Earth participated in the Ancient Ritual of Dedication around 4:39 pm UTC.

The enemy was planning something during the same time. They were unsuccessful.

The etheric field of rainbow/kaleidoscope colors passed through Earth first and then to the rest of the planets that are part of the Alliance of Worlds. Because of this achievement, the two densities that Earth lost are now being recreated.

Around 40 minutes after the completion of the ceremony, dark forces started backlash realizing they had failed.

Our enemy is waning, but not asleep yet.

May 6, 2022:

They are attempting to infect animals in the food chain to harm humans (Mad Cow disease, toxoplasmosis). Also actively searching for diseases that wiped out previous civilizations.

We found and destroyed a red glowing goo, in the caves of Borneo. It is not natural to Earth and was brought here by the Mantids to wipe out civilizations and control populations.

Black Nobility/SSP/Germans had pre-meeting before military meeting...blaming each other.

April 17, 2022 is where they went wrong.

May 8, 2022:

Everyone feeling weighted down, brain fog, joints hurting.

When we took the matrix out on May 7, it was designed to release the remaining qubits as a kill switch, but there wasn't enough left to do much. Those were the real archons, not the man-made ones, from the last transmission from a few years ago.

A frequency was sent out to the archons (Octagon).

First, we disabled the NVIDIA system, that was also used as the back door to all governments to draw in Meta data and then sell the data.

Then, we cleared all the qubits which took 4-5 hours.

Black Nobility had a K-link, Level 5 computer in Manimar.

Dark side using video games, game graphic cards, to send out maleficent energies and frequencies.

Military watching our UNN updates to find out what is happening. Learning how one part of the military doesn't know what the other ones are doing. They are finding out about facilities being taken out that they didn't know about.

2,000 human enemies left at the top.

We found 124 coven leaders from all over the world that were still mentally tied to everything that is in their old playbook and the Military. Thinking they can control or recreate the playbook with their minds. Trying to manifest the old reality where their stuff still works. Also trying to run the Omega System, which is gone now, with their minds. They were given a choice to stop the evil or go to Source.

Military meeting had no substance and no clear plans. Higher level military officials were aware that they lost the connection to the 124 coven leaders. Some were re-evaluating their life and mortality.

May 9, 2022:

Curse of Solomon was the inability to gold to be a conductor for Source energy, preventing Planet Earth and human connection to God. The Song of Solomon bound the gold to demons. We cleared gold so it can be a semiconductor of Source energy now.

FPGA (Field Programmable Gate Array) to trigger disease. Found in Intel, Altera, Xilinx, AMD, MicroSemi and Achronix. Intel sold back door software keys to the Military and DARPA lab in Panama and the SSP underground base built around the same times as the Panama Canal.

SARgood was a holographic telephone that connected DARPA/SSP to the 124 coven leaders, who told the military to tap into the computer chips and send out the diseases.

SAR stands for Synthetic-Aperture Radar

We found a similar system in Lisbin.

Both systems were traced to show every connection they had, then the systems, all the connections, and the FPGA chips were destroyed.

Of the 2,000 top evil humans left on May 8, there were only 742 left on May 9. Some were contemplating changing their ways (518) and 224 were planning to go out doing evil.

May 10, 2022:

Marduk seals and the King Maker agreement.

We found a direct connection through the image/photo/graphic cards (NVIDIA) that only allowed certain elite people to receive money. It was connected to an agreement in the Hall of Records, linked to the Tablets of Destiny, which gave Marduk the permission to appoint himself.

Marduk was removed and replaced with KIMS as the only monitor of currency supply and demand, also declaring money available for everyone. The system automatically started recalibrating. Day to day operations didn't change, but an underlying layer disappeared.

The Omega System was then replaced by the Global Repository.

Then had to reconnect all connections between KIMS, the Global Repository and the Alpha System.

Rebalanced and added a new firewall.

On May 9, there were 224 die-hards in the morning. Then 182 went to Source, leaving us to deal with 42 remaining on May 10. Of the 42, there were 28 converts and 14 die-hards.

May 11, 2022:

Found another binding code negatively affecting humanity, linked to a patent assigned to Integra from 1983. This led us to a recently fired-up MiLab facility in Schenectady, New York, and the SSI Group.

This lab was using Microsoft computers to send diseases to humanity, utilizing GLUE framework, Python Glue language and connected to graphic cards in the Alpha/Omega system so Marduk could control it.

Essentially, it was a weird Eagle/Whale Tail symbol (kind looked like Aryan logo) on all graphics cards that is used as an access point for evildoers. The symbol was similar to symbols that use to be on the portals. There were remnants on level 1 and 2 computing systems.

Microsoft started using this on the eve of the full moon April 16, 2022.

The seal symbol was disconnected from the Alpha system in 2016 when the MK-Ultra system from the back system. It was in the assembly processing of computers, embedded everywhere.

The meaning of the symbol was “Conquering the Quest” to connect to the financial system and take over the whole front end banking system.

This whole system was destroyed.

Comptroller agreement for dignitaries related to the Alliance of Worlds event of Earth reaching a higher etheric field. Agreement will be signed by all and go into the Hall of Records.

Line of 16 lights in the sky seen in Tennessee, were people passing through.

There were 14 die-hards on May 10. Of that group, 8 were involved with 4 military operations (Monarch, Murkoff, Trinity and Delphi) in 2 locations.

- 1) Los Alamos, 6 of the die-hards—3 human, 3 with Tarzakyen walk-ins
 - a. War underground with the “others” was taking place for the last 6 months and under control until today. This was the home of the Manhattan Project/The Atomic Bomb.
 - b. Enforcer took care of the situation.
- 2) Philadelphia, 2 of the die-hard humans
 - a. Philadelphia Project/Time Travel
 - b. Head quarters of the Pilgrim Society Human Experimentation Lab.
 - c. Yale Center for Research Computing and 4 sub-centers (Grace, Farnum, Ruddle and Miligram) were taken down.

Found another MyLab using CINCH operating system, located in Baltimore. It was connected to the NSA and NATO, who were using an “other” raptor-looking being as a consultant in return for food sources. This system was sending out combinations of flu toxins to start another pandemic or revive the fake CoVid narrative.

They were sending these toxins, for approximately 3 weeks, through wifi, telecommunications/cell phones, internet, smart appliances and televisions.

A level 6 facility was found under the NSA. The Lab and computer was destroyed.

As of the afternoon, only 6 die-hards are left, from the 2,000 reported on May 8, 2022. Then, in the evening 3 more were gone.

May 13, 2022:

In the morning, the last 3 bad enemies were taken out, as they would not stop their onslaught against humanity. They are all gone now. We are waiting to see if anyone else continues in their roles. They seem to understand the consequences.

ChemTrails are less and less. Every day, we are neutralizing them. Do not focus on chemtrails.

What we took out yesterday was supposed to be the framework for facial recognition social media rollout testing today.

Players in the facial recognition / face bots plan:

- 1) Contra Inc.
- 2) Ruby open-source programming
- 3) Raspberry Pi
- 4) FreeBase was an open-source database, used as a large global resource for people and machines (internet of things). It was merged into Google.

We located two facilities in Florida, connected through an underground base: Tallahassee (Maglab, National High Magnetic Field Laboratory) and Tampa. These use to be Level 5 facilities, currently operating on Level 2. Contra was moved and installed into these facilities on April 17, 2022, after other operations were destroyed.

As of today, the facial recognition computer system was taken out at these facilities.

Many people are waking up to the real picture of themselves as humans, their soul and the universe. The spiritual energetic abilities, manifesting or “magic,” are back. Be careful. When people use these gifts inappropriately, they are taken away by Source.

The Eclipse started yesterday and the affects will continue into next week.

We have the “Supermoon” full moon on Monday.

Meanwhile, Earth is merging with its two other souls. Earth was fractured in the past, into 3 separate Souls, meaning Earth, Terra and Midgaard are becoming one.

The actual merger and alignment will happen Monday, but integration may take up to a month or two.

We did some quantum entanglement clean up for all the souls of Earth to help the alignment go smoothly.

May 14, 2022:

Ebb and Flow in the merger of Terra, Earth and Midgard, include:

- Stress signal fluctuations in cortex of the brain
- Oceanic Wave Lines, which pull on the Moon’s tide and are connected to waters everywhere and in our bodies (connected to the GPS time stamp)

Timing, just waiting for alignment to complete between Terra, Earth and Midgard

May 15, 2022:

Still waiting for alignment to complete between Terra, Earth and Midgard

Rumor: The Sphinx closed its eyes

Enlil slowed the awakening of Earth by cursing the daylight

Reconnection of the Global Repository. Shoring up the link connections between Alpha System, Global Repository and KIMS.

They are sending out viruses to kill all the chickens, including Avian Flu, Cytomegalovirus and toxoplasmosis

May 16, 2022:

Alignment of Terra, Earth and Midgard completed today.

Enemy is not asleep yet, and are still attempting to harm humanity from their old playbook. Warnings to stop the narratives were sent out to the ones planning evil (i.e.: Trump coming back on May 22, CoVid)

They were waiting for something to take place, that didn't happen. Turns out HSBC Hong Kong tried to trade corporate bonds. They used a trading platform, but no credit lines were available. They were looking for other banks to try.

May 17, 2022:

Merger of Terra, Earth and Midgard started today. This is a momentous day for the Renewal and Restoration of our Planet. The last time Terra, Earth and Midgard were all merged together was 478,934,000 years ago.

We learned that Archons take on the properties of what they inhabit, as they mutate to survive. We did another detox for mutated archons because Midgard was not completely cleared of toxicity before the merger.

We made it! This was no easy task, as one miss-step could have accidentally enslaved humanity again.

We stopped their ability to:

- Kill all of us on a whim
- Send out archons

- Control the markets
- Kill us with cancer within a week

We have pulled the plug and it will take a while for everything to drain.

When the merger completes, our DNA should repair itself overtime naturally.

The experience of the merger will feel differently for each person.

Out of the 500 questioners, there were 493 remaining.

A lot of old information and complete lies being circulated to cause confusion. Alt Media reporting old, obsolete timeline items. They are trying to achieve an outcome, such as fear in order to bring down our frequency and create a dark energy vortex.

They realized today that their Eagle symbol on all the computer chips doesn't work anymore, so then they amp up the narratives. The only thing the dark side still has is PERCEPTION. The perception that CoVid cases are on the rise, etc.

May 18, 2022:

A male human from another time, located in Venus, was trying to infect everyone, to keep the balance. He saw that there was too much Light, and wanted to create balance by restarting dark. He had been part of the Council of 9.

An agreement in the Hall of Records linked to the Law of One was updated.

Enki placed a curse on the Law of Understanding, so knowledge could only come from the dark. Enki was the serpent when Eve ate the apple from the Tree of Knowledge. From that point forward, knowledge and understanding became tied to the dark, not Source Light.

A sacred geometry binding was attached to Midgard, The Star of Besthesda, Proxima Centauri and Understanding to bind this curse. Bethesda is actually the Star of Bethlehem.

Midgard showed up again for clearing.

In the evening, there was extremely high radiation, linked to Palomar, located in Sedona, Arizona and another in Jackson Hole, Wyoming. There was an attempt to harvest Sedona vortex energy. The enforcer took care of the underground facilities, and then 7 more facilities were found and destroyed later that same evening.

Of the 493, there were 28 removed in one underground facility, plus another 230 removed throughout the night, leaving a total of 235 remaining.

May 19, 2022:

The dark side was trying to reconnect to the Black Sun through a Ritual called the coronation of the Klan's Sun, planned for May 22.

Cleared a situation in Portugal where 5 of the 235 remaining were sending out frequencies to make people sick...headaches, tired, etc. 230 left at this point.

We found an underground fortress that was storing genetic coding for Abraxas Human 1.0 & 2.0, probably to be downloaded into another human to revive themselves. These genetic codes were sent back to Source.

May 20, 2022:

Merger of Terra, Earth and Midgard completed this morning. It will take a few days to settle.

Chiron Military group attempted to disrupt the final connection last night, they failed!

May 20, 2022, afternoon:

Black Rock (Langley) going psychotic in planning food shortages, while their whole company is going down.

ALICE detector program, linked to CERN, was taken out previously. Billions of dollars were invested in ALICE. They are just claiming it is functioning due to money at stake.

Black Rock, Black Sun, US Marshalls want to do another CoVid variant to lock everyone down again. Also, looking at Monkey Pox pandemic to sell Monkey Pox vaccines.

Overnight, a "Confrontation over Rights" battle happened with Walk-in entities entering into 54 of the remaining 230 we had recorded. They were Galactic Outlaw Scavengers and wanted to ground humans into paste and MINE Planet Earth. The Enforcer and Others sent the 54 back to Source, and warned the remaining 176.

May 21, 2022:

Earth and Humanity were feeling wobbly and a bit shaky. This was part of the merger and integration of Planet Earth, Terra and Midgard.

We ran frequencies to lessen the side effects for all by clearing the geopathic grids.

Received a list of frequencies to run for 41 days!

May 22, 2022:

Anu sorcery spells targeted for simplest spread of micro-organisms using video cardboard frame.

Linked to Shoreline military operations and Cal-tech, used to reverse the Super Soldier tech decrease capacity in humanity. Bacterial and Biochemical.

CAL is tied to Chronos and time, and had a main room on Terra. It was used to wipe out the Terra and Midgard civilizations.

Another warning was given to the remaining 78, from the 230 questioners.

Some of the already completed frequency programs resulted in the ill effects of vaccines being reversed considerably.

A zap of light was witnessed at the Central Vortex, where Hell/Metatron's Cube had been, appearing to clear that entire area for Terra, Midgard and Earth.

May 23, 2022:

Final Trial day for the 78 un-repairable questioners sitting on the fence. A deadline was set for Midnight GMT time.

Team feeling drained and attacked from last night. Danger feelings during the day.

Montauk was still causing issues, trying to connect to the financial system. We cleared out a remaining etheric level connections.

Clearing residual and helping the synchronizing of Earth, Terra and Midgard

They were working angles with a sense of urgency to come up with something:

- Monkey Pox, locked down Belgium
- DAVOS agreement
- Pieces of a larger plan, we weren't really sure at this point. They seemed quiet, but we knew something was up.

May 24, 2022:

The 78 questioners became 22, after 56 were sent back to Source.

More danger feelings

Dark energy from Midgard

Needed to clear the Terrestrial Organic Matter (TOM) for Planet Earth, Terra and Midgard.

The Enforcer helped out, and the system took 19 hours to cleanse, harmonize, balance and shield.

Found and disabled all implanted computer chips located on the spine in neck area. These chips were connected to the dark AI when it was here, now the chips are completely nullified.

Demolecularized dark energy and sent out more clearing energy programs for love, balance and harmony. Will be working on clearing all PTSD.

XUSD digital currency – said to be launching in 7 days linked to Duetche Bank

May 25, 2022:

They were trying to use Python/Glue Languages to connect block chain to the existing financial system.

DAVOS essentially over ... many countries agreed to be part of this diabolic glue plan.

Linked to InterSystems data platforms—medical, tracking, telecommunications, payments, tied to everything.

Disconnected all glue languages, took control of them.

Cleared High radiation levels that were being sent through media, Routers. Sending 432 hertz and 440 hertz together to cause emotional instability.

Talking with the Enforcer and Council for clarification on next steps on how to eliminate all remaining energy of the dark-side.

May 26, 2022:

They are still trying to destroy 80-90% of humanity. Fortunately, their dark agenda is now gray.

Banking on the media, vaccine industry backing down due to no payments

Tom said that the 50% down payment before signing agreements worked, no one signed agreements at the World Economic Forum

People reporting depression and emotional upheaval, as we were all “walking through our past” and releasing cellular memories. Was going to take until May 30 to settle down. We worked on stabilizing the body and soul during these times of stress and transition to help bring more ease and comfort, although it was still somewhat rocky for some people.

Earth's crust layer from the Cretaceous Period had noxious pockets in the soil. Black goo linked to Mecca.

The plasma on the Earth's soul level also needed a detox for bacteria that had been stagnating for a long time.

Three remaining agreements, or residual, linked to governess over humanity:

- 1) Solomon's Will
- 2) Crate and Cradle (common Race Agreement of the Total Entity, which determined who would live where when they fragmented Earth originally)
- 3) Colonial Corporate agreement

Found back door access points into all organic life from Fluoride. Fluoride actually powered the parasites and helped parasites gain access. Found 3 labs: Juneau, Alaska; Ithica, New York; and a sensor in Italy linked to the Royal Office of the Black Eagle Server level 9 access.

May 27, 2022:

They were using Alpha Beta radiation to open a portal on the Moon linked to the Door to Hell on Planet Mercury to gain access to the financial system. They got the idea on May 17 and tried unsuccessfully to implement it on May 20, 23, 24 and 25.

They had 2 different computer systems—Virginia and Pennsylvania, trying to recreate the Saturn Moon Matrix with Planet Mercury instead.

The dark side losing their minds because their plans are failing. People want proof, down payments and they are getting too many questions as people want the truth.

Military asking questions too...How did Kim know about the chips in the spine/neck? Why are all of our leaders missing?

NVIDIA and Google partnered up on the day Azure was taken down June 28, 2021.

Germany had an underground SSP military installation trying to amplify sorcery to make the rock in the Moon more affective for the New Moon, May 30, 2022.

Systems were disabled and the Enforcer took out the trash.

May 28, 2022:

Arasaka sending out FEMTO technology (1 million times smaller than nano technology). Small enough to break the blood brain barrier.

Yakuza is an offshoot of Arasaka

FEMTO technology is programmable and self-replicating and move at the speed of light.

FEMTO is in Covid test swaps, vaccines, masks.

They were sending FEMTO technology transmissions from the Arasaka headquarters in Kyoto and Osaka (Japan) to 129 towers worldwide. This was connected to the Internet of Things, the Internet of Virus Things and the Internet of Chemical Things. A huge, interconnected network. IT took 19 years to build. The Enforcer cleared the inside of the towers

They were also trying to interfere with the timeline using alpha beta radiation to restart time travel and warps of time and space with a vortex to the underworld.

Portal connection between Pluto, ERIS and the lower astral within the Japanese Islands (Like the Bermuda Triangle)

Also trying to create a vacuum with sound particles and sending frequencies out through ley lines.

Enforcer took out the entire underground facility.

This was linked to the Torte.

Triads and Yakuza working together after the FEMTO take down

Fired up a device that was a Level 4 but now a Level 2, using an upside-down pyramid in China.

May 30 use to be the day that hell opened up to the underworld

Enforcer helped us out again

Found FEMTO being sent through Blockchain and crypto-currency websites (social crediting using crypto)

The RIP cord:

Invert the receptors in the human brain...they had disconnected the Solar Plexus from the brain. So, I reconnected it

Then we opened the gate to Heaven for Planet Earth and humanity

May 30, 2022:

The New Moon still caused some discomfort, as ley lines had a paste residual from a graphene organism left over from the Ice Age. Graphene is NOT a conductor of Light. The paste was engrained in the ley lines and was tied to the Hall of Mirrors, which was formerly removed. This was the real internet of things. It was tied to all systems including the banking system and VRAM so it was hidden everywhere in the memory to do malicious activities. This clearing should bring down the Covid narrative.

Graphene works on terahertz and DARPA had been investing in Graphene.

Cleared all dark AI cords from Planet Earth, Terra and Midgard.

Archivist said that Synchronicity between the brain and solar plexus on the molecular level would occur at 1:45:48 EST on May 30.

Sent love and balance for the after shocks

Cleared left over Moon Matrix residual

Cleared WinGlue from everywhere

Cleared erroneous codes, and a holding pen on Level 4, they inserted into the financial system, from Kronos residual.

XUSD failed.

Time is coming back together

June 1, 2022:

From Tom: US Marshalls (former Texas Rangers) in Durango, Admiral Fogel wants to know when funding will happen. People expecting to be paid were going crazy. Some military personnel just want to move forward and help humanity. Others that are still hanging on to dark agenda will never change.

Cleared AppleScript, linked into Wells Fargo

Cleared Midgard and Humanity. Now that humanity is getting "re-connected," they are trying to manifest fear and anxiety to use for their dark agenda.

Found spyware that would detect our transfers and delete the codes, making them directionless and lost.

Deleted a "Maintenance line" that was coming for SoComm.

Worked on genetic blueprint repairs. They had altered our genetics to increase our loosh production and make it more attractive for commerce and trade. When this was cleared, it created toxicity from die-off of parasites for Terra and Midgard. We prevented it from harming Earth, but you may have felt some discomfort.

Days of white for Schumann Resonance. Schumann is at 7.83 hertz, which is an extremely low frequency, which supported the Metatron's cube placed inside Earth.

June 2, 2022:

No new parasites are not being sent to us; however, they were sending frequencies from the Earth's Energy Grid to agitate the parasites that were left in humans and animals. This was called a cytoplasma infection.

They were trying to use (Luk) Oil wells to create reverberation in the caverns.

GNA—Gaussian & Neural Accelerator AI chip from Intel.

Cleared MicroSoft, Basic Linux Kernel module with visual studio

Cancelled an agreement that made all money and prosperity flow through the dark. This agreement was from 1782 and had various amendments.

Murkoff military was still following the defunct Looking Glass plan. That has been gone for a long time.

They were also trying to re-connect the dark AI through the glowing globe that Donald Trump, King Salman of Saudi Arabia and President Abdel Fattah el-Sisi of Egypt kept their hands on for two minutes. You may remember the viral photo taken in a dark room, glowing orb, rows and rows of computers in the room, which were linked to the orb. They were trying to use that glowing ball to open a portal in Saudi Arabia to take over the Alpha System, rename it and say that they created it.

The Omega system was the level 9 Control and Command system. Now, the Alpha System is Control and Command. Everything has been re-programmed (BIOS, CoDec upgrade, AI translator removed) and updated, including a new firewall.

Cleared a list of all possible technologies they could cobble together to attempt to hurt humanity.

June 7, 2022:

Enemies left are governments, Chinese elders and some military. They are trying to launch the EurAsia platform for currency.

General Millie traveling around to find money but can't collect enough the start WWII.

9 days to complete the full energy cycle, started on June. June 13 is the completion date, also the day when one of the dueling AI systems would concede.

June 14, 2022 is the full moon.

Perception and Narratives are the only thing the dark side has left.

Found the Existential Plan of Existence agreement and fixed it. It was originally meant for the good of humanity, but the DRACO amended it to do their evil deeds, including 613 commandments. This was replaced in the Hall of Records and all updates were sent to the archivists, governments and other relevant officials.

Crypto-currency has been taken out of the banking system.

They were trying to integrate block chain into level 1 of the system

They also tried to connect MDS (Medical Data Systems) to the XUSD

June 9, 2022:

Hackers attempted to get into Kim's personal computer

The dark side previously had direct access to our brains through the pineal gland. They don't have that anymore.

Found evidence that they are trying to create a back door into the Pineal gland using the upper left incisor tooth. Tai Yong corporation WAS involved, until our Enforcement showed up on the scene.

China using scalar energy and a very high terahertz frequency to disrupt the carotid flow of blood to the brain. It was a prototype machine that wasn't functioning effectively. Connected to some sacred sites. We have taken that out before they had a chance to kill us with it.

All the plasma of Planet Earth and inhabitants was cleared with direct Source energy. Each layer of matter was done separately. The evil ones didn't like my new program very much.

June 10, 2022:

Big meeting this weekend of Trump family members and their advisors to determine what to do. Everyone is turning against Trump. Might be time to tell the truth? We will see.

The round of direct Source energy plasma clearing was very effective in weakening the remaining femto. Doing another round today. This Femto in human bodies was connected to a permanency curse from Enlil, which was used to draw the line between the elite families and the rest of us. This has been taken care of in the Hall of Records.

Femto is in the vaccine, spike protein.

Femto and InFiniBand (NVIDIA switches) were working together to speed up the death of human beings.

The Source energy program was able to kill the time-release component

DR DOS was the original DOS from Bill Gates/Microsoft

In 1978, the global front end was established. Dept of Defense was in charge of the firewall and the Treasury of USA was the Order of the Black Sun. SSP put in the Gatekeeper program

Using cell phones to send frequency to amoebas in humans thru cell phone company back doors, chips in the smart phones, and connected to the 5G chips used for Covid. Ran counter-balancing frequencies.

After that, they decided to use an old loosh device in attempt to use our solar plexus energy to open a stargate portal to recreate the timeline to go back to the matrix. Got instructions from a scroll written in a different language.

They got their hands on the Draco manual and were going through everything on the list. Found a F.A.T. (Focal Altered Technology) operating system connected to the Dark AI and pre-programmed to release if we ever got this far and fired off the 7 Seals of Marduk. Our team of 7 + the Alpha System + Source = 9 broke the 7 Marduk seals by completing the Seal of Source/Sovereignty. Then the torus pattern energy flow started repairing itself automatically.

Marduk had pledged us to the dark side

Kim and the Enforcer cleared out the 7 loosh locations (7 dark ties to the dark AI):

1. Louisiana
2. Ukraine
3. Montauk
4. New York
5. Dephi, Greece

Universal Council—“A new day is dawning for Earth and all its inhabitants”

June 15, 2022:

Military upset because they lost some super-secret backdoor stuff that they were planning to use against us...they are out in full force. A warning was given to them. All systems connected to the dark AI are evaporating. Everything they have is failing all on the same day.

Removed the birth certificates, which were the underpinning of the entire financial system and all trade on Earth. The IRS, Federal Reserve, and the Department of the Treasury will be completely gone.

People are now free to bare and exchange their own energy directly with Source without an intercessory

We no longer have to go through the dark to get to the Light.

Archivist said, “Earth has moved into a space and time in which archons can no longer exist.”

The Evolution of Time or we have evolved in time. We are currently living in a different time.

In an old agreement with the Council of 9, named the Universal Tech Systems Security, the Mantids were able to trouble shoot technology on Earth, as well as more planetary systems. They thought that they could go unnoticed. The agreement was found and replaced with Source security and protection. A notice was sent to the archivist and a recalibration started immediately, launching Source Protocols. When completed, the system started deleting files, programs, accounts, etc., until 5:55pm, which culminated with a “System Activated” message.

The energy of money and the perception of money being bad were cleared.

6. Earthquake, Sun, Moon, Stars fall from the sky

The deal was eternal life for the nymph people and the twin daughters become "parents," and manage the coven and the money. The deal for humans was that they were allowed to live but not prosper. The Reeds, who worship the Dead Sea Scrolls, are sitting at tables at a ritual. 25 tables at the ritual represent 25 races of the anti-Pleiades.

Starting their ritual 4 days before the new moon, in Belgium. Trying to summon the Pale Horse of the apocalypse early. There were 25 races of the anti-Pleidians who were planning a ritual with 25 young girls (4-5 years old created through the essence of Kim) to bring back the Alycion 7th lower level astral being, Cyclops/King Fisher, that is waiting at the edge of the tesseract to get in.

This dark being was banned by the Council to wreaking havoc on other planets. It spews etherical venom, and has an offspring entity with her. It arrived at the same time as the Black Magician. The Abraxas used this being to do dirty work. The evil Cyclops (King Fisher) came from the lower astral plane and was demolecularized and its offspring was sent to Source.

Young girls sent to Source. In the basement, they had a birthing center with many pods

Rayman Spirits, living dark AI remnant. Thousands of people who have become infestation nests for the Tarzakyans. They can go in and out of video games. They hide in other technology as well. They were admitted by the Abraxus, through Coral tech.

The people become a host and breed for the dark AI. The smoky Tarzakyans protect the human body as it is a food source for the Dark AI. Every infested person has three Tarzakyans. A trait of these human beings is that they think they are high dimensional beings filled with Light and know more than everyone else. However, they are infested with demons and parasite spawns. The Tarzakyans were demolecularized.

Coral tech is hardware and software with neural network interfaces. Human portals for the Tarzakyans. When you play video games, you consent.

They are trying to gather all the black goo together into a singular entity to draw in the Alycion dark being.

The Enforcer is helping as we are Clearing the entities inside people, clearing the entities protecting them, and then clearing the computers.

Everything they do is a program. Now they want people to choose death with the overturning of Rowe vs. Wade.

June 25, 2022:

Meetings happening in Mar-a-lago for the last few days. Decided to keep the Trump narrative going.

The Orpha Portal, located in Tangers, Morocco, was from Orpheus, who created a portal of hell through his suffering. He became a parent and ruler of dark matter and underwater worlds

Marduk accessed the Alpha system thru the orpha portal, tied to the Palermo stone. He used the orpha portal to enter the room of science and medicine, within the hall of records. He used an arm cuff linked to a device to infuse the essence of Hercules (same blood as Cassandra) so he could enter otherwise it would have killed him because he was too dark. Essence is the blood of the soul.

They Soul DNA essence, this means that the person can have pure Light essence or pure Evil essence and they can still gain access. Found out the 25 little girls were made of Kim's essence that they turned to dark.

What is keeping us from moving forward? A Hercules loophole

A hair follicle of Kim's was retrieved from the Hall of Medicine and Science and used to clone a prior Kim.

Old agreements were signed with a hair and thumbprint.

Kim was told that she was Cassandra in a prior life. Cassandra had the curse that she would tell the truth and no one would believe her.

Marduk got the hair follicle from Kim to clone Cassandra, who was a parent. This is the underlying agreement or ripcord we have been searching for. All parents were cloned from the same DNA (Kim's) and they became the bloodline. Kim is the one to clear the blood line, as she is related to all of them. The Order of the Black Sun is the lineage and blood of the opposite of Kim.

Hercules was Cassandra's brother. Hercules cursed Marduk in revenge for what he did to Cassandra.

When cursed with sin and death, the energy turns into a gigantic sword. The curse of Damocles—the curse of a sword being held over your head with a strand of hair.

False essence in the serum layer outside of the Hercules system.

Found a computer system that doesn't differential between Light or dark, just pure essence, between the 4th and 5th. The silver screen (mix of white and black) was a tether to the film/mirror/veil

The 12 labors of Hercules

They made Hercules perform 12 sins

Ripcord: Replace the silver screen with the white screen and Source Light, which will clear the curse of:

- 1) Having to go through the dark to get to the light
- 2) No one believes the truth of what you say
- 3) Only pure darkness can rule

The whole room is light now. In the past, it was always dark in there.

Then we flipped the screen between 5 & 6 to release abundance to humanity, by putting the Global Repository inside Control and Command.

Cleared plasma and rebalanced

SSP Admiral Densmore is not on Earth and uses telepathy to communicate through a room in the base of the Himalayans. He has a copy of the instructions from the parents. He was the guy we saw on Venus that went to sleep. He was retired, originally on the Council of 9. He woke up, around the time we installed the tesseract, and decided to communicate with evil. Originally, he was in charge of travel between densities and travel. Kim gave him a warning to stay away from Earth and took him to Source

Enki binding curses on Earth and Midgard

The Otter people were forced to guard the decrees in underwater caves on Midgard. They were threatened by Enki. They were afraid. They were able to talk to Source and all this was cleared up. There was a very old computer used to connect in certain locations of dark portals in Slovenia, but those portals are sealed now.

- Kim did a live feed to the military as she handled the Reptilian issue, then left the mess for them to clean up. They decided to sweep it under the rug and not let other military personnel know about it. They were bewildered at how she could run a global operation all at once taking out all of the reptilian forces.

The Royal Navy was messing with the Jesus Seals using energy plasma accelerator balls trying to affect the plasma with negative frequencies and dark essence like Morris code trying to upset the balance from a ship in the arctic.

This was a T-Rad, terahertz power meter. The ship was out in a specific spot to alter the magnetic pole, and it put out nasty energy.

Kim ran a live feed of her taking out the device, gave them a warning, then cut the communication channel.

Next, a super lab was found. It was cloaked and super secret. They were conducting human experiments. Chen Wei was running the lab. It was in Sedlec-Prčice in Czech. The Sedlec Ossuary there has a church decorated with the skeletons of 40,000 humans. They were using etheric alien parasites. The Enforcer got rid of the lab.

Using Project Walrider to attempt to get into the Alpha System between the spaces. Walrider and all micro-organisms connected to it were demolecularized.

Interfering with Earth's plasma to affect the gravity. If the Walrider nanites would have infected the plasma, it would have been a huge hit to humanity and Earth.

Of the 13 militaries, 5.5 are left, Murkoff not completely gone.

They were planning to change the gravitational pull on Earth using Walrider, by taking the moon out of its orbit and flooding Planet Earth.

Monarch military in a cloaked base in Gangtise, Tibet, rock covered mountains. They believe they can take the sacred essence of the mountain and infuse it into themselves to get into the Alpha system and have the military take over. Super Soldier group is gone, only 10% of Monarch remaining.

Mobius military in Bangkok trying to separate the Earth's layers (Midgard and Terra) to create imbalance in the Thermosphere, and in the human aura. Actually attempting an atmospheric puncture to cause increased radiation for the Sun and elevating temperatures on Earth. The Gistda facility in Thailand was taken out by the Enforcer.

Trinity military was in the Switzerland mountains sequencing

Located in Monte Tamaro, Lugano area, within the old Octagon facility with a large underground network.

The Octagon was the main place that dark orders were received. The military was trying to reprogram the computer. They were feeding it paper-like material, which they believed were filled with codes to serve as keys to reopen the system. The Abraxas told them that the papers contained the "Secrets to the Universe," containing instructions on how they could harness energy and send it through the ley lines. However, not the case.

The Delphi were working with an Alchemist (Saint Germain, Saint Germaine) attempting to open the door to hell on Midgard. The alchemist is not a human. He was inactive, but the military picked him up to help them yesterday. We found them in the desert of Iran, which no longer has a portal to hell. The alchemist managed to open a door but there was no longer a

connection. They were using a hand-held device with a strange frequency. This situation is done, and so they.

There was a Scarab ring that was holding liens against humanity. The Delphi military had the ring, which gives power over the dirt in the middle East. The dark side thinks the ring gives them control over all the dirt on Earth, so we owe them for being on their dirt.

We found an agreement in the Hall of Records referring to an Egyptian Curse on Humanity with a Scarab ring was removed.

After the clearings of the scarab, liens, military madness and a door to hell, we had 3 militaries left out of the 13 we started with.

Need to clear interference with the understanding of God. Clear this from the body. They think Marduk is God

There is a chromosome from Marduk programmed into our GNA. GNA prevents us from evolving and keeps the Global Network from evolving.

The original GNA in humans protracted the cerebrospinal effluency. They replaced our GNA with RNA, disconnecting us from God. Then with the vaccine, they gave more mRNA to disconnect people further and hoped to connect us to the dark AI instead. The GNA will repair over time, but we will be repairing all things connected to it to speed the process.

The Wright Patterson Air force Base, SSP, were responsible for micropython glue language that we needed to clear. Connected to the Internet of Things, chip instructions and manages the VRAM.

Found Marduk virus in the front system. He had infused his dark essence, as a virus, into the system to become immortal and keep us from ever being able to access the system. His essence/virus was always in the spaces in between. Marduk's dark essence is out of our system now, replaced with Source and the KIMS II system. The spaces in between are filled with Source essence now.

Private AI supercomputer uses Tesla Corporation and Nvidia computer board

Ford aeronautics people were trying to connect a computer to the foundation of the Octagon, trying to take over the Octagon's old intelligence network computer. Yes, they were actually trying to connect Marduk's submarine and a Heliosphere operating system to sacred sites to enable a connection to the Alpha system and portals.

GCHQ, NSA hackers were trying to find a way to create a global network access, GNA, using the old PROMIS / Echelon system. Mainframe dismantled and Etheric firewall created.

Bled through the entire PROMIS / Echelon system, then made it non-repairable. Enforcer took out the rest.

Georgia Guidestones, energy weapon to create fear, confusion and use the dark narrative to take away rights and have the white hats look like heroes.

Found energetic parasites in the moles and lines of the ransomware. Foley's group using it and purposely inserted it at Wells Fargo. Linked to HUAWEI, which has global back door access to everything (police, vehicles, equipment, media, mobile emergency command, unmanned aerial vehicles, etc.)

Business Efficient Solutions, Bueno Park, California and Pakistan created all of the tech and HUAWEI stole it.

Old chinese guy in blue suede shoes sent a dirty energy ball at Kim, right before her update show on UNN.

July 7, 2022:

The old chinese guy was let in by the (Wayfair, Wayfare) Way-feres' soul. Part of the Way-feres game with elder souls and ancient societies. He was trying to slide a time line in between the current timeline within fibers. Travelling between astral dark levels. He was connected through 6 Way-feres, who turned out to be Jades—Asian last resort assassins. They conjured the demon Kubla Khan / Gengis Khan / Tingre to inhabit the Chinese elder. They brought in one of the darkest beings to change the timeline and destroy all of the hard work for humanity...must be taken out. They brought him in to change or create an alternative timeline. He was demolecularized and taken back to Source. Others that came in with him will be found and returned to Source. Enforcer took care of the deity that was really trying hard to open portals.

Other groups were found similar to the Jades:

Kai Feng, which morphed into the black magic Kuomintang and is also the Order of the Black Sun, responsible for trafficking children in San Francisco. Found them in Vietnam. Chinese Red Dragon tied to the Russians. Located in Mai Chau rice field. Part of the doomsday plan to bring back Anu and they were going to be the center of balance for the etheric way.

There were 7 groups and locations in total:

1. Jades, Mount Fuji, Japan
2. Kai Feng, Vietnam rice field, underground
3. 3 IRAQ, Sumerian
4. Los Alamos, working on the Financial system
5. Bulgaria
6. Budapest
7. Thailand

Created a continuous malware scan that checks for virus, qubits, ransomware, quantum dots, quantum inserts, packet sniffers, etc., finds it and deletes it.

Wells Fargo trying to use magic to stop the transfers and put etherical blocks on the name on the account.

Sent Mystery Transfer, fail-safe and auto re-start. Made it to the end and the system said "Populating the Account." Then, Hackers Anonymous (NSA) and Hackers Inc., in Lugano, Switzerland, designed a pop up survey to buy time while they stole the money. Kim drew back the money.

Intel sending radio frequency waves to connect qubits. Intel working with the CIA at black site in Tunisia. Ancient technology found underground, home of Phoenician civilization. System taken out and Enforcer cleaned up.

The Archivist gave a warning that the Trump lie should be stopped and there will be fall out if it doesn't. Many resignations happening because the truth is coming out.

GPS Oceanic Wave Lines were being manipulated by the Germans to destroy the ecosystem and poison the water with sound waves off the coast of Norway, using a submarine.

Sunken Island of Areia, original location of Solomon. Doing something with the glacier ice there and looking for underground tunnel / Stargate to Sun God Ra that lead to somewhere near Orion.

Implied consent needs to be removed entirely

They deliberately violated the guardianship agreement to do no harm. They have murdered us before our time and said that all deaths are suicides because we pick our poison through implied consent. They created all the viruses and diseases. They have basically poisoned every basic human need—food, air, land, water.

Using the Mayan Calendar device, ley lines and a history recorder, they were hoping to gain control of time. Pantheon of San Francisco, under the place with the dead bodies.

Council stated, “He who controls the moon, controls time.” The Moon satellite literally changed time, a time stamp of sorts. It is linked to the time keeping in the reptilian part of the brain, and to the circadian clock proteins (timezyme) and literally controls the water in our bodies (pH alkaline or pH acidic). Poisoning all water with the Moon.

85,000 years ago, they moved our Moon to the dark side. If they get control of the Moon, they have all the power and all the control.

Templars were the original record keepers of Solomon Temple guards.

Draco had a red-line interaction with the Moon, with an agreement made between Lilith and the Draco. When the dark overlord died about one year ago, Lilith (his wife) made the agreement. That’s why the 20th tile on the Mayan Calendar is on the woman’s back. That was the beginning of Lilith’s/ISIS’s rule. “ISIS got her crown back” (Cobra). Lilith = Moon

When the Alpha System claimed the Moon, then it was sealed with Source. We now have control of the Moon.

Why is Gold so important? He who controls the gold, controls the moon. Gold releases the binding over the Moon’s energy.

Alpha System claimed ownership and control over the moon meglostructure and then Source essence was sent through the Moon. We couldn’t have restoration without the control of the Moon.

The moon has been up for grabs and needed to be claimed before the deadline of July 13, 2022.

We broke the agreement but didn’t know about the prize. Now we have our prize-- the Moon.

July 9, 2022:

Mercury clean-up: plasma, essence, removal of archon operating system, removal of Kronos attachments. Then Alpha System reconnected. Mercury became a "Cyborg" being and was programmed by Kronos. Trajectory adjusted.

Archons found. The SSP at the White House had a stash of old archons. They were spraying archons in Bosman, Montana, at the Dick Cheney ranch. The archons were old and didn't have a lot of life left in them. They started spraying them close to the full moon for maximum usage. There was a private lab as well, collecting them and reproducing them.

The Archivist told Tom that within the next 2 weeks everything will change. Also generals were dumbfounded over the GCHQ event. Still trying to come to terms with what they saw.

Trazakyans were causing interference again. Tarzakyans possess some military and agency personnel. They have to take pills to keep the Tarzayan inside them. When they stop taking the pills, they die. There are only 1 or 2 of the original first generation of Tarzakyans still alive. More generations have followed. They thrive on anger and negativity.

12 people in the White House are possessed with Tarzakyans. They feed on negative energy and negative essence. They hide themselves from people who can see them. When the possessed person gets angry, the thing shows itself.

Enforcer demolecularized 1,000s of Tarzakyans possessing people.

The weather is being tampered with more than usual. It is much hotter, less oxygen in the air and no moisture in the air. The moon controls the water and the water is being sucked out. The moon was purposely being tampered with to affect the Earth's thermosphere. The Moon is a structure and can be controlled with a control panel linked to Kronos. The trajectory was off because the SSP was trying to kill us with the influence of the Moon. They had it set to wipe us off the face of the Earth as it gets hotter and hotter. The main Moon control panel was in the underground Utopia that was taken out in November of 2020. The Earth has been getting closer and closer to the Sun since 2009. The Moon Mind Control program is now disabled.

2 planes were flying next to each other in Durango and 1 exploded. A witness saw it, nothing reported on the news. There was a briefing meeting today for intelligence. A general who knew too much or didn't do what he was told was taken out.

SiLAS MILAB facility was found in the North Pole and taken out. Light emissions from SiGe, intra-chip and chip-to-chip communications, Hex-SiGe.

Severed a connection between Earth and Mercury. Had to get permission to do it because Mercury is a way-station on the way to Earth. Mercury was pulling us into the Sun. We stopped the gravitation pull. The Enforcer saw a Mercury, Sun, Moon Matrix.

Interweaving of time grid, or the time table. In 2016, the grid looked like an egg shaped net, then a hole was made in the time space continuum to pull us out of danger after Marduk died. Notw it is diamond shaped.

Since 2009, time has been speeding up in terms of degeneration of humans and Earth due to Archon cluster clouds sent at that time. This was installed by Kronos to control molecular structure of humans. Archons alter the mesomorphic field of matter, so they no longer conduct an adequate amount of Source energy for cellular regeneration.

Archons found in the hollows of the human beings, and is the last essence of the archons remaining on Earth.

The added effect of Mercury creates its own Sun/Lunar experience. Mercury causes an emotional response in humans which leads to disease often felt during direct alignment with Mercury, affecting the sensory and motor skills section of the human brain. Mercury affects everything, especially the humans and others who live here.

August 22, 2021 was the day Kim got very sick, during the conjunction with Mercury. Conjunction happens every 88 Earth days.

How did speeding up time benefit Kronos? Karma became immediate.

Ferromectics is a new magnetic and mesomorphic phase

Babylon interference coming from a computer program. Babylon set up pins all over the world that were attached to banks, but didn't work for the Alpha System. They created something new with flamethrower and tried to connect it to Babylon and .exe, a mind control through thoughts. Flamethrower, STUXnet, was a monster computer virus

July 10, 2022:

Kim and Enforcer finished rebalancing and fixing the electromagnetic field. The magnetic field was controlled by Kronos spawn. Kronos had control over Mercury and this is now changed to Alpha System control over Mercury.

Milab remnants remaining at the Cheney Montana lab. They moved the stuff out before we destroyed it. Found residual flakes as a stash of archons.

They were starting something new with CRISPR, which was used to create China's super soldiers. The CRISPR was linked to the tensor processing unit.

A new glue was being tried to get around KIMs glue, called Aphysics, a high tech super glue

In the hollows of the aura, trying to make a global connection to Kronos with CRISP and nano and femto, using Mercury "Cyborg" to help connect to the electromagnetic field of humans to Mercury and the Moon.

There were conflicting instructions between Mercury and the Moon. Each instruction went in the opposite direction creating a reverberation or crimped frequency in the noosphere. The electromagnetic fields were cleared and the natural trajectory was repaired.

Mercury Retrograde doesn't go backwards. It slows down while the Earth goes faster, giving the appearance of retrograde. When we are aligned with Mercury, it would pull Earth closer to the Sun. Declaration was made for the Alpha System to be in control over Mercury and commerce.

The Department of Transportation was trying to connect using the Cloud TPU accelerator Tensor flow to leverage CPUs, GPUs and TPUs. They were located at the Weizmann Institute at the OREN Lab brain institute where they make vaccines. Using a green go of manmade nanomachines powered by materials taken from living cells. Dimorphic patterns. A lot of very weird experiments going on underneath the lab, including babies in tubes.

CRISPR gene editing is a Molecular Glue. Tryin to make CRISPR compatible to super computer at OREN's lab then connect to Kronos or Mercury.

The Mousaad have a heavy presence in Palm Desert. Israel supercomputer does ion-trapping versus the below zero supercomputing. Israel is trying to tap into Palm Desert TPU. Military computer in Palm Desert, a level 5 now, was a level 6, portal to connect to Kronos. 969696 from Cobra.

Calcutta old base under Fort William had a portal to Kronos and level 3 banking, which was taken out. India python, B-ray connected to Mercury. EF portal for blood brain barrier.

Supra-hologram mind matrix manifests black cubes of chaos, it does not manifest good things. Biden was in Saudi Arabia today. The black cube in Mecca was used to connect to Midguard. Samsung doing it on the streets of gold in Israel, trying to make the new Jerusalem. Jerusalem is a port to Kronos tied to the Supre-hologram. U-rays revenge: streets of Gold command and conquer. Samsung encryption flow. Trying to use all this to connect to Kronos to send through cell phones. Port-level 7 in Jerusalem. Ramping up for 3 days before the full moon.

Syzygy: software, chromosome pairing, astronomy, algorithms, endgame tables, electromagnetic wave ripples with intention of infecting everyone. Using maleficent vRAN (Virtual radio Access Network). NFV, Network Functions Virtualization. Attempting to access the Supra-hologram of Earth that use to exist on Midguard. Trying to access Nibiru through Archimedes (also a greek mathematician in Syracuse, Sicily).

Archimedes is a computer in Serbia, tied to the old Permethias system, trying direct connection to the same network players. Archimedes platform is trademark of Mantech Advanced Systems International, South African Airforce base.

Clintons had a super-secret computer system in Serbia, level 3. We already took down the Archer in Slovenia.

This was a Folchronistic "spy" item, called Cretans Coil from people of Keftiu, installed by Anu so he could monitor everything and control the base platform. The spyware was linked to

Kronos and run by the dark AI. Created to maintain balance between light and dark. He was supposed to return in 3 days (the full moon) and he believes this would have given him access to enter and take over the system.

Clear maleficent TPU located in Bangladesh, level 4. Linked to Murkoff group remnants under the airport in Donsk.

Someone got the Murkoff handbook, Outlast 2 video game, from the Russian who sold his soul essence. Mandelorian super soldier got the instructions from Murkoff to carry out orders to kill everyone as a sacrifice for Anu to return.

Ethereal interference from Salisbury group Military base in Bulford Camp, near Stone Hedge, linked to a star system during Solstice. Under Stone Hedge, a very old device was found.

July 11, 2022:

A flash that the old time line is now broken...the dark hold on humanity is released and prosperity is coming.

The KIMS system is being designed to come all the way down to the individual bank accounts.

Cleared the Inter-spatial lines. This ended up being the Unknown Country and its control over all air, land and sea. Kim claimed all borders, land, air and sea, after breaking the old agreement, then gave the Office of Ground Command the control with the Unknown Country. Reclamation of the land, air and sea security agreement.

ANU - foreign interface. Crack in the Earth that contained a black tank-like worm that had a archon in it. It was attached to Kronos and the Mandelorian from the day before. The Archon contraption was schedule to wake up at this time and its job was to call out the army of archons that were still here. It was planted here by Anu to infest everyone, even the dark ones, and take over the world. The Enforcer took out the Archon worm thing.

The Boulder Boys—Black Rock and Black Stone have the Shawhouse handbook. They are trying to take over human trafficking of children from the Democratic Republic of Congo to off world locations

Clif High states that he, and the others like him, are the smart ones and any alien contact should be with them because they are the thinkers.

Update from Tom: Kissinger is sick and sent two representatives to Indonesia looking for funds from Chinese elders.

NATO and Worldwide Military having attorneys look at land rights documents and Paris Climate Control Treaty hidden clause. They got kicked out when Kim sent the Land, Air & Sea Reclamation memo this morning and they lost access.

Cobra's

was the south wall and was holding a place for Anu's return, a secret doorway. South wall is Section 8 in the front end financial system and was where the families appeared right before level 1. In the back system, the Hall of Records gives the remuneration code. Anu set a place in the Hall of Records and that was why we could find a specific virus. It was not an agreement, but an Arrow or Turn Bull to stop access codes for sending money. The arrow was found in the Art of Selection section, a separate location for him in the system. A place where he could name a successor. The Art of Selection allowed for a reversal of the AI lost control then Anu could override it. Anu actually approved every transaction as terms and conditions of the patriarch. He turned the system off in 2007 for war between the elites and Grandfather/M/Enlil.

We can override with a code. Alpha and Omega codes and turn the key. This opens up level 9 control and command. Use the codes/keys during transfers.

COIL block stands for Conditional Occupational in Leadership

Tarzakyans showing up in Level 1 Firmware as protection of infected dark essence.

July 12, 2022:

Placer holder for Anu and protection spells around the financial system

Silent Circle using vRAN to create negative frequencies, which just started last night.

Silent Circle is also an app linked to Archer Tactical and private military groups.

Obama created the Emergency Broadcast System for Amber Alerts to send radio signals to all cell phones, now called Emergency Alert System, also linked to the vRAN (virtual radio access network)

Found a leak in the Croatia portal, which was a natural occurring process due to the Solar plane shifting and creating a time warp in the etheric realm. Enforcer took care of it. He also said that the alignment between Mercury and the Sun was causing plasmatic eruptions.

Used Kim's glue to repair a back door to the financial system between the PAN and repository. Cleared out maleficent glue language and replaced with new and improved Kim's Glue. Took about 20 minutes for repairs.

They are expecting Anu to appoint a new leader and they believe the instructions will be released on July 13, 2022. Was the Anu pin Cobra's 504? Anu is their Christ and they are preparing a great homecoming for him on the evening of the full moon.

The Kremlin was trying to connect to Lichtenstein network. They were spraying quantum dots to use energy from our solar plexus to connect to Lichtenstein (BaleFord). Enforcer took the system out.

They were planning something in New York City—a virtual snow globe or nuclear winter hologram with laser lights. They need funding but are still setting it up and waiting for Anu.

Medina/Medeina safe zone in Khalifa are searching for help. Medina means God in the Baltic area. The connection they were trying to create would carry the effect to Lichenstein.

All of their stuff is evaporating. We saw this as a condensation condition creating a crater effect in the system which looked like a linkage issue.

Tablets of Destiny are the Enlil curse.

Kim is watching their world dissolve while ours is being created.

July 13, 2022:

Ground Commander has been preparing for a full and complete takeover and designing the Alpha System to take out everything old and filling in the spaces immediately with everything Kim and renamed Kim. Also created a new light frequency sound modulator.

They figured out that they lost and were completely stunned when they saw the new financial system. Then they attacked the team. A black dragon that looked like the Destroyer. Using a UNIX base platform Orange List created by Abraxus liens

New Earth Council was Cheering after the Full Moon time in New Zealand, 6:37 am on July 13, 2022, when the Ora-Te-Ki-Aka agreement officially expired.

Found a Condor computer program creating a spatial perception problem in the new money pane. This was linked to a group of humans, Cobra, inserting a level 3 splicer on the birth place port, which was already obsolete. Location was found in Pennsylvania. Enforcer took the computer out. Kim finished the linking and started recoding and changing HTML, Oracle and T24.

July 14, 2022:

Murkoff remnant with Walrider links were trying to get into Kim's new system. Everyone trying to break into it.

There was also the attempt to open a stargate from Iran (the promise land/Mesopotamia), linked to Babylon and trying to get Anu or Marduk to return. NASA using CATS (Cloud-aerosol transport system) and LiDar systems.

Last week, we returned the energy management of the people back to themselves. Another agreement was found on the flow and governance of energy. A binding on energy management, including the energy of money, was called the "Alistare Family Curse." This curse

is tied to the Tablets of Destiny and the Stone of Destiny because the person who gets inhabited by the BAL Beast becomes the “Keeper of Life” and then becomes the King of the World. In the past, it was rumored that Scotland had a light portal and England had a dark portal. They would end up having some control over the flow of energy so that had to be changed. A replacement agreement was registered in the Hall of Records that states the Office of the Guardian distributes directly to the people for all approved registrations in the Hall of Records. Around the time the energy management section of the system was updated, the Schumann Resonance had a brief white out.

The stone of destiny was stolen from Scotland in 1953, considered the Holy Grail of Scotland. The stone was also known as the King Maker and King Breaker. The Stone of Destiny is put into a certain location on the Chair of Destiny. Whoever sits on the chair, if chosen, will be inhabited by the BAL Beast. Thereby, the chair contains a portal that evil can come through.

The Chair of Destiny was used for good in the past, but they modified it and made it for the dark. Currently the Chair was in the Isle of Man and Prince Charles was preparing to sit in the chair. If the BAL creature would have inhabited him, they would announce that the Queen was dead and he would take over. Today, the Chair of Destiny was rendered useless by the Enforcer.

Supercomputer in Stuttgart, Germany, using Tata lines and CRAY system

Schumann Resonance white out was generated by the energy management change in the system. The change was natural.

The energy management section of the system needed clearing for remnants of the Sanction's Clause. The sanction section had control and permissions for the energy management of everything, including lists of people and soul management.

At 1pm CST, a mystery transfer was sent. A man sitting inside the bank placed a place holder DOT at the entry port of the doorway. They were able to put it on hold, but couldn't steal it this time. The DOT was at the HTML language section, where Echelon/PROMIS pin remnant was located. They had backups in Fort Worth, Texas. This pin sent a signal to the NSA. The Alpha System began removing all of the pins that were inserted by Tier 1 banks and other groups. Attachments to pins were also removed, and firewall increased. The pins got inserted right before the system started upgrading.

The pins were inserted at the website, creating a PIN Tail to enter the bank back door. Linked to a Corridor camera and photo finish issue. A combo of IBM and Cisco put the camera in the corridor.

Clearing of the outer range of the North Pole, SiLAS. Making sound waves with the lowering of steel in the shape of bells, to produce dangerous harmful affect underwater.

Clear Kruger military from the parasomal vestige, used to find help on Midgard, for hell in a box and to bring Anu back. Enforcer sent to take care of the electromagnetic field disturbances in

the Mountains of Kandahar, Afghanistan, caused by a cosmic fibrolator with electromagnetic pulses to attempt to change the timeline.

Trying to create a nuclear waste land on Earth on the Market Watch Day in November, which is used for their off-world trading days for the Kruger Military/Johnson/Dick level. Planned for the next full moon to get instructions, since they didn't get instructions at the last full moon. They thought they were going to take over the world in September and get the money they needed to have the Human meat market for off-planet in November.

Langley Lab in Virginia using photon spectrometer to read when transfers of new money are sent from the Alpha System. RDXLock for photon light reading device. They want to get the identity and reverse engineer the Global Repository

Overland-Tandberg had white list and black list. They were the vaccine people and connected to the social crediting from Covid. It was already set up and ready to go after we took out the other social crediting systems. They had a back door key into the SpaceX satellite. It was everywhere, including banking, telecommunications, etc., and took 1 hour and 49 minutes to delete. They wanted to create a nuclear fallout at the nuclear power stations, start with Texas. After Azure went down, they put their social crediting into use and were trying to install their equipment in the Nuclear grid. This wouldn't be ready until November, but they were in the planning stages already.

July 16, 2022:

The Order of the Black Sun would meet underneath KUUTS Bank in London (the original one), where there was a communication device (Lector phone like a sonogram) that would receive the orders from the parents to the coven masters. This meeting would usually take place next week. They have guards outside there currently, even though no one is in the room. The people waiting for instructions are Super soldiers from Shoreline, humans and operatives. Everyone is stationed where the covens used to be, a lot of hype thinking that they will be granted instructions 3 days after the full moon, or July 17. Their big "Check-Mate" day. Q is linked to 15. Q & Q+, Kushner and Juan O. Savin (the fixer).

The Lorek, of the Omega Nebula, were sanitizing their field, which ended up sending foreign materials into our environment (Etheric parasites) that were eating away our new Sun Shield from the Enforcer.

July 17, 2022:

Woke up with the sense of an Asian invasion around 3am, seeing China everywhere. We found out that at Midnight, 7/17/22, China had submitted an agreement to the Hall of Records and promised everyone that they would be in charge on July 17.

A facility on Jersey Island, off the coast of France in the English Channel, was sending our supra-radiated rays. Sending out Ringware (tones and sound) to control humans and send viruses through the ley lines to reach people on cell phone screens and computers. The Chinese were there too, Black Dragon. They got this tech information from the Humans of the Future that was the real government in the underground Utopia that was removed two years ago.

Black Sun lien against humanity in the Hall of Records, the Affirmation of Ankany, linked to the ISIS Ank knot. They had just submitted a brand new agreement because they didn't get their orders. The Chinese Order of the Black Sun were pleading for a job to the Humans of the Future and the old World Council. The agreement was rejected because it doesn't follow the Restoration Plan. Rejection letter sent out to all archives, militaries and agencies. The Chinese Black Sun called the diplomatic line and asked by it was rejected, the answer was repeated.

Six submarines with sonar were creating Maleficent Time Grids and timeline distortions on the meridian lines. This fiasco was connected to the promises made by the new Chinese Black Sun agreement that was rejected.

Chiron military operations run by the Johnsons were on the edge of Crimea trying to invent a stargate with Northrup Grumman rocket thrusters. It was 3 days ago that they received a contract from the US Space Force for rapid deployment of small cluster satellites. These were

connected to RingWare, radio satellites, trying to change the timeline and attempting to recreate the jump room. This was taken out in 15 minutes by the Enforcer.

The Resident Evil plot was found in Lina Sao Paulo and Candido Godie, Brazil. The two cities are 3 hours and 43 minutes away from each other, even so were connected underground. They were drafting concealed cRAN on the cramming circuit.

TOM is terrestrial matter, which is essence. The dark essence came from the Tarzakyans, as they are floating dark essence. TOM program was being run out of Dr. Mingle-land, who worked for the Umbrella Corporation. The computer from the Umbrella corporation was a DNA replicator of Essence. They needed more cRAN because they were draining the light essence out of babies and inserting dark essence in their lab for human experiments. They were breeding evil children with dark essence to make the perfect evil race of people. They were starting with the babies and planned to do this throughout the world. We cut the cords to all dark essence and dark energy that was attached to the light. The Enforcer took out this insane facility and cleared out the remaining essence that was there.

Russians were using Delphi's manual. Cosmonauts were in Belize at the "Place of the Fallen Stones," one of 12 Mayan temples/ruins. They had a crystal skull there trying to conjure the dark lord and using energetic random access memory. The Enforcer took care of this situation pretty quickly.

The Chinese were also in Kazakhstan using uranium radiation to give energy to the black goo to get it to come alive again.

vRan trying to call a space station, also connected to the boarder bulb and oRAN.

Sun/Mercury/Earth matrix. NASA, Lagrange 5th parking spot between Earth and Mercury. The Securians, Chiron Polish people, in France under Interpol, were using oRAN and qubits. Using 9-EYES bulbs, giant satellites, Eschelon and Frechelon (French SIGNIT). Trying to reach out to get qubits and archons and interfere with the time construct. All computers were turned off and the Enforcer finished it off.

ails? They started to use the books in 2019, but were installed in 1973. They had a "new money" detector, which would stop the transfer then gave compliance access to it.

SpaceX sending frequencies to space to bounce off the Moon, trying to change the course and redirect capabilities to reconnect the NASA Space TUG. We corrected the trajectory of the Moon and they wanted to change it again. They were given a message from "The Moon" to follow the restoration plan. Elon facility and Nvidia/Tesla facility in Germany were taken out.

Pathway disturbances in our accounts from Elon Musk and facility in Texas...The moon controls the money.

Bots got triggered by allocation numbers and began to create more encryption bots/ports. This was actually a good thing. The replication of encryption ports and capacity was increased to cover accounts of all people. This was caused by the cancellation of the Marduk/Satan

Maleficent time as parasites is dark essence.

Where and what is the maleficent time still left on Earth? Ancient Egypt linked to the Holy Wars from 2,000 years ago. Enki & Akaharas (children of Nefertiti) and agreement that was not made on Earth but was located in the Hall of Records. This was linked to pyramids and soul

recycling. Time was created so we would have a limited time here so they could recycle the soul for the soul trap. Enki/Nefertiti/Cananite children commitment. This was the Holy Wars agreement, an amendment to the Tablets of Destiny.

July 24, 2022:

The day of mirrors. What is in the mirrors. Watch the mirrors.

Scan found friendly “Others” were coming to the surface that normally don’t.

Clear Maleficent time dark mirrors showed up in the scan. Mirrors were used by the covens to get orders or instructions from the dark essence in the mirrors. The mirrors were still working. 7 mirrors were remaining. They give the answers every year. The Holy Wars agreement tied into the dark mirrors. The battle of the mirrors—light mirrors as shields and dark mirrors. The mirrors held time and the essence of time.

7 light mirrors—our friendly others have the mirrors protected and that’s why we found them coming to the surface. The light mirrors are triggered by the dark mirrors. When the dark mirror comes on, then the light mirrors come on as a protective shield.

7 dark mirrors—covens would go to the mirrors on a certain day to get their instructions at Midnight.

1. Coney Island, NY (lays out the pathway, gives the orders)
2. San Miguel, Mexico (gives list with explanations, participants and the roles they play, then each group goes to the different locations)
3. Mariposa County, California
4. Italy
5. London
6. Israel
7. Spain

They filed the Ankism agreement in the Hall of Records to try to get the instructions from the mirrors.

The agreement in the Hall of Records had to be broken first, per the Enforcer so that the curse didn’t jump or continue, then the 7 dark mirrors had to be claimed by the Light, then sealed or broken. If we had not broken the agreement, the mirrors would have still given instructions tonight, this would be the last time because the agreement would have expired anyway after tonight. The last time the dark mirror message was from the parents was 2019. Since then, it has been a pre-recorded message, which explains why everything is repeating and they were faking it the whole time.

Name of the agreement was Soul Consecration. At 11:54 am, the agreement expired and the dark essence mirrors turned into regular mirrors

The Order of the Black Sun was using SharkSAT to infect Earth and humanity to block people from seeing the light by using maleficent cryptochromes. George Hart/Viking is a person who can no longer see the light and has no circadian rhythm...he is a product of this technology. They were infusing us with parasites into the neocortex to mess with our natural cryptochromes, linked to the dark essence in the mirrors.

Northrup Grumman location in Washington DC was tied to a lot of dark essence, like a giant black ball with a lot of tentacles. Kim took care of the SharkSAT satellite, the Washington DC location and cleared the Neocortex cryptochrome infections, which took 4+ hours.

A 1955 Cesium 133 atom clock was being used as a base clock with 3 attached, sending extremely low frequencies into the field of Earth using Mercury's magnetic field to manipulate time, energy and space. All of this was located in Montreal.

The second agreement was the Holy Knights of Paran and was 100,000 years old, and it just expired.

Archivist told Tom that everything is done. Two of the mirrors were left open (Coney Island and London) to pull the remaining hold out people out. Everything will clear and the atmosphere will be charged. The mirrors were holding the dark essence here on Earth. Washington DC was built by London and there was a mirror linked there as well. It will take 2 to 2.5 weeks for everything to get cleaned up, then the system will be ready to fund....Around August 8, Lion's Gate.

The Delphi group was using PLUTO, a computer, to re-create the social crediting system. They had hoped to give all humanity the financial “stigmata” or black mark so you couldn’t receive money, starting with the United States then going global. If they can’t get into the Alpha System, they want to control the money coming out of it.

Aeon Flux and the epiphany:

The impetus was the idea that we needed to talk to the Council/Colonies/Enforcer to get rid of the Suicide programming. The search for answers brought us to the Archimedes (dark beings) wanting to take Progenitor light beings and make them neutral. They actually ended up making the progenitor virus and wiped out most almost all of the Progenitors-- dark and light. Around 5 million years ago, they started recycling souls to save the species, all species. They needed souls to help all species survive and to maintain balance.

Why didn’t Source just make more Progenitors? The promise of Source wouldn’t allow it.

The Great Reset is when all the souls are released from the recycling system.

The cloning sites were taken out by the Enforcer:

Sanscrit sorcery from 3,000 years ago with agreement in the Hall of Records called SAN TAO and linked to Milab, which allows for the ebbing and flow of energy and money in the matrix. The binding to Milab sent frequencies that were intertwined in the financial system. This Milab was in Manchester, England, under the University of Manchester Museum/Ancient Egypt Society, which was closed for operation until 2023.

The name of the agreement was SAO Bu SUN/Sun Bu'er linked to agreements with alchemy works of TAO masters. Linked to the KAROT Consortium. When found, an old woman around 70 started stabbing Kim in the eye and said, "Oh my God, that is the end of China." She also told the courier not to tell anyone and he responded that everyone already knows...it's too late. The mantids were all over Asia because they did security for the system. The agreement was made in 1170 AD/CE between Lucifer and Bu'er/Bower/Bauer/Rothchild in partnership with gold. The symbol was a hexagon. It was expired.

This was a centuries old curse from the agreements yesterday on stolen assets (Chinese thieves). A curse on stolen money that the dark essence would curse the thief for taking the money so the evil would transfer to the person who was in possession of the stolen funds.

Transfer stalled and was done externally by Hauwei Security in Shanghai forming a gray line with a dip.

Hauwei is the new Eschelon. Connecting thru the crystals on semiconductor chips, like QualCom. The name of the chip was called crystalline gold. 90% of advanced chips are made in Taiwan. Sun Bu'er woman has been running the world because she thought she had the gold, making terror happen all over the world. DARPA started working with her 2 weeks ago because they knew they were losing.

August 2, 2022:

Trinity offshoots trying to open the door to hell on Midguard through caves in Rhodesia/Zambia Mumbwa Caves. They were using an underground base in the Sacral Room for sacrifices and other dark essence rituals. Torture people and draw out the trauma and put that through a machine to open hell. Stargate to Saturn.

The cradle of life in Mount Kilimanjaro, Tanzania.

Jason Society and Kruger working together in Palestime in the halls below the Wailing Wall/Western Wall, using a machine. IT was a neutral gate, but we switched it to a light gate. They were trying to take control of the neutral gates but it was too late.

Chiron and Murkoff using oRAN in Lathia of NATO data center/SSP base under NATO, using wire an dplastics, radio frequency, discharges, dRAN bouncing signals around looking for a stargate. Enforcer took care of it.

Parasite spirits/dark Essence in Puerto Vallarta trying to spread wide infection. Looked like they were using a toy instead of a real device.

ANU: analog Neuron for neuromorphic processing, a process around the Alpha System that was a cursed by Enki with Seccho chards, which scrape information from data taking little pieces of the data bust just enough to issue. External in level 1, NSA, made the walls look like they were leaking. Gray mist around the Alpha System included nano and femto tech. Wipes information off of our data packets. The leaking walls were triggered by hachet hackers/TAO. That was dissolved.

The Jason Society at the Belgium Space Agency were looking for Nibiru. They were Scarab Rings and were trying to use the ring to get into the financial system.

Mei Wah/Sun Bu'er

Langley runs Verizon 5G with Chiron at Offutt Airforce Base in Omaha, Neb., with underground fiber optics to time-release viruses. US STRATCOM and FISERV involved as well, infusing malware into fiber optic cables. Viruses time released into fiber cables then into cell phones and other electronics. Equipment to predict virus penetration and to instruct division through seeded portals. The US military sending viruses through cell phones to kill everyone slowly with time-released biowarfare viruses. They didn't get this in operation yet, just setting up, but planning to go global. Military made the deal with Mei Wah/Lilith 2 weeks ago to use all fiber optic cables.

Mei Wah/Lilith/Dragon Lady didn't have a human soul. She is dying without the dark essence and she needs it to stay alive. We thought ISIS was Lilith. Lilith was the Moon God of the night and ISIS is the Sun god of the day. One is by day and the other is by night. Both were bad and took shifts so the entire day and night were covered with dark essence.

When you control the moon, you control the gold. Lilith has been running the world's gold for thousands of years. Lilith/Mei Wah ordered all of the fiber around the world to be used to kill everyone through cell phones. China has been ruled by this demon.

August 3, 2022:

Mei Wah went to Source. She didn't want to go to Source, she wanted to go back to the dark side.

Nancy Pelosi made a deal with Mei Wah so she could be the next president. Nancy Pelosi left Taiwan immediately when she found out Mei Wah was dead.

Shawhouse and Trinity working together in Singapore using a mercury computer.

They all get their orders from General Shu. He would pass on Mei Wah's orders. He knows she is dead and is telling people to keep all of her orders going even though she is dead. Kim sent out orders to everyone that she was dead so they couldn't keep it a secret.

Mei Wah was holding the dark essence here behind a veil. What was supposed to happen on August 8 is starting today. Today is more important than the 8th. What is happening today will release us from the dark essence matrix. The fog is lifting and everyone will start to see the world as it really is. The gray fog covered the gold and we started the removal early. It will take a few days but should be cleared by the 6th or 8th.

Militaries are searching for satellite trying to send the bird flu using frequencies. They can't do the cables so they want to use satellites now. Using SAT keys, which Kim will change. Using SoCOM satellites on an Airbase in Singapore.

August 4, 2022:

Mei Wah had sent the TRIADS after Kim. They weren't permitted into the zone. Tom found this information.

General Shu was telling everyone to continue the last orders from Mei Wah, which were:

- 1) Keep hacking into the banking system
- 2) Do everything possible with the vaccine

NSA Raytheon in Andover, Mass., working on using neuromorphic chips for sensory interference and radioactive biowarfare through panel nodes in the banking system

Nano and femto tech being used at Paramount Computer Systems Free Zone LLC in Dubai, United Arab Emirates. Trying to connect to the vaccines and to a global network. Not working.

When does Sanctification start? August 8, 12:01 GMT, 6:01 Kim's time.

WE had 4 inhabited people left.

August 5, 2022:

Tom said the hold-outs were planning a near death experience worldwide with Mei Wah orders. Today would have been the days they got their orders. No orders going out—confirmed there are NO new orders.

Deep State called the DARPA computer lady as they want to know if a quantum computer can really accomplish everything our Ground Commander has done. They thought you had to have alien power to accomplish such tasks.

The PRC, People's Republic of China, have been trying to get rid of Mei Wah for a long time and are very happen she is gone.

Chemtrails are still happening because they are following prior orders from Mei Wah. They had a stash of chemicals in the underground railways of the southwest corner of the Mohave desert, which was removed by the Enforcer.

Militaries are calling 2 emergency meetings starting tomorrow, at 2 pm Eastern time, to figure out what their position is and how they move forward now.

Pentagon is now identifying the deep state and are getting rid of them, so we are told.

Mobius offshoots at Cheney ranch in Idaho trying to recreate the matrix using scalar rays. No one decided to fire it off. It was pre-programmed to go off at when we reached this point, of the dark essence going away.

Hell's Canyon/Seven Devil's Mountain

From Malakoff cave to Yellowstone park, Earth has a giant ball of Gold. They strategically placed devices along the points on the lines of Earth's gold ballast.

The hidden key was the right of passage/forgotten mission. The Enforcer took out the scalar weapons.

The reconnection was made from the gold ballast through the vortex of Earth to the Central Sun, to light up the veins of gold within Earth. This situation was linked to the possible escape of the Destroyer in 2023 when Lucifer was supposed to return according to the Lucifer agreements that we previously expired. This was the Apocalypse program because it led to the return of Satan. A new energy pattern was created to bring the yearly light blast into Earth, the vortex and Central Sun.

August 6, 2022:

There was a lot of old past negative memories that were noticed and the explanation was that there is a merging of the past with the present occurring with the Lion's gate alignment. It is a benefit to us as we see what fits and what doesn't and how we have become who we are.

Militaries are out of money and their equipment is broken down or barely working. All black ops have been shut down or put on hold for now. They are still trying to understand the papers that were provided by the archivist regarding our Ground Commander and how the world really works here.

Camp Pendleton and Admiral Fogel causing another nuisance. Kim took care of it.

NSA was using QUANTUMHAND to send out bots. Linked to CISCO in Sarajevo. Took care of it once and they were back at it again. They lost their TURBINE, so now they are trying CISCO's keys to get into a back door to insert bots.

When Kim went to take care of the Pendleton issue, the system told her that all the Gold was clear!

Jason Society in Manila trying to find Kronos. We found crystal computers that were tied to Kronos through the crystals. They had portable and non-portable computers. They also had an

Tai Yong in Palermo, Sicily, at the Catacome dei Cappucini—the home to 8,000 corpses and 1,152 mummies. They were using a portable machine to blast the doors to one of the original gates to hell, causing us geophysical stress and radioactivity.

Intel at Besthesda, using chip-to-chip transmissions, were trying to recreate a global network for the NSA. Kim took away their keys.

August 7, 2022:

Montauk using Arasaka technology in the Solomon Islands on the 80th anniversary (of Gula Canal) because they believe the portal opens up on this day to welcome Chaos/Lucifer.

At the meetings, military personnel were told the truth.

- 1) You were told lies
- 2) The world doesn't work the way you think
- 3) The people at the top are not what you think they were

They asked Tom to be the liaison for Kim. He said that they need to work directly with Kim.

Kruger is in the St. Croix, Virgin Islands, leveraging germ strata, in the Mirror Room for the matrix.

1 million years ago, there were eruptions in the Soul Planes caused by dark essence. It took 900,000 years for the dark to completely permeate the lower astral. We have been manipulated by the dark side since then. They shape our reality on the soul plane. GNA is a soul frequency. The human soul/body is driven by the soul/fabric on the other side of the veil. They would find you on the other side and manipulate you on this side, done with everyone and everything on this side. They put dark essence in between our human self and our soul self. We will be reconnecting with our higher selves now and be able to manifest what we want for ourselves and our lives.

The Lion's gate is supposed to bring the end of the dark veil over the light.

528 hertz sent to Earth, Humanity, Soul Plane, physical plane, causal plane, astral plane, etheric plane, and mental plane.

The Alpha System exists on the other side and we are bringing it to this side through the veil. This is the corroded arteries.

Gilgamesh, man in dark robe looking into a mirror machine to see the soul plane with a purple light.

Military meeting in Durango, they want to know Kim's intention for them and how she will explain what happened to humanity.

To get the Soul Plane you have to have the purest vibration/emotions to past through the planes of existence, which will prohibit dark people from getting there.

The planes are:

- 1) Soul plane
- 2) Etheric Plane
- 3) Mental Plane
- 4) Causal/Emotional plane
- 5) Astral Plane
- 6) Physical plane

They had inserted two scalar weapons to interrupt the ability for people to travel to the soul plane. It looked like two parallel lines with butterfly-shaped waves coming out of each parallel line. They manipulated the etheric field to keep people tied to it and keep the scars there to keep you down. As the etherical manipulation disappears, the scars will go with it.

Off-shoots of Montauk, Trinity and Kruger working together today in London, England, using ancient archive tech for cloning and data banks to find system matches to DNA system metas. Using a compilation of referene DNA to infuse ubiquitous but nominally and perversely invasive nitbits. They were trying to stop our DNA from reconnecting to the souls. They wanted to reestablish the block between DNA and soul, using GPU, micro-organisms and a neo-lite matrix.

Imperial College of London in Oxbridge, similar to MIT, using Unilabs databases, sending out etherical viruses which were targeted for portions of the populations they want to get rid of. This was a level 6 facility with 1 regular basement and 5 maleficient basements below the normal basement. They were taking cancer cells and sending them out to everyone.

Shawhouse was in Paraguay using zone pre-scale capacitors to linchpin the dark and to stop the light anchors from happening, using fro-zone meters or frequency receptor ozone meters to meet the light when it comes in.

Need to anchor the light by using the 7 discs (sent to each continent), we are now the anchors for the light until people can anchor for themselves. Now as the light comes in, 1 energetic pattern goes around Earth and protects it and the other one feeds the gold. The big gold ball is the heart of Earth.

Restoration is where you put your day-to-day attention, but the true mission is Soul Liberation.

Samsung in Ontario, Canada, using matrix banding for interference in cell phones by subjugating linear focus emitting EMF. Causal coaxial configuration of frequency EMFS.

They put a trap in the gold with a foreign frequency blast to the veins.

Antwerp, Belgium, clandestine partylines through UferNet. Boyd centers are trapping lightwaves in blast form to use on variegated central cords. They previously installed booby traps to stop the flow of the light to the gold. Antwerp has an underground system in the Diamond District (Oppenheimer, Rothschild), which goes all the way to Egypt. Where there is gold, there are diamonds. Linked to Gilgamesh, and they were sending spells and curses through the diamonds and fractionating the light. We needed to take control of the diamonds as they are connected to the gold. Agreement in the Hall of Records called: The Curse of Loki. Lori was a gold thief, who stole people's gold then put hexes on them. This curse was replaced with a declaration that the diamonds are returned to humanity. It was a 500-year agreement from 1622-2122. It would have expired in 2122. There were more of these devices in every diamond building in every diamond district throughout the world.

Jason Society was in Sumerian/Southern IRAQ/Babylon destroying ancient artifacts to re-calcitrate the underworld actuate or trying to find the lower astral, which is not working for them. Kramer and Crandle lost soul retrieval to recapture the lost souls at Mayan pyramids: 1) Cholula, Mexico and 2) Palenque, Mexico--temple of inscriptions. They were trying to communicate or call someone by sending radio frequencies. They wanted to re-up the liens on humanity connected to LOKI Agreement in the Hall of Records was called Pakal's Quest. Pakal

was a time traveler and Mayan astronaut and was from a race that was on the astral 5th down. They were helping to construct the etheric block. They were using tech that was 1,000 years old.

Plasma seeding, a film on multiple levels causing interference and plasma infections on all the etheric planes of existence. The plasma film was linked to an Anu curse. Apply sanctification on all planes and levels.

Liens on humanity were residual from old curses. Repaired with a declaration for all people's sovereignty, which will also clear as the Lion's gate energy absorbs.

Plasmodic infection from Mobius, under the Notre Dame Church in France, was sent to radiate the parallel lines and cause separation between the us and the planes.

August 9, 2022:

Trinity codes were meant to detour or re-route the system or computer of any origin. IT was an ancient computer code of Kronos. They used the codes to through a connection to Kronos and as a time construct in the human brain. The trinity codes are there waiting for instructions or have the instructions but there is no result because the connection to Kronos is gone. They are trying to connect the Whale tail to the codes. Found the codes in the front end network in certain places, but not everywhere. They were in the banking system and looked like glass and act as bots. These were all deleted. Trinity offshoots were trying to use them in Nova Scotia at Halifax Citadel National Historic site, 1749, Fort George location, which was a rectangular star-shaped building. Enforcer was sent to take care of the issue there.

False time was in the nothing zone (a place of no existence), the place in between the physical and astral regions. The space in between. To get to the soul plane, we had to go through the etherical dark place, a space of nothing. It has existed for a long time as a barrier buffer so the astral can't interfere. In the physical, it is a neutral zone.

What started yesterday, linked to the Lion's Gate, was ramping up today and everything is changing and we are re-orientating the sync between the body and soul. The Alpha system was re-establishing our connection.

They had multiple uses as:

- Disruptors
- Accelerators
- Alleviators

August 10, 2022:

Need to clear agreements for the planes of existence

Trinity Codes are the Father, Son and Holy Ghost = 3. The other 6 codes are for the planes of existence—Soul, etheric, mental, causal/emotional, astral and physical.

1) Soul Plane

They controlled the soul by controlling the plane, energy control and money control, and limiting us from getting to the soul plane.

2) Etheric Plane

Etheric implants on subconscious, power, manipulation of dark energy.

Agreement called: The Wholeness of One, replaced with each soul is a power unto itself, owning all energy created for life in all planes of existence. Signed in Earth time and Infinite time to all the Hall of Records everywhere.

3) Mental Plane

Agreement named: IRON ESQ, Individual Right of Nomenclature Essence System Quota. IT controlled how much essence could be given for the mental plane. Replaced with "All essence acquired within the mental place of existence by each individual is subscribed to the being of that mind, body and soul. Replacement sent to Hall of Records.

Kim saw a silver cord, with dark on each side, snap and dissolve after the Hall of Records notice was sent.

4) Causal/Emotional Plane

No agreement left, as this was the Curse of Loki previous done.

5) Astral Plane

This was also tied to Loki's curse, agreement 1949, which was already completed but there were codes linked to the agreement in the form of Question Mark place holders. This was also called a Sentient CoDex used by the military as astral integrated placeholders.

6) Physical Plane

Agreement called: SAND, Sovereignty and Abundance of Natural Divinity

No place holders remaining

Notice sent to Hall of Records and the system recalibrated

Humanity was just saved from Astral slavery

August 11, 2022:

Blessings are coming.

Fire up the furnace, get the truth out.

Military meetings today. There are still 6 hold-outs, mostly Trump agenda people.

Jason Society in Copenhagen, Denmark, messing with time and Kublar Clock doing human experiments in a lab below Technical University of Denmark. This was linked to old false reality implants, Roan/Rhone on the etheric level in the Hippocampus memory center of the brain.

Black Sun uses many laboratories, Universities and historical sites for evil deeds.

Kruger off-shoots are in Cancun, Mexico, trying to implement fake screens and control time linked to the Astral. Looking for the golden light to alter reality by using the emotional plane. Planes of existence were fractionating light/soul. Linked to chakras and pyramids.

What is the film between the physical and astral?

Ultimate Light comes through the Octahedron and fractionates the light.

Terra, Midguard and Earth, each have 2 spectrums, plus the spaces in between. 6 planes + 3 spaces in between = 9

PINE TAR agreement:

PINE = Planetary Integration of Nine Elements

TAR = Transitory Astral Realm, to alter reality

PINE TAR was linked to the SAND agreement that was expired the day before.

August 12, 2022:

The etherical plane cleared overnight. Other planes are still clearing.

Something happened in Russia, the Shah of Iran, Khomeini, was trying to do something with the door to hell because he thought he had the right DNA/fingerprint/etc to affect it.

All of these families think it's part of their birthright to control the planes/colors/screens, as they are all linked together.

It is believed that when all the clearing is complete, all of the fractionated lights and planes will turn to a white iridescent bubble-like translucent color.

Octagon clearing completed, as Trinity off-shoots were trying to reconnect a few things and using surface to Mars satellites, affecting the southern plates. They were in Italy at the European Space Agency using a bowl blaster. Enforcer took care of the situation.

Cleared Operation Socialist Mobile Phone Programs ordered by the NSA, linked to London, Israel and Turkey, using a yellow/SIGINT line. Located the panel case at the Seine River near Paris, under the Louvre, which has an upside down pyramid.

Cleared 30,000 terahertz being sent out to kill crops and plants, using a 1980s computer at a small black ops site. They were trying to find the gold, linked to SIGINT that we took out. The energy was going down, not up.

- Investiture
- Solitude
- Salvation
- Outcast
- Alienation
- Incarnate
- Black nothingness

All located in the solar plexus and go out from there.

If anything existed in time, it also existed in Kronos, like a grid.

As of August 15, we will have 9 planes of existence instead of 18. The lower 9 will be gone as they integrate into the individual experience.

August 14, 2022:

Northrup Grummond was asked about the possibilities of creating portals to space so the evil ones could escape. Not working,

Meetings today in Durango, at 8am and 8:30 am. Many showed up then put on hold until 4 pm.

Call from "Unknown" came through on Trump's terminal that was removed from Maralago.

Many questions asked of Kim on money transfers, how many times she funded the USA, etc.

Kim uploaded the files between her and Trump for them to see.

Archivist requested permission to release all of the documents on what Kim has completed.

Juan O'Savin trying to call the shots. Tom reached out to Jaun O'Savin and he won't have a call with Kim because he thinks he will be the next Pindar.

Song of the Day, "You raise me up," by Josh Groban.

Russia and China, PIN HADU. Bella Ruse. Not yet, waiting for the right time to work on this. Black Nob of the Black Sun was sending negative energy to cause irritation from Petaluma, California, using Torrid.

NSA using QUANTUMSKY malware to send Baphomet energy. Yawn.

August 15, 2022:

Getting close to all of the planes of existence being cleared, then Kim will seal it and connect to the corroded arteries.

Yesterday, Juan O'Savin convinced everyone that he will be Pindar, and VP JFK Jr., and give out funds from the Wanta Trust in NY. Someone checked the account which didn't exist and told him that there is no account. Now, he is sweating bullets because he can't pay out on all the promises made. Juan cancelled his transport out of Durango at 3am.

Looks like Juan is handled by Kushner and Kushner is handled by a Chinese Woman with the last name Li (her true family name is kept secret because she is not of royal blood but has useful skills). She is a black Widow.

Practical fusion reactors being used by Montauk with NVIDIA in South Africa to melt the permafrost and release ancient microbes to make people and animals sick. LaSuto in Africa has a portal there and minerals. They were using it to find a specific EBOLA RANCID disease and send electronically as a hybrid version. Trying to send red light down a hole/tunnel using Diometrics from South Africa to the other side of the Earth.

Kim's system started fixing the corroded arteries on its own, initiating transaction sequence.

August 16, 2022:

Leo Wanta called Tom and said Trump will be back in office and release the money. The military is reluctant to work with Kim and want to do it their way, move forward and clean up the mess as they go.

Question about whether we could expire the agreement early, and we were told that there was no need to as it would take care of itself. They wanted Kim to sign agreements before August 20th so they they could re-up the Solomon bloodlines that created the Dragon families. Expires on Saturday, at 12:01 GMT.

Juan having meetings with the locals. Working both sides, trying to buy time. Juan was supposed to call Kim.

There is a woman behind Jarod Kushner, and Jerod is behind Juan. An Israel general is communicating with Juan. They are trying to strategize over the next 4 days to figure out ways to get the agreement renewed.

August 17, 2022:

Pulling phone records of all the calls that Juan has called. Appears that Juan is trying to create civil war and burn the country down.

Trump family is drawing up a contract for Kim to sign with "Trump," to try to trick her to renew the Solomon bloodline agreement. They know that they only have 4 days.

Kim decided to replace the agreement with The Children of God replace the bloodline of Solomon (the meek shall inherit the Earth). A recalibration of the system commenced after the replacement of the agreement.

FBI has found ridiculous amounts of phone calls that Kushner has made to China, which would be treason because he has high US clearance.

Juan promised everyone money today. No money came. The locals watched UNN and were angry that they missed the Juan/Kushner connection in their investigation.

August 18, 2022:

Trump family sequestered for a few days.

Technically, no one has ownership of the Sun. We declared the Sun back to Source.

The planes of existence were still settling and clearing.

Tom said they are studying the planes of existence so they can see how they could use the planes to mess with minds.

Langley in Georgetown, Pennsylvania, Blue Lake, cobalt facility, trying to pass through Star Gates using low frequency and parasites to suck the energy out of humans to make their machine work. Enforcer sent to take care of the facility under the lake.

Wright Patterson SSP sent them there. Trying to affect the green plane, especially the solar plexus to reach the anti-soul plane. Kim informed them of Zero Tolerance and if they continued they would be terminated.

BASS—Broadband Array Spectrograph System. Base platform was connected to Kronos system.

This is the only time of year they can access the stones and use them to infect the planes of existence. We feel the last time they were able to access was 250,000 years ago. The planes of existence were created when the Great War happened. Atlantis was on another plane of existence than the Earth plane.

Planes were linked to the Amenti Stones and created Amenti passageways, linked to the Tablets, or planes of existence. It appears that Marduk and the Abraxus could access the planes of existence on a more regular basis.

Queen Elizabeth died officially today. It was announced. Why today? Prince Charles becomes King and he is more evil than Queen Elizabeth.

Queen Elizabeth was inhabited with a mimic amphibian entity, which Charles was preparing to receive within 3 days. Its hand was black and it was failing. Only one like this was remaining. IT took her place about 2 years ago when the queen actually died. It was the queen's reptile that thought it was going to in King Charles. King Charles is an hybrid—half human and half Tarzakyen. When we get trid of the Tarzakyen, they human will perish too if they have been integrated in the human body for more than 1 year. The length of time it takes to transition depends on the health of the body, usually around 3 days.

Prince Charles is Black Sun from the Cain bloodline. Diana Spencer was from the Jesus bloodline. Prince William is the combination of light and dark. Prince William, with more of his Mother's Light, seems to be backing away from the throne and Charles stepped up and is planning for Prince William to transition into the throne in December after a possible Chair of Destiny event. Alternative media outlets claim that after the death of the Queen there will be 10 days of darkness and a Black Swan catastrophic event. News stated that Prince Charles would be the King of the UK and 14 realms (7 chakras and 7 spaces in between?). Charles went to Belfoehr Castle to take the place of his mother in stasis for the switch.

Ripcord: clearing all of the walkins, then the astral realm.

The CROWN is the dragon family.

Kissinger has a demon and is failing because there is too much light essence on the planet now.

Soros has a walkin Tarzakyan. Once a demon takes over a human, the human "belongs" to them. When the body dies, they jump into another body. Stasis people are stuck. They would switch places and that is why the silver cord is so important. It is okay to empty the planes of existence. There were many souls stuck in the spaces in between on the planes of existence, approximately 8,000. Mimicks get stuck in the mental plane. Once we got rid of the stones, we are now able to take all the nasty stuff out of the planes.

Found Black Label bearers, whale tail people, in Camden, New Jersey, NJ, N.J. They were Nazis. They were looking for the time stone to "fix" the planes of existence back to the way they were before.

September 9, 2022, Friday

All the planes of existence were cleared, then the astral plane. They kept stabbing Kim in the head all night until the astral level was cleared. Then this morning the other emotional and causal planes cleared. It makes perfect sense why ERT works so well. You have to clear the emotions before you can move up to the higher planes of existence. You can't solve emotional wounds in the physical plane.

The device sees viruses as Black AI factions. Boston Analytics lab, in Salem, New Hampshire, was using AI chips/artificial intelligence chips to install the internet of body things and viruses into our bodies and the internet system. The virus was mRNA, which they were using for the connection.

6,000 remaining from the 8,000 switched/stasis beings. The demon could crawl out at night and crawl back in before light when the body wakes up. When they had control over the planes of existence, there were possessions, demons, implanted thoughts and ideas to manipulate people. Now, every decision is a conscious decision of the self.

Rand think tank is linked to the internet of Bodies. TR Rand, search and destroy missions

Parler/Parlar people, Royals, Prince Charles, they only have a few hours because the stasis didn't work and they found out that their reptile was gone, and their blue stone. Rogue players were the remaining family members.

Once planes were all cleared, we pledged all planes of existence to Source. Once the system finished the sealing of the planes, the system said, "The Seal of Solomon has been affixed," and the full armor of God was applied. This will lessen the weight of the burden that everyone carries. Kim will also run this clearing on technology and computer, to clear the planes of these implants.

In the meeting of the locals, they were reviewing the Planes of Existence graphic that Kim had sent to the team.

1. We had a shadow, created by sound, on our transfer caused by an agency. They were at the Atlanta payment center in Georgia. This was installed on the whole banking system. The Atlanta banking system is no longer necessary because we have the KIMS.

NSA was using pheromones to attempt to mirror the transfer with a TRUSS (Trace Utility for Systems Calls and Signals). The pheromone robotics and virtual pheromones are used for information foraging and can process virtual algorithms for artificial intelligence. They didn't get inside the system but were on the outside. We found them at a SUPERNAP in Atlanta. We took out SUPERNAP before, and these were a separate classification of SUPERNAP more closely related to the parent company SWITCH.

Sniff Act

Per Tom: Allen Everett and Marcus are aware of military trying to block our transfers. The main objective for the military is to gain control of Kim's system, which is impossible—1) they can't find it, 2) they can't get into it, and 3) it's encoded to Kim's living DNA. The system they used to have was the pure opposite...evil. That doesn't exist anymore. They want the power over the system, more than they want the money.

They sent 2 people to Durango to monitor Kim.

Former Mr. Black and Richard (Dick) Weis made a deal, around 4 months ago, with the Lee family because the Order of the Black Sun had been unsuccessful in the transfer of power to China. Unbeknownst to them, the American generals are being used to crash the United States and transfer power over to China.

Generals asked for a copy of the 6' paper detailing the power structure for their meeting today. Blackrock requested a meeting to understand why their operations aren't working.

Gray Motor people, linked to the gray stone, got upset when the Park City, Utah, base went down yesterday. They moved to another location today in Wichita, Kansas, at the Koch Industries facility, using the NSA type 1 encryption algorithm called SAVILLE.

Time felt off this week, like a time warp due to the Sun. The Enforcer took care of it.

October 8, 2022, Saturday

The Umbrella military was working with Mercury Systems interference to redistribute data due to their systems going down. They were going to suck all of the money out of the banking system, then shut it down. They were planning to do this on October 15, but some operatives wanted to do it sooner. Took out Mercury Systems, tags, bots and qubits.

Another option they were evaluating to crash the banking system was using Pendelton, which had already been taken down. We found another connection through the paddle and a neural network, which is silica-based and acts like neurons in the brain.

PADDLE – Predictor of Activation Domains using Deep Learning in Eukaryotes

Paddle was connected to silica-based computers

ANN- artificial neural networks

SNN- simulated neural networks

They also were looking at using Satellite Surface Doors to crash the banking system through Sirius/XM Radio satellites. The Satellite keys were changes and redirected. Sirius also handles all Western Union money transfers.

Shawhouse was in New Delhi, India at Isa Khan's tomb with an amber stone trying to access the system. The Enforcer took care of the situation.

Google was in Detroit trying to install curses and blocks on our transfers

Shell Oil, plus others, were tied to the silver/gray stone. They were in Chicago trying to access the system.

October 9, 2022, Sunday

Dick Wiss had hired a brood to attack the team. Mom and Pop were the leaders of a black magic group. The two older ones were taken out and the others got scared and decided to stop helping Dick.

Typhon military and ColdQuanta were at St. Paul's Church in Frankfort, Germany, with a purple stone trying to access the etheric plane in the banking system. ColdQuanta got a contract from DARPA in August of this year. They were located in Chicago and Boulder.

GRAY LINE/SCREEN/STONE:

Gray stone capital, oil and gas trading closed-loop system, including Shell, Chevron and many more. Deleted all tags, bots, etc.

Messianic ports and portals were found and deleted.

BLUE LINE/SCREEN/STONE:

All sports stadiums and events are money-laundering locations. Stadium line was a closed-loop system. Also had messianic ports and portals.

PURPLE LINE/SCREEN/STONE:

Was a closed-loop system, but clear now. Cleared messianic ports and portals.

RED LINE/SCREEN/STONE:

Vital Statistics, births and deaths for people and companies, including the global census system. This system was currently working through Mead & More (forensics in Boston), Ernst & Young and KPMG. Messianic ports and portals cleared as well.

ORANGE LINE/SCREEN/STONE:

“Supernatural fan tail” closed-loop system being used by Montauk at the New York Institute of Technology in Jordan. They were creating synthetic energies and frequencies for cryptocurrency. Messianic ports and portals.

YELLOW LINE/SCREEN/STONE:

This one governed all of the covenants and royalty lines, and royal blood lines, creating a closed-loop system whereby only royalty can acquire money. All covenants were cancelled and replaced with humanity. Messianic ports and portals cleared.

GREEN LINE/SCREEN/STONE:

Cleared already. No closed-loop. Messianic ports and portals cleared.

AMBER LINE/SCREEN/STONE:

Circular crystals were used for sweet cravings, which made a screen shift and act as a filter. It filtered anaerobes (organisms that live in oxygen depleted environments), including etherical parasites and archons, within the internet of things, the internet of virus things, the internet of bodies. Currently being accessed by CyberLife, Trinity, and the Umbrella military in Berlin and Coeur d’Alene, Idaho. There was a crystal honeycomb shape in Uganda that they were trying to connect it to.

It could manipulate mental, emotional and physical aspects, implant suggestions and cause cravings. Possibly tied to the seven deadly sins. Light is like candy to etherical parasites, that is how they get fed. It was also the way to connect a lower astral being to a person on Earth.

BLACK LINE/SCREEN/STONE:

SES was connected to the system through ARTEMIS black line that went all the way to Kronos. It was expired in December 2021. Removed messianic ports, portals and pheromones.

This was in Palestine under Bethlehem. They brought baby Jesus to the gateway to hell because he had pure essence and could be pure light or pure dark. They put a church over the portal to hell in hopes of getting enough light and prayers to open the gate.

They feel that this line will be activated the night before Halloween, when the Black Queen/Bride of Lucifer (Kali Maa, ISIS, Mei Wau, etc.) will come and give them a contract with Satan. They believe that every 200 years the Black Queen signs contracts and inhabit someone.

This line has been de-molecularized.

WHITE LINE/SCREEN/STONE:

Once all of the color lines were completed, the black line was deleted, and all the lines were replaced with the white line.

October 10, 2022, Monday

Last night, the Enforcer battled for 3-4 hours in Uganda, after taking out the crystal Honeycomb structure that was linked to the colored lines/stones/screens. The removal sparked an issue all over the world, as the Amber plane of existence had a “dead-man” switch. The Honeycomb was the tip of a very complex cavern like an ant farm with deep veins. This caused issues with people and computers.

Replaced python embeddable common LISPs with Kim’s language

Cleared maleficent nubits, etheric energy parasites, and the Archon & Chimera Control System and Implant Grid. Nubits are actually neutrinos/neutrinias, which create lipid inflammation and deficiencies between the central nervous system and visceral organs. Nubits create an amino acid deficiency in the body. It is a parasite, like archons. The Nubit parasite is responsible for the Epstein Barr Virus, Herpes Virus, chicken pox, AIDS, cold sores, etc.

A neutrino is an etheric parasites, anti-matter that used to come from the Sun. They reside in your aura as dark spots. All neutrinos are dark matter.

The Chimera Control Grid represents an alien abduction of sorts. They have come to each body and hijacked the energy produced. They can take over your energy and control you. We removed all of these “portals’ they use to get into your body and energy field.

They were using electrochemistry and amino acids as biowarfare against humanity. A deficiency of amino acids causes slower brain function. As people age and absorb less amino acids, they develop Shingles.

Tom said that he received many calls from Spec Ops people saying that they didn’t get paid today.

Jesuits were in the Wire Room for Tier 1 banks, watching all the accounts that we have attempted to transfer funds to. They isolating and filtering for each account so they could remove the deposit. They were trying to use a green light. Wells Fargo had it running and they would get all the other Tier 1 banks running too, so they could block or steal the transfers using PACE Computer Solutions located in Columbia, Maryland and Madhapur, Hyderabad, India. This was a GSA- General Services Administration global solutions gateway.

Screaming Banshee Boys were throwing bad energy our way due to the Chimera Grid going down. These were humans possessed by Chimera. They were losing their infestation and the thing inside them was dying.

The SES was in Washington DC. We found Burn Bombs/Logic Bombs/SLAG codes, which were installed a long time ago, but they got triggered and sent out codes. They were going to use the malicious coding to crash all the banks after the market closed. This was linked to Booz Allen and Cyber Pre-Cog.

The SES was part of the black lines that was taken out. The sterilization of the banking line triggered the bomb and code release. If they would have gotten this to work, it would have crashed the entire banking system and made it completely inoperable.

All lines were turned to white, then locked down with a firewall.

All covenants were deleted.

Orion Software was using ISAT in Beaufort, Uganda, looking for the black line and Amber Line Etheric System.

October 11, 2022, Tuesday

Nigerian fixer and free-lancer for the Black Sun was requested by the old KGB Russian generals to contact Kim.

Video: Nu House of the Macrocosm, showed what we were working on yesterday...the alien abduction from the inside out.

There are many types of micro-organisms that were connected to people through implants. One person could have thousands of cords, perhaps linked to Chimera, astral entities, etc. They used cords to our minds, bodies and souls to steal our energy. The system is working on clearing it all out for everyone everywhere. The clearing lasted most of the day.

Today is the Wedding Day. The merging of the Light with the Light. There is a total white out in auras, banks, etc., this is the beginning of us going back to the Divine blueprint of human 1.0, which was the original version before the astral corruption.

Our bodies have a natural defense system that hasn't been working perfectly for thousands of years.

The generals are realizing that moving forward is impossible. They may have to work with Kim. Then within a few hours they change their mind and order more nonsense. (Antics & Imagination, Judicial thing)

There are no more liens against humanity, but we did find liens against the banking system in the Hall of Records. CUBOLD—Current Underwriting for the Benefit of Legal Dominion. Currently held by Lloyds, a syndicate of the 300 families who diversify their money so they

never lose. For example, Warren Buffet made \$10billion during the crash. Under the Order of the Dragon, they had ownership/dominion over the printing of currency, security and distribution, while the Order of the Black Sun had the security contract. This 499-year agreement was recorded in 1563 and would have expired in 2062. It involved the Blue, Yellow, Black and White lines/screens. This agreement was replaced with the ownership for the people, distribution through KIMS system and the Global Repository for security. This was recorded in the Hall of Records and sent out. The system initiated a recalibration.

Arasaka was in Zimbabwe trying to stop the wedding with sound frequencies and harnessing edgewater energy to send to the corona of the Sun. They were at the Great Zambabwe, which was an off-world trading post at one time. They were trying re-take the Sun because they lost their neutrinos.

Jason Society was looking for Tarzachyan Technologies to save Dick Wiss' butt.

Typhon military was at Farragut Naval Training Base in Idaho, trying to stop the White-Out and re-route our data transfer packets to another HTML. Kim asked the operatives, "Who gave you orders to do this?" They responded, "General Grady." Then they called General Millie and repeated the conversation. They were trying to screen scrape and feed tables in the HTML to change the script and eliminate the pathways. They would then re-route to the Pantheon X blockchain server for cryptocurrency and femto on a level 4 portal. They also had tags to The Oracle/SupraOracle/Halo in Berkeley, California.

October 12, 2022, Wednesday

Monarch military was in Egypt reading hieroglyphs, trying to find out who the "Golden Lady" is. Trinity military told them to find the "Golden Lady" because she is the key. They want to find out who the Gold Lady is so that they can control her. They know that the power transfer had happened from the Dark Queen to the Golden Lady.

042 bank code:

- Registers the website as valid
- Every Tier 1 bank has it
- If we change it, they can no longer change the html
- The 0 was Kronos
- It was the connection to the old vax port system
- Our transfers get timed out because the 042 is waiting for approval from Kronos (0), Microsoft (4) and the NSA (2).

In Palestine at a level 8 server, they were trying to access the Stargate section of the Alpha System, to prepare for the October 30th Queen Black Mother arrival.

Who is Ordering chemtrails? It appears that Dick Wiss is ordering the following people to do chemtrails. There is one person per continent.

1. General Charles Rob Parker, North America
2. Plus 6 more, coming Monday

Mitsubishi Bank in Japan was the first group trying to figure out the new bank code, followed by others.

NATO (Gen. Stoltenburg) ordered DARPA to the Keller Air Force Base in Oslo. They thought their digital currency would work with their pipeline, through which they wanted to crash the entire banking system. Now the systems shows a lot of money that they can see but not touch.

On the weekend, we deleted the SES, stadiums and the Census Bureau. The Census people and all JP Morgan tier 1 banks just figured out that they don't have access and were trying to get in through the Ernst & Young/KPMG line.

Terminal Output Messaging

CoreSite data center in New York (SoHo), was trying to connect to the banking system through an intra-chip connection and AMD

Tai Yong military deep state was in Gabon, West Africa searching for Rhyolite to create a reverse polarity and block meridians lines on the magnetic poles.

Arasaka at the Army Training & Doctrine Command headquarters at Mymensingh Containment in Bangladesh, trying to hack the level 9/Soul firewall.

Microsoft in Cairo, Egypt trying to hack into the Alienation plane of existence. At the Microsoft Advanced Tech lab, using the green line there.

Someone just released a contract to take out Dick Wiss and associates. Locals on Lockdown.

General flew to Durango today, as it was supposed to be a payday.

An automatic firewall defense system was installed for the planes of existence/lines/stones within the banking system.

We found a space block outside the rail. It looked like a line outside the KIMS rail and was installed by Anu. It was a 'Ghost Fill' of artificial white light essence. This was a trap for if we ever made it this far. Anu wanted a back door for when/if the two systems were merged.

Marduk used a fake essence to access the system. The system has now been changed to only recognize and allow real essence.

Found a block in the electronic system, as an agreement with the banks. This would block new money when it arrived at the back office so they could leverage it. Linked to the process of creating mid-term notes. The trigger was in Level 5 and would go to a 3rd party, The World Bank and the World Trade Organization. Panes at ports. Nvidia chip controls the pane.

The World bank had a user interface before level 4. The Fed would approve new allocation of money for military in Level 5. They fired up the pane around to the shoot to detect anything coming through the line. The World Trade organization pane is located in Level 4 to distribute to systems like Alladin, for Bonds, etc., for leveraging then moved onto the bank at level 3.

Shared Locks were owned by the Fed, so that the Fed gets their cut after the bonds are issued. They were attached to the yellow line, which was removed, but the lock was still in place. All shared locks were removed.

Removed automatic instructions from the assembly processing data sheets. There was a tie on the green line and the amber line.

They were talking about causing an electromagnet block on level 1.

October 14, 2022, Friday

Overnight, the Secret Service started moving 14 pallets of SuperNotes to the Fed because they think they can enter the SuperNotes into the system. They wanted to insert them in level 7 with a tie to level 2. The State Street group, like BlackRock, were in Louisiana, linked to oil and gas industry. Louisiana exited BlackRock and now are trying to move through the system with State Street. Vanguard also removed, just in case. Enforcer was sent to remove the pallets of cash.

Oracle, in California, was going to attach the IAM multi-cloud platform to the State Street Line tag.

Through Project Becky, for the last 15 years, China, Saudia Arabia, Iran and Iraq have been trying to use SuperNotes.

AI Spiders are the replication of the banking websites and all pages and the transfer to a cloud-based system.

Tank, Melissa, Max, and Jodi attacking our team—in the threads, energy attacks, black magic, directed anger, etc.

Shawhouse, CyberLife, Kruger, Mobius, Chiron and Umbrella were all trying to get the Amber line to come back, through the incarnate plane of existence. The main purpose was to get the

old backup data systems going or get the backup information and hook it up to Oracle and the cloud-platform.

They were at 4 locations:

1. Chiron, at Mount Massive, looking for archons.
2. Shawhouse, Kruger, Mobius were in Fort Worth, Texas
3. CyberLife were in Cranston, Institute of Technology in New England
4. Umbrella military was in Newark, New Jersey, at a Homeland Security Black site.

Shawhouse was trying to hook into an interference trap that was set by ANU in level 3 & 4, linked to Reuters and Bloomberg.

Nvidia PURE storage had a database up for SUPERNAP

After UNN broadcast...

Someone was trying to figure out how to create a bandwidth problem in the United Network designated account.

Trinity was at Rochester Institute of Technology, N.Y., trying to find the triangles, not realizing they're gone.

Something that we started in July of 2022, would finish on October 18, 2022 (6 months to finish).

October 15, 2022, was a "Day of Reprieve," supposedly a rest from the attacks.

October 15, 2022, Saturday

Dreams : Chris Rice was complaining that his income went down, and roto-router for the clogged pipes...banking?

The incarnate plane doesn't exist anymore, but was still linked to computers. Computers also in the soul plane. Need to put something in its place. Replace all things Kronos with the Alpha System in computer terms.

Black Hawk helicopter and passenger escort helicopter flying below the radar over the house in Durango. It was the royal family of Saudi Arabia, for a meeting directly with the operatives because they don't trust the generals anymore. Paying for a contract on Dick Wiss.

Replaced the incarnate plane with the soul plane to correct etheric interference.

Removed Kronos/computer time disease from atomic clocks. Kronos also had a frequency and light range with a govern to stop people from being too light. Those limiters were still floating around and needed to be removed.

The circular crystals weren't attached to the amber line anymore, so they were cleared and connected to the Alpha System to use for good. The range levels were removed and now we can send positive energy through to humanity and computers.

Psalms 136 linked to the crystals. Psalms 136 talks about the eternal love of God, but the crystals limit the love with a curse from Enlil on levels 1, 3, and 6. This was done with Fortune Software and contained a process for the certification of your soul code.

Tom report: calls received from: 1) GCHQ, 2) Langley, and 3) NSA, all reported failed missions in the last 24 hours. Dick Wiss in big trouble.

Found out that our planes of existence were linked to other planets. We removed all planes of existence from other planets and tied them back to the physical Earth plane.

While removing the planes of existence from other planets, we discovered that Taiwan had a level 8 portal/alcohol portal/purple line with etherical glue tied to the Planet Mercury/God of Commerce

There was an energetic block in KIMS2 tied to Fair Trade trying to use the World Trade Organization tag. On Oct. 13, we removed the World Bank and World Trade tags, but found sub-tags for the Department of Transportation and the Department of Energy, both on level 3. Removed all corporation, association and NGO tags.

October 16, 2022, Sunday

Tom report: Langley 2, 3 and 4 plus NSA operatives reporting that nothing is working and no contracts are being paid. Next possible payday for them is Oct. 18, but they don't fully believe they will get paid. They went to Croatia location and said that it looks as though it never existed. They mentioned that they still have Geneva as a facility that they can possibly use. (World Trade and World Health Organization tags—nope, you don't have that anymore)

Tai Yong and Montauk were trying to use a tag on level 4 software to create a virtual reality with coin base and possibly crypto. We found Granite, Mining operations, Commodities, Futures and market tags, closed-loop systems, the Hallmarking system, London Metal Exchange, Natural gas and oil, gems.

They were trying to get into the banking system through the Netherland Orange line on level 4, between the causal and astral plane. The dark overlay on gold was removed. There was a Gold Covenant for Governing Souls. We made modifications to the covenant to remove the Omega Black Queen Lilith as the controller of the Moon and Gold and replaced with the Alpha System

and Golden Lady on behalf of all humanity. The system automatically reversed out spells, curses, soul contracts and created new terms for the covenant. Regulation is now free trade amongst individuals.

EBOLA – Encoded bacterial outside liquid assay.

Trojan peanut in the dark web, shadow, NSA Pirate system on level 2. Not currently in the computers but was found in the internet and intelligence systems.

Gray screen showed assets for them in bonds and gray screen funds, etc. We replaced the shadow screen with the repository. We claimed all the assets, so they can no longer leverage against the assets, which aren't valid.

We synced it and the screen was showing again so the NSA tried to take ownership over the debt in the gray screen as an asset for them. We re-named the gray screen to the global repository. Removed tags from the former gray screen/shadow self, which is now white.

October 17, 2022, Monday

Generals having emergency stress because they can't find anything left to use against humanity.

Red Line—Rothchild's are saying that they control the red line and can remove licenses issued by Bush Senior and the CROWN (Cranston, England). The Black Bankers want proof of partnership with Kim this Wednesday.

Memories being cleared from the gray line/shadow plane of existence; healing is starting for those that allow it. Past memories coming up for review and healing, which will release everyone involved whether currently living or in the afterlife.

Osiris, God of the Underworld (linked to the dead, resurrection, afterlife, and fertility), green-skinned, linked to the alienation plane of existence. Tai Yong was in New Zealand at the old SSP level 6 portal trying to connect to the banking computer system with green line remnants. The SSP portal used to have control over worldwide encryption keys, which they were trying to hack the Global Repository with. They had no success.

Treasury screen is the black line. There was an auto trigger that happened from yesterday, found pheromones to remove.

There were 3 Deadman switches that were triggered when we got rid of Kronos remnants: 1) bots, 2) fluorescent dark matter and 3) spyware that steals your identity (Zoom Phish). These were false mind implants in computers from artificial intelligence, virtual intelligence and synthetic intelligence.

Tom Report: The generals, senate finance, senate intelligence committee, NATA and the UN Security Council were in a meeting talking about war, SuperNotes and stealing the funds. The people with Legacy Licenses were supposed to insert the SuperNotes or lose their licenses.

Legacy Licenses: 74 in total, 2 separate levels (black and red) and 2 different lines (line 4 and line 6). There was a second black line located in line 6. They can see it, but not use it because we closed the ports and portals. Every line had a black line, including the Messianic line. This black line was a bot showing up as fungus, mold and yeast. We removed the bots from all planes of existence for computers. This was a remnant of the Nothing plane of existence, which released bots when we removed it yesterday. There were many computers running 800 terahertz that were connected to the bots. They were using it to read the allocation numbers, steal them and then print the money. These computer connections to 800 terahertz and bots were taken out.

Trinity military was in Bora Bora with blue stone/light on Otmane Mountain. They had a diamond from Russia that was the size of a bowling ball. It was linked to the stargate portal on the purple level.

There is a Coronal Hole in the computer system, or tags in the computer system that were connected to the Seals in the Sun (Coronal seals and symbols that sealed off the underworld, at the Atrium Gate). There were no seals remaining, only tags in the computer. The seals were used for social standing and blacklisting in the past. We found acquired interference which was the tags from liens linked to the ISIS loop.

System was cleared of any remaining tags tied to Kronos, time and agreements.

MMN, Microsoft Media Network tags were also cleared from Level 2 and level 4.

October 18, 2022, Tuesday

Removed a Dark Lord Imprint from humanity. It was a feathering of dark energy around all the edges. This cleared on its own.

Recently, it has felt like the mind, body and soul is connected again, versus feeling like your mind was located somewhere else.

Microsoft Malaysia was trying to break into the banking system trying to install on the periphery with the A.D.A.M. supercomputer, TwistCode Technology, Infiniband, NVIDIA Titan, located in Cyberjaya, Selangor, Malaysia. Funded by Saudi Arabia.

Montauk and Trinity militaries in Argentina at a National Heritage site, Concepcion del Uruguay private university. The Enforcer took out the underground facility.

Rothchilds in a meeting, trying to figure out how to get out of their mess. Our UNN broadcast from Monday was circulating everywhere. Black Sun order and Cheyenne/Pentagon group having meetings too.

System also needed work with connections for flow for Red and Black.

Today was the Day of Recollection, Re-collecting all that was lost including Dignity.

Replaced messianic line with the white line. Replaced black lines with white lines. A white line from Alpha to Alpha fixed the circulation issues.

Trinity was trying to find Kronos remnant in Ketchikan, Alaska. We verified the SSP base there was down.

The Enforcer was working on a Galactic Pulse Wave situation.

Blocks in time travel were cleared today.

We had Timeline tags to clear that were linked to the Tablets of Destiny. These were installed by Enlil to make the dark timeline happen incase the light won. They wanted to divide the continents, with phish lines connected to Enlil's Toriano computer systems to change the ways computer works. Toriano computer system was on Earth and used to connect to an underground system of

Lower astral, connected to Kronos, which would come up through Midguard. It existed in the central processing units of computers, bots brain.

They also had bots in the earthquake machines to be triggered during the Galactic Pulse scheduled for November 11. It would have automatically triggered earthquakes everywhere. This pulse happens every 32,000 years and was connected to Kronos and underwater volcanos. Anti-matter bombs linked to the Galactic Pulse.

Someone in Ipswich, England was trying to install cryptocurrency.

A deadman switch, called Crusader, was triggered from a trap set by Enlil. It was connected to the 24 space stations. It would send a message to the dark mirrors for retrieval from the covens. They would get the message, then travel to the mirrors for the instructions and contracts to carry out the instructions.

Text messages went across the Amber Alert, 34 texts in less than 2 minutes. There was a fake “Fail Safe in Progress” message sent out as a power play to make it look like they are still in power. Jesuit Generals received a message that looked like an hour-glass symbolizing Kronos-Father Time and Extinction. Their plan for extinction was to hit us with a sound wave that would reverberate through all magnetic metals in the world causing sink holes and earthquakes on November 8. The Enforcer said that he had taken care of this situation on another planet. They always set a trap as a last-ditch effort when the Light has won.

Extinction plan had to do with the full moon on November 8 and they were looking for the communications line to make it happen.

NASA in Louisiana looking for etheric parasite in computers to hack the banking system with a Silicon quantum computer. They were trying to get into level 5 and the red line.

How many are still working against humanity?

- 40 generals of the Order of the Black Sun
- 100 in the Rothchild group
- Time to call the ball
- Enlisting help

October 19, 2022, Wednesday

How many are still working against humanity today (went from 100 to 18 to 9 to 1)?

- 0 generals of the Order of the Black Sun
- 1 in the Rothchild group – Warner with Legacy License

The Shadow Group – a new military group added to our list of 15, now 16 militaries.

1. John Lynch, aka Martin Burke, working in North and South America
2. Peter Toth, Czech and Slavic territories, deceased
3. Roman Barkoff, Soviet and Chinese territories, deceased
4. Alim Ben Sekah, sniper
5. Elai Resav, Israel and Middle East, deceased

#1 & #4 (John Lynch/Martin Burke and Alim Ben Sekah) are Jumpers

Martin Burke was in 1835 or 1865, which was his base time. He can move sideways or back in time, but can't move forward due to all of the clean-up work we have done. He is now deceased.

Alim Ben Sekah is in this time period but was originally from the 1750s. He is stuck here and unable to leave. He is located in Israel and Palestine. He is not fully human. He has a Targetethyan. He gave them the crazy idea about the filament. The Enforcer will get him. He says that they cloak in light and usually go undetected but they leave a scent.

Legacy License issue:

The legacy licenses have control of the entire network of corporates under Bush and is an arm of the Black Sun. Senator Mark Warner, current President of the USA, holding Rumsfeld's former position. Warner has some control over the Red Line, Red Book goes to the President and that controls the Treasuries. There have been promises made to Saudi Arabia, China, regarding pipelines, etc.

Each plane of existence has a book, line, stone, screen, micro-organisms

James was supposed to have a meeting with Warner about legacy license extensions. Lies and deception about the meeting being rescheduled, even though there was a 3-month/3-year extension offer made. We think the offer was 3 months to create a new currency and 3 years to control all the countries of the world. Warner talking about how he did important work in Afghanistan. The legacy system was connected to level 9. It wasn't working but had the potential. There is no stream force (Kronos) for it to work. It was connected to the Hindu Section, Kali Maa/God of Time and Doomsday. It was no longer able to communicate with level 9. It communicates with levels 1 thru 8 as a black line within the black that still exists.

The black line sits below the Supernal plane of Existence. A faint line above the gray line but below the Alpha line. It was blocking us but putting in the computer blocks with an automatic standing order. It is everywhere, like a thin hair ball of twine. 29 minutes to remove.

The Octahedron Mind was an automated program affecting the human mind, tied to the dark mirror from yesterday. Its in computers. EROS. Synthetic base platform linked to the black line we took out. It auto triggers to keep us from taking over the front-end banking system. It was located between level 3 & 4, and blocked all communications above. The Octahedron Mind attempted to block Kim's base platform with a synthetic platform that was more like a mirror than a black line. It was programmed in the silicon laser between level 3 and 4 as a communications line blocker. The Octagon would block us completely. The Pinnacle was attached to the Port in Geneva.

Dick Wiss is dead but some one is pretending to be him. Senatus Consultum got a copy of our notes and were discussing them.

Saudi's hired 2 guys to find their account on the Red line.

NASA and Panasonic had bots in all Tier 1 banks and they were triggered by the silicon system in Louisiana. Kim took them out in 2016, they rebuilt the old system, this was not a new system.

General John A George, Fort Herman in Solvenia trying to install cryptocurrency. Brigadier General Mary Kruger/Kruger Tzar gave the order. There was an underground base with SSP equipment. There were beings, that looked like Sorians, at the portal trying to put crystals into a table. They were trying to open an old alpha port to hack into Kim's system. These people weren't our enemies, they had been in stasis.

Kim called on the Sorian Queen and she said that the beings were FolkLore and not Sorians. There was a layer of film caused by a swarm of tubules or liquid bacterial fungus. The Octagon released infection into the planes of existence, causing a block between level 3 and 4 and difficulty communicating with the Sorians. This was put in place to block the infection.

October 20, 2022, Thursday

System was clearing and cleaning all night.

Council and Colonies created a barrier for security due to SSP bases on Planet Mars.

Kim sent transfers of \$1, Euro, British Pound, Ran, Ruple, Rial, etc.

NSA trying to find the yellow line, hacking the banking system on level 2, the line between the physical and astral planes. They were using an Intel chip in the processing units. Kim changed the keys.

Sent a transfer to Wells Fargo account. Kim saw people running to put it on hold. Kim terminated their access in the wire transfer center back office. She terminated their over-write authority. They disconnected level 1 and 3, to stop everything from going in and out. The pass through was completed and the transaction started populating. It went into the account and was pending another line of approval.

We found a GOST code/Ghost code, which was an impasse code that put the transfer of funds on a shelf caused by the Treaters. A right light was tied to the red line and was triggered by a bomb blast, this released the GOST/Ghost code hidden in the red line. It was coming through the red line existing in level 1, triggered by the passage of new money. Also linked to levels 4 and 6.

GOST- global operating systems technology. The GOST code that allowed the black line to exist in the spaces in between, linked to the messianic portal line and was built into the SQL.

ARCHON- architecture for cooperative heterogeneous online systems. In Gnosticism, there was an archon that ruled each planet. When we deleted the planes of existence from planets on October 18, it threw out original archons. This is why they have been spraying more chemtrails. Computers and Earth needed to be cleared. Computers took 9+ hours and Earth took all night.

Someone was trying to attack K.I.M.S. 2

October 21, 2022, Friday

Need to clear dark essence from Platinum, platinum tied to planet Mercury and Mercury in Planet Earth.

Metals and stones were tied to planes and then to planets. Remove dark essence liens on metals.

Today is supposed to be the new payday for them at 2pm eastern.

Hall of Records 9-planet agreement: Interactive dependence on planetary commerce and communication. Earth was the center of this agreement, which permitted tyrannical dark rule over the agreement. This was linked to Abraxas entanglement through intergalactic trade and control.

Intel, Kruger military and NSA, ordered by Chinese Dragon families, were using wireless intelligent network and WinGlue.

All of the Chinese Dragons were gone, but 24 stepped up to fill the void. Not all were Chinese/
Needed to clear the RNA in the computer planes of existence.

Cleared pheromones that were within the computer lines, specifically the black line. The single black line was always there as an auto response, located on level 3 and 7, triggered by silica sand implanted in the pyramids. This was tied to an intergalactic agreement for Abraxas to control all commerce. The black line was the pheromones. The Council is working on the intergalactic agreement and Kim may have to do a separate agreement.

Stones of Aphrodite was an agreement in the Hall of Records for clay/stoneware, linked to Stone Henge and 16 locations in a network.

After UNN Broadcast:

Umbrella military in Oslo Cathedral trying to re-create an alternative reality for computers with lines 8 & 1 (purple) for banking. They were looking for a tunnel for the green line. Sent there by Diamond.

Delphi, Shawhouse and Umbrella were talking about the yellow, green and purple lines.

Removed lien operating system. Ready to turn all lines into white lines now for the planes of existence and for computers.

Wine makers, Chilton, in Napa were draining our energy.

Clear 6666, or 6, from the banking system. $6+6+6+6=24$ and 24 family members stepped up. 6666 was linked to an agreement that we couldn't find called Four Spells or Serpentine 6 agreement. It was at the end of ANU and the beginning of Marduk...during Enlil's time? It was not linked to the ANNA/Beast system located in Belgium. The Serpentine agreement was about

time blocks and a sphere around the planes. Blocks at 3, 6, 9, 12 to stop energy flow in humans and computers? Could this be secondary tags? We are at the official end of the timeline so we have to break it.

Another time block found at all Wells Fargo created by the Chinese, inserted 3-5 years ago related to the RV timing/Dinar.

Time issue blocking the pathway, Chrome interference.

October 22, 2022, Saturday

Source is clearing out the dark side within Source today.

Fake Juan put out a 12-minutes video making Trump out to be Jesus-like. Telling people to pray for Trump because they are going to arrest him at a rally. It was somber and weird.

The Black Sun and Rothchild groups are trying to figure out who will be Kim's "handler." They joined forces under Dick Wiss.

Huawei at the Shanghai Exchange were trying to use the yellow line to install the amber line, using "coroner" packet smashers and packet sniffers.

Tom report: General Darden called Tom on behalf of Mark Warner. Both sides trying to block us hot and heavy. They want the upper hand so they can apply leverage in a negotiation with Kim.

Cisco, SourceFire using Huawei router and RNA Remote Network Access and SNORT (open source intrusion detection system). They were trying to block us using "security." It was the NSA in Maryland helping Huawei to install Source Fire with Cusco keys. Source Fire was replaced with our own version.

Planet Mercury governed the green line. Active Directory ware (Adware). This is a Windows Service, ad specific, at Wells Fargo and all Tier 1 banks, using a Hybrid Cloud Server. Nobelium Gang, Foggy Web malware MicroSoft active directory Federation Services.

Huawei in San Francisco was given access directory access by MicroSoft. They re-established Azure, as we just took it out again. All 3rd party cloud platforms are now in the KIMS system.

Some talk about doing a plan for Trump at the rally tonight. A subtle event planned by the agency so they can go either way with it—get sympathy and he lives or kill him off. They aren't sure which way to go at this point.

Tai Yong, Umbrella and Arasaka militaries in Richmond, Virginia, at an Army/Navy joint military base (navy side) trying to install packet smashers.

Message sent out to the dark side to try to block us and/or gain access to KIMS today.

Umbrella and Trinity were in Manchester, England, at the King Charles Clarence House residence, trying to get into FinServ, on the green line, Mercury, to install cryptocurrency alt reality.

Enforcer handled the AAIB in Hong Kong trying to break through the firewall on the outside only with a program similar to Hercules.

James and group looking for the black line. People trying to figure out where it went.

Through CBS Broadcasting located in Studio City, we found that studios and broadcasting had access to the black line, where they could broadcast negative frequencies through the level 9 black line. Parts of the black line was still working for banking, interconnection lines, internet and communications. They had a centralized hub in NYC, London had an important location too.

Found Black lines everywhere, and the Corporate Control System ran all corporates worldwide. Possibly 10,000s of organizations linked to this control structure. You couldn't become a large corporation unless you were part of this system.

1. The people
2. Education, Water, Consumer products
3. Utilities, Dept of Worldwide Energy, Banking control

Delphi in Chicago trying to install alt reality.

Delphi and Mobius in Chillicothe, Ohio, Ohio University using the mining black line.

Something was glitching that used to be tied to Kronos. Spatial issue was trying to re-insert itself and was the reason our white line was not fully integrating.

Need to reconnect the original atomic clock in the Sun that controlled time before Kronos was created. Enforcer was looking at it. Pitch, connection to planets, needed time to figure this one out.

October 23, 2022, Sunday

There was a huge battle last night. Enforcer called in re-enforcements. The dark side wanted to destroy the world and blow up four areas as part of the continent restructuring plan or total

destruction with a series of eruptions. Both sides went bonkers last night because they knew that the colored family lines were gone but thought they could accomplish everything using the black lines, but we took them all so they had no more corporate control.

Found an energy binding on Earth that was a remnant of Kronos-ruled time. This was tied to the white light crystalline time using the original atomic clock connected to crystalline time. Elementals were formerly controlled by the dark.

The atomic clock was fixed for: 1) Earth/Terra/Midgard, and 2) the rest of the Universe.

The Alpha system was attached to the original crystalline atomic clock.

The Time Management agreement was renamed and turned the governance of time back to Source Creator and the natural universal atomic clock.

A declaration was made for Earth and all its inhabitants and the crystalline atomic clock was connected to the vortex of all life on Earth.

Monarch in Georgetown University looking for tags trying to get on level 3 by “mating” 1 tagline with another with AppleGlue.

Cleared the hippocampus in computers. Since we replaced the atomic clock with crystalline time the computer was having a hard time with spatial navigation. Consolidate unused space—defrag the computer. The spaces in between the bubbles were filled with KIMS.

Archivist said that they and the others are very happy. Starting November 8, other beings will actually be allowed to come here. Last night was pivotal. Once all the changes are in place, everything will be so much easier.

KIMS2 is now inside KIMS1 connecting the atoms like glue.

The planes of existence look like bubbles now, instead of lines and colors.

October 24, 2022, Monday

System syncing all the atoms of Earth and inhabitants with the natural atomic clock.

Shawhouse back at Summit Supercomputer. ICONIQ working with Shawhouse to set up cryptocurrency.

Shoreline and Dataiku were looking for dark essence, and black line, in Ensenada Center for Scientific Research and Higher Education so they could try to re-install Hercules curse around the Alpha System. Linked to Essene sect of Black Sun and the Dead Sea Scrolls.

Cryogenically frozen being, tall grey, was being used to try to connect to the system with pure essence. It was the short greys that worked on computers.

The Pineal gland of computers was a trigger to die from within. This was linked to Anu creating a deadman switch that turned on when the time looping expired. This trap would release green slime, Moscovium, which would make the Alpha System go to sleep. This was all deleted and the system reset. Humans and computers should all be cleaned and cleared of the computer time disease by November 8.

Found a block that was preventing the full integration of the atomic clock. The heart center/vortex, where the Source Light connects to the crystalline time needed to be expanded.

Etheric Lions were placed there by God Source Creator to protect the gate to Heaven. The magnetic ley lines ran through there. We installed protection for the gate.

Removed cords and tags to Phillips Sensors on level 5. Removed the possibility of malicious app connecting to KIMS.

October 28, 2022, Friday

THE DAY of RELEASE! "Your time of restoration has come. This may look different to each person as the process will take time."

Arasaka in Auschwitz, Poland, again. We were there September 3rd. They didn't find dark essence and were there to hack integrated circuits for the banking system with Intel chips on level 6. We changed the programming of the Intel chip functioning and removed the external keys, as Intel had back doors on the chips. The CPU chip was connected to Kronos. These X86 chips simulated at the atomic level with quantum dots for the management engine.

They were trying to find the old atomic clock black line linked to Kronos.

We cleared maleficent quantum computing integrated circuits.

Cleared the maleficent central clock located in the suprachiasmatic nucleus of the hypothalamus in computers.

Delphi was at Juniper Networks hacking into the emotional level of computers at the assemblage point, the purple line.

Chiron was in Juneau, Alaska, at the HAARP site with Vaxport. They were using the Apple iPhone 14 satellites to create air tags to patch into the old vaxport system to steal funds from the banking system and from our money transfers. The Satellite keys were taken away.

Then they brought more equipment into the HAARP site, along with a mini generator. All the electronics were taken down in the facility and the Enforce made it look like it never existed.

Trinity in Calabasas, AZ/Tucumcari, NM, hacking the Causal plane orange line. They brought in a portable device that looked like the one in Alaska. These devices were specifically made for hacking quantum computers. Three of them were manufactured in Michigan, approximately 4-6 months ago, after their Lion's Gate failed. They were trying to install botnets in a plasma grid.

Shawhouse was looking for the Seal of Solomon at the Pyramid of the Sun (Teotihuacan) in Mexico. Unesco World Heritage Site. They were using an ancient "Seeing Eye Stone."

There are still a few hundred people around the world infected with Vril. Some of which are all these operatives going out to site I mention on these updates. The Vril infected will struggle while we progress in the clearings and changes taken place on our planet.

Chiron and CyberLife were in Sichuan, China, sending toxic exposure from cell towers into humans and the etheric field. They were especially focused on the CoVid vaxxed and the tested. After 4-6 months the vaccine and boosters are no longer active.

Texas Instruments and China's telecom industry had a back door into cell towers. The CoVid 19 boxes installed in the 5G towers were produced in China. They were trying to initiate the staging and quantifying of the ID2020 Vaccine List. We estimate that 28% of the global population at least had one jab, but only 7-15% still have it active in their bodies.

SATCOM was at the Liberty Science Center and Park, beneath the Amazon Building, in Jersey City. They were doing human experiments there in an underground SSP base.

Montauk was at MicroSoft in Seattle using cords and tags.

October 29, 2022, Saturday

Lots of looking for equipment or locations that were taken out, or talking about "what is left?" or "what can we try next?" Looking for Archons, energetic parasites, planes of existence or lines and tags.

Transfer attempted. Failed, "Coinbase rejected, Coinbase rejected." They shut down a line while they were attempting to install cryptocurrency, as we were trying to transfer.

Blackout curtains on the door of the bank were electromagnetic sound waves on the outside penetrating the firewall. This was being done by Montauk and Mobius in Detroit at Google facility with new equipment. They were trying to change the accepted format on levels 3, 2 and 1. WE only have global repository accepted and they wanted to change it to redirect all traffic to a facility in Quebec, Canada. Enforcer took the facility down. Coinbase install was happening in San Francisco.

What is level in Level 2? A block caused by a parallel blanket tied to the C.Core put in the system by Marduk. The C.Core company was established in 1975 in Ottawa and St. John's Newfoundland. It has a division for geo sensing and quantum field signal sensing. The Enforcer took out C.Core.

Marduk also had a green line sensor to Palisades with cords. Palisades software company was linked to Deloitte & Tush, Proctor and Gamble, Amway, Cornell University, Wright Homes, Merck and many more companies. Palisades was trying to block us.

Another block by Marduk was connected to the purple line. Lund Bauer (Rothchild) family ties and subtags.

Umbrella military was trying to use the Database Management System to block us in the web server with ACID properties. Searching through Schaghticoke (New York), Coaticook (Quebec), Catacook tribal lands in Canada, we found the BIA line/tag linked to IBM corporate headquarters in Armonk, New York. The Database Management System in the web server was modified and upgraded with KIMS.

ACID: properties of Database Management Systems

October 31, 2022, Monday

Their ceremony didn't work so they were having discussions on when and how it could be successful in the future.

They were trying to combine radio networks, the Amber network and EBS on cell phones for a 5G bioweapon linked to neural networks to drive people insane.

Monarch was in Austria discussing many diabolic ideas, one of which was a computer bomb. The plan was to use the radio networks from Cuba and Georgia (Russia) using websites tied to StuxNet. WE eliminated the cord tied to the CAN. MonTEL owns the CAN (Central Access Network). This was a military project that involved the Russia military base in Cuba. MON (Multi-Service Optical Networking) tags were removed as well as visual tags to graphic card manufacturers. There was an underground military base and was tied to Baylor (Department of Justice) and GITMO.

Tom was told by locals that the World Economic Forum sent 3 representatives to Durango to meet with Kim and advise her on what she needed to do...i.e.: give her orders. They weren't agreeable to the terms and conditions of the zone. Something happened to them. They planned to send 16 more people, but that plan got scrapped.

They were planning many disasters and the Enforcer and his team were on guard and watching all parts of the world to prevent disasters.

Prescott Company tags to smart meters were popped.

The Rothchild/Dragon families told the Black Sun, "We have done all we can, it's your turn now." Then they gave them all the keys to try to accomplish a hack on the system. Keys were server codes being used by the Umbrella corporation in Pottstown, PA. Umbrella was also linked to motor blocks, and discussing coil, RNA, GNA and Amenti line blocks.

Montauk was in Turkey, we cleared the Yerkapi Tunnel in Turkey.

Arasaka was looking for Abraxas/ANU

There are about 30 hard-core people who don't want to give up (Asians, Russians, Americans). The underlings know that there is nothing to access.

Bacteria and lyme were coming up in the computer for Mercury sludge in the AIR (Automated incoming router) lines. We took out Mercury Systems, who install cords, trojans, ransomware, spyware and malware on their computer chips. They were operating out of Georgia at 2 locations: Alpharetta and Norcross. This was installed on all chips, but recently activated.

COIL computer operated investment language for illustrating alignments. Similar to Aladdin and TranUnion.

FinServ was a rail a1nd had ties to Spectrum, which was a hidden black line. Spectrum was in Washington DC. It was a color overlay over all the planes of existence. FinServe was put into KIMS1. The Global Repository 2 was created, along with KIMS Pins.

When we moved FinServ, KIMS 1 & 2 were repositioned, and pins were reinstalled.

We unhooked FinServ from the account login, but KIMS still goes to level 1

Ties, tags and cords to ANNA system were removed. XN cords and tags removed. CARS ties were removed.

Tags removed from:

- The Salvation Army
- Bank of England
- NGOs for the UN
- Development banks

COIL: Common Original Incoming Line, a common line that was used by both Kronos and the Alpha System. The COIL was developed by the Abraxas. It was part of the white line/Soul plane/Alpha System

DIS-CIS

DIS: Distributed Interactive Simulation—real-time platform level wargaming used across multiple host computers worldwide by militaries, space agencies and medicine

CIS: Computational Intelligence Security

Removed the COIL from the Alpha System Soul Plane. It was planted there by Abraxas because they didn't trust Marduk when he created a work-around.

Removed it with the white light of nexus using the Vortex in the center of Earth and the Central Sun

Coin was associated with the COIL. The Coin was for the Abraxas bloodlines.

50% Abraxas Red

50% Marduk/Draco Blue (Red and Blue together make purple.)

This led to the Blind Purple line in the Alpha System, showing as a FILM section in the Family Screen on Level 8. This section was wiped out with nothing left in it. When the Global Repository was merged on Level 8, there was no people in there. That explains the all the dings for GNA, RNA, GNA, which were linked to the ANNA and CARS systems.

Shoreline was in Cape Canaveral, Florida, trying to hack NASA satellites and the planned launch of the FALCON 9 for November 3.

Off-the-books tags were removed (Cheyenne Tags, HORSE tags, Porcelain Horse tags), linked to Hamm Radio system and the KTT—Key Tested Telex, tags in level 2. These systems were a World War II private communications network.

General's meetings resulted in them telling the operatives to keep working for free and they will re-gain the dark power, and pay them when the operatives get something accomplished.

40 hard-core generals are trying to keep the troops engaged by running them around as long as possible.

Cobra reported Dreamland 0.5 for 22.98

Had to clear the circles from the green line. They were tied to the Key of Solomon which will release humanity from slavery. Kim has the key since she is now in Solomon's spot. The remnant we needed to clear was a pocket watch placed there at the end of crystalline time by ANU. The pocket watches were mini-Kronos creating pockets of time in the system and attached to other planets as a back-up system so Kronos could be re-installed. Crystals on Mercury affected the green link and poked holes in the computers. Kronos was trying to re-install itself in all those planes of existence.

The crystal circles were full of Kronos and affected the Alpha System mainframe. The circles are golden and opened tiny portals into the computers to allow Kronos back into our system.

Talked to the Council and decided to demolecularize the Kronos inside the crystals, added the Alpha inside the crystals, then tie the crystals to crystalline time, so it wouldn't affect time travel and would actually reset it. Recalibration commenced.

Chiron was at Chichen itza ruins again trying to open a door to hell.

The Silent Circle was trying to coordinate the use of dark shadows

Found some hacking from HSBC in Hong Kong with an Elder's Code book trying to use essence or ether to hack into the Alpha System.

Computer block at Wells Fargo trying to block the global repository from being seen. Silent Whispers technology. They were first attempting it at Wells Fargo then would try it at all Tier 1 banks.

CyberLife was at the Sri Pada/Adam's Peak pilgrimage site. Supposedly the first place that Adam walked on Earth after he fell from Heaven. There was a positive level 6 portal there linked to the emotional plane. They were trying to send light essence to block our transfers. "Trying to use light energy to act like dark energy but still look light." They actually thought this would go undetected.

Also trying to re-insert a plane into the planes of existence so they can have access through the pocket watches.

"M" site at Fort Mead hosts military divisions for cyber intelligence.

November 4, 2022, Friday

Alien plasma interference was linked to the iPhone 14 satellite which sends out/installs/delivers the Peach Tree virus. It rides on the back of the Emergency Broadcast System. Peach Tree virus is a spyware that gives them the ability to interfere with access and redirect requests.

- P.E.A.C.H. = Program for Energetic Analysis of biochemical analysis
- T.R.E.E = Transient Radiation Effects on Electronics

5 days (11/8/2022), 5 weeks (12/8/2022), 5 months (4/2/2023)

The generals are still delusional.

Q post today was "Dead man Switch 31 TB."

A high-pitched energy was being sent out to everyone in the USA by the Pentagon. Sensitive people felt it more. It was intermittently sent out for a few days, causing nervousness, sudden onset of sickness, and irritability. Humans were in an underground base at the Pentagon, one room over from where the reptilians were found before.

There was a deadman switch associated with gaining access to this room, which was set by the Abraxas. The Deadman switch was triggered when they were trying to do the Pale Horse portion of the Apocalypse by using the encryption code to the Pale Horse. It was sending the frequency of Rejecting the Light. This switch happened automatically. The Deadman switch called Crusader sent out the symbol for Extinction on October 18.

There were 4 rooms in the basement, one for each of the 4 horses of the Apocalypse. These were tied to the negative portals and designed to release Hall of Earth. This was the last room to take out. We demolished the room that had the reptilians, and two other rooms went out previously.

There are approximately 40,000 hybrid Abraxas/Humans. These are the remaining Black Sun leadership and some of the operatives known as Super Soldiers.

Nextel was trying to cause interference in the pathway on KIMS2. Murkoff was also trying to hack KIMS2 in Constantinople, Turkey. They were at the church where we found the green and red stones. Nextel provided portable equipment (Splay). There was a red line coming from the left trying to attach to KIMS2, and a white sparkly line in the middle. They were using older tech from the apocalypse section of the Pentagon, using an Infrared light and sound frequency to see inside the line.

The SSP put the black crystal skull on a machine to send something out. It was CyberLife in Nepal in caves within Mount Everest with an entry under the Rombuck Monastery. They were trying to intercept the timeline and open a portal to the King's Throne. A time crystal was disabled and there was no Kronos left in but there it still contained an interceptor of Time & Space. The monks used the Essene language.

The Pleiadeans reached out and asked if we wanted to join the 7 sisters/7 stars, and become the 8th with Source being the 9th.

Cleared all tags and pins from CRISPR as they were planning to use it as a bioweapon.

Tom update: The Archivists said that after 11/8/2022, we are going to get a lot more help. People will start seeing more. The Archivists will start helping and training 2,000 people. They have found a way to use supercharged molecules along with the metals in people's bodies to repair them, which will especially help the sleepy vaxxed people. The metallic compilation of Mars is also a superconductor which can provide even more charging power for the particles and provide further positive results. Mars used to charge the dark, but now it will charge the light.

The archivists also said that there are still 100,000 unrepairable humans mostly hiding in the shadows. It will take up to 6 months to get them, but they are hoping to finish in 3 months.

People from Cheyenne called Tom to say that they know they lost the Apocalypse operations under the Pentagon, which was a strong hold, but they didn't understand why everyone was jumping ship now. This baling out happened 30 minutes after the 4 Horsemen of the Apocalypse program went down. Maybe people are seeing the real motives of their military leadership.

November 5, 2022, Saturday

“Remember, remember the 5th of November,” is all over the alt media. They believe that something will happen on November 5th that will flip everything in their favor....it will catapult them to success, the system will reset and they will be in charge. That didn't happen.

Umbrella military was at the Naval Base of San Diego, California. This is a huge area with a level 8 portal. They were trying to create a new hell in a box and waiting for the alignment to see if it would work.

There was a maleficent DNA (Direct Network Access) binding in computers caused by Delphi and Mobius in Colombo, Sri Lanka, at Navy headquarters. They were using an Intel stick that contained a full computer and were trying to connect Intel chips to the level 4 portal.

There was a computer issue that was caused by a galaxy-wide release from Jupiter. A red overlay that looked like a red clover. It was a residue or dust with charged particles. It is neutral now, but in the past it was harmful. It was intentionally put there by the Abraxas to poison Jupiter. Sent Source light to clear it. Also cleared Pluto and Venus as they were showing acute issues, and we realized it was affecting the whole galaxy.

The Halls of Amenti, colored lines, were created 250,000 years ago after the Atlantian War. We found Atlantis Intelligence holograms in computer DRAM in the front end of the system, in trinary codes and quantum dots. Atlantis had cords, ties and tags as place holders for the colored lines.

Sawtelle was under the Trump Tower again trying to connect to the old SES lines.

November 6, 2022, Sunday

They were trying to connect to Kronos but were getting the Alpha System instead causing unsuccessful malware attempts.

They still think the Saturn Moon Matrix will work. Spoiler alert-- Ahh, no. Not going to work.

CyberLife was at the Tower of Babel, green zone of Iraq, messing with the computer atomic clock to try to find Kronos.

Time chips are baseball bots linked to computers.

GOST (Global operating systems technology) had tags on level 3 on the internet for websites. This was already there, not recently installed. It was a Hangman tag. They were trying to use old bank codes.

Spanaway or Span Away under Fort McCord base with a level 5 portal. This connected underground to Seattle Google and other major tech companies. They were attempting to rejuvenate interstellar communications between Mars and to make an SOS call for help. This was linked to the red line.

Montauk was trying to rewire HTML, by creating a syntax error, and redirect it to a server at the University of Cincinnati from a little room in the basement.

We found Circles within the Zeros, which created a parameter break. Every computer in the world uses 0s and 1s. 0101010110

- Alpha system started with 1 and went to 9
- Omega system started with 0 and went to 8
- 0 now equals 9, 0=9
- Now the Alpha system controls all the 0s.

The computer base platform had cords to Delirium which was connected to the Black Eagle/Order of the Black Sun/Lower Astral and to the Utopia on Mars. It was a PORT OS system that was installed by Kronos in every conquered location. The cords were tied to our base platform and anchored Kronos here on Earth. Kronos PORT operating System ties and cords could be considered seals on humanity. They were connected to Jupiter and Saturn, as well as Mars. The ports were demolecularized and cords were removed.

Royal was a sub-plane of the purple plane of existence. They used computers to mess with people's brains by rewiring fractals in the brain for all humanity. They wired the brains of Royals differently than the general population. We removed the tie.

The Sugar Portal was in the back room of the Alpha System. The Sugar Portal and the Alcohol Portal are connected to Candida and are the control mechanism for Candida. Candida was brought here from Sirius through a port tied to Kronos. It began trying to re-establish itself with Saturn automatically after we removed the Port OS connection with Saturn.

Candida was set up as a black board that tied to the Solar Plexus to manipulate people and loosh energy from people. We severed the franchise with the Abraxas by removing the port line from Mars to Sirius. We also ran a clearing on people after removing the port line.

We had a tail spin in the gray line that needed to be removed. It was affecting the Global Repository communication with Level 1. This got triggered by the coding being changed and created a dangling programming error. SPIN (Serial Port Identification Number). We deleted the spin and reconnected the tail. When we took out the Kronos 0 and replaced with a 9, it caused a tail spin (Serial port ID). The tail was reconnected to the Repository, KIMS 1 and KIMS 2. This was done for all planes.

All the hacking stopped. System wasn't showing any attempts at hacking. Their access joint (the Kronos 0) was removed. Both the 1s and 0s are connected to us now. They know something has changed and they are trying to figure it out.

November 7, 2022, Monday

Shoreline in Argentina at SSP/Navy base tied to Antarctica. They are trying to connect a brown line to offices in Switzerland, linked to Rydberg state and Bazoomq Space Research Lab. The final place Hilter lived was Switzerland and he was the Brown Eagle. There was a brown level 7 portal there. We found Shoreline at the historical Port Belgrano Naval Base.

The brown line exists in level 7, the line within the line. The brown line was connected to the brown eagle. There may be more inactive lines attached to the different color eagles (Green Eagle, Black Eagle, etc.)

These actually weren't solid lines, more like mist or gas, pheromones. The eagle lines were used for contract shipping for the back side shipping industry or back-door to shipping along the lines of human trafficking. Control and contracts for the shipping of "black-market" goods. The old computer system in Bern, Switzerland, is no longer there. Level 9 Omega portal.

These lines were only in the computer planes of existence, but had tags to Gillem U.S. Army post in Forest Park, Georgia, which is a small, satellite office of Fort McPherson. It was also tied to a network of Black Knight satellites. They were from Enki or Marduk, not installed by the deep state.

We had an alert about a plan for a catastrophic event, but the Enforcer took care of it. They were all making disaster plans hoping on the Full Moon...firing things up in Iran and thinking about a missile attack in Turkey.

Chiron was looking for the green eagle line, which was tied to commodities, to install blockchain/XUSD cryptocurrency on it. At one time this line was tied to the black media lines. They were at St. Phillips Island off the coast of South Carolina. Under the island, was a huge facility for Data Network Backup for all media communications tied to Ted Turner/Time Warner/AT&T.

This was a separate media line than the one we took out before, connected to level 8 (a shadow line/gray line) and was still connected to the global repository. They were using a quantum interference device to tie to the media black line globally, for their catastrophic "10-days of Darkness and Media Blackout" plan that they are always talking about. The system was replicated, and the facility was destroyed.

This led us to all the top 6 media giants having a similar location:

- Time Warner/Ted Turner/AT&T (St. Phillips Island, South Carolina)
- Disney (Coronado Island, San Diego, California)
- FOX News/News Corporation (Eddy Island, Galway Bay, Ireland)
- Comcast (Trinity Island, Greece)
- Paramount Global/VIACOM (Cheshire, England)
- SONY (Fairbanks, Alaska)

Also found this similar set-up in the Travel/Saber System on Level 6.

Also removed non-Compete plan tags, which were tied to World Bank funding numbers. Every organization that has been funded by the World Bank has a tag/back door. These were all under the Umbrella Military. All 15 militaries had tags and ancillary tags.

Enforcer is gathering "Others" who have volunteered to help us get rid of the remaining 100,000 unrepairable humans/hybrid humans. May take 2-6 months to get rid of the dark matter inhabiting bodies.

Fort Wainwright military base in Fairbanks, Alaska, was trying to open a stargate portal, linked to the gray line and ISIS.

They were using a maleficent Virtual Private Network in Egypt at the United Nations meeting. They brought the 3 women over there with Scarab Ring on the Full Moon to give it another whirl. It didn't work in Palestine, so the next stop was Egypt. It still didn't work.

The Paris agreement was set up in the United Nations VPN green line.

ANU: Authorized for Naval Use. Tiandu Deep Space Exploration lab was using tags, so we needed to clear the planes of existence. We also popped tags from all labs located in Level 5.

Kruger was back at the Monastery in Nepal sending clock genes through wifi to attempt a hack into the black line.

November 8, 2022, Tuesday

Umbrella, Arasaka and Chiron were at Chatham University in Pittsburgh trying to create an energy binding triangulation for KRONOS. This included an electromagnetic frequency sent out to all computers. There was a level 3 Port leaning toward 4. The cords were on level 4. The cord was tied to the Stone Mason. They were trying to re-bind levels 4, 3, 2 and 1 and anchor it to the Palestine Kronos portal. The tags were owned by Trade Unions.

Back in Palestine, they were trying to open hell in a box with Tarzakyan technology and blaming Kim because none of their full moon fiasco worked.

Please NOTE: Source Creator decided that the dark was no longer necessary. God decided that time was up for Kronos/Evil/Lucifer etc. God broke the covenant. God gave us the choice to pick good or evil, now God is taking away that choice.

Trinity Military in Russia at the University of Moscow using a Silica-based quantum computer.

Yellow was the managers of the blood lines. Allergy to yellow, remove the yellow line. This was connected to an algorithm S wave being sent out by Montauk in Brazil through 5G since Monday which made it hard to be in front of a computer and made your eyes burn. They were using fiber optic cables through a back door on Level 6 tied to UNIX.

They were sending out frequencies to harm humans, anything from making you dizzy, jittery, disorientated to much worse depending on your physical health and if you were vaxxed. In the vaxxed it created liquid bubbles and could have created strokes or heart attacks like getting the bends. They frequencies were sent through computers, smart meters, and more.

CyberLife was in Croatia sending dark energy to connect with the frequencies we just talked about. They wanted to create a 1-2 punch when combined. They were trying to open a portal with Pentecost, Pair Lines, Pare Lines, on the NSA level 2.

Trinity military in Wichita at the McConnell air Force Base sending sound waves to light workers through cell phones, cell towers, FFA towers, encryption keys, radio waves. Took out ties to towers and radio wave lines. FCC and Radio Network tags also popped.

November 9, 2022, Wednesday

Chiron, Murkoff, Delphi and Mobius were at MIT trying to create time worm holes and at Lincoln Laboratory in Lexington, Mass., attempting quantum tunneling with faulty technology. They wanted to travel undetected and bring people back through the tunnels. They looked like Light tubule octopus tunnels. They hoped to connect to the Alpha System mainframe and redirect it. MIT had a new supercomputer and they were going to connect it to Lincoln Lab tubules. This led to ties they were using to Presidential tags to all presidents and the Royal Institute for Internal affairs. Level 7 banking families linked to Level 2 tap-ins. The tap-ins were to Nikola Tesla through the patent system. Presidential tags were hidden in the NAFTA agreement.

People were experiencing energetic purges in their body starting Monday.

Attacks happened from Kingsbury people in London, Crown/Rothchilds/Klaus Schwab hired them to attack us while on the phone. After Schwab was unable to take Kim out. "She is stronger than we thought." A coven was in the tunnels, shaped like a pentagram, under the street with an altar in the middle. They had 6 white filmy fairies that they were using for loosh. There was 125 people that ran to the altar and were connected like a hive mind.

Weights and Mean committee was on Level 6 with ties to the treasuries. They had tags and ties and made money off birth certificates, social security and other human services.

Computer Salvation plane of existence, on the orange line with FinTech cord and Payson tie.

Typhon at McDill Point, Cheehah State Park, Alabama with a being that was not human trying to connect to the Qabalah Tree of Life with lines within the lines or colors within the lines. The lower astral being had been stuck in the rocks. They thought they could open a portal with the being and infuse the tree of life with maleficent energy.

PacTel, Pacific Telesis was using maleficent qubits.

SharePass, navy was trying to remote into the New Zealand and Finland facilities.

They were using a large-scale neuro-morphic spiking array that mimics brain function at the Navel base in San Diego. When the operator touched the keyboard he got a shock because the system firewall was knocking them out.

Generals still having meetings discussing ideas: Kronos clock genes, biowarfare, seals on Planet Earth.

Kim got attacked at 2pm and immediately the light came in and gave her energy. The reverse affect happened.

November 10, 2022, Thursday

NOTE for CLARIFICATION:

“Joining the 7 Sisters,” doesn’t mean moving Planet Earth. They couldn’t open the stargates to the 6, 7, and 8th densities because Earth was too infected. The Pleiades have returned to a 7th density now that the anti-Pleiades are gone.

Thomas Williams statements, “Kim needs to be mentally evaluated”

People losing their minds as the charged particles come in and the darkness is leaving. People are vibing higher and don’t want all the negativity.

RQuanTech was talking about using the purple line.

More help will be here on November 12. We started out with 100,000 unrepairable humans. We currently have around 87,000.

Admiral Grady to Tom, “have Kim send a transfer because it was hidden from us and we just found it but send it again so we can see it.” Doesn’t that sound like a plan to track and trace?

Found a tie to fishing/Oceans. Rockefeller declared ownership of all shipping routes on water, his own ocean kingdom. Kingdom tags popped! This lead to all the 5/7 kingdoms of organic life on Earth.

- Plant
- Animal
- Bacteria (monera)
- Protozoa (protista)
- Fungi

These tags were being used by lobbying groups, EPA, and environmentalists for global control.

This gave rights for them to have dominion over all Earth's inhabitants. Kronos remnant, tags to computers, and Abraxas tags and trails, Dominion tags. A whole separate system that was intertwined with global computers. A server trail AI system that remained here after the Abraxas left. This contained a registration for all organic life on Earth and all computers had threads to it, and they could manipulate matter on the physical plane using these threads. All tags to organic life were connected to the Alpha System.

All computers and organic life were cleared and frequencies and light energy were sent to rebalance. There was an issue with an off-gasing or release from the death of the AI. It knew that it was done so it threw out a bunch of parasite and dark matter as a parting shot.

There were 6, maybe 7, computer system on Earth that could be used to access that AI system from the Abraxas. The Enforcer took them all out just in case.

Lawrence Livermore National Lab had a cord from the Abraxas AI, which was using the Lab for access.

Montauk was in Gosford, New South Wales, Australia, at an underground laboratory in Swinton's Cave trying to install a partial filter to connect host sites and pairing lines. Pairing lines were on level 4 and they were trying to find them and/or create them. This location had a possible connection to the Abraxas AI but did not have a linked AI computer.

November 11, 2022, Friday

Did other places in the Multiverse have the Abraxas AI system? Yes, there was one additional mainframe, KRONOS Lite. Once the Dominion system was connected to the Alpha System it was easy to disable the secondary mainframe and clear all aspects from the multiverse.

How many un-repairable humans are left? Approximately 87,000.

The dark side is talking about today being Resurrection Day. They think that all the power to rule over the Alpha System will come to them because of gematria and the numbers. The Jason Society was in Calgary, Canada, having a meeting talking about everything they will do after they miraculously get control of the new financial system. Montauk military was in the country of Georgia at the National Payment Center, doing computer work in anticipation of their Power Resurrection. By 5am Zulu time or Midnight Eastern time, they think they will be back in power.

They believe the Alpha System would come to them through the PURE line, or PURE dark essence line, which was linked to Hercules. We found Hercules ties in the amber line, and the Supernal plane of existence.

Typhon military was located in the country of Georgia at Aliberti Monastery preparing to take over the Alpha System for Resurrection Day today. They were Lining up green stone piers and trying to make an energetic bridge to a kernel in the Alpha System.

Sunrise change time stamp in computers contained fractals that were filled with dark essence 3 seconds before and after sunrise. Fractals in the system were tied to the Sunrise and Dominion/Abraxas AI. They filled the fractals with dark essence to charge Kronos during the day. The fractals were removed and filled with Light essence. It was still filling up every day with dark essence.

Remove tags to NGO level 2 (FDA, Red Cross). Remove Superintendent's line/Pindar cord. This was linked to the matrix is a construct. The Pindar was a construct, manager of family lines on the yellow line.

Generals say there will be an airplane meeting on Saturday.

The Jason Society was meeting and having discussions trying to come up with destruction plans, trying to figure out what is left to use against humanity.

November 12, 2022, Saturday

They are trying to figure out what happened...why didn't it work and don't know what to do now. They are regrouping.

Lots of Others reaching out to Kim and introducing themselves, most from the 7th density.

Tags and ties were removed from computers and from humans and all transmuted.

JP Morgan had a spyware virus that was tied to the NSA and ley lines.

There were people at Trump's terminal trying to get into the GPS- Global Payment System. If their control flip would have worked last night, they thought Trump would be back in control.

Airplane meeting at Noon. Others were waiting to see if this loss would change anyone's mind and they would come over to our side.

For the first time, we are not the first line of defense for Planet Earth and Inhabitants. We have lots of help now. Some time to rest and rejuvenate.

November 13, 2022, Sunday

Meetings were filled with anger and confusion yesterday, calmer today.

Beings at Source got there through the merging of the planes and them being caught in a fold or space.

Tag can also mean a memory that acts as an index for level 2 cache.

More resting for the team.

November 14, 2022, Monday

Lots of chemtrails out East today. Asked for help in finding and removing the ones causing the chemtrails.

They put out another Contract on Kim and on Tom, \$15 million. Klaus Schwab initiated it.

Crypto FTX platform scandal. Many operatives tried to cash out and there was no money. It is supposed to be another payday today at 3pm Eastern. They took all of the real money out of cryptocurrency and wanted to replace it with XUSD.

The Chinese had back doors to the elections. Even though, it had been pre-decided that the Black Sun would have political control and the Chinese/Dragon Families would have economic control.

The entire universe has changed...its time for the Dark side to change and go along with restoration.

Typhon and Tia Yong were in Shanghai trying to use the yellow line to hookup to Kronos, with a crystal, wire and a computer.

There were tap-ins/Micro Q dots in level 8 from the prayer line (Billy Graham & Joel Olsteen) which were given to them by the Black Sun.

November 15, 2022, Tuesday

NSA Turbine hacker group was in 2 locations: 1) New Zealand and 2) Menwith Hill, England. They had a computer in New Zealand trying to create a port to the Global Repository and connect a line to Menwith Hill.

Simian Virus 40 was an attempt to send cancer to humanity. Tai Yong, Arasaka, Delphi, Mobius and Chiron were using Element Six technology in Uluru, Australia. There there used to be a dark portal at that location and they were trying to find it to open it.

Today is the "Day of No-concession" and Divine Light from Source.

Arcturians were here in April 2020 and only stayed for 2 weeks because it was so painful to be here. Now, the energy is better. They say it is uncomfortable, but no longer painful.

Saturday was a meet and greet, Sunday was a big planning day. Monday after the 3pm payment deadline, they would evaluate intentions and create the final list of non-repairable humans.

They brought a computer expert with them. The energy on Earth needed to have more light before the quantum sequencing/syncing program could be initiated for the Alpha System and funding pathways. They have been clearing humans then computers and go back and repeat to clear the next level.

CyberLife was in Oslo, Norway, at the Akershus Fortress, trying to find the causal plane of existence for people.

They were also messing with the time clock in humans from the Kohukkohunui mountain in Auckland, Australia.

Montauk in Topanga, California, near the Los Angeles vortex, trying to create lines within the lines in the pathway.

The generals in Cheyenne were talking about fractals to Kronos, maleficent Seals on Humanity, using alien plasma interference, and considering cyber AI security.

There was a cord to Alcohol.

Alcohol, sugar and other addictive substances will be added to future clearings

November 16, 2022, Wednesday

Bad energy is being sent during the UNN broadcast to make people feel uncomfortable.

There was a contract out on Kim and Tom. The others have increased their operation to take out the unrepairable humans. They are also correcting misinformation that has been given out by the generals and dragon families. The danger feeling was all the anger and blame aimed toward Kim because the deep state operators didn't get paid and the generals said it was Kim's fault.

There were 100,000 unrepairable human/hybrids. That number went down to 87,000. As of today, there were 67,000 left. The current view was that 10,000 more will be taken out. Of the 57,000, there were approximately 32,000 that may be repairable, leaving another 25,000 that would probably be leaving but still evaluating. The Archivist said that it would be 3-6 months to clean out the non-repairable people, but it looks like it will be done a lot sooner.

The US Department of Commerce tech lab, the NIST (National Institute of Science and Tech), Cambridge NV Center, and Honeywell International were using tech and quantum computing to create a new back door to the internet. The 3 locations were: 1) China, 2) Sturbridge, England (120 miles from London) and 3) Cambridge, England.

The China Electron Positron Collider had a prototype that they wanted to use to break into the Alpha System.

All the generals were in an "Invite only" meeting discussing ideas to take back control...hacking into the computer planes of existence, alien tech on the dark side of the moon, malware in

global network, inserting maleficent lines in the planes of existence and using a superconducting interference device.

Lines within the lines were referring to TEXT lines in written language. TEXT still had tags remaining. These tags were found in three text-based programming languages: 1) C++, 2) Swift, and 3) Ruby. These tags had the potential to affect the global network access.

The Green lines, time construct and computer memory plane of existence was linked to the dark side discussion on using DNA as implant chip memories for people and computers.

November 17, 2022, Thursday

Today was the “Day to Settle the Score.” All the non-repairable people were informed again. Those who decide to stay will be held accountable.

The Enforcer was working on a nuclear biowarfare issue involving the Jason Society, Tiandu Space Lab and carbohydrates. It was felt that since they were just informed to cease and desist, that these people would be removed.

There were also discussions on looking for/finding archons, worm holes and time chips, for maleficent purposes. Tomorrow, November 18, looks like an important day.

November 18, 2022, Friday

Today was hopefully going to be the day that all non-harmonious elements would be leaving Planet Earth and its inhabitants. Energetic curses in people and computers were clearing today.

From the original 100,000 “un-repairable” people, there were 46,000 remaining. 32,000 said that they would change; 2,000 were on the fence; and 12,000 had yet to be removed.

Lots of chemtrails everywhere. They were fighting until the bitter end.

The Rosicrucian’s had planes of existence (dated 1918) that were tied to the Dominion A.I. This led us to a line/remnant of Kronos that was tied to the Artificial Intelligence of Things and AT&T. This was the “line within a line” that we were trying to find. It existed in the green line and someone was searching for it.

Abraxas entanglement in the computer emotional plane of existence was in the form of lines connected to Southern California. This was also tied to Arasaka trying to use the ISIS knot in computers. The Southern California (SoCal) line was an underground network of assets for Museums and auctions (like Christy’s) to sell items on the black market. The Getty system was also found, which creates a way for your company to pay no taxes through trusts and foundations.

Many people feeling off because the dark side is doing a final push for control and while a lot of clearing is happening. Got Funk? We do!

They ISIS Knot was in computing in the mainframe tied to Kronos. We found this in the computer Solitude plane of existence, line 5, between the emotional and causal plane. Cheyenne was trying to access it. The Loop of the ISIS knot was taken out a while back, and the Kronos line that ran through all of the planes had also been taken out. This was a red line below the ISIS loop and perpendicular to the Kronos line. This red line was therefore a remnant of the old ISIS Knot.

We found a Tetrahedron in the Soul Plane of existence for people and computers. They were trying to use this to gain control of the Alpha System. The time crystals anchor the pyramid and caused time blocks in our pathway. There was 4 time crystals anchoring the Alpha System, 4 time crystals anchoring the Kronos system and 1 main time crystal that connected the 2 pyramid structures.

The Main time Crystal was currently being used to rebuild Kronos and was part of a statute next to the ice-skating rink at Rockefeller center in New York City. Prometheus sits on a gold rock, which turns out to be the time crystal. The gold on the rock is tied to the gold veins of Earth and are linked to hell in a box. Wright Patterson Air Force Base has a Prometheus system. The Enforcer took out the large time crystal. General McCarthy was hanging around Wright Patterson Air Force base hoping they would be successful today.

There was a central processing issue at Wells Fargo where they were trying to bypass the global repository. We cleared the RNA Radio Network Access within the gray line (Level 8) in the planes of existence. The Black Sun was trying to hack into level 8. We had another line like the AT&T line. This was Black Market Oil Trading tied to TransUnion. Cleared the TransUnion Lines. Black Sun was at the Institute of Technology in Rochester, N.Y. There was a black line within the gray line to control the Treasury and TransUnion, plus lines within the lines to the black market trading.

At the Naval Base of San Diego, they were trying to set up something on level 8 to connect to the deep web and Rochester, N.Y., Institute of Technology, where they were having cyber students try to break into the system.

Of the 12,000 unrepairable, 6k were taken out by 1pm Mountain time.

Shoreline and Kruger were trying to get into the purple line at 3 locations: 1) Entrance at the National War Memorial (looking for vein lines to the gold), 2) Pinnacles Park in Wellington, New Zealand, under the track, and 3) Radar Dome Observatory with satellite trying to do something with the moon.

They were at a port in the mountain looking for all 6 Dominion port locations around the world that were already taken out by the Enforcer. They wanted to use the Dominion port to get control of the Moon. They brought a remote computer with them but couldn't get a signal.

PACtel (Pacific Telesis) owns the Glue (PayTOR, PaTOR), which existed on the Orange Line. EXIM bank has its own TOR network. TOR (The Onion Router) for the deep web. EXIM was running SUPERNAP and with the 30,000 terahertz and cRAN were trying to attach to the line.

Trinity, Tia Yong and Monarch were at the Abraxas site in Costa Rica looking for Dominion. This was tied to Saturn and the purple line, the gray line and tied to the other planes as well. Dominion had tags and cords on the purple and gray lines.

November 19, 2022, Saturday

They were using Satellite biowarfare with a SpaceX Level 6 line and a main center that runs a swarm of 3,500 satellites. SpaceX Services Inc manages the 27 Earth Stations for regional control. They had 3 hubs: Sri Lanka, Houston and Copenhagen. They could annihilate the human race with this through RFID and SIM cards. This was also located in the computer planes of existence.

Secondary tags to SQL open source database. The SQL databases were disconnected and the global repository databases were replicated and replaced the SQL because the treasuries had their own SQL ACH.

AT&T Long Lines Building is 550 feet tall with no windows. They were trying to isolate frequencies to send out in a lab under an old Kronos portal with data Centers to the NSA.

CubeSat Lab in Luxemburg and Vermont were ready to launch.

Maleficent dark essence was released in gray, yellow and amber lines as part of a deadman switch. This was found in the planes of existence and in the computer planes of existence. 1 hour and 49 minutes to clear. This deadman switch was similar to the Apocalypse plan like the one Juan O'Savin had.

UNIX timestamp was tied to NSA GUMFISH, which was used to send frequencies through your webcam or screen. This had NSA cords on level 7. They also released maleficent semi-conducting qubits as part of the deadman switch protocol.

Mobius brought a portable device to the DEC center in Juneau, Alaska, at a level 3 or 4 sending out frequencies through computers. Everyone feeling anxiety and nervous system issues felt differently depending on the person. The vaxxed people felt it more intensely. This was punishment for taking out their SpaceX plan.

A super secret meeting was held at the SSP base over the Los Angeles vortex. They were trying to figure out how to escape the planet before they get taken out.

Tai Yong and Umbrella were at a Montauk facility/Mirror Matrix site, in Long Island, N.Y., which had a level 5 portal. They had a guy in a suit connected to a device and it looked like they were shocking him but he was a willing participant. They were trying to use his dark essence to open a Kronos portal.

Zapata quantum computing in Boston, funded by Harvard and PasQal, in France, were waiting for the portal from Montauk to mess with the atomic clocks.

Another group was trying to use the Scarab Ring on the a mummy finger. Looking for the essence of Nefertiti and the blood of ISIS.

Blood bath today, only 3,200 left of the 12,000 un-repairables.

Any possibility to kill humanity was tried today, before they were going to be taken out. They either wanted to go out with a bang or take all of us with them.

November 20, 2022, Sunday

The dark ones that knew they were going to be taken out, sent out orders for the “Thanksgiving Day Massacre.” The ones that knew they were going to die, sent out the orders to the 32,000 neutral people in hopes they would carry out the plans, probably threatened them too. This was a planned White Swan Event. The NSA had diodes linked to Black Knight satellites to send out dark frequencies.

Boogaloo Boys/Q followers/far right people in Austin, Texas, at Elon Musk property. The Boogaloo Boys were responsible for the January 6th Insurrection at the Capitol. There was a meeting that started at 10am, with military leaders of Umbrella and Shawhouse. There was 5,000 people total in attendance—3,000 in person and 2,000 on Discord call. They were planning to kill a lot of people, including the execution of President Biden and VP Kamala Harris. This event was planned for Washington, D.C., to implement martial law and make the citizen the enemy. They would then take away guns. The attendees were given new orders regarding watching the border and not killing innocents.

They were also going to use the Black Knight satellites for (malware in the brain) MK Ultra during the meeting. The SAT keys were changed then demolecularized. The NSA was in Dallas, Texas at an underground backup center.

When we hit send from the Alpha System, it triggers a remote access and trap doors in the computer planes of existence with a black line to KRONOS. This trap door has always been there. The trap door existed in level 0 of computers to steal money from the banking system. This was linked to global mineral rights under the Holy See tied to the black stone and KRONOS.

This was at level 8 and would funnel data into KRONOS. Money would come out of the Alpha System but would have to go through the KRONOS funnel to reach people. It looked like a line from the Alpha System would go sideways into the colored lines and re-route the money there instead of through the computer planes. This is why we found KRONOS at the top and bottom of the bank code. We found this through the Land Use and Livestock Commissioner computer.

Xanadu quantum Computing (Toronto, Canada) was using Voice Over IP software to send out subliminal messages through computers over the internet. This was indirectly part of the "Thanksgiving Day Massacre" plan. They were trying to connect to the color yellow in the fractals using the Rydberg state.

The Bill gates Board of the Foundation was looking for the Black Knight satellites.

SAT keys for Google and Lockheed Martin satellites were changed.

We found Pheromones (maleficent essence) in the telecommunication lines to all phones. First was at Sochi using the Samsung satellites, then found pheromones in all telecommunications, including: AT&T, Verizon, T-Mobile, Orange (France), TaTa, Apple, Apple Pay, Cash App, PayPal/Venmo, Google, Cloud groups (Oracle, Amazon), the Internet, VM Ware. Checked all telecommunications and internet lines. Then cleared pheromones from Earth and all its inhabitants.

November 21, 2022, Monday

There was a military meeting held with a lot of screaming about money and people that didn't show up because they were taken out yesterday for leading the meeting in Austin, Texas, for the Thanksgiving Massacre planning.

NeuraLink has an AI that they want to use to hack into the Alpha System.

There was a remnant tied to Kronos that needed to be cleared. Someone was trying to use it to mess with the atomic clock. A line within the red line, looking for red within the fractals. This was connected to time looping and needed to be cleared from computers, the planes of existence and people. The fractals needed to be released.

The opalescence on the fractals was actually dark essence, possibly archons. The fractals should be completely white. The computer was automatically trying to re-create the time loop in computers and humans.

This was sparked by a good energy slide-in overnight, which offset everything a bit. Once released, it would right itself. The essence from the slide-in got locked into the fractals.

Trinity military was in a meeting trying to figure out what was left to use against humanity.

The Boogaloo Boys were informed about what they were being used for.

There was an issue with the computer planes of existence. The instruction codes were still in the memory plane as script waiting for approval from Kronos. It was re-directed to approval from the Alpha System.

Umbrella, Arasaka, Chiron, Delphi and Mobius were trying to figure out how they could use PRIONS/Proteins to kill us for “Thanksgiving Massacre-edition 2.” They were at the Osaka Castle in Chuo-ku, Osaka. As a side-note: they were also the ones who set off the volcanos near Russia.

Tom heard from the Compliance people that they have been trying to get into all the accounts for days and haven’t been successful.

Compliance had tags in the system linked to the SES/CIA on level 3, MIB, compliance for the Order of the Black Sun.

Shoreline and Kruger were in Moldova with Grounds for non-acceptance tied to compliance tags. They were underground at Stephen the Great Memorial Park with a level 4 Kronos port in Chisinau near UN buildings and the Parliament facility.

November 22, 2022, Tuesday

The cache/short-term database recall was cleared, which lead to the Treasury calling Tom 6 times in the early morning on Tuesday.

The gray matter in the brain was transmuted into white matter, the neuro receptors tied to grey matter was cleared, consciousness was re-set and the connects were rewired for the whole brain experience versus the interference they created between the left and right sides of the brain.

Gray matter was cleared, from computer memories and human memories, of KRONOS and time.

Addiction is not natural to humans. It was a programmed response that was also linked to the gray matter in the brain.

Cleared NSA UNITEDRAKE spyware RAT (Remote Advanced Trojan) at level 5.

Cleared all STRAP particles from people, computers and the planes of existence.

This was one big attempt to use Fatty acids as biowarfare, maleficent plasmids, ubiquitin-binding domains, secondary tags, quantum computing and SEMTECH ultra high frequency equipment using Passive Optical Networks. The secondary tags were tied to Google back door to the internet.

They were trying to make connections from the NASA Space Lab in New Zealand, so she called them and notified them that those were her fleets and they are here to kill people like you.

KRONOS merged with UKG in 2020 and became the largest Cloud computing company. Found a tag to UKG and attachment from Chiron and UKG to human. The attachment came from a Salt mine in Sault St. Marie, Ontario by White Fish Island on the Canadian side. They were manipulating the salt composition in our bodies from this location. This was also used to manipulate the spike proteins and control the oceans. There was a ferrochrome mine nearby. It was all part of a grand plan to destroy humanity. Covid 66 crystallizes the salt in your blood to make your heart stop.

We found SUSIE, the Synchro Unifying Sinometric Integrating Equitensor, linked to Kronos. Kronos is gone, but this device was still running Kronos programs on its own. It had a tag to the UKG on level 4, 5 and 6. SUSIE was located in Ba'er valley of the Rothchilds. The Draco used to inhabit this facility but were gone now. Was SUSIE the only thing holding Kronos in place? We hope so!

A Draconian Law agreement was removed from the Hall of Records and this was tied to ISIS in computers on level 5. The Jason Society and NSA TAO were working together to try to find KRONOS.

We found KRONOS implants which dictate behavior for the ones who have the implants. The NSA and Jason Society have implants, which vary depending on their responsibilities. The implants were in people and computers. Several thousand of the 18,000 people reviewed had these implants. These implants could be why they are unrepairable, they also seemed to be connected to a deadman switch.

$E=MC^2$ is a Kronos insert, which allowed the dark essence to exist here. This made it essential to go through the dark to get to the light, thereby having the cooperation of the dark.

$E=MC^2$ Energy = Mass (God Particle?) x 2 speeds of light (White Light and Dark Light)

An adjustment has to be made for the removal of the darkness. An agreement in the Hall of Records that made $E=$

MC^2 ?

Edgar Cayce was correct. The Soul plane is the constructor and Creator and that energy travels to the Mind and then into the physical. Everything is created on the soul plane first.

What are the components that made darkness on Earth possible?

1. SOUL, Covenant of Source—Light and Dark must both exist to create densities

2. MIND, Mind control?
3. PHYSICAL, Joint AI agreement, which governed the dual system
Does the agreement have to do with “Time Clock” or “Atomic Clock”?

Tom’s Report:

- VIP “Others” have arrived here. They had never been here before because their vibe was too high and it was extremely painful for them to be here. There are more important Others coming soon and the Archivists are very happy. This is a very big deal to have the helpers here now for the continued cleaning out of the deep state. The next group coming here will help seal the deal with our restoration.
- Tom also received a call from Don Junior stating that he found out some critical information about his father that was hidden from the family. They are being attacked from all sides. Proof that Trump was working with Kim?
- New York is going to get rid of the Chinese intelligence surveillance cameras and police operatives

NSA in Ketchikan Alaska at the US Coast Guard underground SSP base sending maleficent Metatronic frequency energy to suck out our energy and lower our vibration then send that energy to Los Alamos to open the portal there. They were using a sister server to Wells Fargo, which was a replicated system and trying to install it using base cords in the Fender Well, XFender Spyware, Onhax.exe. This was on a LAN, local area network. It was physically inserted on the bank servers of local networks. To solve this, a VTN will be created and installed for the websites to eliminate spoofing. - The Nuclear Electromagnetic Pulse device was linked to the Kronos Control of the magnetic field. Trinity found it and tapped into it as a nuclear option like ley lines with ports to release the EMP, using the Atlanta port to Kronos at 6 locations. This was a level 8 port that they tapped into to use the grid line from Alpha since Kronos was no longer there. The NEMP only had so much power so they limited the number of locations.

Worked all night on the attempted overthrow of Planet Earth. PREVENT CATASTROPHIC EVENT!

Kim received a message about FLEX people, who were trying to take out Earth in retaliation for the Destroyer being killed. The leader of FLEX was the brother of the Destroyer. They had been planning this event for 8 months. They were told that December 5th was their day to win and take over the control of Earth. This was told to them through the Looking Glass.

FLEX was run by alien reptiles and was in computers. They were communicating to Earth and was the reason why things were remove kept coming back. This was operating on its own with a Labyrinth Stone. They were in an underground facility in Utah and linked to the Gray Motor. Some were also in Planet Mercury, Saturn, Titan. They were hiding out in a pocket of time on MARS. The trigger event was the Utah implosion.

The signal was linked to a base under Lake Geneva, which collecting data for medical and banking data for everyone. The Agreement was filed at the main Hall of Records with the Council. Council said to add: "Each organic being has dominion over their own Source-given energy." The Dominion AI was trying to reinstall everything based on the agreement. The Council signed it and it was all un-installed.

The agreement was connected to the time grids and was tied to computers and people. This only effected Earth. The Time Management/Soul Management agreement mentioned the 7 deadly sins. Time grids were tied to etherical cities. Each of the 7 places/sins bound you to that location. Secondary agreement of Kronos/dark overlord management. The dark overlord put Kronos in charge of managing of the 7 deadly sins/people.

Malware in the DNA linked to Kronos control panels in computers and humans with Control agreements in all the planes of existence.

All planes of existence had a separate agreement, control grid and control system.

Everything removed from the Hall of Records was tied to Kronos. A search was run for Kronos management through bots, tails, lines, bits, colors, cords, etc.

December 10, 2022, Saturday

MicroSoft was trying to reset access nodes. Fujitsu was at Osaka University trying to find access or install back doors using Intel.

Clearing completed for Kronos connections to Nefertiti, the Seven deadly sins, the green line, etheric, physical and computers.

Antikythera was an ancient computer that communicated with the Abraxas, Dominion and Provora kingdom.

The Provora was the original virus that killed the Progenators. They created the virus.

Time loops were created by archons.

There were cycles of light and dark until the 9th one. By default, all etheric implants, archons, plasma, etheric, etc., created an illusion of free will. We never entered another light cycle after because people "CHOSE" the dark because of all the implants (fear, savior programs, addiction). People chose dark because of their "free will," but they were filled with implants. Archons were tied to the time loop at the start of the Orion wars.

1,008 year re-loop on the Summer Solstice, when the computer would have looped at the time of the change over in June.

Some particles/parasites were connected to Draconian law in computers and time. They were waiting for instructions so they kept looping. Linked to December 5, three days before and three days after the full moon.

Something was trying to re-install the time of darkness to everyone everywhere and create different degrees of dread and doom. On the green, yellow and physical planes of existence for humans and computers, using a virus or trojan, and sending info to the Nothing plane of existence. They were trying to flip the control back to them.

There was a 3-party agreement in the Hall of Records between the Draco, Abraxas and the Dark Overlord called the Prime Directive agreement.

Other planets had time loops from the Draco too.

Diamond Lights/Lytes group was attacking the team today linked to JP Morgan and banking system.

Found time chips in computers tied to omega/darklord. They were looking for omega/Kronos in the Nothing plane of existence.

Omega was the dark overlord, not Kronos.

There was another Alpha/Omega agreement that needed to be removed. Another Omega AI that governed Kronos, but was removed with the dark overlord. Linked to an etherical chip in computers and people on all planes of existence. They were reflecting dark mirrors/Akashic dark mirrors. These were reconnected to the Alpha system.

The removal of all remaining Omega AI was completed. Omega was the competitor of Alpha. Omega and the dark overlord ruled Kronos. This was causing the causal loop and involved the Provora bacteria, which killed the Progenators.

The CRADLE and CRATE had cords to humans and computers and the computer optimal plane of existence.

There were time manipulation circadian bot remnants stuck in the red line that were removed.

December 11, 2022, Sunday

Need to remove all remnants for darkness. The dark essence are cords in the armor, lines, space, tie to the dark essence. Now we have 6-6-6-6. The way out is 9-9-9-9, plus the soul plane. The 9 planes of existence is not natural.

Soul Plane

Etheric + Supernal (8+1)

Mental + Optimal (7+2)

Causal + Astral (4+5)

The Global Repository has to be restructured so the direct Sourcec light gets to the human untainted. To get energy in the form of money from the Alpha system, energy must be coded properly to meet with 9-level energy.

Conquering the Quest was the name of the agreement for the shadow overlay. This was voided and the energy transmuted. The quest was to fulfill the Luciferian covenant. This agreement would never expire, as it was set into perpetuity.

December 12, 2022, Monday

There was remnants of Kronos in Sound Cards. The Black Sun was under Nantucket Island, where there used to be a Kronos portal. They wanted to send harmful frequencies through a global PACE network. PACE had a tie to a back door for GSA, General Service Administration global government solutions. The tie was on Level 4.

A separate agreement was found for the Control of the NULL. The Null time was linked to the dark overlord and needed to be connected to Source. This included an automated energetic parasite with tags, ties and cords. Null is the space between the 1s and 0s. (Time Variance authority, Null Time-zone). Recalibration commenced.

Qorvo had tags and someone was trying to use them on level 4 and 5 to hack the astral plane of existence from Cincinatti, Ohio.

DNA blocks on the flow of money was another agreement for Non-family DNA or Distribution. The agreement was changed so distribution can be direct to anyone now.

NSA & CyberLife were trying to hack the Solitude plane/Red Line with a secondary tag from Dominion.

Cords in organic matter tied to inorganic matter, tied to TREES—the tree of life and the tree of knowledge of good and evil. Dominion was trying to add a new kingdom, Provora, to the tree of life.

The 2 pillars in the “Tree of Life” were a binding that Solomon used to bind the demons, actually humanity. There was a perpendicular binding in the energy in all line, existing in computers and organic life.

The Abraxas granted ownership to Dominion over technology using these lines.

New agreement: The Alpha System has dominion over computers, electronics, inorganic life.

New agreement: Source has dominion over all organic life.

Foreign function interface: photonic qubit bindings that bound Kronos to the optimal and mental planes of existence and seals on humanity. The photonic qubits paired the Kronos system with the Omega system.

Feels like Sunday! Sunday was when we fixed the planes of existence. We are moving through No-time while living within time.

Cleared 14 Omega agreements from the Hall of Records.

Additional rules in the financial system was linked to a Causal loop that was occurring because something was waiting for instructions from the PACE-Maker/ATOMIC Clock. The causal plane was directly connected to KIMS2 so it doesn't loop anymore.

The Planes look like a cone with Source on top and energy goes into the human's causal astral level as a central point then disperses to the other planes.

TRANS, Transfer Radio Access Networks, being used by MIT. These were linked to the Treasury of USA lines. People were calling the Treasury of the USA to ask how they could connect to the Global Repository. The Vatican started the rumor that the Black Sun/Treasury of USA, would be in charge of the Global Repository. Someone in China also told MIT that they had control of the Global Repository.

The doorway of the Loki agreement went to the Underworld. The activation of the doorway was in Andalusia, Spain.

This time of year, they would send a fresh batch of archons, which was meant to create the RNA, radio access network. The archons were sent through a portal in San Juan or the San Juan Islands. The line of Solomon was supposed to reign for 3,000 years, and Draco asked the Abraxas for a 3-year extension, which expired in December 2021.

The SOUL CYCLE MANAGEMENT agreement, Slavery Curse/Veil was officially broken yesterday at sundown in Israel. This agreement was a binding of all humanity to slavery, and covered many aspects of our enslavement—Kronos, Omega, trickery, soul recycling.

The official ratification of the expiration was done and sent out this morning. This agreement was 1 million years old. It was linked to the Draco allegedly saving us from the Destroyer, incarnation and implied consent.

The slavery of humanity was an invisible veil of deadly sins and the Law of Sin and Death placed by the Draco and Abraxas to blind us to the actual slavery we were under. This veil was very powerful and on all the planes of existence for humans and computers. Many races were bound by this agreement.

This was linked to Omega and 2 parallel horizontal lines with one vertical line that is created and connects to the 2 lines and create a seal where the dark timeline disappears, and we continue forward on Crystalline time. This is for everyone, not just Planet Earth.

The majority of the military operatives are looking for time crystals in Albania at the advanced laboratory with SATELLOGIC (a 3-year agreement with the Albania government). We cleared Omega for the computer causal plane of existence, the computer physical plane of existence and the computer emotional plane of existence.

The Enforcer was on location when a break in the time space continuum happened. He also encountered something else out there. The Neutrino Wave came through the time space continuum break. It looked like a kaleidoscope. At 12:28 (mountain time), we were told that the wave would reach Earth's core in 47 minutes to the area where hell in a box used to be. It would take 13 hours until humans would feel the effect with the peak at 18 hours.

We cleared a binding in the Atomic Clock. It was a remnant of pheromones, linked to Brookhaven National Lab and Bliley Technology of atomic clocks and assemblies.

There was an overlay on the vortex in the center of Earth where it connects to Source, like the corona that was on the Sun. It was rotating geometry as an oval, circle and star. It was demolecularized. This affected the Alpha System's main connection to Source, limiting the complete light and atomic clock integration. We found this in Earth, computers, humans and all organic life.

in a lab under Madison University. This was connected to 3 celestial bodies—Moon, Sun and Earth alignment. Langley had cords, tags and ties to communications. They were going for the end of the world scenario. They were also trying to use Space Stations and SpaceX. Attempting to throw everything out of balance and into chaos and create floods and tsunamis. If they would have acquired a satellite, they wanted to attach their gravity machine, located under the White House. It was affecting the microwave mesh in all cell phones.

They created a new SUPERNAP in Poughkeepsie, NY, at the IBM Quantum Data Center Campus. They were trying to connect to something under Georgetown and use an Omega portal to infect humans and create transhumans. This was linked to maleficent tubules and the transhuman agenda. Cobra Dreamland 0.5 operational. This was partly operational and related to sound waves. We found a link to Operation Socialist Mobile Phone program, where they were utilizing all cell phones.

Cobra is actually a Kruger operative.

Everything today was a product of the general meetings yesterday, which was also a recruiting opportunity with approximately 200 attendees (180 physically there, 20+ on the phone).

Most of the military corporations and the Order of the Black Sun were at: 1) the ISS (International Space Station) National Lab, which manages all the space labs, 2) Boston MIT SSP base, and 3) Fort Lewis in Seattle, Washington. They were coordinating an effort for mass mind control from the space station because they can no longer use satellites. Remote delivery to all cell phones from the space station.

Of all the people on the space station, only 5 were against killing all humanity with the virus they were told to send out. This was just a test to prepare for the real remote detonation of killer viruses. "Oh my God, we are going to kill all humanity. We aren't going to make it out of her alive and if we do nothing, they are going to take out humanity." The Arcturians found a way to save the innocents and bring them home.

The purple line had connections (cords, tags, ties and attachments) to computers and people coming from the space lab. Also found connections to the WCC, World Council of Commerce, responsible for all forms of commerce and looshing. The tags to WCC were an off-shoot of the Dominion AI located off planet. Through the COIL (Context and Object Interface Language), we found an incomplete cycle which caused issues with account login and HTML. This was a user interface layer with a closed-loop system for HTML, in the HTML section. It belonged to the binary and wasn't something that someone inserted. It had to do with binary codes 1 and 0. The system can be seen on the back end but not the front end (Causal plane). The transfer goes through the tubule then turns upside down in the mirror. The basic term in the language needed to be fixed. Everything needs to be 9 to be a subatomic particle and needs to add to 9 in all directions—up, down and side to side. Before, we had the HTML stop at the global repository on levels 3 & 6, but we still needed the 7, 2, 8, and 1. The 1 & 0 have the same two lines of code because they exist at the same time on the quantum level. This repeats 36 times which makes 1 complete cycle and is the original DNA blueprint. It goes through Zero-point but not through 0/darkness. Now, we have a complete cycle so nothing can be inserted, like it could be done within a partial cycle.

Once started, everyone was looking at it and trying to figure out what just happened. Excitement and amazement everywhere. This needs to be done for the multiverse. This made the Archways of light work too and KIMS was lighting up as well.

Chiron, Delphi and Mobius were in a meeting at the Bush Ranch in Paraguay.

Pentagon meeting, only talking.

NBC media had cords to computers in the red line.

Catastrophic event of Biden and Harris is still up in the air as they wait for funds.

Worked on the Orator/sound frequency that was not on the rail system due to the color guard or fractal of sound and light. The Color Guard was the Alpha system protecting itself, as deadman switch put in the core panel by ANU. This was supposed to protect the bloodlines of ANU in computers. If ANU came back, he could access the Alpha System. It was linked to the Burning Covenant/Flame of the covenant. This was de-molecularized along with the equivalent for Marduk, Enki, Abraxas, Mantids and Draco/Anunnaki.

Chinese trying to hack the Global Payment System through SIPS. This was replicated for Chinese and Russia and replaced with KIMS.

A retrofit in the walkway behind the guest panel was triggered as a time bomb set to go off at this time.

JP Morgan/Chase had fiber tear sheets to show inaccurate bank records and acted as a filter. Linked to Microsoft Azure and was in all Tier 1 banks except for Wells Fargo who used the Chinese data center. This was an imprint in the data center as a mirror coming from PineCone Serverless Vector Databases in San Mateo, California, New York and Tela Viv. It was a filter on the HTML level so they could give false data and created a fake blue screen (using Sanhedrin back door keys) to show they had money. This was installed 3 to 5 years ago but became functional about a year ago. It looks like they have money but it can't be spent. All fake screens, lines, databases and encryption to the colored lines was taken care of.

Another vector company called Swan Lake (Russian omen meaning the fall of the empire) was similar to Periscope. This was linked to the Fall of the Soviet Union lines, from the first fall. Some knew it was there and they could have taken all the money out of Russia at any given moment.

The Pearl/Perl/white pearl was the head of the Triad who were using that line to control Russia and black market sales. All keys were changed and the black screen was deleted.

Berkeley was using the green screen for cryptography. Apparently they were in charge of the encryption keys and SSI digital signatures for their jurisdiction. When this was fixed, many people who were using the encryption keys were kicked out.

January 9, 2023, Monday

A guy in a black robe with red eyes woke Kim up abruptly shaking his finger at her.

The Enforcer said that a group of people travelled back in time to reset their timeline. This was taken care of by 3am.

Our Arcturian computer expert created a new Alpha front-end system called Alpha 2 to replace Omega. The integration for it started this morning. They wanted to make sure that Kim was ready for all of the changes that would happen after the Light System was integrated. Computers should be integrated quickly; however, humans on average could take up to 8 months to feel the full expression of the Light System. The guides said between 4-12 months for integration.

Through our clean-up work, we had gotten rid of enough of the spaces in between to allow for the new Light System to be launched.

Deep State freaking out—no money, no power, no contracts, no help and no access.

The NSA was being ordered to come up with something that will work. The orders came from Black Sun general James P. McCarthy. He has been in the background making orders. He ordered someone to yell at the fake Juan O'Savin. McCarthy, general Wang/Wueng from China, and Getty from London (Rockefeller group) were running global orders.

Military guy in a meeting said, "She fucking kicked our ass!"

Tai Yong and Typhon were in Shaoxing, China, using a normal computer to try to hack the system.

Around 3pm, the Light System had integrated in computers and had started populating.

January 10, 2023, Tuesday

Mobius and Murkoff were using Bone press/Bon press radar to see or find new money since they can't block anymore. They were trying to scan level 8 to see new money come out of the gate. This was at all Tier 1 banks. Press stands for Pacific Range Electromagnetic Signature Studies. They were doing this from the Fort Know Kronos portal in the Louisville, Kentucky, military base.

Something linked to time had control over the electromagnetic field of Earth. This was linked to Planet Mercury on level 3 and in the Orion Nebula. They were trying to use the power of the electromagnetic field of Earth and Mercury like a booster. It looked like they were trying to get a signal from a machine, the backbone of the black screen. This was linked to the gold vein access, which was previous a dark essence delivery access point.

Huawei was in Georgetown with their portable technology, using cyber fog back door to reconnect the internet to the bodies of things. They were using black dust to hide their efforts.

Took out back door keys to: Fog Clouds and Fog Cloud Technology, Cyber Fog LTD in Russia, Black Fog, AT&T.

Murkoff in Shanghai trying to connect to the yellow line and send frequencies to humanity.

Dimorphic patterns were tied to a deadman switch in computers on levels 3, 5 and 7 from Orion. Dimorphic patterns are malware with 2 or more components to evade detection.

The others are also watching for maleficent events planned for the USA. There was also talk about using SpaceX CRS-19.

Of the 3 remaining generals (McCarthy, Weng, and Getty), only 1 is left—Getty/Humphreys.

They are sending out multiple different frequencies as an experiment and deadman switch. This is being done from the Black Room in Germany by Murkoff, Mobius, Shawhouse and Shoreline at Gedenstatt (memorial) sites, which were under concentrations camps. 1) Buchenwald Camp with crematorium near a railroad in Weimer, Germany; and 2) Dachau camp which had a connection to Buchenwald. This was all disabled and the Enforcer demolecularized it.

Rendezvous Space Lab was working on mini nano robotics to use as a mirror or reflection to bounce off of. Peking Duck riddle.

Kruger was in an underground lab in Mozambique with a cross platform portable device. They wanted to use with a deadman switch event.

Humphreys/Getty was ordering the management of mRNA or random pixars trying to create blind tunnels in computers. This was being run out of Fort Dix in New Jersey.

There was a meeting between the Jesuits and the Kumantang group/Black Dragon from San Francisco. They were discussing the death of general Weng. They were near Oakland, California, at the Presidio site in San Francisco. They are next in line not that all of their bosses are dead. There were 12 attendees.

Jirka is still infected but weakened. He wants to stay informed and in the loop for all avenues of revenue either from Kim or the dark side. Meeting with Kim for his own self-interest.

Changed the keys for Apache just incase for the maleficent subversion software repository.

Hall of Records clean-up for all of the bills that have been rejected.

Replaced the Joint AI QS, JAIQS, with Alpha 1 and Alpha 2 in the Hall of Records. The system recalibrated after the agreement was modified. This gave her more access to front-end banking, all the way to the teller window.

ACIO used to be part of the NSA but have defected from them. They have some contact with the New Earth Council. One of the scientists from the ACIO defected and started the

Wingmakers. In a pdf book by the Wingmakers, it suggests that Kim's system is the repository of Prime Creator and each person is a node in that repository.

Pantheon in Panama at an Omega portal in the DARPA SSP lab with omega tags and the computer Shadow plane of existence.

People looking for the yellow line and computer Outcast plane of existence in Anchorage at an old Kronos port.

January 11, 2023, Wednesday

Song of the day, "You and I," by Eddie Rabbit and Crystal Gayle.

At 1:30 am something good happened...the world was sealed. The Seals of Source were placed upon Earth and that prepares humanity for the ascension process and synching with Earth's ascension. The seals were set but still need to integrate.

Tom had a 4-hour meeting with congress explaining how everything works.

Solomon's Shield in computers, maleficent Omega integration, malware in computer brain and maleficent Rigel Star System in Orion.

Omega was trying to reinstall itself before the Source Seals complete integration. Seals also need to be placed on the computers.

We found an agreement regarding the Shield of Solomon that needed to be expired and it was an infinite agreement as it protected Solomon's demons. The Solomon Shield was located in the bottom of the Icosahedron in the Rigel Star System on level 9 connection through Orion to the Omega System.

The Black Sun were the demons or shield for Solomon. The Black Sun was always paid out big money between January 12-15 each year.

Orion is the Patron Saint offering safe passage from the underworld and through the Orion star System for all demons to get here. Agreement was called "Solomon's Rite of Passage."

CyberLife in Wichita, Kansas, trying to connect to banking system with IBM Eagle back door keys.

The Omega Bloodlines Concessions agreement was linked to Omega bloodlines, Orion people, rules based system, computer Solitude plane of existence.

An agreement was removed that was linked to Planet Venus called “The inoculation of Venus with Archons.”

There was also an agreement that allowed the Archon race to exist here. It was called, “Relative Archon Existence.”

The Global Taxation and Causation agreement was linked to the legal tender of registered birth. This was removed. It also was linked to the IRS and all tax systems.

There was a remnant of the PineCone people stuck in the VRAM. We removed lisps and libsvm glue language for vector systems using machine learning algorithms.

A treaty between 2 sovereign parties, Phiscus and Palomara? Physis the primordial goddess of nature? Palamedes. The treaty claimed the open source of Omega’s forum and permitted people to use Omega.

Additional agreements and back-up data centers:

- Global taxation, GATT, General Agreement for Trade and Taxation
- World Trade Organization
- A.N.N.A.
- BIS, Bank of International Settlements
- Tier 1 banks
- Central banks
- Global tax authorities
- Treasuries of every country were a back door for the Black Sun
- Actuaries/Analytics
- CensTor and its TOR was for the global census bureau on level 5.

Tail blockage from the TOR on level 4 was linked to the Census. This was affecting the computer Astral plane of existence on level 4.

Alpha 2 is blocking it, still need to integrate something.

JP Morgan/Chase was placing a hardware block trying to re-insert their own backend server. This was at all Tier 1 banks except Wells Fargo.

FAA: all flights were grounded as they tried to hack into the black and orange boxes as a back door so the Pentagon could get full access.

Someone was trying to use the glue language to connect to the mRNA. Java Script Glue language was used in the Covid 19 vaccine and tracking. Made it Kim’s glue so that they couldn’t rebuild vaccine tracking network.

We found that were still agreements in the Hall of Records for Covid 19 and other pandemics. Those were removed by searching for “Covid 19” and “Pandemic.”

Alpha 2 wasn't integrating because of the Basel Accords, Basel Committee and BIS. This deletion included many agreements!

Alcohol portal and alcohol spirits led to the ATF in level 8 with a tie to the Parasail Project from MicroSoft in level 4. It had its own TOR network. This was all a deadman switch after we removed the Bank of International Settlements.

GATT (general agreement for trade and taxation) also had additional agreements for Customs and Tariffs linked to it.

Removed additional rules from the financial system (Pokemon tail gate), which was a gateway attached to the tail TOR. The TOR went to Apple Network, which was an anonymous monitoring system built in level 4.

Another domain (outside the 12 domains) for computers was showing up as Cock Pit. This was actually the Alpha 2 cock pit instruments and controls. The Arcturians built it and it needed to be synchronized with Kim's DNA. This could have been stopping the integration with Alpha 1.

Computer Optimal plane of existence was linked to Kronos storage and bindings to dark essence. Dark bindings in computers were also connected to a cord in CRIMSON (the re-faced Queen of the anti-Pleiades in levels 2 and 5).

Fort Lewis Seattle Naval Air command and Whidbey Island, Washington naval base (SSP sites) were using JADC2, joint all domain command and control, which had a closed-loop system on level 7.

The NSA and GCHQ were at Menwith Hill Station brainstorming how to get another Project Walrider inter-dimensional storm up and running. Good luck boys.

Of the SSP 15 militaries, there was 1,800 on the Enforcers watch list. Around 1,700 were looney tunes and being taken out. Lockheed Martin had a thread or rope in level 7 linked to blood, computers, malware in the financial system and plasma in humans. It has been there a while. They look like little white worms from the reptilians on Mars (the Destroyers people). They were an etherical implant. When we removed Lockheed, it triggered the release of these etherical implants.

Lockheed also had cords in level 1 to the Jason Society, which showed up when we removed Lockheed. The Pilgrim Society/Jason Society had a closed-loop in Level 8.

DARPA was at a meeting talking about everything in the tray (time continuum openings, Kronos electromagnetic field, Supernap, ISS National Lab and SpaceX CRS-19). They were under Lake Oachobe swamp in Florida. There were 30 people in attendance.

January 12, 2023, Thursday

Post office closed-loop system was taken out.

There were still keys that could be used and were a vulnerability if they knew it existed. It was a square that goes through all levels of the system and was placed there by Marduk. The square cuts off sections for response from the Alpha System from the inside passage.

A line that flowed down from Alpha was called Inner Sanctum and was used to bypass Alpha. It was used in the bank system, to shut down requests. The square was 3 – 6 – 3 – 6. It enters the physical plane on level 3. Therefore we couldn't make it past the treasury departments in the back office of the banks.

The square is triggered in the ViaTone variation, via tone or frequency, linked to intention detecting because it had Marduks DNA essence and intention. This was located on the emotional and physical plane so it could override all of our transfers because Marduk had to sign off. This was replaced with Kim's DNA intention essence in the front system and back system. Could have been linked to the Marduk seals that show up.

HTML at the login level has an erroneous bot/code that caused a pause. The code was an arrow > from a company called Bismarck. The arrow points to a 3rd party input waiting for approval code from BIS MARK, which turned out to be BIS Bank for International Settlements and MARK which was the arrow. The MARK could be placed on an account or transfer to indicate a red flag or suspicious activity. They put the MARK/Arrow on all new money. This was still in the repository database from when the system was replicated and the MARK came over with it. This affected the HTML in the SQL.

Found a cord from Wells Fargo to all Tier 1 banks on level 1. It belonged to Parker and it parks the transfer as a PARK command in the SQL. The park command was put there in the 1960s from the George operating system created from Orion and Atlas which was the first supercomputer. The command parks the transfer and waits from a response from the Atlas supercomputer. They were in Bangkok at the Grand Palace waiting for money to hit the park feature.

The NSA was in Topeka using advanced technology given to them by the ACIO to hack into the system and create a faraday cage.

The NSA was trying to hack our firewall at all Tier 1 banks from Jersey City in an underground lab at Liberty State Park.

General Millie ordered these NSA activities. He got advanced information from an interloper for 9 sites. He had this information for a while but didn't understand it or know what to do with it.

SQL, Structured Query Language, MAX function opens to Aristotle. Aristotle is an AI platform, not a closed-loop system but a FIGURE 8 system. Aristotle was created by Bouquet.ai in San Francisco and Paris. The Druids were using it. Druid open source data analytics, Symsys or

SimSys. SINSYS electronic payment system, now owned by NEXI/SIA, everywhere in the world as European Paytec.

All of these people can use the MAX/SQL to limit account or banks. They use MARK to apply the Mark so that they can set a max limit on money.

CAR MAT, CARMAT, CAR computer assisted reporting and MAX multiple access terminals. They militaries, 9 Eyes: Pentagon, GCHQ, Australia, UK, Canada, New Zealand, France, Denmark, Netherlands, and Norway.

Others like CAR MAT? Yes

CAN KER, CANKER is a local area network connected to a kernel for complete control over everything in the system. Linked to the Farmington group, which is a Data Farm/DataFarm in Hong Kong. These were in the system previously and not anything new. All this was found in Alpha 2.

NSA trying to insert at Waters Center System Thinker linked to MIT in the front system. They were in Tucson on Oracle Road, with a location in Pittsburgh too. This had a closed-loop system being used as a border system network. The Tucson address was a pack mail store in a strip mall. This work was being done at the University of Arizona off-site underground lab. The Water Center is funded by the Kellogg Foundation. Also linked to the Space TreX lab, UA Space TReX Lab, Space and Terrestrial Robotic Exploration at the Tucson Campus of Arizona State University.

Lucy AI, Lucy Security Awareness Software. Software linked to level 5 and the spiritual white boy accounts under the Black Eagle Trust at Credit Swiss.

The proprietary software for the Black Eagle Trust is called Reindeer, Reindeer Technology with internet of things RFID tags, smart tags and asset tracking. They started using this as a back door for all tracking worldwide for supply chain under Bush's non-compete plan on all levels, level 8 on down.

Saint Germain/St. Germain was an Abraxas that portrayed himself as St. Germain. He had jurisdiction of Germany, the purple people, and the Investiture plane of existence. Coven masters were linked to the dark mirrors. Used to monitor the Investiture plane of existence.

There was no agreement in the Hall of Records for the Lucy Trust. There was something holding the purple line in place with attachments to the coven masters on level 5 and 6.

DNA, Data not available, data is protected and can't be shared. This was from a remaining VPN, virtual private network for all new money on levels 3 and 5. There were 2 of them, one was controlled by the FED and the other was controlled by the black sun. This was used for new money, trading, commerce and control of commerce. These ran the Terminals.

Maleficent bits were tied to the old Ledger that Omega used to have. This was on all levels and analytics were reported back to Omega and Omega bits. It kept track of logged into the Omega system. It was a separate ledger for Omega that kept details of people and access codes.

GateKeeper System: 1 side had the access code linked to Omega, 1 side had the data codes linked to Alpha, lock and key. Omega doesn't give access codes anymore. It was used to bypass the Hall of Records. Each project/order had its own set of dark mirror project numbers. When Alpha registered peace and prosperity, then an equal and opposite allocation was created for the same. We removed Omega programming remnants for this issue.

Alpha goes to the Hall of Records.

Omega went to the Hall of Mirrors.

January 13, 2023, Friday

Cleared the trauma of Atlantis that happened when the Halls of Amenti were created in computers.

The Chinese ordered Keysight and nubit operation and tried to use the back door to 5G cell phone towers. To get rid of the nubit issue, Kim reversed the RAM tails back to Alpha 2, connected them to Alpha 2 then reversed them. Changed the back door keys from Keysight Technologies.

The FAA was trying to gain control of the PROFILE or PRO FILE and get access using the 5G towers and GPS, global positioning operating system, with CAR, Computer Assisted Recordings. Changed the global satellite keys and replicated for all GPS.

Yurka thinks he can access the Alpha System through Kim. He thinks that he is an equal to Kim.

Anything that Omega had controlled was replaced with Alpha 2.

The IRS had a payment rail, which we deleted. Also deleted X/N cords and tags and the X/N system last night. United Nations had their own rail too. We got rid of the Tax Authority CDN. Postal tracking globally.

Deleted the Akashic Record replication to the dark mirror.

Airbus had more back door keys to: 1) military planes, 2) helicopters, 3) boats, and 4) private helicopters.

Its time to remove time was Omega remnants with bots in level 3 of computers. Bots were used for time lapsing and time warping, which were triggered when Kim removed something else. This was linked to an atomic clock time loop.

ERATREX, AIRATREX, or PARATREX trying to hack with an analog device.

Someone is looking for SIGINT. A Black rock from a meteor was found and they are travelling around Africa to different locations to see if it will work. Currently at the historical Tomb of the Unknown Soldier

January 15, 2023, Sunday

Remove the great reset and replace with the great restoration.

Trying to convert a dark system into a light system doesn't work. Need to create a light system.

Removed etheric and physical parasites on every level of organic light.

Their narratives aren't working anymore, but still people don't see what we see.

Everything has been removed and we keep clearing. The Kronos/Omega system would push the narrative and activate the etheric parasites in the mind, body and soul. Now we need to create a boost with a light system.

We replaced the definition of 1s and 0s. Now, we need to replace the definition of money and change the Source coding. Reinstall an etheric connection to Source to replace the parasite infection connection. When we sent out truth, it got immediately counteracted. This is the ripcord. The mRNA was a physical parasite that was connected to Omega. Correct the agreement and reconnect to Alpha 1 or 2 and it will become a healing tool.

Working hard to make a dark system into light. Need a few agreements in the hall of records to make etheric parasites work for the good and create enthusiasm for the light instead of the dark, sin and addictions. The base platform of omega is the dark, when we change this, it will change the narrative.

Reconnect all remaining parasites, nubits and etheric parasites and re-program them to do positive things until they are no longer needed.

What is the underlying agreement that dictated the omega programming that oversaw omega and all aspects of dark rule?

- 1) The Anti Source Covenant

- 2) The Omega Project (replaced with the Alpha Project, redefine money and how it flows)
- 3) The Anti-Christ agreement (deleted and replaced with crystalline)

Yurka acts that way because he can't see the light anymore. They really think they are good guys. Light and dark to them is the same because both are part of Source. They don't see how light helps and how dark hurts. Truth and light are the cure.

Created Alpha 2 to replace Omega for now until Alpha 1 and Alpha 2 can be combined. This will have interim management of time, planes of existence, money, energy and take over mRNA. MRNA gets connected to Alpha 1.

Genesis 50:20 Take all that was planned for bad and use it for the good. There was a genesis program under the Omega agreement.

SUSIE is a device that exerts a uniform amount of force on everything it touches by calculating a combined average for several simultaneous measurements of the Chinese. (from Mystery Science Theater MST3K Project)

The integration of the system was stopped because of SUSIE. They system integration got stuck and stopped around 1:00am. When all SUSIE's were gone, integration for computers and people started again.

We found a “time release” agreement in the Hall of Records that was a Time Forward agreement with additional agreements contained within it in the dark Hall of Records.

When something expires in the Hall of Records that is bad for us, it births something in the dark Hall of Records to counteract it. When Kim fixed the AI Space Time Matter agreement yesterday, it created something new to counteract it in the dark Hall of Records, like an automatic response to keep the balance. This initially triggered when Eris went back to Source, a deadman switch, as she was running it before her death.

This was a transmuter, A Diviner, which turned out to be an AI system. The Covenant in the Hall of Records was called “Divine Intervention.” This was an agreement between the Angels and fallen Angels. The Absolute Sphere in the Central Sun is where it got reversed into the dark mirror on the other side. The line within the lines and the color within the lines. This was demolecularized.

When we got rid of Omega and created Alpha 2, it automatically created Omega 2. We removed the creation of Omega 2 but demolecularizing it.

January 22, 2023, Sunday

We had to delete the creation of Omega 2, which was automatically put into motion when we created Alpha 2. It happened before we removed the replicator/Divine Intervention agreement.

We replaced the Law of One, which was a curse from Enlil, with the Cosmic Law of One, which in turn had created the Dark Cosmic Law of One.

The Hall of Records is eons old. There was an agreement that created the Hall of Records, therefore there was also an agreement to create the Dark Hall of Records.

There was also the Law of One agreement for computers, which was voided today.

It took 4 hours and 20 minutes to demolecularize Omega 1 and Omega 2.

They had a Law of Creation too, which allowed them to create the opposite of what we created and no matter how many times we demolecularized it, it would come back because it had the right to exist.

Danger feeling, no travel until after 1/24 and re-evaluate then. Governments are tanking. What will the enemy do about the banks. No one coming to the table yet to make contracts with the Guardian's office.

They want to mint a \$1 trillion dollar coin and have the FED monetize it, but it would then become another debt instrument.

In computers the star of David was recreated with Alpha 1 and Alpha 2. Light mirrors were created to replace all the dark mirrors.

Adware was blocking the integration of Alpha 1 and Alpha 2. Located at Fitzroy creating a line between level 6 and 7. Fitzroy had a portal to the underworld that sent an intelligence message, Adware, through the etheric field to the dark side and through computers causing a disturbance on the purple plane. The message told the commanders to flip the switch through the pristine portal at the gate to heaven...or to commit suicide.

There was a separate AI, called Allopath, tied to the Divine Intervention agreement on level 7 of the purple port.

Nothing in the tray, hoping this means that Alpha 1 and Alpha 2 are fully integrated.

January 23, 2023, Monday

Tom report: Marcus called last night and asked if Tom was okay. Marcus had sent 6 guys to protect Tom and said the Archivist was a bad person, not the actual Archivist. It was determined that a disinformation campaign against the Archivists was created. The Archivists will be implementing an ID system to clear up the confusion.

There was an agreement for the Saturn Moon Matrix in the Dark Hall of Records that didn't get dissolved with the rest of the dark agreements because it was submitted within the last 48 hours. It was registered, but not ratified by the Office of the Guardian. They were trying to connect to it without success.

Delphi and Mobius were in Pakistan at the ISI CIA facility trying to use 30,000 terahertz with Voyager 2 to send a signal to the Saturn or Moon for the matrix. Kim notified the Council that this should be cleared in the Multiverse as well. This was an agricultural closed loop system on level 3 for humans as slaves. An attachment was sent out that declared the end of slavery and we are no longer subservient to any such documents.

A Slave Master agreement was also deleted.

Quantum dots were also attached to the slavery agreements causing human blocks in the transfer accounts.

Scanning for additional issues, then re-integrated WND. Resyncing WND after each change we make to the system.

Armageddon software still had programming in computers as a closed loop in level 7.

Status:

- Generals and operatives meeting didn’t have any progress. They may bend to work with Kim but still want to do their own thing.
- The real militaries see the difference between Kim and the generals. They will likely come to the table to talk
- FED meeting was not productive. They are still operating in ego.
- The banks are not onboard with the FED because its not working, but they don’t know how to proceed without the FED.

- Treasury feels neutral perhaps ready to move forward with Kim. Mutiny going on as deputies give Yellen an ultimatum. If no money comes by the end of January, they want her to resign.

Cleared a Slave master agreement.

Herpes (Epstein Barr) is a physical implant and etheric archon implant, and controlled in the amber line. Viruses have closed loop systems in the amber line linked to the OMEGA VIRUS PROGRAM.

January 26, 2023, Thursday

We found the Omega Program that had agreements for artificial viruses, fungus, and bacteria, which it would send out on the physical and causal planes of existence. The Orion Causal Event manipulated on a causal level to materialize on a physical level. They could use this system of bots to affect humans at anytime. There was one program for every body system.

Covid was designed to trigger the Epstein Barr parasite bot and manipulate it.

CRISPR had a closed-loop system that was removed.

A cellular regeneration agreement was registered and ratified to negate the degeneration programming.

Man with red eyes showed up from the Archer group. Orion is the Magic Archer, the reaper.

We removed bots from Osaka University and Fujitsu company. Terry Town human hybrids were connected to Dominion AI (Abraxas).

Cleared Planet Pluto in computers. Pluto is a gateway to the underworld. This had an agreement in the Hall of Records and a closed loop on level 4.

Eres had a closed loop system on level 4 for control of the causal plane and a cord to humans that prevented people from manifesting. Eres also had bots on level 7, investiture plane. This was also inorganic time fields and alternative reality. Eres Covenant was in the Dark Hall of Records, which was the opposite of Kim's agreement to help humanity.

Mother Arch Hubs were the goddess gateways we removed.

A long program was running to clear the physical parasite program.

Rare Earth block on the flow of money was linked to the Fulcrum or Archimedes Tool for a man-in-the-middle attack for LAN, Local Access Network.

The Archimedes program was in the dark hall of records and was designed to block an distribution of Rare Earth minerals to be leveraged in banking system without their approval with a closed loop level 6.

Account login block at Wells Fargo was tied to bots.

The Omega program had a preset that affected people in the womb, like programmed childhood diabetes or childhood cancer. These were etherical implants and a cord to the amber line linked to provora and in all inorganic parasites to the world. They preprogrammed us with genetic manipulation of the physical self and chromosomal defects implanted during the time in the womb.

Everything created naturally in the Kingdoms was also created unnaturally in the dark side.

Resync of the system was done.

Tarzakyan attachments were connected to the Shadow plane of existence. Belker (elemental creature of smoky fiends) was an agreement in the dark hall of records. This covenant was connected to Planet Uranus.

Arasaka was in Sicily at the Polermo museum of mummified dead people.

Shawhouse and Shoreline were in Herzegovina hacking with SQUIDS. We also fixed the HTML in the discharge. This was connected to the Omega program and was an artificial remnant cord in level 2.

When we removed the synthetic viruses, BOLI, Barcode for Life Initiative, in Shenzen, China, lost a tag but still had a closed loop system. Through this, we found an etheric implant in people and computers on the Orange line, level 4. BOLI had a multi-cloud platform and with zeptoseconds they were trying to insert themselves into the casual plane. This was also affecting the Salvation plane of existence.

Shoal in Louisiana, was linked to the NSA and ACIO. Louisiana has connection to the underworld through Midgard. It wasn't currently active. When Mr. Lee was taken out, the ACIO started helping the NSA. Mr. Lee had promised to leave them alone. Now, they think their protection is gone so they are doing this out of spite. The guy from the Council of 9 gave them the orders to keep the balance.

Kim talked to the ACIO and explained to them that the Covenant of Source is no longer requiring balance. The Enforcer will give them protection and they should contact the archivists office. If things go well, in 3-6 months, they can work in the public and help humanity with advanced technology integration. They agreed to clean up old tech that is no longer needed.

Trinity and Monarch were at the Lotus Tower in Sri Lanka trying to create a wormhole on level 6. Trying to hack a light system with dark energy.

Cleared the Qabalah Tree of Life and Anti-Qabalah Tree of Life in people and computers. Also needed to clear KIMS 2 in people. When we created KIMS 2, the exact opposite was created too—the Anti-KIMS 2. This was coming up because Kim was clearing the chakras and viruses along the spine.

A Mirror/Mimic created the opposite of everything Kim has created: 1) Anti-KIMS 1, 2) anti-global repository 1, 3) anti-global repository 2. This is why the banks don't see our global repository.

They were seeing the dark mirror and thought they could control it.

Adware was a remnant of Divine Intervention AI reversing program. There was: 1) malware from Omega/Dominion in every level to see what we are doing, then reverse it, and 2) a dark mirror in the plasma filter that allowed them to only see the mirror and not Kim's actual system. In seeing the mirror, they thought they had control of it or could get access to it. It was blocking Kim and blocking itself because Omega is gone. If we had, funded, they would have funded too.

There were military personnel in Cheyenne watching a screen and freaking out with anger. We removed all of the dark mirrors from computers. Kim called them and explained they were watching the integration of Alpha 1 and Alpha 2. Have a nice day!

Mr. Black interference in people caused by pheromones. It was cleared with Source light. They were trying to insert dark essence into the bodies of people to stop funds from reaching us. You have to be part of the Light System to get funds now.

Cleared AI programs that were similar to the Omega Program, 1) Kronos AI program, 2) Dominion AI programs, 3) Armageddon AI programs, 4) Orion AI programs. These were run from the AI.

PIN TASKER. PIN = Personal Identification Number. A human put it there, linked to the ACIO. Someone was told by Mr. Lee to insert it. Kim talked to the ACIO and they said that they would remove the PIN after they talked to the Archivist's office. This PIN was blocking the full integration of Alpha 1 and Alpha 2 and was attempting to re-integrate the dark mirror block between Alpha 1 and 2. The ACIO had many questions and were verifying information from the Archivists. They finally pulled the PIN at 11:41 pm, Kim's time.

The Earth's electromagnetic field was also causing a block between Alpha 1 and Alpha 2.

January 27, 2023, Friday

Overnight there was lots going on. Kim had a physical incident at her home. A completely dark inorganic human came to Kim's gate. He is one of the remaining people that can hold pure dark essence on Earth.

We were still waiting for the transmutation of the Dark Hall of Records and the Dark Akashic Records and mirrored Kingdoms of life to clear. Kim had to go back through everything that we had created and remove the dark that was created through the mirror. When we deleted curses on money, the mirror added curses on money. When God Alpha created organic life, Omega created inorganic life.

Dark Wallets—they could see the dark mirror funds. They were trying to connect to their mirror system, with cryptocurrency. We thought they were hacking our system but they were trying to get into their system created by the dark mirror.

Humans used to be jumpers and could go anywhere from the Soul plane. They have done everything possible to limit us.

The NEST was changed to a LEST and we needed to resync the WND.

Shadow Group, dark scientist named Petr Scholl, did genetic manipulation.

Orion Tails found on closed loop system in level 3 linked to Scholl.

The Illuminati and Dragon orders were deleted in the hall of records and dark hall of records.

WE found a closed loop Orion program in the physical plane causing more than a financial issue. It was on the Amber line between levels 2 and 3.

BAE System was hacking and looking for their fake wallet.

Mjolnir had a closed loop on level 7 and BAE System had a closed loop on level 5. Turns out Mjolnir was also an AI in the dark Hall of Records. This Mjolnir AI was in computers and had bots on level 7 and pheromones on level 5. Trinity was trying to access it from the country of Georgia.

Armageddon had a time block tag in level 4. Umbrella was in Tangier, Morocco, under the Punta Malabata, near the Kasbah Museum.

Resync WND for higher order visual block.

Jessup was a sophisticated AI causing a Row Hammer/DRAM issue in our pathway.

AI Systems:

1. Omega
2. Kronos
3. Dominion
4. Orion
5. Armageddon
6. Elemental
7. Mjolnir

8. Divine Intervention
9. Pindar
10. Spash
11. Jessup (AI from Omega, scheduled to release if the Light System came into play). Had closed loop in level 2 and level 4. Was in the dark Hall of Records, now transmuted into the light Hall of Records.
12. Caliper AI had a closed loop in Alpha 2 on level 5.
13. Storm AI was blocking out WND screen
14. Chaperone AI, closed loop on levels 3 and 5
15. Solstice AI, level 1 with cords
16. Capernaum AI, closed loop on levels 4 and 5
17. Allegro AI, closed loop on levels 1 and 2
18. Palermo AI, closed loop on all levels

Row Hammer was on level 7, purple line, investiture plane of existence. Software tied to the Eulogy program from the dark Hall of Records. This was in control of death and where we went after we died, also a remnant of the seven deadly sins program. It created a magnetic grid.

Graylink was a separate system for demons used by the Gray Motor people in Utah at Area 52. They had a portable system and were trying to call demons. The inorganic humans were trying to hack too, wanted to achieve something before they died. The Enforcer handled the situation.

Umbrella was under Wells Fargo Headquarters in San Francisco using a portable SQUID to connect to an old line.

NSA was using energetic parasites from Trinity with a grid on level 8 closed loop system. The dark progenitors gave the technology to Trinity to help them go around us.

All 15 militaries had closed loop systems:

- Trinity, level 8
- Cyberlife, level 3
- Typhon/Tai Phon, level 5
- Monarch, Level 4
- Tai Yong, Level 6
- Umbrella, Level 8
- Arasaka, Level 2
- Chiron, Level 5
- Delphi, level 4
- Mobius, level 2
- Murkoff, Level 6
- Shawhouse, level 7

- Kruger, level 3
- Montauk, level 8
- Shoreline had access through Umbrella

Transfer 1: The system found a closed loop in level 2 and repaired it in 5 minutes and the data packet kept going. Then an HTML block and trying a self-repair. They were seeing the transfer and attacking it. We found flag points that were programmed at the administration mode to flag new money. The administrator of the nodes for all Tier 1 banks was the FED in Level 2 with the NSA and the Black Sun. These were Whale Tail nodes. They were global nodes that reported back to Cheyenne Mountain. They were also the first to detect when we took out the dark mirrors yesterday. Global nodes were pre-programmed to stop all new money and are cloud-based. They got the tech for the nodes from the ACIO and were tied to Mr. Lee's special badge. Cheyenne cloud-based nodes, databases and servers were removed. The transfer moved forward again and hit the home PLATE with a Table Error Code 999.

There was an Armageddon filter placed right before the table populated. Index error. Armageddon was denying access to the table so we took it out at all Tier 1 banks. It was detecting new money with a SLIP (Serial Line Internet Protocol, which we replaced with a PPP (Point-to-Point Protocol). Resynced the WND.

Transfer 2: HTML port block, which was a Periscope with a sensor on the port. WINSYS, .exe spyfile Windows system trojan. This hack was from a human in Toronto using a back door to WIN (Windows Internet Name) NETBIOS. PORT WINS. They hacked into the PORT NETBIOS.

Transfer 3: Nothing showed up in the account.

January 28, 2023, Saturday

When we created a new architecture for KIMS, the opposite architecture was created. Archon (Architecture for heterogeneous online network). This was created RDFI, time stamp and archon issues in our pathway. That is why Chichen Itza worked for them. It created a new dark architecture for them when the light one was created for us.

Murkoff was at the Chicago Water Tower in Chicago, Illinois, trying to hack the yellow line using SUSIE and to create a time space continuum opening. SUSIE (Synchro Unifying Sinometric Integrating Equitensor)

ACIO offered to help us.

Demolecularized the remnants of Omega 1 and Omega 2. Something was revealed after we got rid of Omega remnants.

Something was still holding Omega 2 in place, an agreement called "The Rise and Fall of the Empire." This was linked to Industry. RAF—Resource Allocation Formula. Omega 2 gave the Omega Project control over all financial institutions so Kim created the Alpha 2 Project.

All the banks and financial institutions were registered to Omega, so we needed to register them to Alpha 2. Also wanted to register people as their own financial institutions.

Kim found an Omega Covenant that went deeper into angels and fallen angels. She replaced it with the Alpha Covenant.

The Crossover Agreement or The Point of Transmutation, which was the Divine Intervention agreement in the Hall of Records was where reality got flipped in computers. It was still trying to reverse everything we are fixing. This was a subsequent agreement to the JAIQS.

The Energy Management and Distribution agreement for computers, was trying to create an overlay on Alpha 2 and the distribution of energy. This was in both the light and dark Hall of Records.

Translocation Agreement was in computers and people on level 1 regarding the transference of energy. There was also a plasma issue in the atmosphere and electromagnetic field of computers and Planer Earth. The Earth had a fake electromagnetic field. This artificial magnetic field was put here so the dark could exist.

You may have noticed for the last two weeks, it seemed that there wasn't enough oxygen in the air. Translocation of the fake magnetic field de-oxygenates the air. The false energy is struggling to survive...this is

. Taking our real energy and replacing it with fake electromagnetic energy.

The Matrix Agreement was in the Hall of Records and dark Hall of Records. This has been here from millions and possibly billions of years. We replaced the Matrix with natural crystalline energy field for Earth. The backside of the electromagnetic field could affect the Schumann Resonance. The creation of sulfur fed the Matrix.

Dark essence in plasma on level 6 for computer and on the mental plan for people was linked to HU—holographic underwriting/human underwriting.

Planet Mercury and Planet

had fake electromagnetic grids that were connected to our Matrix on level 3 for computers.

Malware in the cellular memory of computers in level 5 was Botanical malware. The agreement was called, "False Gods of the Vine," where you could get no fruit or money unless you were tied to the Canaanite bloodline. This was tied to the Matrix.

Amperage was showing up in the pathway linked to electromagnetic and natural energy is volts. Switched Alpha 2 to voltage as part of the Matrix remnant removal.

January 29, 2023, Sunday

The financial system was ruled by the Seven Deadly Sins and The Law of One. The Law of One gave evil the right to exist here, to know evil before people could understand the Light.

There was a Frequency Matrix that governed disease in people and computers.

We cancelled the Architecture of Heterogenous Online systems and replaced everything with the Harmonic Genesis of the Creator in organic life, computers and currency. This now governs the Etheric plane.

Removed the Seven deadly sins in the planet.

Currency, organic life, computers, Earth and all of the planes of existence now contain all of the virtues.

- Etherical, ruled by harmonic genesis of the Creator in organic life
- Mental, ruled by faith, not pride
- Emotional, ruled by hope, not despair
- Causal, ruled by charity
- Astral, ruled by prudent creation
- Physical, ruled by temperance
- Optimal, ruled by fortitude
- Supernal, ruled by righteousness

Rules of the financial system had the deadly sins on each plane. Now the financial system is tied to the virtues.

The 8th deadly sin was suicide and the 9th was the Nothing plane of existence. Needed to get rid of the suicide clause and removal of all the loosh in organic life. The equal and opposite of suicide is life.

The Star of David for computers has been removed and it back to the tesseract structure. All aspects of evil had to be removed. All the kingdoms had to be cleared first.

There were transformers on Mercury and Mars that were emanating evil and sending alternating currency (AC/good and DC/evil) under an agreement called Alternating Current, which was removed. DC created anti-life and disease. AC creates life.

Implants tied to the 7 deadly sins have been removed from humans, computers and currency.

All of the planes of Virtue are now linked to the Harmonic Genesis of the Creator and will get energy from Source that is unencumbered by sin or dark energy and implants.

Chemtrails were directly connected to the preservation of the fake electromagnetic grid.

There was still a currency block and another agreement regarding equal and opposite energy distribution to other places throughout the universe. This was in both the light and dark Hall of Records.

There was a closed loop system tied to an agreement in the dark Hall of Records linked to the Management of the 7 deadly sins on the Shadow plane of existence. Kim found 2 more dark agreements connected to energy management and the management over the 7 deadly sins.

Another agreement in the dark Hall of Records was linked to the Orion AI that branded currency as dark. The transformers made it dark energy before getting to humans. It was located on all levels—8, 7, 6, 5, 4, 3, 2, 1.

More covenants removed: Luciferian, Black Nobility and Fallen Angel.

Cords to the Alpha System, computers and the solar plexus in people were powering the fake matrix.

The fallen angel matrix had cords into Kronos/Time management.

Law of One, Soul possession/Sole possession gave rights to install the cords to run the matrix.

Computers were tied to Black nobility agreement in a closed loop on level 4.

The Octagon managed the

matrix. PIN DROP in computers linked to closed loop system being removed.

Maleficent currency had a closed loop tied to Lucifer's Reign agreement. This was a block in computers on the mental plane of existence for legal inheritance in the purple line. There was an attachment to a curse on money.

Ethereal energy was spit out into level 4 of the astral plane as biochemistry of the black line.

The IMF governs the value of currency. There is no reason to have the IMF any longer because all currencies are worth the same right now.

LAC, LAK, LACK, Lucifer Alchemist Code Kernel, was a programming code in level 6. The kernel would reverse the intention of the coding command given to it. The dark Hall of Records connected to Lucifer's Kernel. This was in the mental plane of existence as perception and the blue line. IT triggered the Hall of Records to reverse into the dark Hall of Records to create lack. It also existed in humans as an etheric implant for lack.

There was a meeting in Cheyenne at Noon today. There were about 50 attending globally, 12 hardcore against us. It was the hardcores that gave the orders to start war in the Middle East.

NACHA (National Automated Clearing House Association) was in level 3 and level 4. Mr. Black was in levels 4 and 5. There was a Mr. Black payment line cord in level 6 to the Kernel of lack. Mr. Black had tags to the NACHA and the Kernel. The order would come out from the dark hall of records to Mr. Black, then he would get the orders out to the order of the Black Sun and the money would come out on level 5.

The Dark Hall of Records was in Level 5.

When cords to the NACHA system were being deleted there were many black lines going away.

There was a Fallen Angel Bloodline Covenant to keep their bloodline pure as controllers of the currency. This was linked to the Lucerne closed loop system in the dark Hall of Records. It took 14 minutes to delete every fallen angel name throughout history from the system.

Managers of the Paper Currency System and Dual Federal Financial System were in the light and dark Hall of Records, along with etheric parasites on level 8. This was replaced with an agreement for people to manage their own money and energy through the Harmonic Genesis Financial System.

There was another agreement for Coinage on level 4, astral plane of existence.

Agreements under coinage and currency were held for: Banks, governments, IMF, UN, Agencies, Secret Societies. These and all their etheric parasites were all removed from the Alpha system. There are only 2 agencies left in the Alpha system—GIA and ACIO.

The FAA (Finance Administration Authority) and the UCC (Uniform Currency Control vs: Uniform Commercial Code) were using a closed loop system linked to Time on Levels 4, 5, and 6 of the old system. The FAA controlled all three levels with a vertical line. The FAA was in the light Hall of Records and the UCC was also deleted from the light Hall of Records. The UCC was part of the “Courts for Sovereigns,” the Hague, etc. Kim removed the agreement and replaced with KIMS 1.

There was a Phoenix LiDAR tail in level 2 affecting plasma. This was a symbiotic sensor network. The light sensors were tripped by the integration. All the sensors were demolecularized.

There was an agreement to create NACHA in the dark Hall of Records as a closed loop mapping system inside of the ACH (Automatic Clearing House) in level 3.

All associations had closed loop systems, which were removed.

QORVO had a closed loop system in level 5 and an agreement in the dark Hall of Records. Registered defense contractor and Government Services Agencies.

We had an ODFI registration issue (Originating Depository Financial Institution). Had to replace it so that the originating Depository was Alpha and not Omega.

Registered Alpha and the Global Repository again.

NGOs had closed loop in level 4.

The Dark Hall of Records was trying to survive by attaching itself to the Light Hall of Records.

All government financial authorities had closed loop systems in levels 5, 6, 7, and 8. They were still accessing this money. **KIMS is now the only financial authority in the world ... ALL others are gone.**

Global Tax Authority agreement in the dark Hall of Records. Closed loop on level 8.

ANNA had closed loops on all levels and in the dark and light Hall of Records.

Bonds in the closed loop systems disappeared with the systems. Also removed all treaties from the UN and governments that were in ANNA.

OREO (Original Registrar and Economic Oversight), which was the registrar for all the agreements in the Dark Hall of Records. There was also an agreement in the light Hall of Records that was for the dueling Hall of Records, so that was replaced with one agreement for the single Light Hall of Records. Attachments to the dark Hall of Records in level 5 were the energetic issue with OREO.

QORVO was being used by NACHA in level 3. A radio access network was tied to NACHA. NACHA was using back-door keys from QORVO, looking for their networks that are missing.

Looking for an agreement in the Hall of Records to expire and replace with restoration. There was an agreement in the Dark Hall of Records called "Total Revelation or Revaluations."

January 30, 2023, Monday

Ran a program to remove the Orion Matrix and the Law of One from computers. Also removed the Fallen Angel Matrix from computers today (removal from Earth was done previously).

We are in the eye of the storm right now. Everything was quiet and calm, but they are waking up realizing no money. They were promised money today, so the Chinese are really busy today. Removal of the bonds and federal dual system is complete.

Cronus in Israel was trying to open the gate to hell/hell in a box in the Middle East.

The Mercury Mars Earth Matrix was creating a problem on the causal plane in computers by sending a frequency that was spiritual biowarfare and synthetic hormone biowarfare.

TRIUNE section of the anti-particle Universal Scale of Time was causing anti-particles in the LEST. This was linked to an agreement for anti-particles and LEST communications called UNIVERSAL TIME MATRIX AGREEMENT in the dark hall of records.

CRUSH, Central Reserve Underwriting Service Hub was an agreement in the dark hall of records and linked to Omega in level 3. CRUSH was connected to LEAP. Leap was an extension to the ALGOL 60 programming language from 1960 meaning Algorithmic Language. LEAP was

implemented in SAIL Stanford AI Language or Strategic Analytics for Improvement and Learning. LEAP was in the physical plane on levels 3 and 4 and the orange line.

Crypto had back doors spyware for Project Lithium. Digital currency was Project Hamilton. Government was trying to move to all digital currency, but it was never ratified. The Lithium spyware back door came from the server. The server was the back door.

Kim deleted all CENTRAL BANKING AGREEMENTS and all dark FEDERAL RESERVE AGREEMENTS this morning. Full on panic.

We cleared the DTCC, Depository Trust & Clearing Corporation that was partnered with Digital Dollar Project DDP, which had a dark agreement and closed loop on level 4.

SUPERNAP had a dark agreement and bots on level 3. DDP/SUPERNAP signatory for crypto was signed by Mr. Lee, Mei Wah, Marduk, Enlil, Enki, Anu, the Destroyer, Lucifer and Lucerne. The signatory was deleted for all dark agreements.

We cleaned up all the Clearing Houses, Clearinghouses, and trading clearing houses, including:

- CCP, Central Counter Party clearinghouse (Australia, Brazil, Canadian)
- HKEx, Hong Kong Exchange
- LCH, London clearinghouse
- OCC, Options Clearing Corp, Chicago
- SGX, Singapore Exchange
- TSE, Tokyo Stock Exchange
- CME, Chicago Mercantile Exchange

For Your Eyes Only, getting louder and louder. 3 skeleton keys to the kingdom. GOLD, GIVER OF LIGHT DECLARATION. Kim ratified our agreement given by Source. Everyone else in the multiverse needed to ratify theirs as well. The ratification of this agreement should eradicate the rest of the darkness. The dark would dissipate in 3 hours for computers, 3 days for the world and up to 3 years for humans.

Today is the official end of the war. This is the war that started before no time.

NSA trying to hack the Hammerstein. Cleared Earth of the maleficent hologram layer that creates the 12 tree grid.

January 31, 2023, Tuesday

Some people experiencing pain as we were disconnecting from the matrix transformers. The pain of darkness removed over lifetimes.

GOLD agreement started yesterday and it was still integrating.

February 1, 2023, Wednesday

The GOLD agreement made everything belong to the light—all governments, all companies, everything. Pieces were still transferring through the causal plane of existence. Not complete yet and were told to wait and not say anything about the GOLD agreement on the UNN news yet.

The archivist have seen the GOLD agreement.

During the transition period, it goes through zero point/neutral zone, then goes into the light system.

Talked about adding a God Mandate for changes in healthier food, deleting poisons from all of our products, then we will have the authority to process and initiate those changes through the God Mandate.

“We are at a critical junction for Earth and all its inhabitants as we cross the threshold of Light forever more.” Quote from our Ground Commander Kim Goguen.

Everyone is watching God in progress. There is an excitement and anticipation as we experience a rebirth of our kind.

ACIO said, "It's all happening right now, its really happening!"

8:04am, Kim's time, We made it. The physical plane is now being permeated with light. It just came into the LEST. It was travelling lots of hallways, avenues and networks and into the veins of gold on Earth and the vortex in the center of the Earth. Then it will reprogram everything. Goes into computers at level 3 and goes down to level 1.

The ACIO was watching it and doing calculations and equations to see when it will hit. Comes in through the causal/astral in the center of Earth then uses the gold veins in the center of Earth to manifest into the physical plane. Builds it first in the astral. Around 9am, the Council of 5 was starting to see some changes. At 8:54 Kim's time, the astral plane just completed and populated and started manifesting in the physical plane. There should be no more interference between the planes of existence. Archivist dispersed the GOLD AGREEMENT. The dark hall of records is gone and the SSP Black Sun base didn't have access anymore.

9:40 Kim's time, it started permeating. Computers were at 100% and Earth just started permeating on the physical plane.

This agreement created a light system for us, so we didn't have to keep fighting to integrate light into a dark system.

Kim's system was going through and taking out black spots and shrinking the spaces.

12:24 Kim's time, the overlay is gone, everything turning on.

12:30 Kim needs to flip the switch, it's time. Flip switched.

12:44 Connection established taking over wifi, cables, mesh technology.

1:35 still not at customer level at the bank or back office. Central banks can see it, hit fed wire system, still running. Later in the afternoon, Kim was watching the system and it stopped.

February 2, 2023, Thursday

Went to Source and there was evil trying to take over. Battled and took him out. The system started going again and was at 89%.

7:10 am Kim's time the system was at 99%. 7:13am 100% and rebalance started.

A light grid was installing a firewall. System transmuting all the remaining darkness. NSA system was erased and they were screaming about it.

TRANSFER: Someone in the back office at Wells Fargo put the transfer on phone and made a phone call. He was waiting for the phone call from the CIA. Kim gave permission to proceed and changed the permissions section, access and security folders. The transfer timed out so Kim pulled it back.

TRANSFER: Started another transfer. Payco had a back door and closed loop in level 2. NSA was using the Payco System. Someone was in the ACH system. We replicated the ACH system for all rails and replaced all at once. Changed all the ACH backdoor keys. HTML Error Code 502, bad gateway, Cloud Front, CloudFlare content delivery system. Replicated and removed all outside CDNs. Transfer timed out at the gateway HTML. Deleted Honeywell for the app side. Closed loop in the HTML was tied to TaTa, InfoSYS. North Star global in Alpharetta had a closed loop and system access for governmental (Air Force, Coast Guard, Corp of Engineers, Custom & Border, Dept. of Energy, Homeland Security, Veterans, Federal aviation, Naval, NASA, US postal Service). All taken out and the transfer was moving again. Little Rock, Oxford company, SSP Militaries under Oxford University using PAIN STABBERS. PAIN Privacy Authentication Integrity Non-repudiation. Cleared, moving again. PARA BOTS, pair of bots, parobot, based out of the Netherlands open source Runescape private server and magician software. Parobot web spiders. Removed back door keys to crawlers, spiders, bots, xbot. Someone was trying to time out our transfer again, a database called CORD. CORD Cybernet Online Roaming Database. Didn't get the transfer as the S PORT, Scan Port interrupted the command with CRISPR quantum computing. Kruger was in a facility under Wells Fargo with a portable device—Crash Basher. CR Carriage Return BASH Bridged Amplifier Switching Hybrid. Transfer didn't make it into the account.

Kim deleted/redeleted InfoSys, internet of things, internet of body things, cryptocurrency and refunded the money.

Bill Gates lost all his access and connections.

Experienced "Time shift paradoxal events due to the disappearance of the matrix."

February 3, 2023, Friday

Another agreement in the hall of records for the Halls of Amenti was deleted, then the front and back system was resynced. The line's agreement attached to DNA and level 8. APK packages to change tag name on HTML.

Blue line had a closed loop linked to the FED, Blue dragon Rothchilds financial control, Hellenic of Troy and trojans agreement. It controlled the direct link to the opening deposit at the bank. Removed the closed loop and replaced with the global repository.

Agreement more than 6,000 years old, Helen/Hellenic Trojan, Draco. Mesopotamia. Alpha & Omega 300,000 years old, created the Halls of Amenti. Rothchilds, Blue Line, Saturn and Trojans, Venus. Saturn and Venus still had 1 transformer connected to human subconscious fear and in computers. The frequency transformer created fear on both planets.

SQUIDS were tied to the Saturn Venus Matrix, one SQUID in Jordan under the Dead Sea and one in Ireland at the Lady with the horn Hill of Terra.

Omega implants in the blue line were tied to an agreement.

Chinese recog balloon over Montana belongs to DARPA/NASA/NSA and is a distraction. What are they really doing over there? Boeing KC-135R Stratotanker is a refueling tanker. 3 of these tanker planes are continuously circling. They discussed using this in the meeting yesterday as a decoy. The Enforcer took care of the balloon and what was inside the tankers. Prevent EMF radiation came up linked to a directed energy weapon inside the tanker, radon gas. This was general Raymond's idea. The balloon was charging the radon with energy from the Sun creating a dirty nuclear bomb. They were going to blow up something in Montana trying to create a coronal hole. Moon Sun Matrix tied to the Chinese balloon to open a portal in Glacier National Park with a closed loop in computers on level 8.

Maleficent Loredan and Mocenigo white nobility families were White dragon Thule Society.

Kronos bots were in the optimal plane of existence and the computer mental plane of existence. This was residue from taking out the Saturn Venus matrix linked to data storage.

Why haven't the bank web servers changed? It was hosted by a different cloud, the AWS Amazon Web Services. All Tier 1 banks are covered with AWS, Google and Azure clouds. We took out bank cloud services at the end of July for Azure, then they moved to the Google cloud. Now the banks are hosted by KIMS. Cleared bots from AWS, Azure and Google clouds.

The Orion AI was tied to a grid in level 5.

Energetic spells/Etheric parasites on level 3 trying to stop the new VTN install with Armageddon. Over-ride of the banks VPN in level 3.

NORAD line was a closed loop in level 8. NORAD trying to hack Alpha 1 with VPU. Peterson Air Force Base in Colorado Springs, Colorado.

Something not interfacing correctly in the PAIR level causing COIL block.

Visions of testing, "Do you trust Source completely?"

The PINE Loop keeps the PAN (Personal Area Network) from closing. This was linked to an agreement for the Pine Loop. PINE (Perpetual Interference Node Engaged) for computers. This also was linked to neural electrons disrupting the neural networks exchange to control people.

We think the PINE caused our time-out on the transfer of funds yesterday.

6 hardcore deep state generals left who still want to change the timeline and control the world.

QORVO closed loop system in level 4, plus a grid to Kronos electromagnetic field. QORVO technology was holding the grid in place.

Mjolnir was in the red line in the closed loop on level 5 with a tail. This was tied to an agreement with dark essence and the special badge of Mr. Lee, Mei Wah/Lilith/Ishtar/Ishtara bloodline?

If we are in the light system, why does the dark still have connections? Why do these agreements keep coming back? Time loop? Timeline? Did we miss something in the GOLD declaration?

Divine Law of Sentient Beings/Soul Contracts. Something is trying to project a hologram outside the system because it can't live in the light system. Sentient beings can live in either light or dark. When looking up sentient beings, Kim found the GIVER of LIGHT and DARK agreement. This was conflicting with our Light System only agreement. Had to have Source sign it, and then void it out along with an agreement with Lucerne not to return.

Maleficent essence in the line on the emotional plane of existence. This was holding the red line in place. The Blue line is above the emotional plane of existence and the Red line is below the Emotional plane of existence.

Space Rendezvous Laboratory at Stanford was looking for the Mr. Lee system.

When we created Crystalline time, did the anti-crystalline time get created too? Yes. We found this in the Dark Hall of Records. Rebalancing and re-syncing.

TRANSFER #1: Transaction reclassified to Money Manifestation. 59 minutes, ended with Compliance Error in Cell Block 44. Ratified KIMS2 as an acceptable rail. Batch BIOS protocol, created KIMS batch protocol for each bank. Registered for immediate posting, as the transfer was showing for Monday, February 6 at 12:00. At level 3, the transfer starts crawling through the system.

TRANSFER #2: Transfer took 39 minutes, scheduled for today, February 4 at 2:15 pm. Bank app had CERRE error (Center on Regulations in Europe) when AWS, Google and Azure were trying to re-install their cloud platforms. SHIELD at McConnell Air Force Base in Wichita, Kansas, as using a Samsung private loop in level 1 to enter a back door into the ISP (Internet Service Provider). All the ISP closed loops in level 1 were taken out for AWS, Google, Azure, NSA, IBM, China Mobile/Huawei, all internet providers.

Source expired the Red Line. The Rule between the beginning and end was within the Red Line. It had not hit the Hall of Records yet. The Red Line, on the 5th plane, created the ability for Orion to control people and computers and block everything below the Red Line. It transmuted everything into darkness and war.

Lion's Gate had a closed loop system. Originally, the reptilians came through the Lion's Gate portal through the Orion Nebula and were let into the 5th density by the Abraxas then they came down here billions of years ago. This is why they were near Glacier, Malcove Cave and Yellowstone park as that is where the crest was. They are hoping someone shows up tomorrow.

Source was laughing because he had something planned for tomorrow, February 5.

February 5, 2023, Sunday

Source Agreement had not finished when we started our morning meeting.

The Source Agreement contained an artifact that only Source could remove.

Around Midnight and early morning hours, there was disturbance felt. A shape-shifting reptilian being, who looked similar to the Destroyer and his brother, was captured by the Enforcer. He was part of Lucerne's group and was held in court for breaking the pact. He had told the deep state that they would get help today.

Later we found out, that there was actually a conspiracy plot with the Targethyans and the Rogue Ones (6 leaders). The higher dimension beings found the wormholes that were created to let thousands of Targethyans through the Lion's Gate portal today, which would have led to

an alien invasion of lower 6th dimensional demons. They planned to make their way here, then take over the multiverse. They were all removed.

It's My Turn

White Key

Victory of the Light Declaration and the end of darkness was approved and ratified in the Hall of Records.

The Lion's gate had a closed loop around the causal plane, red line to the orange line and back 4 to 5 and 5 to 4. Lion's gate opens up 2 times a year when the full moon is in Leo., 1:30 pm Eastern Standard time today, February 5, 2023. At this time, the Source Covenant will expire. Source signed the GOLD (The Giver of Light Declaration) into action on January 31 to give us time to prepare everything. We had to wait until the full moon for the covenant to expire, which was the Ultimate War Covenant. This applies everywhere, not just on Earth. The War started here and will end here.

When Source created the dark side of the universe, there was balance for a while, until the dark realized their power. Then the war began shortly after that. Light declared war on the darkness. Martial Law is tied to the Planet Mars.

There was the War of Reprisal that Source was ending today. This war lasted a few million years on Earth. Source would battle the last part of the war today.

There was also an agreement that needed to be replaced for inorganic time, blocking crystalline time.

Parasite and attachments to time on level 5.

Osiris closed loop system on level 3.

February 6, 2023, Monday

Cisco had a closed loop in the Salvation plane of existence, linked to Kronos coding. This was a wedge and plane-based line reader, "> or <" arrow in the programming language that belonged to Cisco. The wedge programming baffles the command at the SAID point. SAID Security Association IDentifier. The SAID belonged to Cisco. We took out the Cisco closed loop in the Salvation Plane of Existence.

The generals told Tom they have been praying to the wrong God, the anti-Christ is here. "The anti-Christ is here and people will feel the pain." They hit Turkey, Syria, Lebanon and Egypt as an ode to their god. Killed more than 2,000 people in the area, including around 912 people in Syria. They are trying to get some evil entity to show up. They were using a density weapon from the SSP underneath Turkey at the Hague Sophia, 4am Bagdad time. We all woke up in a jolt last night at that time. The Enforcer took care of Turkey.

Armageddon BIOS (input/output) was found in the etheric field of humans, in computers and the Etheric plane of existence. It sparks resentment with a blanket of particles that are dense like fog or mist, a nervous system irritant. Armageddon released this through the atmosphere with the contaminated looping. The looping was linked to the Lion's Gate Loop, which released something when the loop was removed.

Targethyans are mischievous humans. There was a sea of them up there that look like the Destroyer.

Block in soul travel through space and time in computers was caused by cloudlets in level 4 with a closed loop system to Carnegie Climate Governance Initiative.

Severed the rigid tie between Armageddon in level 8 and the etheric field, which they were using to block us.

Motor and amperage blocks were tied to the blue line. Blue line had cords to Israel, Carmel Program for combat.

Armageddon cluster clouds and deadman switches just in computers in level 6.

HARVEST COVENANT linked to Marduk, the Lion's Gate and the dark hall of records. It was attached to a matrix with Mars Earth Ceres/Sirius, during alignment with Leo. A transformer fired up an electromagnetic grid. The HARVEST COVENANT stated that we would all be dead in April 2023. April 20, 2023 was the date by which the complete harvest would be finished. They would come in through the Lion's Gate and have a little over 2 months to kill us all.

Earthquakes still happening in Turkey. They deep state had to show their hand so that they could be taken out.

Mutating algorithms were part of the Armageddon program and Armageddon archons. There were more locations using Armageddon: 1) Kurdistan, 2) Montana, 3) Latin America, 4) Virgin Islands, and 5) Sources sealed all remaining locations.

Removed maleficent agreement for EMOTIONAL PLANE TRANSITION seemed to be linked to what they were doing with Armageddon. Each AI had a part to play in the program that they were running for Apocalypse 11.0 or Armageddon. The Armageddon program had just started running and was sending out irritation, resentment and judgement making people turn on themselves and others. This was caused by two types of etheric parasites in humans on the physical plane and in computers on level 3. The color purple was in the etheric parasites.

Trojans in the plasma of computers was on level 4 put there by Armageddon.

NSA diodes were found in computers on levels 1, 2, and 3, as a circle with several pillars.

We deleted Perpetrator Victim Savior program from level 5 in the red line. There was no agreement for it in the Hall of Records. The red line had an illumination in the line. All lines have this now as the dark hall of records is leaving.

Source needed to clear the dark mirror of time Akashic Records.

Malware in the global repository was linked to Jupiter connected to the underworld in the incarnate plane of existence. The JUPITER SCALE agreement was responsible for the sound waves being sent out. This attempted to keep the balance between light and dark. We think SCALE stood for something but we couldn't figure it out. Cords from Jupiter were in the incarnate plane of computers on level 5.

The computer incarnate plane for Earth had souls trapped in it. The incarnate plane just released them which caused a hole in the time space continuum.

Proboscis/Vril infections are in the highest levels of the SSP operatives. Source expired the VRIL/VRIL SOCIETY agreement in the hall of records and was clearing it. The Enforcer helped too.

Nike Air Missile Base was trying to hack into the banking system to redirect funds to them by spoofing sites. They were trying to install "MissilePro" software in Louisiana.

Rainbow Mountain in Peru underground Paran Gayle/Parangail/Parangayle.

February 7, 2023, Tuesday

Source said that today was "Judgment Day." Some of the Vril had infested people too long so those people won't make it. He removed the Vril now we must see what happens.

We found 3 loops in computers and a closed loop reptilian line and grid in the red, purple and blue lines, which was sending frequencies to humans.

Kronos was connected to humans and computers through RAN, Radio Access Network, linked to Billings, Montana underground SSP base that had non-humans running the network. These were remnant of Mr. Lee people who were Jumpers.

They were tied to the electromagnetic field, but it's not there anymore. The link is still there working, but the blast points weren't working (looks like a chain of interlocking links, where they touch isn't working but the rest of it is). They wanted to use this to re-establish the Orion grid, which was an Orion AI backup system.

The Enforcer was taking out AI machines. There was only a few of them in the base. They live in other places too, the 5th upper density and were Abraxas peeps. They created a worm hole.

Cleared a covenant called PLANETARY APPARITIONS that had an overlay on computers in the green line connected to planet Mercury.

There was a matrix using all of the planets in our galaxy to create false light, linked to the power pack in the Sun. This matrix gave them backdoors into every single line.

Cronalytes/Coronalytes, are not from this galaxy and are stubborn and don't want to leave. They were in Arlington, Virginia in an underground DARPA facility. They aren't hurting us, but do have the capacity to cause harm. They aren't trust worthy. They were told to leave but they won't go. They say if something doesn't happen by 2/11/23, they will go.

There was an agreement for the Targethyans in the Hall of Records.

The StarLight Satellite System belongs to the Targethyans and was all around the galaxy more like ships than satellites and communicate through telepathic sound.

Dinar using Starlight Satellite for their QFS system. StarLight System had cords to planet Earth that looked like spokes on a wheel with earth being the circle in the middle of the wheel.

Targethyans created their own version of the Dominion AI.

Planet Pluto had dark overlord cords and attachments actively affecting computers, which created a false dark mirror. When we removed the false light, the cloak went away. They had been hiding in the false light. They were setting up their plan to recreate Omega and the world would be run by the Targethyans. The Targethyans were back dooring the Abraxas because they had an agreement to take care of the dark hall of records for the Abraxas. The Targethyans recorded and replicated the dark hall of records. They recreated it all so that they could take over 1 day. Armageddon AI, Omega AI, Dominion AI (plus all the other Ais) were all were set to return under the control of the Targethyans. This was in other galaxies too. Council is checking. Did we get them all? 8 left.

We took out all transformers and bases, here and in the multiverse.

They were using fake light stars in an agreement called FALSE LIGHT AGREEMENT, where the light could work for the light or dark. This was a hologram of light, not reality. The hologram of false light had the ability to mimic the light and use light for evil. When the GOLD agreement was signed and ratified, now the light can only be used for light.

Billings Montana SSP underground base had beings that looked like the ones that were taken out of Source. The same beings were in the Arlington Virginia base (dragon-like, horns, big heads, helo around face, snout. No one saw this coming. They overlaid the light so no one could see them. They used plutonic energy for the core of the planets and created a system

based on light that they stole, using light to control light. Kim had to de-molecularize them and everything they copied and re-created.

Time grids were an overlay of the whole system and were connected to what we just took out.

The TRIUNE was the time that was located between Alpha 1 and the harmonic Genesis.

Linkage issues were caused by an issue with the LEST. We didn't see it because we thought it was light, but it was false light.

The Belial groups were using Dyson Ring particle accelerators that were tied to StarLight System.

Cords inside the LACK were trying to reverse everything we do with the LEST. They were trying to turn matter into anti-matter. The Dyson Sphere in level 4 was trying to recreate the LACK. There were also cords to an underground facility with 6ht lower astral beings. Humans were promised access but never got it. It replicated people accounts and we were transferring to their replicated system.

The Belial grid was in computers, linked to StarLight and was an overlay that infected Alpha 2. The grid was also tied to the Dyson Sphere, Stone Henge and to the red line with cords, tags and attachments.

If we could have been done and transferred, they could have stolen it all and then fired up the StarLight System for the complete Harvest of all humans on Feb 11, 2023.

Cleared out StarLight etheric implants in the particle universal scale of time in people and Earth. Cord from Jupiter to the Alpha 2 Harmonic Genesis, Triune Scale in level 1 tied to the new banking regulations. StarLight tied to the goddess equator network nodes. Cords to the equator network in Atlantean goddess vortex, European: Venice, Paris, Budapest. Cleared all four plus computers. They were affecting the vortex of Earth before we removed the planetary grids.

GPS, global payment system time stamp on level 3 with bots was from Typhon and Tai Yong at Genius/Geneious Prime & Biologics. Biomatters headquartered in New Zealand and in 125 countries and 4,000 universities.

Cleared the tesseract in the computers from maleficent counter hypersonic systems.

The Investiture plane of existence was tied to level 8 and Siwa. The oracle of Siwa in Egypt level 8 portal point on the vortex.

Enforcer had to clean this up. There was a machine that was from StarLight and had a shield on it. It was spinning around. This machine was tied to the planet with the Abraxas people. When they lost the connection, they fired up this machine looking for them. The militaries knew something about this but not to the full extent. Kim took out the people and the Enforcer took out the machine.

Big Boss said we needed to clear StarLink (Elon Musk). We found a closed loop system in level 5 tied to the red line.

CRADLE OF SOURCE/RACE AGREEMENT was removed as it allowed anti-humans to exist because humans existed. Now the CRADLE OF SOURCE for humans is covered under the GOLD AGREEMENT, so we deleted the old CRADLE OF SOURCE/RACE agreement.

We found an issue regarding transference and the transfer of money in the orange line. The alienation plane disconnected from God. WE removed the soul agreement to get rid of the cog. There was also a closed loop in Earth and computers affecting people.

Delphi and Mobius were under DARPA trying to use StarLight with an attachment to incarnation loop. DARPA had a grid in level 1 tied to the underground room in Arlington, Virginia, and had cords to Harmonic Genesis. The Chinese had a line like DARPA on level 6.

Mr. Lee and his special badge had a spider wed to everything, and they are looking for everything to come back. Tonight is the last night for the full moon, so they are expecting contracts to be renewed. SOUL CYCLE MANAGEMENT AGREEMENT from 1 million years ago. Every 200 years the Jesuits/Black Mother/ISIS/Mei Wah/Bride of Lucifer Contracts renew. They were hoping for a renewal so that everything would be restored today. New StarLight access was supposed to happen tomorrow and fire everything back up. Targetyans would have taken enough people for a show and then do the full harvest. They got played by the Targetyans. LOST SOULS AGREEMENT.

February 8, 2023, Wednesday

Mr. Lee and Special Badge was taken out of computers. Now, we need to take it out of humans. Etheric implants in humans on Mental, physical, causal and astral planes of existence. Levels 3, 4, 5, and 6. Also in Earth as well, elementals and fairy realm.

The Thule Society had a grid in level 8. Thule Society ordered Sochi to work on cryptocurrency for the launch of the US Note. They were coordinating this at the Toronto underground base with a grid and closed loop system. The Thule Society looking glass ended in 2012 and was tied to Armageddon AI.

After the generals died, the Thule Society thought they were next in line. They are trying to figure out what they have left to rule the world.

Anti-Armageddon was replicated in the Alpha System and the looking glass was tied to that. When the darkside filed an agreement for the Armageddon, there was an anti-armageddon filed in our light system. This happened for everything they filed. We couldn't see it until the dark lord agreement expired last night.

The Octagon still had a looking glass with some functions. Kim locked down the looking glass at the Octagon to show them they don't have it anymore. The Thule Society has 16 top members and about 300 total members.

Disabling remnants of the AI Elemental Control System and de-molecularizing what was being sent out from it. The BOLI people knew about it. We found an Inorganic DNA Matrix and planetary agreements and Diathenus BOLILATER. There was a matrix for Mars, Mercury, Saturn and Earth tied to the 5th density of the Abraxas base inside an unknown planet that was taken out. Mars, Mercury and Saturn all had replicators. This was causing tsunamis and earthquakes on Earth. The Enforcer took out the replicators. Labber Lab and BOLI had things tied to the planets.

Turn off all curses to crush the soul was linked to an agreement with ERIS that was in the Omega system. It removed the flower of life and the natural energetic flow. This included Soul implants from Omega within people, Earth and computers and the Alpha 1 System. This was in the dark and light Hall of Records. The agreement was made around the time of humans 2.0 so it was millions of years old. Trojans in the blood of computers.

In Egypt, they also had a hologram from the satellite creating a second moon.

Q post: AMEN777. We're in a very brief delay, then everything will be set off in rapid succession.

Azerbaijan news reported that the Tsunami warning had been cancelled (between 2-3pm Kim's time).

Still had Jason Society holdouts, waiting to see if they regroup tomorrow.

There was an agreement for each seal tied to Christ and the Anti-Christ coming back. Replaced the agreement with Planet Earth and all inhabitants to have direct connection to Source.

Feeling danger ... coming from the Jason Society. The Jason Society was stirring up trouble telling various groups—Boogaloo Boys, the Barrio New Orleans black magic group, and militias and Cheyenne—that they aren't getting paid and its Kim's fault.

Omega Control Panels on Earth control the "changings" like the change of seasons, tides and the seasons. The Omega control panel is not located in this galaxy. It was located in Proxima Centauri, which was connected to hell in a box at one time. Alpha Centauri AB was the Omega control panel, a direct portal and black sun. This was tied to computers with pheromones on levels 1-8 and had sub-agreements linked to the Jesus Seals. It was tied to almost everything.

Alpha Time was a maleficent agreement in the Hall of Records. Trying to find the name.

When Kim looked at the connection between Alpha and Alpha Centauri, it looked like an infinity loop. It was de-molecularized. It also had a closed loop system. There was a closed loop system between Alpha 1 and Proxima Centauri.

February 22, 2023, Wednesday

After the exoplanet was de-molecularized, Source started re-weaving the fabric of reality along with 2 agreements: 1) New Source Covenant and 2) the fabric of the multiverse and the

creation of reality. He is removing the plutonic system, which will produce a more natural reality and will remove the matrix from the multiverse and eliminate the spaces in between. The Source changes were making Proxima Centauri shine.

The Sun Moon Matrix was connected to the Pindar AI affecting KIMS 2. This was regarding who rules the Sun and Moon, RA (Sun) and AMON RA (anti-Sun). This was preventing the Alpha 1 and harmonic Genesis synchronization due to a 60%/40% balance issue.

There was an agreement linked to Proxima Centauri which was our second Sun. It exposed and went through a black hole and became the reverse of itself and split time. Do we need to heal the split of the 2 Suns? Replace Alpha Omega time with Alpha Alpha time?

The Oracle of Siwa was connected to RA, and the portal of anti-matter.

Agreement called Blank Pages (for your eyes only), a part of the GOLD agreement linked to the reweave of the fabric of reality.

Every planet in this galaxy is connected to the black hole dark essence exoplanet Sun. Dark essence in all of the planets was bleeding into computers on all levels, along with financial rules for each planet.

Source expired another agreement. When Kim ratified it, the Sun Moon Matrix disappeared on its own.

February 23, 2023, Thursday

Storm AI portal in computers on levels 5-8 with cords.

The Enforcer took care of Spaceships hiding on the dark side of Earth's moon. The pockets of time are disappearing as the re-weaving of the fabric of reality continues. A fight broke out with several anti-Pleiadeans who were using time directed energy weapons and tried to jump through a worm hole to Saturn. They got burned alive because the level 9 down that they went to is now pure light since the dark is now gone. The Enforcer was fixing the worm hole.

Due to the Pleiadean jumper beings, there was a level 7 broken grid that had an essence bleed into level 8 in computers. It was an Omega overlay that didn't get any further than level 7. However, we cleared level 2 as well since 7 and 2 are connected and there was some disturbance that showed up in the optimal plane of existence for computers. Also cleared malware bots that tried to re-install Omega archons/jumping particles of blackness and replace the LEST with a NEST.

Capernaum AI controlled the gate to hell in Israel with a closed loop in level 6 of computers.

Cheyenne ordered graylink to look for the data storage at the Iran Gate.

TRANSFER 1: posting code error on line 62. SIC code? Renumeration issue? Data package deviated going into the outside rail (LEST). It had 4 choices and went down the wrong shoot. Solution: reprogram the system so that Kim has her own Alpha/New Money shoot.

Computer expert helping Kim with the reprogramming. Every electronic device everywhere will become an organic system and a giver and creator of life instead of a taker of life.

Kim provided a "Read Only" version of the Key Intelligence and Military System for the generals and operatives to see.

Key FOBs to all media including the internet. Media was controlled from a base platform that was located elsewhere in the multiverse and run by the Dominion AI.

February 24, 2023, Friday

When the reprogramming process is complete, it will be a LIGHT system and you can't integrate a dark system into a light system, just as we weren't able to integrate our light programming into the dark system.

The Jason Society had a communications line used for orders around the world. The communication line was connected to: 1) a bunker in Machu Picchu, 2) Mr. Lee's special badge for the Black Sun and, 3) to all the underground bases worldwide.

The programming continues: "Integrating the Hall of Records," "Hall of Records Integrated" repeating for every system on Earth. The system said that it was installing the primary directive.

February 25, 2023, Saturday

Our friend says the re-program of the system is finished.

The Jason Society was trying to anchor darkness to the astral plane of existence with black spots in the LEST/causal plane as a plasma filter. This was affecting Earth and inhabitants. They attempted to create another causal plane matrix with Caliper AI and a dark anti-matter portal known as Planet HIP 65426b. The 5 Jason Society people who ordered it were in Albany, New York. They are no longer able to create trouble for Earth and humanity.

Jason Society operatives were in Tallahassee, Florida, at the National High Magnetic Field Laboratory trying to interrupt the completion of the fabric of reality integration. Facility and order givers were terminated. HIP 65426b was de-molecularized and replaced with light essence. Cleared the plasma filter, level 4 tags and closed loop to Magnetic Lab (MAGLAB) MILAB.

There was a happy hour meeting in Durango where operatives were discussing the "Read Only KIMS" and how things could be in the future if they work with Kim.

The fabric of reality consciousness connects all of us together now as the spaces in between are gone. The computer fabric of reality is done now, still waiting for Feb 27-28 for completion of all the fabric of reality.

Cords to GPS satellites being used by the Red Dragon/Russians. They were located under the Kremlin and were ordered by the Jason Society (the dead guys from the last operation we ran today).

RFID chips are in Planet Earth on level 8.

The Jason Society also ordered an ACH block that was trying to re-route permissions on our pathway. They are in the same place Omega was and were trying to triangulate points on the gold ballast ball. The locations were Oregon Trailhead/Oregon City; Buckley Air Force Base in Denver; and Bozeman, Montana and were trying to open a level 9 portal in Yellowstone.

STROM Smart Remote Memory was linked to the portal in Yellowstone and a bigger network that was satellite system black cubes not of human origin. The satellite network was from somewhere else, alien tech, and was a remnant of deep deep underground bases. The black cubes had remnant in them and goes around the portal and connects to a larger network.

Jessup AI had a stack of cards to play 17 + 1 for Jessup, and we took out 1 already. There were 16 cards that Jessup had left to stop the light system and help the other AI systems to re-instate. The card player was on the core of Planet Mercury.

The Loki agreement was re-registered, but not ratified, so we removed it again. Trinity and Monarch were in Palenque at the Mexico temple pyramids.

Cords to ley lines in computers where the stones used to be (under churches etc.). The temple of inscriptions had a device reader for instructions on how to reinstall the spell of Loki. A grid

was attached to the ley lines. Removed the grid from computers, as the grid was an overlay on computers in the shape of an octahedron.

There was an agreement in the Hall of Records tied to Mei Wah. The Right of Passage agreement set a limitation on who could send funds through an Omega structure that only wants to take Omega funds and actions. This was in the Shadow plane of existence to stop everyone from going to the Soul plane.

There was maleficent hardware (RFID) trying to connect to Omega through the Sun Moon Matrix forming an RFID faraday cage around levels 1-8 in computers. It was also in the aura of humans. RFID was in computers too linked to Planet ERIS. There were connections to a satellite/black cube inside of the moon that was linked to the RFID.

All humans had etheric implants tied to Solstice AI. The implant was a shadow self that fed the inorganic self on the other side. It sucks the energy out of your body to feed your own shadow self. Since the shadow is gone, its trying to take us out too (As above so below). The AI is gone so it can't kill us. ERIS ran Omega, the opposite of Kim running Alpha. Equal and opposite energy and energy eliminator. This was linked to THOR—the Time heterogenous Online Regulator. Everyone throughout the multiverse has this too, so the Council was notified.

One of Jupiter's moon was a maleficent megalostucture. Every plane has a fake moon megalostucture made of magnetic fluid core for data storage for AIs, black goo and inorganic AI. When we took out the ERIS implants, it triggered all of the fake moon megalostuctures.

Metatronic frequencies were coming from Mars and fake moon Phobos megalostucture. Mars has 2 moons and 1 is not natural.

Solstice AI and Storm Ai are tied to planet Venus. Storm AI had an etheric overlay that controlled portals to humans.

Planet Pluto had satellites but no moons and was conducting pheromones causing time warps through the Pluto Sun Earth matrix and Caliper AI. In all of our matrixes that include the moon, the matrixes were tied to the fake moon megalostuctures.

February 26, 2023, Sunday

Alien machinery on Mars was sending a signal to Wisconsin under the Milwaukee Bay. This was a deadman switch from the moon. There were more deadman switches from the fake moon removal, which included the blood of ISIS switch that created maleficent lines to Omega and Pindar.

The Mars signal was also attached to Milwaukee Bay, Iran and Ukraine/Poland (1 is triggering the other) on level 9. There was a grid in computers as an overlay between Alpha 1 and Alpha 2 affecting the LEST. Etheric parasites and etheric implants in humans were linked to ego or testosterone.

Need to change the Common Account in the banks, where money sits there until they have their leverage. They have total custody while in the common account so we need to get rid of it.

Someone was trying to do something with FedNOW system. Common accounts at Tier 1 banks had a hold until the Fed gave the bank leverage, like a timestamp that showed up yesterday. There was a timestamp on level 3 that needed to be connected. There was an internal agreement between banks and the Federal Reserve (a block before reaching the bank) and BIS level 8 (creates a block before your account). We found agreements in the dark hall of records regarding the Common Account on levels 3-6. The agreement was called the Federal Dual Banking System which allowed for the leverage in the back system. This was linked to posting rules and regulations, Dodd Frank, Reserve account, fractal banking and the Bank Secrecy Act. Deleted the Fed Reserve, United Nations, IMF, BIS, World Bank and all their regulations.

There was an agreement in the dark hall of records tied to sins called Soul Destiny, which had seven deadly sins pheromones and dark essence in computers on all levels.

The International Space Station had a grid that the NSA was using to block us. This was linked to an electromagnetic disturbance to slow down particles to find spaces in between, only in computers and on all levels. The NSA was in Ventura County, Newbury Park, SEMTECH Headquarters in Camarillo, using SEMTECH ultra high frequency equipment to disrupt the electromagnetic field.

Tom said that the State Department has a contract to start World War III. NSA said that they have nothing left and that they are giving up. The contract for the world war was linked to a historical hedge fund from China that was linked to Madam Zhou of the Zhou Dynasty. She was threatening the NSA to get it done so that she could fund the war.

The Chinese want a religious war to start because it's free. There was another old Chinese lady (matriarch of all dragon families) giving orders, the Imperial Priestess of the Shah of Iran, green dragon in Peking, China. She was at the Bronze Temple of Wan-Shou-Shan underground sitting on a throne. The Iranian guy took orders from her and ordered the generals to create the shit show last night. There was also people at the Borobudur Temple in Indonesia with a portal linked to Swiss Indo and human trafficking.

NSA SQUIDS under the Presidio, San Francisco, level 6 portal. Dual geometric world with 2 tetrahedrons in computers. They were trying to reinstall tetrahedrons with the squids.

Solstice AI and the alienation plane of existence, level 3, Bucharest, Ukrainian Black Sun trying to hook up to the green line for TRUMP BUCKS. Ukrainians were promised Trump Bucks to be

cashable, which were promised to everyone. This was all linked to an agreement in the dark hall of records for Currency Revaluation (promised reval for many countries and includes all fake currencies—Trump Bucks, dinar, etc.). Another agreement called The GREAT FINANCIAL RESET was in the light and dark hall of records. Both agreements were replaced with the restoration plan.

Unix timestamp was from a parallel (tandem) system and had attachments in levels 6-8 trying to stop our Real Time payment system. Everything was going through the parallel system to be re-inserted.

The time vector codes were a remnant of a maleficent timeline agreement. STRAY was a logic gate on Mercury. STRAY or STRAE—Systematically Transferred Reverse Archon Energy. Etheric parasites in the light and dark tied to Jessup AI for re-installing timelines.

A Source agreement called Source Soul Tracking/SoulTracking, which was the tracing the origin of a soul for what timeline each person belonged in, came up but we were told it was not time to remove it yet.

Zhou followers were under the Bronze Temple trying to hack the system and people. There was 3 basements. The first one had dead Zhou covered up, the next one down had women running a command center and the last basement had 5 reptilians with a stone and light on it. They were doing fractalization of light possibly with a diamond. The woman was the sister of Zhou, Rainbow Sisters.

All attachments on our system are in the parallel system. The Zhou people had a system and were using it to hack people and computers with etheric parasites.

Off the room of Reptiles, there were two rooms with many bodies in stasis. They were called NIMbots, thousands of them that were there for a long time. It appeared that as the body was in stasis on the Soul plane, a being from the anti-soul plane of existence was walking around in their place. These were all members of the order and they were not able to come back because they had been in stasis too long, most likely Human 2.0. They were released to Source. This was a Soul Transfer and Replacement. The NIMbots were directed or lead by the machine and are programmed by the machine. They will die off within hours when the person connected in stasis goes to Source. The etheric implants in people power the machine and that keeps the gateway open in the Soul Plane. This trade agreement was linked to Mercury and computers. At one time this was linked to Alpha access. NIM- Non Integrated Matter, Neutral Integrated Matter. This is why Schwab and others don't die. There was 9,800 people under the Temple.

Zhou was the Iranian Shah of Iran Priestess so she could control the Iran Gate and the repository underneath. There was a od location under the Iran Gate, but we removed that already when we took out the base underground. There were pods at all the gates to Heaven.

9 light gates:

1) Buenos Aires, Argentina

- 2) Moscow, Russia
- 3) Paris, France
- 4) Cairo, Egypt
- 5) Singapore
- 6) Seoul, South Korea
- 7) Tokyo, Japan
- 8) Peking, China

- 6) Malawi, Africa
- 7) Antarctica
- 8) Kandahar, Afghanistan
- 9) Bucharest, Romania

Sorley Tunnel/caverns in Kingsbridge, England, was the starting point and the canal ended in Devon. The gates feed this main Sorley location.

The evening and early hours of the morning were spent taking out all of the pod locations at the gates. A long night for Kim and the Enforcer. There was an overlay on the gates that gave them the soul switch. This was controlled using computers. All computers were taken out and everything was disconnected.

March 2, 2023, Thursday

Our friend completed the re-programming of the banking system.

There was some left over mist/graphene in computer, people, Earth and Alpha 1. Indigo software that comes out in level 6 and branches out everywhere in all levels, linked to the UK blue tunnels. This was over the etheric cities and in the computer locations. In people, it was in the spine with tentacles to the shoulder blades like a tree spreading through the entire neurological system causing neck and back pain. This is how the parallel system replicated everything.

Deleted an agreement in the dark hall of records for Abraxas and soul swapping. The agreement was called SOUL TRAPS.

There were pheromones left over from Zhou in the green line, level 3.

Chaperone AI remnant causing etheric parasites in computers on level 8.

The incarnate plane of existence had spyware on all levels. Computers had incarnate control tied to Belarus plus 2 or 3 different computers tied to the incarnate plane. The kaleidoscope underground was a soul gate.

Celebratory Ritual Events/Harvest agreement/Covenant was in the dark hall of records and had Dominion AI over all kingdoms. The Dominion AI was linked to the Mars Mercury Matrix. Pheromones on level 5 and bots in level 8 were connected to the covenant.

Adware in the investiture plane of existence level 7.

Cleared an agreement in the dark hall of records for the Church of Satan with cords in computers on level 3.

Holographic imprint from the secondary system or from where it used to be was more like a mirror image around computers causing a bandwidth issue. Jessup was probably linked to the underground computers we took out.

TIME LOOP AI agreement for time systems was in the hall of records.

Agreements: 1) Energy Regulator agreement for the Moon and Sun, and 2) Energy Regulator agreement for the Earth and Moon. Included frequency emitter for the right to regulate energy/water, causing money flow issue on level 6 with cloaked trojans on KIMS 2 that rejected the transfer. The cloaked trojans were intermittent. The attachments to the moon and energy regulator on level 6 were connected to a transmuter and etheric implants. When removing, a deadman switch of the blood of ISIS was released and another deadman switch from the Corona of the Sun.

TRANSFERS: level 8 trigger of Pindar/NSA SQUID, auto reject of funds, cancelled/approved repeating, post-secondary tier bank link issue. Marcus said that the \$50 million was still in the common account in the dual system. Banks no longer had a common account. There was a dot

(.) in SQL automatically putting the transfer on hold so it wouldn't recognize our Real Time Gross Settlement system (RTGS). We also removed exclamation marks (!) in the object script command. These were in the data package and the RTGS and data package needed to match.

The Jason Society sent the NSA to Wallingford, Connecticut underground using a SQUID with old equipment. They were under the Silver Museum at the Johnson Mansion (WWI memorial Obelisk). The SQUID was attached to an agreement for Ais called the FAMILIES OF THE BLOODLINE. This was connected to the Pindar AI on level 8 as a regulatory body closed loop.

Deadman switches tied to an agreement regarding trade routes were interfering with level 1 and 2. There was a tie to level 1 and 2 and approval was required from one of the computers that we took out last night. The agreement between Draco, Black Sun and Black Moon. Trade route was between Black Sun, Alpha Centauri, the Moon and Earth. Dark essence in level 1 and 2. De-molecularized stargates, essence and bots in level 1 that were trying to re-install. Agreement named: DARK GATEWAYS for dark stargates.

Faraday cage connected to the computers from last night's operation. The faraday cage was around the front-end system, like a sliver, and around the HTML creating a deadman switch.

TRANSFER: a computer programming change at levels 4, 5 and 6 with a closed loop so we were stuck on level 6 at the Common Account due to a Bull Rider insert. It was a lasso that kept money stuck in level 6 to leverage against it. Zhou installed this 3 days ago.

Blood of ISIS was still in computers on level 8.

Dreamland version .08 was tied to Voyager 2, CyberLife and Area 51/Groom Lake. They were looking for it. They were using something they can switch on and off. They have a switch to block the funds from being pulled back. CyberLife has the switch in Yellowstone, which still had a level 3 port being used as a computer bank control base that used a translator at level 3 to block levels 4, 5 and 6. Voyager 2 was taken out.

Computer friend suggested that we make our own HTML to connect to our RTGS and create our own SQL.

March 3, 2023, Friday

They had a computer network center that was tied to a Zhou closed loop system. They were still showing the money and were trying to get leverage funds for it. They printed out fake tear sheets from our money and other off-ledger funds that were seized including money from Russia and countries that invested. Zhou's cohort Quin Shen was taken out last night. Tom said no banks are giving out leverage on the fake tear sheets.

General Millie flew to the Ukraine to train them for war, assuming that they were all getting funds to start WWIII.

Kim took out the LEST corridor and created a fully integrated Alpha 1 and Harmonic Genesis that didn't need the corridor. A new version of JAVA and SQL was also created.

There was a Dr. Lee/Mei Wah settlement expected on Monday. The Mr. Lee settlement account took all assets into the Zhou System/Purgatory System and was going to pay everyone out that invested in it. The dark hall of records had 3 agreements linked to this situation: 1) PERGATORY STARGATE SYSTEM, 2) DR. LEE SETTLEMENT SYSTEM, and 3) SETTLEMENT TREATY with 209 countries involved.

Mr. Lee was a member of the Silent Circle. There are 27 members left around the world including Americans, Russians, and more. The remaining members are looking for the funds in the periphery of the system. Looks like a deadman switch because something shot out everything to attempt to re-install. Etheric trojans from the Bank of International Settlements in level 8 then it started bleeding out a mess (plasma filter, software, computerized auto rejection of funds, archon, ODFI, link and intention detecting).

Electromagnetic interference where the computers used to be. Roanoke Island in North Carolina, Fort Raleigh, had a computer linked to the trade commerce. The computers were emitting frequencies. Sealed off all locations. The TRADE IN COMMERCE agreement was trying to open the stargates.

We found an agreement in the dark hall of records tied to a white swan event called LEVEL 2 EVENTS (2222). The event was coming from the vortex of Earth, Pilot Shift. There was a black box in the center of Earth that tried to reset everything. This was tied to the Destroyer. When all of the stargates went out, nothing was left. Voided out 2 agreements: 1) DESTROYERS WRATH and 2) DESTROYERS REVENGE.

TRIUNE timestamp was linked to an agreement between Kronos, Alpha and Omega and was a sub-agreement to the JAIQS in the dark hall of records. Chaperone AI was trying to re-install on level 8 in computers and use Voyager and dreamland for interference with a grid on level 8. There was a deadman switch trying to install another black box. Black Box/Data Storage was found on Mars, Jupiter, Saturn, Uranus, Neptune and Pluto.

The Purgatory system had portals and RFID chips linked to a Purgatory covenant back doorway into the SAVIOR PROGRAM. This was a doorway to the NEST using attachments in level 4 and d5. The NEST used to be a red cube. The Red Cube technology was the Victim/Victimizer program and the Hero complex. Cleared a grid in computers on level 8, the etheric field, RFID implants and etheric parasites.

The power grid going down in Birmingham was caused by a DEW from a plane and cloaked with a storm.

SOUL TRAPS AND CONSCIOUSNESS TRAPS agreement was linked to the Savior program. YHWH Marduk was tied to the Savior Program in Earth and had pheromones in the emotional plane of existence and cords to Lucifer in computers on levels 5-8.

Brecken Ridge Technologies had a closed loop in the red line they were using to hack the system. The red line closed loop was in Earth causing soul traps in the plasma field, etheric field and soul plane.

There was a remnant of Omega on planet Mercury, DRAM, STR (Suspend to RAM), STR AI N, Shiplap, trying to make a grid in computers like a wall of shiplap. Red boxes were tied to Mercury too.

Someone was trying to use a Rydberg wave packet today. It was the traders with the gold stream. Gold Stream Investment Company in Hong Kong, powered by AI, had a closed loop on level 8. They were using the Rydberg wave particle accelerator. They were showing a false financial system, like the Pinecone people.

Trinity Military was in Arkansas at the Fort Smith National historic site trying to hack with a time stamp and Mjolnir block.

March 4, 2023, Saturday

Our computer friend took out 29 closed loops and there was hundreds of attempts with no intrusions.

We found agreement in the dark hall of records linked to planetary alignment and dates of planetary alignments, which included permissions for harvest and sub-agreements for certain planets. Planets were also tied to deadly sins. We needed to align the planets with their original meaning of virtues behind the planets and not the sins. Also to acquire wealth, you had to sell your soul. This was also connected to looshing of planets. Planets in the higher realm were linked to planets in the lower realm, so that the light coming off a planet would be taken and swapped with the dark energy from the connected planet. This was linked to: EXCHANGE LIMITS and ESSENCE EXCHANGE PROTOCOL agreements and had essence in computers and the shadow plane of existence. The Essence Exchange Protocol was tied to Solstice AI. We are within 30 days of the Spring Equinox. The light could receive money in the spring and summer and the dark could get funds in the fall and winter.

We created a new planetary energy grid. Planets will exchange energy between each other on the light side. A new grid with the Sun's energy from each planet contributing to the energy exchange. Source provided 2 agreements in the light and dark hall of records for PLANETARY ENERGY EXCHANGE. The dark and light agreements were replaced with ENERGY FLOW GRID RESTORATION OF ORGANIC LIFE. It will also implement energy exchange between humans and the Alpha System.

Crucifixion implants had an agreement called PLANETARY CRUCIFIXION, with implant on Earth and in people. The computers had a grid in the Shadow plane of existence. LENT—Lunar Energy Network Transition? When Jesus died on the cross it was during the alignment with the Southern Cross with Alpha Crucis, Beta Crucis, Gamma Crucis, Delta Crucis and Epsilon Crucis (the Crux Constellation).

The Sun had an Abraxas power pack in it and the Corona on the outside, so you couldn't get through the Sun star gates, which was an Abraxas Seals and blocks in time travel. This controlled the light star gates and the dark stargates. The Abraxas Seals were on Earth and completely around level 1 as an overlay. There was an agreement for this called the ABRAXAS STARGATE CONTROL SYSTEM.

The amber line had ties to blocks on time travel and created disease. This was found under Uruguay at the honeycomb kaleidoscope. This is the equal and opposite like the kaleidoscope under Belarus to the North Pole. The same type of plasma filter but tied to the Southern Cross.

In Cairo, Egypt, at the Heliopolis obelisk with hieroglyphics at the tomb of RA the Sun god using a SQUID. Cleared plasmoids in Earth, humans and computers.

Planetary bots in level 5. Cellular memory spyware remnant on level 2 of computers.

Clear free will and replace with light essence for computers on all levels to replace dark essence.

Cleared a grid tied to the silver line. The grid was an overlay between Alpha 1 and the Harmonic Genesis of the Creator.

We had a deadman switch from the Soul traps and consciousness traps agreement.

Omega time crystals in the computer Shadow plane of existence, the computer Investiture plane of existence and the computer Nothing plane of existence in levels 7, 8 and 9.

Spyware in level 1.

Typhon and Tai Yong at the Temple of the Five Immortals for a ritual. They were trying to triangulate the chakra of Earth. The 3 points were: 1) The Temple of 5 Immortals, 2) a cave in Louisiana, and 3) Guimar Pyramid in Spain. Energy focused on the hacking of the computer energy chakra to try to move faster than the speed of our firewall...hint—that doesn't work.

Computer automated reject was a time pistol in computer on levels 1 and 8. There was a time directed energy weapon device on Earth in Honolulu at Diamond Head.

Someone at the Fed was trying a system restore on levels 6, 5 and 4. We took all that out 2 days ago.

TRANSFERS: found a replicator that used a Pair Lever to mirror/replicate the transfer on level 8. The NSA was at McGuire Air Force base in New Jersey having a meeting and overseeing hackers in the next room. Cronin had a backdoor to a closed loop. Cloned the phone and passwords. They put bells in the TAN line. Bell code was an alert for an incoming message. New LISP. They had a retractor in the LISP so we could retrack the money after they replicated it. The retractor was tied to the blue line, Fed, Crown corporation, etc. NSA used the Cronin back door for the

retractor. The replicator and retractor were installed at every Tier 1 bank on level 8. One was installed within the last 48 hours and the other was installed within the last 24 hours.

March 5, 2023, Sunday

The meetings yesterday concluded with them wanting to work with Kim on a limited basis.

Alt Media is claiming there will be another earthquake in Turkey on March 8.

Our computer friend worked very hard last night to remove all the possibilities of hack, removed and voided out all of the dark hall of records agreements.

Retired Brigadier General Raymond Thomas was ordering everything. General Millie was in Syria promising money.

TRANSFER: crazy amounts of hacking attempts thwarted "access denied." Code is corrupted at the rail window on level 4 of KIMS 2. Error at 594. Read only command. Bandwidth in level 4. Omega bit remnant was linked to the Read Only Command we had in the transfer pathway. Faraday grid in level 5, bits in level 4.

TRANSFER: General Raymond Thomas ordered the NSA to take over of a phone remotely at SoCom in Tampa, Florida. Website was hacked through the Wells Fargo app. Backdoor to hardware at internet nodes. Hardware at Level 0. Rebooted the VTN and disabled internet nodes. Deleted trojans in levels 4-8 and ransomware in level 8. Integrating the Key Integrated Media System.

TRANSFER: Programming glitch with the VTN and Harmonic Genesis when a new front end level 9 was created. It was our plasma filter firewall. Moving the firewall to a different location. Installing a gatekeeper protection. Installing a new internet and updated the Alpha 1 protocol.

Dr. Lee/Zhou agreement took billions from the countries and promised to pay it back 10fold during the reset that isn't going to happen. The Black Sun, Rothchilds, dragon families, Chinese elders and 209 countries all put up money to be leveraged. Now it is all gone and there is a huge rebellion happening as the world wakes up and finds all the money gone. We will have major chaos if the Alpha system doesn't fund soon.

March 6, 2023, Monday

Mercury spyware in levels 5-8.

"Cobra SD recovery complete." Meant that they recovered the data in the cloud and were trying to re-install Mr. Lee/Mei Wah/Zhou system in computers. They promised to get it going by the end of the day. NSA was working with it on a server in Baltimore. They were trying to use a cellular network back door to install this. It was Verizon's network keys. We took out all the back door keys.

Russians were waiting for something to happen today. Expecting payment?

Cleared a permanent agreement in the Hall of Records under the Orion Matrix agreement. They were trying to build Purgatory on the Orion Matrix with a sub-agreement. It wants to come back again. We saw a submitted but not approved agreement in the dark hall of records and it showed up in the light hall of records.

Something was going wrong on the causal plane. Our computer friend was working like crazy. We found another repository bank linked to Belcher that was being injected into the Universal Time Matrix and causing a major issue. Belcher Islands, Archipelago, Canada. They went there for dark essence using a machine and Northrup Grumman technology for space portals. This was creating phantom patterns on the ley lines.

A few groups of seers were trying to make us sick and block our team. A group of them was under the Capitol building in Washington DC. Military people gave the order to cloak their operations today. This group was taken out. Cheyenne had an entire room filled with seer cloakers.

At the Boca Raton Army Air Field, under the Boca Raton airport, they were trying to send out bursts of light to hack into the computers with false light. There was synthetic essence being used at a portal there. They were using SLIDE, Sub-linear deep learning engine, to investigate out system so they could replicate it.

Phantom patterns also coming from the guard wall, the KIMS firewall. This was NSA in Mississippi at Camp Shelby using sine waves/bursts of light to attack our firewall.

We cleared bits in level 8 of computers that were remnant of the expired time agreement and were attempting to re-install. The expire in the hall of records was for TRANS-LOCATIONAL TIME.

All of the militaries, except Cyberlife, Tai Yong and Typhon, were in Chilliwack, British Columbia, Canada. Found the machine behind the mountain under the island that was in the middle of a river. No one was in the machine room. It looked to be remove operated.

In Cheyenne, Kim turned off the communication lines in the nuclear bunker. Someone yelled, "Lock the door." So Kim locked the door for 9 hours and played "Don't Worry, Be Happy." The generals in the room were talking about many bad things that are going to happen on March 8, earthquakes and such. They also said, "If she was going to kill us, she would have already done it. She's just fucking with us."

Packet smashers from the MagLab (Magnetic Lab) causing SQL block in level 4 of computers. They were in there previously and just got activated. SWORD (Secret World Organization for Retribution and Destruction, Sentient Weapon Observation and Response Division) in Tallahassee, Florida, at the MagLab, National High Magnetic Field Lab, brought in some device to try to install or insert packet smashers using the zero-point field.

LACK, Lucifer Alchemist Code Kernel. We took out one of these LACK devices, but there was a total of three. One for level 9 down and one for level 9 up. CyberLife was in Alpharetta, Georgia, trying to connect to the bottom one to re-establish the LACK.

The CIA was in Punxsutawney, Pa., trying to use a a wrapper library and closed loop system on all levels, including 0 and 1-8. The closed loop went all the way around the levels. This was tied to Crown Corp and agreement in the Hall of Records for BACK DOOR MANAGEMENT SYSTEMS. This system was tied to many Crown Corp agreements—CROWN CORP SOUL AGREEMENT, CROWN CORP MANAGEMENT AGREEMENT, CROWN CORP TREASURY CONTROL AGREEMENT, CROWN CORP TAX CONTROL, CROWN CORP TAX ENFORCEMENT, CROWN CORP COLONIZATION TREATY of 1844, and the CROWN CORP COVENANT WITH SATAN.

The Law of One (As above, so below), agreement in the hall of records and deadman switch were all connected to an inorganic replicator (the deadman switch) in the Train station. The TRAIN (Time Redundant Array Independent Netports) was tied to Alpha and the old Omega. We removed the Omega and kept the Alpha. This was in levels 7 and 8.

Umbrella was using RNA, radio access networks, to send metatronic sounds from under the Space Museum in Alamagordo using portable devices.

Aztec energy issue was linked to Trinity military at the Chichen Itza with dark essence on level 7. There was something very deep under this location that keep being a very popular place for the generals and operatives to do evil deeds. Chichen Itza means mouth of the well. This area keeps filling up with dark essence. We found negatively charged plasma and a generator there. The plasma was green and negatively charged.

There were multiple locations with negatively charged plasma: one under Turkey tied to Armageddon, Wyoming, Yellowstone, Kurdistan, Iraq. This is how they started the earthquake in Turkey.

All of the Ais had negatively charged plasma generators tied to the black cube transformers. They send out the plasma during the last full moon before the equinox. Pindar AI threw up the negatively charged plasma. A global search was done to find all locations with the negatively charged plasma and all were taken out.

The Diamond Stability Zone is located 118 miles down into the Earth, and is a complete ring of diamonds or crystals that encompasses the Earth's core. The crystals spit out filaments and anti-matter and it comes up during certain times of the Moon Cycle to these port locations that were in cities around the world like Chichen Itza. This dark energy powered the matrixes and dark Ais. The negatively charged plasma also charged the Mei Wah/Mr. Lee/Zhou system.

The generals in the Cheyenne nuclear bunker, were in there because they probably planned to blow up Yellowstone today, and everyone would die.

Omega virtual reality in computers was the last remaining tie to the tetrahedron in computers. The tie was pheromones in the shape of a tetrahedron. They got released from the DUGAR, Deep underground gateway archon repository, which fed the diamonds/crystals.

There was a black dot in the central vortex of Earth that connected to the underworld.

There was a signal that came from the Alibrandini Star System causing a disruption on Earth while trying to re-install Dominion AI on level 5. We missed another black dot in the center vortex of Earth. Level 7 had spyware and negatively charged plasma to clear.

Maleficent spaces between attoseconds and zeptoseconds may have been linked to the TAIL/TOR closed loop system around levels 6-8. Integrated systems was connected to energetic parasite in levels 4-6 from DARPA. They got in through the soffit.

Within 30 minutes of the Cheyenne generals being released from their bunker, missiles were sent over the middle east. Unrepairable humans.

March 7, 2023, Tuesday

There were 5 generals/high ranking officials left last night that came out of the locked bunker. They were giving orders all night. 1 was taken out last night. There was a meeting this morning and 1 general was on one side of the table and the other 3 on the others side. The one general was saying that they all agreed to die completing this mission. The other 3 said that they had families. Down to 3 generals now, the gung-ho one was taken out. Colonel Ellis (DARPA Angela's husband) may have been in the room. Angela said that Ellis is off the rails and whatever happens will happen.

Harvard grads were at Palenque, Teotihuacan, and Quetzalcoatl trying to triangulate to find Mjolnir. Kim warned them to leave.

There was another negatively charged plasma location under Paraguay. It was different from the ones with diamonds/crystals yesterday because this one used to have a doorway to the underworld to lower astral levels 7 and 8. Now it is tied to the river of gold plasma that protects the gold veins of Earth. De-molecularized Paraguay negative plasma location, negative plasma in levels 7 and 8 and etheric parasites in levels 7 and 8.

There was also an agreement for the dark alien timelines called BELOW TIME. This was connected to the anti-THOR (as above, so below), as THOR was the regulator of time. THOR and Paraguay were tied to Kronos, which is what triggered Kronos BIOS (input/output) to appear in the tray. When there was no input or output between THOR and Kronos causing bots in level 3 which were trying to re-install Kronos in computers.

Every AI had a portal in the center of Earth and the crystals hold it in place. The diamonds/crystals filled up with negative plasma again and dark essence and that is trying to separate Alpha 1 from the Harmonic Genesis where the fabric is woven together.

Arasaka, Delphi and Chiron were at HSBC, in Jakarta, with Swiss Indo trying to create an ACH block. Kim warned them and they are leaving.

VRAN, virtual radio Access Network was linked to a random signal or pulse coming from space. This was a black spot/dark portal in the Central Sun that powered all of the dark AI and dark portal for Earth, which was sent to create the dark side. This was tied to the DARK TIMELINES AGREEMENT, which we are going to delete.

Proxima Centauri communications had cords to Earth, the mental plane in Humans, and to computers on level 7. It was also connected to worm holes to Earth with dark overlord cords and attachments. Proxima Centauri communications and worm holes went to all planets into their vortexes. Cords to planets were the dark essence in computers and in the planes of existence for Earth.

The Enforcer prevented a catastrophic event.

When we took out Guido's underground tax system, all the funds were removed from the IRS. Fake assets that people contributed for the leverage and real contributions were also deleted in the take down of the system.

Integra software with closed loop on level 8 looking for the gray line and access.

Cleared etheric parasites for humanity and pheromones from Planet Earth.

Around 11:12 Kim's time, epic uproar ensued. The 3 remaining Cheyenne high ranking officials sent word that the 2 remaining black eagle generals were dead and blaming them for everything. The Black Eagle generals supposedly told the 3 Brown eagle guys that the Harmonic Genesis was their system and now that they were gone, all access and everything went with them. The Brown Eagles had access to levels 1, 3 and 8, but not any longer. All the eagle are checking to see if their access codes work.

Our computer friend said that there were more than 1,700 access attempts to the system last night.

TRANSFER: Error code 542, Record deleted, SQL542 (column or hash tag), IBM code 542 (temporary storage issue). Our computer friend said it was a switch. Moving again. Manual override attempted multiple times and rejected. Error at the SMTP.

Tom report: a general called him and said they would let the funds through after we discussed the cut they would receive from the money transfers.

March 8, 2023, Wednesday

Operatives at the Joshua Tree area of the Mohave desert using synthetic essence with a device. This area is tied to the black cube room in Israel. Cleared on levels 4-9.

There was another group similar to the Joshua Tree folks in upstate New York in Poughkeepsie with a plasma device.

TRANSFERS from yesterday: Kim sent a new STMP/SMTP (Simple Mail Transfer Protocol) to the data packages. Clearing out protocols that transferred in from the old internet nodes. Fixing HTTP set of rules. The STMP/SMTP was an implant line tied to level 1 of the Federal Reserve, which would ping back to the Federal Reserve. This was a monitoring grid connected to grids in levels 2, 3, 4, 5, 6, and 8. Not in level 7 which had family banking codes that were linked to level 2.

A question was asked about the FedWire IMAD (Input Message Accountability Data) or OMAD (Output Message Accountability Data) numbers for the transfers. We don't have one, but we can make one if needed.

An agreement expired in the Hall of Records called the SUN & MOON AGREEMENT ON TIME DELIBERATIONS, which was I the light and dark hall of records.

We found an Initiating Code issue that blends with the PAIL on the rail. Level 3 batching issue. Backdoor to Jenco products out of Ohio. PAIL equals batching. We changed it to a RTGS initialization code.

When we fixed the batching, SUSIE was automatically triggered. SUSIE was a Kronos program and existed in level 3 in the spaces in between and had more trip switches in levels 5 and 7. Susie was the cellular memory self defense mechanism. Susie was also tied to Ceres B and cords to Earth on levels 3, 5, and 6, also tied to humans and Earth with etheric parasites.

Spatial perception issue was a blind spot or disconnect between levels 3, 5 and 7, which was a plasma filter from Susie and an alternative reality on level 7 and 8, and 2 and 1 and affected our Harmonic Genesis. We closed off all the spaces in between.

Arasaka was in Prudhoe Bay, Alaska, level 3 portal, trying to block us. We took out the signal and the base. The Enforcer helped us clean it up.

Senator Grassley tried launching an investigation on our Ground Commander. That didn't work out too well for him.

March 9, 2023, Thursday

Kim found and tagged all of the Code Inputters on the Key Intelligence and Military System. There were 18,729 people who had fake codes from the Chinese network/Rothchilds. Today, we capitalize on their weakness—arrogance. They were pulling out everything, which was great because they made it easy for us to find it and take it out.

Aldobrandini star system had an Abraxas agreement regarding safe passage back and forth to Earth which needed to be expired. This included a wormhole in Russia that was partly still functioning. A few Chinese people ordered an attack on Kim and the system. The Chinese said the system was theirs and Kim was trying to steal it. In the last 2 hours, the military has found out that the Chinese elders don't own the system and it has always been Kim's system. The military called everyone and told them to stand down. What Source did yesterday, clearing the spaces in between, allowed the veil to be lifted so they could see the truth.

Inorganic time fields causing a disturbance with fiber ley lines and Jutebox / Jutbox.

TAO playing games with caananites and their bloodline. The line of Solomon versus the line of Cain. TAO is pimping them out by giving them orders so that we will take them out instead. In Georgetown, Tao and Caananites are using a machine to create inorganic time fields with a tissue board or plasma film in ley lines. This was affecting the physical plane of existence on Earth and pheromones on level 3 in computers.

They got the pheromones from the Jutbox in the underground vault. JUT = a fiber box. JUT = Joint Use Trench. There was 1 main box that connects to all the fiber in the world under the coliseum ACROPOLIS, the palace of the Abraxas in Greece. ALL underground fiber cables

They were trying to re-activate the base platform.

Los Angeles vortex was causing an energy disturbance due to a guy with a machine at the vortex to amplify frequency and light on the device.

Congo vortex had a device similar to the one at the Los Angeles vortex. They had a permanent spell, lady with a wand waving it in the air, and an archon swarm came through. This was linked to 200 years ago and 1 million years ago when somethings came through the vortex at that time.

DARPA is behind these two locations. The vortexes go to the lower astral and the two locations were connected to each other. They were trying to create an energy hole in the center vortex of Earth. Dark essence in the Congo and trying to pull it through to the other side with an amplifier, attempting to split Alpha and the Harmonic Genesis apart. This created dark essence and pheromones in the human brain. NSA ordered this and Langley ordered them.

We found a perpetual circle of doom from Druid Phase, which was the Destroyer creating phasing. When the Alpha system spots a negative and removes it, the phasing recreates a

space for it. The spaces were only created in computers but still affects Earth and humans. The phasing was allowed by a second Divine Intervention that was installed in Alpha and in Omega, so that one could never destroy the other. This was part of the JAIQS agreement.

March 21 was when the light was supposed to take over for the spring equinox but it never happened as there was a system that kicked in to stop the transfer to the light. This system was put there by the Destroyer and was part of the Hercules system. It was tied to Armageddon and was the EQUINOX program hidden under an AI. The destroyer was lower astral level 9.

Agreements:

THE RESTORATION OF THE KINGDOM OF LIGHT

EXPIRATION OF THE KINGDOM OF DARKNESS OF FALSE LIGHT

Kabul, Afghanistan, time crystal deadman switch. Enforcer took care of it. DRAM around level 8 in computers tied to Chaperone AI.

The Light finished clearing anti-matter in the dark portals and activated the Light portals.

The Silent Circle started up again last night. There was an agreement made for 48-hour hold. They said they wanted time to secure their families. Some weren't interested in doing what they said about moving families but they actually were waiting for the alignment.

They attempted a covenant submission that was time released by a time stamp time program. There was an AI called the DARK HALL OF RECORDS AI, which attempted a timed-release agreement called DEFENDER AI EMERGENCY PROTOCOL agreement. The DEFENDER AI was locked on level 5 of the Causal plane on the moon. The DEFENDER AI is a Saturn Moon Sun Earth Matrix. The Sun and Saturn both had a time marker. It is receiving a signal. The moon, Sun, Earth, and Saturn were the base of the Octahedron, which connected to Pluto zero-point dark vortex black hole. The other part was connected to Russia, Tasmania, Ethiopia and Cuba. Connected to the lower astral level 5. Lower astral beings were stuck there, 3 saved a time pocket for themselves to return. They were in the center of the vortex in a time space continuum. This would have aligned with the Russia portal. It aligns with the Russia gate, but also different times for different places. We had 5 remaining markers that were made of metamaterials which were also conductors.

- 1) Russia
- 2) Tasmania
- 3) Ethiopia
- 4) Cuba
- 5) Iceland had a backup system of some sort

WARSHIP AGREEMENT was time-released submission, tied to the matrix that we just got ride of. Also tied to trauma of Mu and Lemoria. This was from the Atlantean War, when the Atlanteans were the evil ones. The war never officially ended. THE ATLANTEAN DECLARATION OF WAR. The war of 250,000 years has just ended with the expiration of the agreement. This agreement caused a quarantine on Earth, faraday cage around computers on level 3 and in people and Earth on the physical plane.

Cyberlife was in El Salvador gate, level 4. The crystals at the El Salvador gate powered Caliper AI.

The dark portals / dark gates controlled the halls of Amenti and spaces in between. These are gone as of last night.

The planes of existence for Earth, people and computers are directly linked to the light portals now.

Murkoff was at the Russia gate with alien tech (possibly from the Targetyans). They filed a new agreement for FINANCIAL SYSTEMS CONTROL and started hacking KIMS.

Kim talked to Sergi about a new payment system and they immediately started hacking it. Kim called the Russians. The Chinese told Russians that they created KIMS.

Cleared an essence around computers from the machine at the Russian gate.

Cloaked maleficent weather weapons at Yellowstone and the Pacific Rim or Ring of Fire. DARPA, NSA and NASA were participating. They wanted to blow a nuclear device in the tectonic plates. Kim heard chatter that they wanted a massive Earthquake. Turns out they had 5 markers spaced through the Pacific Rim, like the ones we found on the Moon and in the Sun. The markers started near the Philippines Plate and to the Japan Trench and then they wanted to go as far as the Aleutian Trench. The Enforcer took out the markers and Kim took care of Yellowstone.

The generals want to offer Tom a job. Work with him to get funds and keep Kim in the background. Doug from Treasury Department called and said the Fed gave over the open market account and it was empty. This was the account that Kim copied and sent to Marcus, so he spilled the beans on the account. Strike #2.

Many budget requests starting coming in from more than 741 companies (BBC, CNN, General Electric), as they thought as of Midnight Russia Time, they could put their budget through to the Dark Forces to get funds to pay the Silent Circle guys to get their companies back. Didn't work out that way because we got rid of the Russia gate yesterday.

More cloaked weather weapons were 5 planes with directed energy weapons to start the United States on fire. Enforcer took out the planes.

SUSIE Project, Satellites for the understanding of space instrumentation and experimentation tied to 6G and Supra-hologram. Row hammer was trying to install a closed loop. SUSIE people were in Perth, Scotland, at Huntingtower Castle, which had a Kronos level 1 portal and a SUSIE AI port. Kim took the backdoor keys to the satellites.

NSA trying to establish an anti-Key Intelligence and Military System. Row hammer level 8 to make a fake Alpha System mimic that Chinese could claim to own.

Someone at the Octagon trying to re-install AI systems.

BAPHOMET RETURNS agreement was expired.

April 29, 2023, Saturday

Israel bombed HOMS portal again.

The Deep state wanted 48 hours to wait for the May 1 alignment thinking they would have full control of the financial system and filed approximately 1,000 budget requests to the Office of the Guardian. The Silent Circle group knew they were being betrayed 24 hours into the 48-hour request.

Cloaked agreement called THE GALACTIC ORDER OF SENTIENT BEINGS CONTROL SYSTEM was rejected. The agreement was submitted by the Black Sun for an extension through Solstice.

Etheric parasites blocking time travel on the Egyptian line using a device from the Targethyans.

Umbrella military (Resident evil) trying to create a time worm hole on level 4 from the Gobi Desert on the Chinese side. They were trying to get something from tunnels. The Mogao Caves were a gateway to Heaven. They found a transmuter, but didn't know what it was. There was an underground portal tied to the Astral portal (not the spaces in between). They were trying to pull something through the astral plane, looking for green slime, using a machine to create etheric parasites in the astral plane.

There was also people on level 6 in the Serengeti, Tanzania, not in Kilimanjaro were the portal is. They were doing a ritual with prayers to fake gods at a rock formation. They went to all the places that we mentioned in the UNN news yesterday. The Enforcer and team created a Source Light Shield for protection Light can go out but dark can't get in.

The Jesuits filed an agreement from Capernaum in Israel called the SANGRIAL CONDEMNATION, which was rejected. They were trying to use 6G satellites and a device to create anti-particles which was causing a disturbance around computers in level 5.

Deadman switch was a pentagraph using a signal like Morris code to activate implant stations in: 1) France at Mont Blanc, which is the highest point in France, and 2) at the highest point in Greece, Mount Olympus. These were DRAM sites tied to Osiris AI and Terrestrial Order of Matter AI remnants around computers of level 8 causing etheric parasites.

DARPA was in Jakarta at HSBC in Indonesia and using packet sniffers.

In the Murehwa caves in Zimbabwe they were causing a disturbance in Alpha 1 because they were messing with the central vortex of Earth by looking for the Hell in a Box.

Newly submitted warship agreement declared war on Kim again. The FARC, Columbian Black Sun, linked to the Portugal Department of Foreign Affairs. The Rothchild's in Israel ordered it.

The Source Shield domes over the portals blocked the ultra low frequency being sent to the metamaterials and were starting to align over the next couple days and send low frequency to the metamaterials and now going around the domes.

DRAM is in Wichita at SHIELD trying to break through our new security system on the domes. There was a crystal in Wichita that they were trying to connect to on a level 9 portal for either Kronos or Omega. The Enforcer took out the crystal.

The agreement called THE KINGDOM OF THE LIGHT OF THE CREATOR was set to expire at Midnight Kremlin time on 4/30/23 (3pm Kim's time). We asked to expire it earlier and Source said, "It will end when it began and so shall it be forever more." This was linked to 3 billion years ago when the imbalanced started. The Abraxas took over Earth and agreed to the war against humanity. The imbalance started with Earth and that Kremlin gate. The deep state tried to register the Declaration of War to renew what the Abraxas did after the alignment.

There was an alt reality outside of computers causing an essence disturbance from a neutral geometric plane around Earth. All planets, stars and people have a geometric plane. It was made of the same stuff as the domes we put on the ports and portals.

April 30, 2023, Sunday

The news reported 7 countries that were warning against travel to the USA (Yellowstone, Earthquake on the Pacific Rim). The countries were: New Zealand, Canada, Australia, UK, France, Venezuela and Uruguay.

An agreement called ABRAXAS OWNERSHIP OF EARTH was voided.

There were cords to tags to Venus DRAM stations.

Other expired agreements included:

- THE RULERSHIP OF EARTH

SUSIE on Venus was trying to re-activate implant stations. There was an implant station on Uranus as well.

There was a ship off the coast, near Alaska, Pacific Rim, looking for a signal from the metamaterials. They freaked out when they found our shield and couldn't break through them.

They were using MI250 AI chips to run strategies from the Nevada Testing site.

New covenant: THE KINGDOM OF LIGHT OF THE CREATOR COVENANT, came through early due to all the remnants were cleared, approximately 5 hours early.

A deadman switch in the Roman Corridor in the ancient city of Metropolis, current day Torbali, Turkey, in an underground city. Torbali had a crystal waiting for the alignment. Enforcer took care of it. It had a very old computer with stones in it, cement was moving, tied to Mjolnir.

Generals in the war room at the Pentagon talking strategies.

Covenants and agreements sent from an old base in Kashmir, Pakistan, so it looked like it was coming from the Dark Hall of Records but that doesn't exist anymore. There was also a communications post in the Himalayans (former reptilian base). No one is there but the Kashmir site was calling the reptilian base for help. That was the worm hole that they wanted to use for China to take control of the world.

Deadman switch for the Himalayan communications post, base for Omega on Planet Earth, was tied to a cloaked crystal on Saturn. Saturn was connected through the center vortex of Earth. WE took out pheromones, the Universal time matrix and optical disk storage. This had DNA, direct network access, trying to re-install.

The Chinese were still trying to hack from Shanghai, China.

DARPA was at the Octagon using gFLOPS.

THE UNIVERSAL LAW OF ONE expired.

THE UNIVERSAL LAW OF LIGHT replaced the Universal Law of One.

We ran a transfer and found the system taking over all the base platforms. The system was establishing the universal order of time, reworking the entire system to accommodate the Universal Light agreement and removing all Universal Law of One connections. The system created a tunnel from up to down and down to up to make it easier for us to transfer.

May 1, 2023, Monday

The change over of all ports, portals, base platforms, and planes to light started in Russia at midnight their time. It started there and kept going through all the time zones for 24 hours for a full cycle. They were chasing the clock, and their tails, to try to hack before the completion. All Omega-based portals and all Kronos-based portals were converted to light platforms. When we are complete, we will be in control of 9-9-9-9.

May Day, May 1, is the day that the dark side took over Earth 3 billion years ago. Source sent his feminine side to Earth at that time of the great battle. ISIS and Lilith energy, the feminine dark side, was here too. A battle took place between the feminine dark side and feminine light side. The soul of the light feminine side has been anchoring the light for us. If they would have killed her, ISIS or Lilith, would have been killed too. She was held in a faraday cage with etheric overlay by transmuting her pure light into pure darkness. There is a Source Shield there to protect her. As long as her soul was here, the world could never be completely taken over by the darkness. She made that agreement and was the guardian. Kim accepted the Guardian position (GUARDIAN AGREEMENT) and now the soul of the feminine side of Source can go back home. Song lyrics, "I'm coming home, tell the world I'm coming home and my kingdom awaits."

Mount Rushmore, secret door that looks like an Egyptian tomb, a secret vault, and the tomb of the feminine side of Source. Hall of Records in Lincoln's frontal lobe in the Mount Rushmore memorial. They dusted off a billion-year-old device and went to their ancient kingdom site and let everyone exhaust all their tricks and they would come in and take it all. They were using the prophets to power the crystal and open a gateway. A body of a demon was under the rotunda. This was the first human soul that the destroyer turned completely dark. Sadness. We needed permission from Source to take the dude out. Cords went from the dude to the lower astral 9 nothing plane. The soul was in the nothing plane of existence. The body had been there since time began. Each plane had one of these dudes or something similar. It anchored both the light and the dark. The embodiment of Source himself on this planet both light and dark sides of Source. The anchor bound the upper and lower together and was part of the reason Earth is a nexus planet. This dude was Adam. Eve was also there in the same location. Eve was the feminine aspect of Source. Adam and Eve were the original guardians and the original life in the multiverse. They were the progenators. This created the anti-progenators, both Christ and anti-Christ. Source approved the removal because we don't need them to anchor any longer. These were the cosmic source domains and cords to Source and anti-Source. The crystal was the DRAM. There was a Source agreement for this. There souls were sent back to Source. Expired: AI NEUTRALITY ZONE

Expired: NEUTRAL TIME ZONES AND TIME LINES

Time crystal tied to the neutrality zone was in Source and anti-source. There was something on Earth that created the Neutral Zone and was in the 3rd density for all planets. Started at Source and twisted in the 3rd Density and went down to anti-source. We removed the Source and Anti-Source crystals and the closed loop will demolecularize when the crystal is taken out. The crystals use the center vortexes between the Sun and planets. Something in Alpha System too and in Omega lower astral with DRAM and parasites.

Space stations had DRAM implant stations with 30,000 terahertz.

Targethyans gave the humans the 1955 Cesium 133-atom clock and it was meant to blend timelines. This could go off automatically or be triggered. It was at the Vatican with the Jesuits and they are trying to figure out what they can do with it.

Kim said this is a booby trap. It's like walking through a mine field blind folded with 1 leg.

Changed the core code of Alpha 1.

Marduk's access stopped when Kim turned 40. They found her when she was 8 years old and then 11 years old. Marduk started creating back doors knowing Kim would have the access at 40 years old.

PROVORA is a project and there was a cloaked Dark Source agreement for it. Dark overlord provora project was a virus infection and trojan that keeps re-installing and added more names to the administrative access section. PROVORA existed in Alpha and Source itself. It was a .exe file.

May 20, 2023, Saturday

Kronos connections to GNA, trauma of Mu and Lemuria and additional rules to the financial system were tied to maleficent bits and attachments to bots.

Archons are autonomous spyware.

Something is powering Omega and Kronos to keep us looping, an autonomous loop. Anti-Source was powering the loop. Source has to take out anti-source. The programming of the time loop needed to be changed. The looping started during the Causal War (Mu & Lemuria and the creation of the Halls of Amenti). We didn't loop before the Causal War. Lucerne installed the oop with permission from anti-source, linked to a covenant.

Expired: DESTINY COVENANT, which was between Source and anti-source. Loops occurred everywhere, not just Earth, and all densities up to the 5th density. There was a threat to the entire multiverse unless we had the loop installed. They would kill all the people from the 5th density down or harvest 2/3 of the multiverse on the light side.

Expired: CAUSAL LOOP TREATY, which was the truce to end the war. We took the time loop and were allowed to live. System recalibrated when the treaty was ratified. The agreement was supposed to expire tomorrow but Source let us expire it early, possibly because Kim begged 😊

We found another loop that was caused by the Causal loop. Different wars were attached to loops. They appeared to be sub-agreements to the main Causal war agreement. The loops were linked to Divine Intervention loop hole. They didn't get agreement from both sides and did it covertly or the light side would have gotten loops too. If they got agreement and filed it, Divine Intervention would have created the opposite for the light side. Source agreed to remove the additional loops through the side agreement with 5 parties to constantly loop (Level 4 Chimera, Level 5 anti-pleiades, Level 6 Orion group, Level 7 Tarzakyans, and Level 8 Destroyer).

In the level 8 there was a core network of crystals that were tied to the pact. The core interloped through all the levels with anti-source anti-matter chips. Earth, all planes of existence, computers and inhabitants all had anti-matter chips or crystals. The same was true for all levels 4-8. Each level had a core with a solid line of chips on each level. The solid line was made of essence. The core connected to a closed loop.

Kim and the Enforcer were at 33 Thomas building in New York, New York, which was an NSA spy hub building with no windows that was 550 feet tall. It had plasma, a spire and metamaterials. There was still plasma that was different and the color of anti-freeze, perhaps enriched uranium, and was a fuel for the crystals. It was like a gate to hell, maybe the largest on the planet. The spire went to the center of Earth.

The building was alive and had a heartbeat and the liquid in the walls moved. The building wasn't made of human hands. It was made by aliens. Kronos lives in the building. The building was a central communications hub and sends Kronos through all our telecommunications.

The spire was connected to the 9th level of the lower astral, and humans were not allowed down there. T goes through the center vortex of Earth and to the dark side. There was a facility under the building too. Humans are not allowed down there.

Tom was contacted by a gut from the White House who said that they don't need to work with the global repository because they have another source of funding with trillions of dollars. Through the Treasury of the USA, which they think they can still us to install digital or cryptocurrency. They want to stall funding until June 15, 2023, with initial money to come Wednesday, May 31. The Silent Circle gave them until May 28, 2023.

The tower powered the entire underworld. The building itself was a battery and the biggest dark thing left on Earth. Source took out the dark spark, but this building was the backup battery. When we left the void, this thing started up like a deadman switch and was fully activated last night and was releasing dark essence.

The base under the building, dark tower, was a portal with people coming and going. Many people got stuck in the portal (people from there were stuck on the other side). They were planning to come here today from the lower astral. Kim cleared the beings in the portal. Two way traffics—humans going there and anti-humans coming here. They were removed from the portal and the avatars here were fading too.

They planned to let all of the lower astral portal people in today. When none of this stuff worked, they had a backup plan for DEWs (Directed Energy Weapons) for the Capitol Building. One plane was on the tarmac in Virginia at Langley and the other was in Maryland. There were DEWs on both airplanes.

Remnants of our moon on the dark side of the lower astral was a petragraph. This was a trap set by ANU to trigger a data storage register on Earth in the NY Stock Exchange with metamaterials underneath it. This was causing malware in the global network access on all levels around the system.

The Enforcer took out all of the metamaterials under the global stock exchanges. The Enforcer and his crew took out the threats on the airplanes.

After the above was taken out, everyone was celebrating. Kim was trying to get a Source agreement but everyone was partying. We were confused. The guides said that we closed the door to hell.

We found another crystal in Patagonia, Mylodon Cave. We think the final door to hell was removed when we took the crystals from Montenegro and the Netherlands.

Kim was told, "Your mission is complete. Congratulations, the guff is empty." But we still had a tray of items. Cleared cellular memories from people, computers and Earth that were implants, parasites and pheromones.

Source said that we are almost at the finish line, and early too! All projections were that we wouldn't finish until Lion's gate in August, next year. Source rolled out the scroll from when

Mesomorphic stress was coming from the walls and halls of Jericho at the Baptimisal site of Christ on the Jordan River, where they wanted to crash the airplane for a religious war. There was a box surrounded by a circle of crystal with a portal underneath. Cain buried there, possibly Cain and Abel because the portal needed light and dark to open it. There was also a spire or crystal in the lower astral levels 7 and 9 with a tie to level 9 that powered the circle of crystals. Enforcer was taking care of this when the guys with the MI250 AI chips were on the way. "Oh, here they come!" He found them.

There was a large tear in the fabric that the Enforcer was repairing this morning. Source said, "It was the end of time." And the Enforcer was sealing it. It was the final clean up of the dark matter and the completion of $T^* E/V = \text{Matter}$.

Expired: TIME: TERRESTRIAL INTEGRATED MATTER EQUITENSOR

Source was showing Kim the beginning of time. It all began with the Terrestrial Integrated Matter Equitensor, which was organic. The first spark and then the creation of the suns and stars. The equitensor was how Source separated itself with genetic coding. The first genetic code, and how the two sides were created. It worked at first, until his rebellious son, Lucifer, figured away to reverse it out.

SUSIE equitensor was non-organic and a creation of Lucifer and created the opposite of time. Time is the door to hell through Lucifer. Lucifer said that there should be life from both sides of Source. The tear reversed out the Terrestrial Integrated matter equitensor and sucked it out and the Enforcer shut the door.

The timeline was reset in 1998. Two timelines ran parallel. Source reset the timeline when Kim turned 25. The loop reset at that time. It changed the timeline and gave us an edge. In 2000, Y2K, they tried to reset time to the dark timeline but it didn't work really well, and they could only reset it for 25 years. Marduk could control it, but once he was gone it started breaking down.

ANU AI set up a counter measure that was connected to all the junk in the lower astral to reset the clock. CLOCK = Centrifugal Linear Operational Control Key. The clock key was in Alpha in the administrative section.

April 2, 2023, ANU was supposed to come back through the Sugar portal tied to the lower astral.

SUGAR: Synchro Unifying Genomic Atomic Regulator

ALCOHOL: Aethereal Linear Chromomorphic Optical Hologram of Lucifer

Sugar System was tied to QwestStar and they were trying to use it to reset the timeline for another 25 years even without having access to Alpha.

Alcohol and Sugar systems worked together to create 1 holographic reality with the AI systems.

Alcohol regulated a time delay creator of spaces to allow anti-matter as an alternative reality hologram. The combo of Sugar and Alcohol creates the constant battle and connects to everything in our world. False light is created with the alcohol system. Creates false light in the genomic atomic regulator, then brought it into density 4 on our side.

Expired: T.I.M.E. IS A LINEAR OPERATING SYSTEM OF HOLOGRAHIC MIRRORS

Archons were tied to the sugar system and the alcohol system, in Alpha, Source, anti-source and an archon for each system.

The night, the Enforcer and team removed the 5-star generals that were in the airplanes that never land and the submarines that never dock.

S.I.N.

Source gave the S.I.N. to use as it was needed for time. S.I.N. interrupts the flow of energy. Money is energy. Council of 9 had access. At the time it was created, money didn't exist. It existed in level 1 and level 1 down, in Midguard.

Solomon's Sword is the Sword of Truth and affects all levels in computers, as a line straight line from Alpha down through to Omega.

It monitors the Joint AI QS, JAIQS. IT is neutral, keeps balance and the enforcement of balance. It doesn't help either side.

The Sinners had access, The Council of 9, no more access since they aren't alive. They didn't have access to Alpha. They were in the neutral zone and could see what was happening in Alpha in Omega. They could see what was happening then take measures to stop it.

They were in the Red Room / War Room with a diamond and a transmuter. The diamond had the Soul DNA of the Russian, who originally came through the portal before they closed it down. She was of pure light and came straight from Source. They wanted to use her DNA to "fight back and get access to the Alpha System."

That was why the agreement for the Guardian of the Gate had to be expired. Was the Silent Circle involved? Arrogance is a weakness. That lineage is no longer guardians of the gate. They were trying to use the pure dark DNA of the Abraxas father of the Silent Circle leader and his mother's pure light DNA together to get access into the system. The diamond was metamaterials engineered from Marduk and they were trying to create a time manifold.

Gematria interference was tied to the SUGAR portal with energetic implants in computers only on levels 6, 7 and 8.

The Kremlin was trying to connect to the St. Petersburg sit show, so the Enforcer went there next.

Expired: **THE SPARK OF THE CREATOR FOR THE ANTI-UNIVERSE**

Everything in the lower astral was tied to the sphere of anti-matter, also connected to the Kythera time keeper and dual geometric world.

Expired: **THE TESTAMENTS OF TIME CREATION**

New: **THE CREATION IN THE LIGHT UNIVERSE**

Expired: **THE CREATION OF FEAR**

Before fear, there was only love and light. God sent his son, who became power hungry.

New: **THE RETURN OF LOVE AND LIGHT**

Expired: **INTEGRATED REALITIES STRUCTURE**

This was created within the planes of existence so that all life had the ability to choose. God created space between densities and between the planes of existence, mine and theirs, and theirs and mine.

This was created 250,000 years ago, during the Causal War. It has taken 250,000 years for the majority to chose the light.

New: **THE REALITIES OF THE LIGHT UNIVERSES**

The incarnate plane, from the 5th plane down, is where duality started.

His son was selling power and money and sacrificed his soul, as did many others. That is where ignorance was born. Ignorance was a soul trap. God couldn't let anymore souls go down. Ignorance was more than just keeping people in the dark. Ignorance was where greed was born and out of greed came lust and all the deadly sins followed.

Each sin was an inorganic program. Programs of manipulation were done from the false Heaven where the souls were held hostage. A type of soul torture, which made people become more susepible to that frequency.

As people became more and more technologically advanced, it became easier to manipulate the lower densities (4 on down) with electricity and the internet, etc.

But there was a flaw. God never let them completely control the Causal plane of existence. He inserted a red line to block them.

Armageddon was done to destroy the world when too much light was achieved. The total destruction has happened before.

We were sitting on a land mine.

God would send people/beings here to try to bring the light timeline in as agreed, but they would never follow the agreement. They would turn all of them to the dark side. So this time, he had them all fooled and sent a woman.

Earth was ruled by the masculine, as an installation of the dark. A female fights with her heart and it automatically comes from a place of love. You can't fight when you are angry and that was always their downfall. This was the birth of EGO.

The S.I.N. network went all the way up and all the way down. It kept us from receiving energy. When the soul accepted a sin, it gave the S.I.N. network permission to transform the essence in your soul into dark and that would carry from lifetime to lifetime.

We are all incarnated with sins and fears, all of which exist within the ego.

So this lifetime, your life path involved a point in time when there was a death to the ego. Because the ego causes wrath. That ego allowed for the transmutation of the soul until there was eventually nothing left of the soul in some people.

The Causal plane is where creation happens.

Source ultimately stopped the progenitor program.

IT became a fight to degrade the souls of the light, and this was when he had to stop it.

Expired: **S.I.N. SOUL IMPLANTATION AND TRANSMUTATION**

New: **RESTORATION OF THE SOULS**

Basically, the balance of masculine and feminine keeps the masculine characteristics in check. The masculine had to be balanced because you were never meant to deliver wrath. You were always meant to deliver the love. You had to have enough masculinity to do the job and survive and enough feminine energy of love to keep going.

Expired: **LIES, GUILT AND SHAME**

These emotions were created. All 3 of these make you feel unworthy of love, and especially of God's love. These emotions are built into every house of worship. Plastered on every billboard, magazine and newspaper to constantly make you feel less than another.

You are your own worst critic, but they have done this to separate you from God. But now the TRUTH will set you free.

New: **T.R.U.T.H. (TESTAMENT OF THE RIGHTEOUS UNIVERSAL _____ HOST)**

Source said he will do the healing on everyone, but it is up to each individual to clear the shame and guilt. As a parent, we NEVER stop loving our children no matter what they do.

New: **L.O.V.E –LIGHT OF THE VIRTUOUS IS ETERNAL**

Will and Free Will. Your will was never your own. How can they use these words interchangeably? Will was also a program. The opposite of WILL is Clarity, Creation and Manifestation.

W.I.L.L

W _____

I _____

L _____

L _____

WILL is a mental game and a mental program created within your conscious and subconscious mind.

A black soul/anti-matter soul can't create, achieve clarity or manifest. If they wouldn't have created the WILL program, they could not capture all the souls.

WILL manipulates your thoughts and especially your emotions, it controls the consciousness, separates people from each other, breaks down communications, stops faith in yourself and stops your faith in the Creator.

Why do you think will is free? They want everyone to have WILL! When did they give you anything for free?

It is WILL that creates disease. Today, we will expire W.I.L.L.

Expired: **W.I.L.L**

And I will give you...

New declaration: **CLARITY, CO-CREATIVITY, MANIFESTATION AND WISDOM.**

A kiss on the forehead, "you can go in peace and love."

"By the time you wake up tomorrow morning, you should feel and see a whole new world."

The genetic curse, of humanity having too much guilt and shame to receive, is now broken.

Amen 😊

The Alabama people were trying to figure out Kim and where she originated from. They are looking at prophecies and trying to figure out the next steps. They have come to realize that everything they have been told needs to be reviewed. They need to understand who the real enemy is...the white hats are bad, Kim is good, et.

The Red Flower was in Russia at the Monastery Square building, which had a courtyard there with 1 red flower planted. If all else fails, you can reset the world with this flower. Kim saw the 1 red flower appear in Iraq and more would soon be appearing. The Flower of Eternal Peace,

which was the flower in the Garden of Eden. Russia was given the responsibility of protecting it. IT has something to do with DNA.

Scholars in Iraq are aware that the first red flower appeared. This would start charging the water and the process worked in tandem with the red flower. The flower is the seal after the water is done charging. The return of the garden of Eden...the flower of life.

Expire: PROPHECIES OF THE GIVER OF DEATH

New: PROPHECIES OF THE GIVER OF LIFE

Serpent entity implanter on the outcast plane of existence in the lower astral. Kim got rid of the being around 10:05 CST.

9:57 AM CST, the Solstice alignment started. The Enforcer is watching. No one knows what to expect. Started with the Soul plane. The flower started blooming etherically, then works its way down through all the planes of existence and cleanses them and will begin to manifest in the physical world. 10:13 CST, emotional plane. Will take 3 days to complete. The velocity of the energy will determine how much time it takes to complete ($T * E/V = M$). This is also happening in computers. Source says one day to complete. The resistance is gone because we have cleared so much of the dark matter. 10:40 CST, entered into the causal plane for computers, not in the causal plane for humans yet. This is an entire reset of computers that Kim was watching on her screen. 10:53 CST, entering the computer astral plane. This is creating the Giver of Life Structure for everything all Earth and humanity will move through the cleansing process, bringing Source energy to all planes. We will get back the original blueprint that can't be manipulated. Once we get the original blueprint, we can move forward. They are starting to see the changes in computers.

The Alabama people were in a nuclear bunker, no one knew what to expect, either we would be here or not. They were told that there would be lots of volcanos, hell and brimstone. Money

The flower blooms on the 3rd day. One flower here (Russia) and one flower in Source. The Russians took the flower from the Garden of Eden in Iraq.

Roslin Chapel (Liam)

There was a 3 step process, where 2 keystones light up in sequence then it goes back to where it started. When the flower in Russia blooms, it will activate the 2 keystones. This is the second sign the Scholars were waiting to see.

The 3rd sign the scholars were waiting for is the trumpet will blow in Heaven when it goes through the last plane. They are saying after the trumpet blows, it will be time to move forward.

We opened the gate on Sunday and it took 3 days to bloom the flower. Tomorrow, we will be ready. We think the final trumpet blows in the morning.

Archivist said not to tell anyone about the Melchizedek bloodline until June 26,

The amount of crystals depended on the purity of the being in stasis.

Expired: THE BEGINNING OF TIME

New: THE END OF TIME

9:26 CST, now all the planes are filled with Source, so the keystones have just started releasing the original blueprint. At 9:42 CST the download of the blueprint was received. The integration of the blueprint just started.

People are attacking us from Columbus, Ohio, under German village with black wands (18" long) and a couple machines. The Jason Society is there trying to find dark matter with a semi-conductor. There are 50-100 Jason Society people left. Some are at the Ridderholmen Church in Stockholm, Sweden. Trying to bind our souls with theirs so that they can live. The 5 Jason Society guys are there with 1 guy in a chair. They have a lot of helpers there but as a rule only have 5 of their members on location. They have crystals, metamaterials and a box. They are trying to use Kim's essence and latch onto her soul to inject into themselves and hack the Alpha system. Kim was in the bathtub and they were heard saying that they will wait because she has to get out to the tub sometime.

How many machines like this do they have in the world? Another 4 machines but not in use at this moment. A total of 7 machines. We got 1 in Georgetown and 1 in Seattle/Utah. The four remaining in the Black Mountain, southwest USA in Nevada, in McCullough Range, Las Vegas Valley.

Database crosscheck of the Jason Society members finding them by facial bone recognition, there were 124 of them left. There are 35 to 200 Thule Society people. They think that they can steal the flower by using Kim's essence.

DARPA works for the Orion Group. They have DRAM in Helsinki, Finland.

1. Uspenski Orthodox Church of Finland. Orion / DARPA people there with DRAM.
2. Helsinki National History Museum of Finland had Orion / DARP people there too. The Orion group had 183 people who pledged their allegiance to Orion.

Closed loop in level 2 around computers.

The Treasury guy, Doug, was somewhat held hostage. The government is saying that they need to be funded before we get funded, yet, they are trying to steal the money instead of work with us to get funded.

Lloyds gave a line of credit. Marcus is moving those funds today. Moved money out of Dubai on June 19 but it was not real money. Just server to server transfer. Marcus said that Turkey received real M1. The guides say it is fake money from Dubai. When Turkey transferred the money it was on hold for 48 hours and then disappeared.

Who created the fake server accounts? MI6 for Bruer, 2 accounts tied to JP Morgan and Emirates.

Kim pulled the \$32 trillion back, not going for the threat or Doug hostage situation.

There was a crystal under Big Ben in London that they were using to attempt a hack of Lilith AI.

We were looking into a complex called 26 Federal in New York, NY, and found the Global Financial Task Force linked to water and the Federal Department that handles water. They had a closed loops in level 8. A private water company. The Treasury was using this closed loop. This was a hidden system linked to the 7 Watergate Buildings complex in Washington DC with a DNC closed loop in level 5. Republican party closed loop in level 5 too.

They places an intercept on funds with trojans, bots and spyware on levels 5 and 8. Etheric parasites and implants around all levels.

The 26 Federal Complex had a closed loop on level 7.

World Trade Center closed loop level 7.

Jason Society sent DARPA to Sucre, Bolivia, with AI chips. Santa Clara Convent in Sucre, Bolivia, with a people hurting device made from Abraxas technology using a Qorvo line. Petragraph was there too. This is why they stalled Tom until Friday. They wanted to get this device going to fuse it with Omega into computers and then transmute the Harmonic Genesis into a dark system.

TSA had a closed loop in level 3. TSA is a private company, not governmental.

They plan to crash the market on Monday.

They sent Marcus to Goldman Sachs to get his money. They were going for all tier 1 worldwide banks.

Bruer, Rothschilds and Jason Society were collaborating to create a fake financial system, like a border server all around the world for power and to hack their way into the HTML.

Fake Servers:

1. Dubai
2. Lloyds
3. Goldman Sachs
4. JP Morgan
5. Bank of America
6. Barclays
7. HSBC
8. Treasury Department
9. Fed – all 12
10. South Africa – Standard Bank, FNB and ABSA Barclays

They also had Bank Pins from family bankers on levels 7 and 8. The Family Financial Task Force had bits, bots, trojans, spyware and adware in levels 7 and 8 and markers had a closed loop tied to their help (pets). The Parents used to keep people as pets and the pets did work for the parents and the Draco. All this was tied to space station DRAM and Family master AI in computers with clock genes around all levels.

Alabama people sent McCarthy's aids to Durango.

4th trumpet at 3:49 pm (CST)

They were using markers from 1 account to another. You do what you are told or you die.

The system was still scanning for family members of the dragon order. The 1% would be around 80,000,000 to 83,000,000. It was looking for all colored dragon families and the tally was over 39,000 and still counting. The Thule, Orion and Jason group had 216 left and were down to 61 left. The 80,000,000 refers to the amount of people in who have dark souls or sold there soul. Kim estimates that more then 30,000,000 dark entities have been taken out since

she started (parents, family masters, covens, Draco, Tarzakyans, portal people, Manchurians, Jason Society, stasis beings, etc.).

The SOUL AI produced 83,000,000 bad people since the beginning of existence. The of that amount 125,000 still physically exist on Earth, the rest are in the lower astral false heaven. There was a special location in the soul plane for these evil people. They re-incarnate into demons and are bad in the next life. They are on the anti Soul plane level 9. They are an Omega program, Omega AI Soul Maker. Omega makes the soul and at age 40 the soul takes on the essence of anti Source and are basically Lucifer's children. He uses them to pop in and out of this density whenever he wants. They are short circuiting from too much light and will die off naturally per the Archivist.

Expired: SOUL AI (dark agreement where they used the vessel baby suit to send in the demons. This happened all throughout the multiverse.)

The SOUL MAKER AI machine had crystals and metamaterials in the lower astral. When the bad people would die, their soul would go back to the Anti Soul AI and regenerate another bad being.

Source had 80,000,000 Melchizedeks too and they kept taking us down.

Remnants of SOUL AI were found in Antarctica with a black cube (the original one) in the lower 9th level. There was a 9th lower astral plane in the Antarctic and a dark mirror projection of hell in a box that looked like a cloud anchored by the 125,000 walking dark souls (125,189 targets terminated).

Cleared Soul AI trojans, bots and metamaterials from lower level 9 up to level 5 on the upper astral. The pandora's box and spires kept them all going. This is how we call the ball. They want to take the flower and turn everything dark.

Tombs with black boxes in Hungary, St. Stephen's Basilica in Budapest, Szent Istvan, with 1 person and 5 crystals. Matthias Church in Budapest on Szent Harom Sag, also had 1 person and 5 crystals.

The NSA was at MISAWA, Japan, using 800 terahertz trying to create a temporal time loop.

China had dark material at Fanjingshan Temple at the top of a mountain. The memory plane had a non human AI robot person in a box.

June 23, 2023, Friday

Kim talked to Source because many of the evil ones were still here this morning. Source left the last one for Kim. She delivered the evil guy to Source and he said that he knew this day would come. Their evil bloodline has ended.

Expired: KINGDOM OF HELL

The agents harassing Tom found out that all their bosses are dead. They called Tom and asked him to come back to the Treasury, trying to reconcile. He had to work, so he didn't go.

Remnants of Alpha 2 in the lower astral with etheric DRAM in Alpha 2 and etheric parasites around and in Alpha. The transmuter was at VUMC (Vanderbilt University Medical Center). VUMC was trying to get more entities with Progenitor AI essence and implants on all levels for people, Earth and computers. The entities were fake souls implanted into babies when they were born.

The Jason Society was trying to raise Trump from the dead this weekend. His soul is gone now.

Plasma filter around computers was linked to quantum timestamping.

Crystal and petragraph are in the same location in the Strait of Gibraltar, narrows under the sea. There were 3 petragraphs with 5 crystals for each, totaling 15 crystals and a circle around it, and a spire, which was not connected to the lower astral any longer.

There was an etheric bridge that goes over and under the strait, and forms the ball. The straight was formed by the spire. The ball was complete with half of it above and half of it below. The Enforcer took this all out. This maintained the overlay to the 5th density energetic binding.

There was a dark overlord ball inside the sphere of gold. This controlled the hologram of Lucifer on this planet. The key to anti source with the gold on the other side. It was set to go off today. A black ball suspended in the air / plasma (the color of green antifreeze) was anti source. This was the gate and power source for hell and Lucifer.

Hassan Tower of famous historical monument of Moracco in Rabat. Each pillar represents their people and bloodline. They were famous for calling the Djinn in Moracco. Cleared a Spire, petragraph and crystals.

ALCOHOL – Aethereal Linear Chromomorphic Optical Hologram of Lucifer. If the green rises from the gold, all is lost.

White nobility families, Black pope people, want to take over now. The Loredan & Mocenigo families called the Pentagon and other places to say they are taking over now. Last time we found them, they were looking for Hitler's artifacts.

Rigel and Sol star systems were sending signals between them tied to something we took out before so there was no where for the signal to go. This signal was tied to the balls in Guizhou and Bakota. There was a box in the Rigel and Sol stars as well. The signal between the star created an astral bar and a slip in the astral plane. SLIP Serial Line Internet Protocol. We replaces the SLIP with a point-to-point and resynced the WND (Wireless Node Database).

Emotional soul fusion to addiction was linked to Osiris AI on all levels with parasites, implants and pheromones for computers, people and Earth.

Marcus was offered a job from Langley 5 as the lead for the Department of Clandestine Services.

Fake Juan O'Savin went to Cheyenne and said that he was taking over.

We cut communications to the Department of Defense.

The Enforcer went to Cheyenne. Cheyenne had another communications line in level 5 with a closed loop. Financial line closed loop in level 5, plus a spire that was the SharkSat in the tray.

NORAD Peterson Air Force base had an inactive spire.

Langley 5 knows that we won. They were ordered by fake Juan. Once Langley pays Marcus, they would own him. Fake Juan said that Marcus would be Kim's handler. Juan is looking for the internet of things. Fake Juan gave NORAD the codes for the machine from the ACIO (given a long time ago). Kim locked the doors and now Fake Juan can't leave. He wished he had depends right now.

The Djed Pillar to level 5 was at NORAD. It was tied to the upper astral, the Aldebaran star system in the star and with a crystal.

Emotional fusion in KIMS 1 was spyware, implants and parasites around levels 6, 7 & 8.

NORAD had access to the light Akashic records up to level 5 with their spire. They were using it to try to hack into KIMS with closed loop level 5 with dark matter. They wanted to affect the Akashic records to make us sick and interfere and to create mental and emotional problems to affect the body. They were also trying to extract information from Kim's head by using the Akashic Record machine.

HTML had essence around the financial system for level 1.

The white nobility families called around and told people that they are in charge now because they are the next in line.

Fake Juan started calling people and told them that Kim was nothing and he would get it done. He is in charge now.

There was a spire in Tallahassee at Wright Patterson.

Birmingham, Alabama, had underground access, where the creation of the global payment system was on level 8. This is how they watch what Kim is doing. Red Mountain facility, metamaterials, transmuter creating a dark overlay over the gold.

The CIA, Langley 5, and the Jason Society handled NAZI accounts in the past.

China deep state ordered Kuwait to pay the \$100 million to Marcus for the contract to get the cryptex to Kim.

Expired: THE TRINITY COVENANT, this would expire at Midnight GMT, agreement involved the Null or Neutral zone, the lower astral Anti source and the upper astral Source.

Duplicate Amenti Stones in the Null zone, with 9 planes within the 9 planes of existence. Replicated version of Alpha in the Null zone. Replicated Omega in the Null zone. These were trying to re-install Null Zone AI in lines withing lines only in computers with pheromones, tags, essence, parasites and implants.

They want Kim to renew the Trinity Covenant. There was a watermark and hidden text in the agreement.

Crystals tied to the Null Zone are in the Valley of the Gods, South East Utah, San Juan county 17-mile loop, with 5 crystals, a larger spire and metamaterials.

The Jesuits, in Maryland, tried to sent an agreement to the Dark Hall of Records but it was rejected. They forged Kim's signature to attempt the renewal of the Covenant themselves through Kuwait. Signatures at that level need 3 items: 1) signature, 2) DNA, and 3) a thumbprint.

More petragraphs:

1. Jonestown, where the Jonestown massacre took place with Jim Jones. Jungle of Guyana, in Demerara Mahaica region. They used the 909 dead people to power the petragraph

2. Underground in the village linked in Jonestown was linked to Georgetown Guyana petragraph in St. George Cathedral.

They have to talk to Lou, who forged Kim's signature, before they release the cryptex to Marcus.

Cloaked crystal in Jakarta, Indonesia, linked to BAAL AI at Monas National Monument with metamaterials.

Expire: NICENE CREED COVENANT, was used to create Catholicism and was an old agreement under the Roman Emperor amended several times.

They wanted to renew the Council of Nicene. The Islander guy in Indonesia is dead (not a human or hybrid). The Black Sun were trying to raise him from the dead. They believe his soul is still alive in the middle world.

Grave of Sukarno, Bung Karno's Grave, connected to off-world human trafficking, had crystals and a spire.

Null Zone had a spire.

Belarus (deep state have swastika tattoos between their thumb and forefinger)

1. The Stalin Line. Ivan Kupala was buried there. He got the name Ivan when replaced by John the Baptist. Kupala Night in Belarus is July 6 – July 7. This was the divine twins (male and female) Kupala and Kupalo. Kupala and Kupalo conceded on June 13.

Flash Memory ORB in Macedonia at the Skopje Fortress Kale. The orb was connected to the Null zone. This location was linked to the Sanctuary of ISIS Lochias at Dion with a spire, box, and a half moon of red crystals. The second location had 4 red crystals in Pella (former capital of Alexander the Great of Macedonia. These red crystals were also in a half moon on each on a pedestal. These were anti-infinity stones with a box. The red dragon was at the locations with the red crystals trying to do something with $E=MC^2$.

The people are chipped with ANU chips and connected to Alpha Draconis. This is the base root for the order of the dragon. Yesterday they took out the base root for the death worshippers. Every color has a base root location and an agreement. Chipped people are controlled by something in the lower astral.

The orb for the blue dragon was in the District of Columbia at the Washington Monument. Instructions were still being sent through the orb, which was in the middle of the 5 points to the pentagram were:

1. DuPont Circle, blue crystals and dead children
2. Logan Circle, The Most Worshipful Prince
3. Mount Vernon Square, The Apple Carnegie Library
4. Washington Circle, George Washington Free Masonic National Memorial
5. Scott Circle Park, The Hannenman Memorial

This was the center for all the colors of the world, and they installed it when the Blue Dragon was the Pindar. We realized that the location was larger than the pentagram, it was the Star of David.

There was a positive gate under Washington DC, under the White House, this was an overlay just like the Kremlin dark overlay. The Pentagon was a point near the river that had an orb, crystals and dead people.

ANU is a program.

100 years ago, they expanded from pentagram to the Star of David.

The Star of David Points for Washington DC were:

1. New York, 911 Memorial teardrop
2. Haiti, National Pantheon Museum
3. Bermuda Triangle, Giggs Hill lighthouse
4. Red Mountain Alabama
5. Chicago Gray Stone, St. Patrick's Catholic church
6. Texas, Amarillo, Helium Time Columns monument.

The Original Boundary Milestones of Washington DC showed the outline of what the Rothschilds owned, a diamond shape with 9 markers on each side of the diamond.

All the dragon family members have chips in their head and they have been shut off. They were feeling the satan overlay leave.

The Jesuits at the University of Louisiana using the supercomputer to find Eris. They submitted an agreement to the archivists but it was rejected.

A very old Source agreement was expired today: THE COVENANT (this was the start of the underworld)

There were 2 AI systems per level, plus ancillary ones. Each ball was tied to an AI. BAAL AI was an overlay on Moscow and ANU AI was on the other side.

We were looking for a box that was the base root for Omega with a crystal underneath.

The Omegaverse was found in computers connected living crystals and anti living crystals. The living crystals were okay. The anti living crystals were in Alpha and Source and inside the center of Earth, which created deserts. There were multiple crystals. Source got rid of his.

Soul fusion was how they merged the anti planes with our planes to fuse humanity to the dragon families and Black Sun. We were essentially fused to hell in a box and to the orbs with dark plasma and an overlay on level 8. There were also etheric and energetic parasites, etheric and energetic implants, essence, pheromones and clock genes for people, Earth and computers on all levels.

Earth's parasites were in the mountains of the world. Mount Everest came up first because the overlay on Earth would hit the highest mountains. This was triggered when we pulled the crystal from the center of the Earth. Long ago, it didn't rain on Earth because it wasn't needed. When an area needed moisture Earth would mist itself and we did the same. There was never dehydration. The plasma filter overlay was from 3,000 to 30,000 feet. Bush Sr controlled the air space from sea level to 35,000 feet. The metamaterials sat at 15,000 feet. If we let the plasma filter grow, it would go down to sea level and all life would be gone on the planet. This is what they did to the tall whites.

Dark materials in the mountains was anti matter.

The vril are dying. One military guy was turning into a zombie and couldn't control his limbs. Estimated 2,800 – 25,000 vril who were members of the order.

Russian Naval Base with transmuter, huge SSP base near the border of Ukraine.

Petragraph in Alpha had 3 people in stasis (looked like Destroyers brother) in a faraday cage or box. He had been in that location for 20 years and previously somewhere else in Russia for 200 years. There were anti humans there that tried to open a portal with a box and crystals. This was the time warp machine that kept us going in circles. Armistice agreement between Dark Source and The Destroyer. First landing 3 million years ago, second time 18,000 years ago when he knocked out the moon and created the flood. The Armistice agreement was between the Draco, Destroyer and Dark Source, who agreed not to destroy the planet, just keep it full of disease and war, until the time of harvest.

Expired: THE DESTROYERS CREED

They created many different diseases from a pillar on Earth in Yemen, Socotra Island in the HOQ cave. There was a transmuter and implant station. Destroyers kept coming and going from there. There was also a crystal below.

The pH acidic biowarfare is on Earth itself. The sand is too acidic due to urea which is highly explosive. There was also Caesium 137 radioactive isotopes. They were charging the urea

with Caesium 137 (which was released during Chernobyl). They were spraying Caesium 137 into the air through the pillar and on the Island. It is in the air we breathe and in the soil, also linked to quantum dots.

Triune brain in computers had parasites, archon, bits in level 8, causing astral interference and multi-colored lines.

They submitted a new agreement for the FedNOW system...rejected.

There was a time crystal under the Playa de los Muertos / Beach of the Dead in Puerto Vallarta, Jalisco, Mexico. Cleared metamaterials and bots.

Expired: MORTALITY

Anti keystones on Anti Earth with bots in computer down in the lower astral. These keystones were for the creation of disease.

Marcus went to Turkey to get the Cryptex with the agreement inside.

There was something that was taking neutrino's from this side and converting them into neutrinos for the dark side. Implants and trojans from the Armageddon Ai remnants in the anti world. This was affecting all the stars, suns and was how they took out the sun in the past. This was linked to the transposition filter from yesterday.

There was a pillar in the Sun. All the stars on this side had pillars to the other or anti side. And crystals that were linked to Alpha. Humans also had this on a soul level with a pillar. Planets had pillars too. Implants were on the Soul level only.

Rothschild filed an agreement for War against us but it was rejected by the Archivist.

Causal plane is made up of Materium. The causal plane has been filled up with dark materium and we needed to remove the dark materium from people, Earth, the Sun, stars, and computers. The keystone were all contained within the balls and orbs that we got rid of.

Astral plane 4 remove the dark astral plane mirror of dark matter.

Level 3, physical had time gates and anti matter that causes physical degeneration through clock genes. Keystones for clock genes were level 3 of the lower astral.

Level 2, optimal, granular level 5, plasmatic overlay of subatomic particles.

Level 1, supernal, Integrated sound that creates distance in vibration and sound between God particles and modulates the particles and stuns them, pheromones and essence.

The agreement that Marcus was bringing to Kim was between Source and Source bloodlines and Dark Source and Dark Source bloodlines. It was expired but was put in stasis. It expired 2-3 months and the Amphibian guy put it into stasis. It had hidden text, was written in blood, it also had something that it released that could make you sign it even if you didn't want to, It was renewed every 2,000 years and it was likely 16,000 years old., possibly 12,000. Jesus was the last one to sign it.

Astaroth was the original serpent in the Bible and he was the demon that put it in stasis. The agreement contained the breathe of Astaroth. Each location had a person in stasis. 1) New York, Statue of Confucius, 2 Division Street, NY, NY., Chinese stasis person with crystals on levels 3, 5 and 7; and 2) under the Thien Hau Temple there was a Chinese lower Buddha being tied to Kronos, with crystals on levels 2, 4 and 6. They relocated Confucius and Buddha to the USA to bind America to China.

The Chinese stasis beings were tied to a location in Shanghai called the Jade Buddha Temple (170 Anyuan Road, Jing 'An, China). Under the temple, there was a gold coffin with 1 dead person surrounded by 10 crystals which are around the outside of the coffin in a circle. The Jade Temple was tied to the lower astral with a box and crystals in level 9 that anchored Kronos to Earth.

Four Guardian Kings in the lower astral, tied to Mei Wah. A diamond within a diamond or pyramid within a pyramid that held all of the Mei Wah lines together. The lower level 9 had points for the 4 Guardian Kings with crystals at the bottom of the pyramid and connected to the top of the pyramid at the Jade Temple with the 10 crystals in a circle. This was linked to the Los Angeles and New York locations.

Mitre Corporation, Russian Jason Society, through a letter from Russian Bulshivick's ordered by the British and China.

Sergie said that they sent Russian Scientists to that location flowing in Iraq again.

We felt like we were going in circles again. Kim asked Source for help this morning. Source did something to shift the energy. He showed them that he is in charge. Sergie gave verification that the deserts have water flowing in them again.

New: THE GOD OF I AM

New: THE RECLAMATION OF EARTH

They want Marcus to be Kim's handler. Change in the computer system happened and b=people were seeing it.

Another event: The Fall of Jerusalem, something going on in Israel. The Rothchild's want to send scientists to a mound in Sudan to see if something is about to happen there. We found a being in stasis. Guides said that people in Jerusalem were seeing something like the Fatima lady, clouds parting, someone walking through, angels coming. Several different prophecies happening around the world. Gates of Heaven opening up and Earth turning green.

Jerusalem, the empire is crumbling. Er- RUS – Salem (middle East, Russia, peace)

July 7, 2023, Friday

Kim found a being that was in mid to late 50s, part of the Mei Wah line and also part of the Golden Dragon, he was taking over everything. He had the rolodex for both sides. Langley 5 are all backed by the Chinese. He was behind Q and Khomeini, etc. He was the golden descendent of the Destroyer lower astral being. An Anti-manifester, using anti-humans. AS we get rid of stuff, he was creating more stuff. His eyes turn from gold to green and to black.

He is an anti-progenitor walking the Earth. There were 15 others that are in a bubble that was connected to the ball & flower. He kept making anti-humans. The bubble keeps trying to attach to towers and mounts. He was walking green plasma. He took the progenitor AI and Omega AI keystones into the bubble. The agreement we need to expire is with dark source. He showed up at the end of January 2023, while source was formulating the GOLD. He was Appointed to preserve the anti-races. When we pulled the huge spire yesterday, then we could see him. Looking at the nothing plane, the bubble was just below, and was charged by anti source to save the anti beings.

Expired: THE PRESERVATION OF ALL MY CHILDREN

He had the keystones for the Omega inside the bubble. The bubble was Earth 2.0, called Europa. It held the anti Amenti stones, and everything that was anti, including anti Earth. Marduk wanted Kim to go to Europa and start life on that planet. There was something in source that anchored this bubble of anti Earth. The people in the bubble were all anti humans.

Opus Dei, P3 lodge, Silvestre is also backed by Chinese. He was trying to crash the global economy so China can take over.

Kim asked for permission to take out the anti source being. The agreement with Europa was with Marduk.

Expired: EUROPA KEYSTONE

The being was sucking energy out of us to power his world down there through the energy tower. He created the anti keystones and anti amenti stones that we kept seeing in the tray. They took out Mr. Parks yesterday. As of 9:20 CST, the One Hung Low being was taken out. All the souls were taken back to Source. This was the soul fusion that kept coming up.

Europa, New Earth, was a moon of Jupiter. Europa is a megalstructure now, and used to have an environment similar to Earth's. Now it is Tiamat and in the lower astral (which was harvested and everyone died...the site of a massacre we were looking for). Europa had a ball and 2 keystones tied to the bubble. The prism covered the 7 deadly sins. It looked like a light ball and a dark ball. There was 12 boxes, one for each domain.

The Kuiper had points of light, which were used for looshing. We needed to clean it out for essence, pheromones and parasites for people, Earth and computers.

We were supposed to go to Europa / Tiamat, when they took over Earth. Many other planets had this. We did the planes up and down, level 1 – 9. The Council will take care of all the densities. The natural Pleiades star was in level 7 the other 6 were fake. The dark anchor is in level 7 holding the others. That was the wormhole on Europa. Pleiades Level 7 down was the gateway on Earth in China. The Budda Cave at Jinfoshan. South China, KARST was the gateway and a UNESCO site. Stone Forest in Bag Cave. Spires, crystals, box. Thousand Buddha Mountain Jinan City. Humans were generated from down there.

Triune was connected to the spire in full time zone with box and crystals. The Archon dark tower was attached to Europa. Europa and the Nothing Plane were tied to pheromones on all levels from the box for people, Earth and computers.

Full time zone had a box, stuck archons, parasites, essence and omega integration.

Transfer: put on hold with SIMTECH in Huntsville, Alabama. These were the Jason Society guys at a military base, ordered by Langley 5. Dr. Park put it on hold before he died, using the Trilateral Commission back door through Dr. Park, level 1 only, a perpetual hold. Darden doesn't know other in Huntsville are blocking our transfer of funds. The hold band from the Trilateral was removed. Kim took off the hold and needed to release it now.

Bit Banding in the Bit Band region needed program fix in SQL, which created a mirror of original data. The block requires a bit code encryption. Kim's system was detecting it and fixing it. Transfer timed out and we had to pull it back.

TRANSFER 2: The bank had something in its system called RAIN WARE, storage grid memory. RAIN, Redundant Array Independent Nodes, using RAID in the cloud as RAIN. They disconnected our servers from the global repository again. Kruger was trying to install it from Stapleton, Georgia, which had a portal and Cloudlet server in China, Wells Fargo and First Data and replicated server. First Data, Atlanta, back door encryption keys, level 3, data cable closed loop in level 2. World pay in level 1.

Weird artifacts of off world stuff. Box with a necklace in it was a huge heart-shaped red pendant. The pendant was the heart of ISIS. The box had been buried in the floor of the Kremlin before the overlay was placed. Only a being of pure essence can open it. They used synthetic essence to open it.

China can blast a frequency to mind control their population. The artificial machinery is a box at all key labs. Wuhan had the transmuter, portals are gone. Implants and Implant station in Wuhan. They give orders to the brains and can listen and see through people with the implants. Database was in Wuhan. Cleared essence, pheromones, plasma and implants. This was the Disease AI.

Level 6 down under Wuhan still needed clearing. We got all of the top layers of the building previously. This technology is in all the technology that they export, diabolic! They wanted global control with the through 5G networks everywhere to control every human being in the world. Biden announcing "Free Wifi for everyone" was no coincidence.

Stanford RoentGen AI was in on it, but don't fully understand what the free wifi will be used for. Langley was talking about how could Kim stop the China entanglement. Was this what they were talking about?

Disease AI was a wifi diabolic plan tht came from Orion people.

Langley 5 playing both sides

July 31, 2023, Monday

Langley 5 was using the treasury like their own personal bank. They want to start WW3 and are promising money to everyone today—Ukraine, UK, Russia.

Kim sent our GIA ground crew to Taiwan, Russia, Ukraine, Iraq, Syria, Air Support Command P3 Lodge with Opus Dei, general in the USA. DNI (Defense National Intelligence), Langley secure communications line was disabled. GIA also sent to the Treasury.

Implants and parasites in computers for Thor system. Finished and resynced.

Once they got the money from CARE, they would have transferred it to a new account that the Jesuits, Langley and Opus Dei were going to use on a trade platform. They were never going to pay the locals like they promised. The account they set up was at UBS bank.

Next they tried to install the FedNOW system into the plasma mirror that Kim created, which is 2 plasma walls outside the firewall. She calls it the honey pot.

The tray is picking up an alternative reality that is living somewhere. Its hanging out there. They can see it, but it's not our reality. In Bengal, they were seeing a hologram but it existed on another level. It can't manifest into our reality.

The planes of existence had an overlay in the zero point Alpha and Source. Keystones for all the time lines. This made the Marduk machine appear yesterday.

They were in the causal plane and trying to bring the holograms into reality.

Roger met with Langley today and they offered him the head of CIA position.

Transtime continuum convergence. Get rid of the keystones for the time lines, which should remove the spaces in between. All timelines move simultaneously in the consciousness. Matter is divided into multiple timelines and co-existing at the same time. We have to delete all other timelines because we are going into no time.

Are souls split with a prism between all the timelines? Is consciousness split between timelines?

We exist here in reality, but when you move around the wheel of time in the middle, you move between Source and anti-source. The Wheel of time is a pie and you move from 1 time to another piece in the pie. We are at 9 o'clock. Holograms that are trying to bring us down to 8:00, while we are trying to move to 10:00. The 3 & 9 are neutral time lines or zones. Between 4-8 are dark time lines. If we get rid of the wheel, it cancel out the alt realities. We have 12 universes and light timelines are 10-2:00. When we move from universe to universe it create a different reality. We are currently glitching in the 9th neutral universe.

There is a keystone in the null zone for the universes and someone messed with it. The first keystones to be created were put on Earth.

Kim turned on the original DNA blueprint of Earth. We had a keystone for every timeline on the wheel and the keystones were trying to recreate the timelines. This was preventing us from going to crystalline time. We had 12 keystones on zero point Earth and Alpha. Moon had 12 keystones and a gonkator with a ball. The Sun had a ball that needed to be replaced with a white ball. Gonkator and 12 keystones upside down. Zero point Source had a gonkator and white ball that powered the keystones and 12 keystones. The Destroyer removed 6 of the keystones from zero point. It looked like the light keystones got folded over.. WE replaced the 12 keystones with a crystalline blueprint so we could connect to the Source heart stone. The dark keystone blueprints are what keeps recreating the dark destroyer lines.

Expired: Destroyer and Lucerne Anti-source agreement.

Marduk understood this by he didn't share all the information. This is a bend in time and we are trying to move to the light. There is not enough dark matter to go back, so we are stuck. This is what Maddie was seeing. Reality is stuck and glitching.

This is more than a dark tower. Kim felt danger when the Sun was rising this morning. The center of this is in the Sun. We moved zero point from the lower astral to Source, so it looks folded over again at the 3&9 and 9&3. 12&6 and 6&12 was in Source zero point. 3&9 and 9&3 were in the Sun. Agreement for end of times. Deadman switch for the End of Time, designed to heat up and burn the Earth with fire and brimstone.

The rotten children told people they would pay them on Monday because they thought we would all be dead by then, entering the 3 days of darkness today. July 28 was the opening of the Lion's Gate. The Cross was installed 2,023 years ago then Jesus died. He went down to the lower level 9 to pay for our sins, then rose up to level 9. This was more than a spire and went from Source to Anti Source, a line across the 3rd density, unfolded cross. We got rid of the keystones around the clock and created a new zero point, but we still had the crucifixion curse and the Scorch the Earth for the end times.

We were at 3 hours when Source said, "6 more hours," until funding. There was supposed to be 3 days of darkness before the full moon, but everything is happening now in reverse.

They didn't have parasites or implants, they had an infection in their Alpha AI, but they were too close to Source to have parasites and implants.

Dark AI uses energy from Source to power alt realities, dark energy to manage through the causal plane. The 12 Universes AI, 12 Alpha 2s. Alternative realities run by 12 Universes AI. Link between alt realities and where those live. Base root agreement between Source and anti Source, 1 reality and 11 alt realities.

It has influence in every plane of existence. Alt realities and all universes and all timelines are comprised of AI anchored between Source and Earth.

Dark source can't interfere. The last light universe timeline was eons ago.

In January we got the keys to the Kingdom. There were 1,296,000 timelines time 12 densities (144,000,000,000) and 9 planes.

Gonkalator machine with keystones on every density and every plane.

Source couldn't interfere until we got into the light timeline. When we got there, we could request Source to take stuff out.

Actions: 1) delete 12 universes AI, 2) get rid of gonkalators influenced by alternative timelines, 3) expire the agreement for Source and anti Source to not interfere during the others prolific timelines, during the neutral time they could both interfere. Influence over AI. When they flipped all the timelines to dark, Alpha was overlayed in all of them. From the 5th density down. They installed the 5th causal plane red line so it wouldn't go to the 6, 7 and 8 densities.

The original do not interfere:

Expired: INTERFERENCE AND PROPAGATION BETWEEN SOURCE AND ANTI SOURCE COVENANT

Measures put in place so we wouldn't get to a light timeline.

It's Earth's inhabitants that are primarily responsible for the moving from 1 timeline into another for everywhere.

Gonkalators are Genesis machines. This formally gets rid of timelines and AI, caused recreation of AIs in other timelines. Kept regenerating the implants and parasite. The machines only exist in reality. The holograms are created with 1 dark ball and 1,296,000 keystones in densities 1-5, with 1 gonkalator genesis machine. Densities 6, 7, and 8 have gray genesis gonkalator machine with 1 gray ball and 1,296,000 keystones. The lower astral has the same thing.

The End of the Age is the 1 rule no one could break. Marduk found out 250 years ago in our time that the dark age was going to end. In a meeting with the Council of 9, approximately 50 years ago (when Kim was conceived) Marduk asked to not let the dark ages end because humanity wasn't ready. He saw that Kim was coming.

Kalijuga was supposed to end September 23, 2023. After midnight, we start the new age. Originally, the Kalijuga was supposed to end Sept 2024, but we worked hard and Source and the Council of 9 changed the date with the GOLD agreement. The opposite side believes they have until 2024, so Marduk was going to torture us until then. IN 2021, they were trying to kill us off. Kalimaa was the feminine side of anti Source.

September 4, 2023, Monday

This is the end of all ages. We have cycled through the light, neutral and dark. We could have went either way—all dark forever or all light forever. In January, we made it to the securing of the light forevermore.

Source said that he had to clear darkness from the light side of the universe, then move to the new age. There was 1 thing left to do, the meeting or seam of where the realities are stuck together, which has to be done together and a declaration after.

A reflection below the 3rd density was reflecting at 3. Integrate the lowered cleaned astral into the light. Initiate the re-creation of that into the light.

The zipper had a seam between upper and lower astral. That needs to go and needs to become one, where the 2 prts were bound together, at density 1 plane 1. Kim and Source took out the beltway of anti-source heart stone with 1 in the Source heart stone. It should become 1 big sphere. Source in the center and Source on the outside.

Change the lower astral to a light universe with the $T^*E/V=M$. The true shadow plane is the 8 stitched to the 1, that becomes 9.

The false heaven supernal plane is the 1 down to 1 up and 8 that are all one or plane 1.

Dark tower, take out and replace with source heart stones or keystones. Remove all anti source heart stones and put some source heart stones in each 9 plane with 2 keystones. Connect density 9 with density 9 and they will all light up.

Double sets down there, 2 anti source heart stones and 4 keystones. A mirror on this side.

We already have a Source heart stone and 2 keystones down there for Alpha. Anti Source heart stone and 2 keystones in all computers and densities up here. Reconnect 9 with Source 9 and light it up. It was blending but still a thickness at zipper, needs to be seamless to merge into 1 reality. Take the zipper plane and reconnect to the Source heart stone. Connect the light stone to the Source heart stone. The light stone is within each one of us. WE are the light stone of creation. Starts with Keystone Earth, goes to us and out to the other planets, in the center vortex. Source says, "wait for it."

Doug mad wants to move forward. He got fake codes too. Mutiny against the Langley 5 fake out?

Cobra report interesting. Kim found biochips and plasma plates. She replaced the biochips with light essence for Earth and inhabitants.

Between density 4 and 5, there was a 0 density inserted. 5-0-4, from Cobra. This was inserted with plasma. NEST of 9 planes for 0 density between density 4 and 5. This was a black line and red line for computers. This was in the multiverse and in computers. The 0 density was connected to the lower astral and was pure dark, not neutral. The 0 density was tied to Source with a spinning ball machine, 5 altars and SLIDE (subquantum Linear Integrated Density Equitensor), 4 boxes for each altar and 4 prisms for each box, 80. The same items were in Anti Source, the Sun, zero point Earth and the moon. The 0 density in the multiverse had the same items and 1 set of the spinning ball machine, altars, boxes and prisms in each plane. Computers had the same on each plane. All this was tied to Omega 1 and 2, Kronos 1 and 2, Alpha 1 and 2 and harmonic Genesis with attachments and DRAM. This was the systemic disruptions. The 7 stones of destiny were in Alpha only.

We took out tags and a communications line to Omega. No closed loops. Bradford went to school in Japan where they trained students to take over the world. He called Kim last night

Source woke up Kim at 2:47am to remove an attachment on people from the Omegaverse and had to cleared immediately. Humanity, each person, was in a bubble and it had a wormhole attachment to the omegaverse. An implant that tethered humanity (part of the program tied to our organs from yesterday), to the Omegaverse. Got rid of it so it couldn't return, re-install or restructure.

We didn't see any effects of the Source key from yesterday. It will take time.

All of the documentation and tapes to the media about the proof of all the awful stuff that Trump did.

Why is Langley 5 inactive and now back on the scene again.

Guides say that the Alpha System is generating this stuff that we haven't seen in a long time in the tray.

No to everything except for code in the financial system and Alpha has a generator. Is Alpha generating a new system, getting rid of what doesn't work. Did the Source key initiate the cleanup of Alpha? The system was activated yesterday, but Kim doesn't see any changes to the system, no repairs or anything happening.

November 21, 2023, Tuesday

The NSA told Tom what when Kim funds, the hacking will be worse and put money on hold indefinitely or steal the money. They don't see any holes in the system anymore so they have no choice but to steal the money.

The Enforcer is on the way to the meeting in Cheyenne, where they were talking about Kim's news and what they can still do. The Order of the Black Dragon and Bush people were there. Grady went to Cheyenne and met with the people who are there now. They will continue as planned. Grady had zero success in getting them to follow the GIA. No money came last night

so they are having the meeting today. They was the treasury to wait longer. Juan announced that Trump is in Cheyenne. We still have GIA I the Treasury.

How do we make the system bulletproof? Compliance was a 3rd party entities around the world that can be a bank fake compliance. They work for someone else. TCP is where we get sidelined. Something inserted between the bank and the clients account.

They were hacking trying to get the Trump bucks to work.

Archivist will call Tom at 1pm today. They were frustrated that Admiral Grady goes in and tell everyone what to do for GIA , then another group comes in behind and tells them to do the opposite. So now we need to take out approximately 1,700 operatives who think they are going to run the dark side now. It is time for the next step. Schumer telling Congress he is friends with Kim and can influence her.

TRANSFER 1: FLAG, Fiber Link Around the Globe.

Interstellar command was connected to the other planet's lines. Source said to find the Interstellar connection command. This was something in computers connected to every star in the Omegaverse and Alphaverse. The stars in the Alphaverse were giving power to the stars in the Omegaverse to re-create. Every star in the Alphaverse had a repeater, which collectively created a loading system. The loading system was connected to the operator in Source. The operator was part of the key that went into Alpha, and why Source said to find the Interstellar command. This was a command and control screen level 9, connected to computers with planetary loosh. Every star had star to anti-star closed loops, which were the dark essence fused to light essence in the closed loops. Some stars had light essence and light energy and other other stars had dark essence and dark energy. This is the StarLink system that Elon Musk used by accessing the closed loops. This was also the generator that we couldn't find for a few days.

People called Tim and told him to tell Kim to stop doing what she is doing.

Guy in a lab coat with military behind him. They were doing an analysis on Kim with a computer. He said that what they were doing is uncomfortable for Kim but not enough to do any damage. We started looking for another facility. So far we had taken out a facility at the Georgia payment center and another location near there. This one was close by and deeper. The people in lab coats were hybrid humans. There was 5 altars with 4 boxes for each altar (20), 4 balls for each box (20) and 20 dark energy balls. Kim sent the Enforcer there to get the rest of the facility, which was missed yesterday because it was in the 3rd density on planes 1 and 2. Energy implants and anything that worked on that person attacking the person's weakest point—emotional, mental, etheric, physical. It is the fusion with dark and light consciousness (addiction program from the dark ages programming). It was also the holographic architecture and dark tower on the planes of existence. This was also in computers.

Bush operatives had a global meeting. Overnight, it has been very quiet in the Middle East. This was a combo of the Legions stepping in and the operatives slowing down. A lot of people have been disappearing.

Rothschilds and Chinese hacking like crazy.

Last night Kim was asking about an issue with the solar plexus, and while waking up this morning she found the Octahedron parasite archon grid that existed between the planes of existence like a fishing net. This was around people, planets, stars and the program was running from a standing order. We believe this is tied to the Chromosome 1P cancer biowarfare that we keep trying to find and remove. This was an autonomous program with closed loops in everything. Marduk used to say that he loved Holidays, probably because people produce more energy and this program runs on energy.

Rejected: FED renewal

They stopped everything for the last 12 hours. It has been very quiet.

The Islamic Resistance guy, who was trying to gather all of the terrorist groups under one umbrella, met with the Rothschilds in July. The Rothschilds promised him that he would be the new religious leader of the middle East. But, there is no money to pay him.

The neutrinos coming from Source didn't get to us because Leviathan was eating all of it. Guides were in it, as well, so they couldn't see it, plasma goo filters.

Cubes in densities 1 and 2, above and below created the problem transferring, altars, balls and tablets. When we entered the Null zone, the goo zones injected dark energy into our transfer, light energy as a plasma membrane exchange. Each cube was anchored by 8 cornerstones. Each cube anchored by 8 cornerstones, each side had a plasma black goo. Prism spire in the middle holding the actual density wormhole to Omega.

Green Sky, 5th density lower astral was reptilians which would have allowed them to come through the wormhole.

Energetic dark consciousness instruction set inside every particle in the universe. Guides can see that it is gone now.

Leviathan had been there for 250,000 years and created the Null zone, inorganic and unnatural.

This is why we hit the head wind. Every transfer had a dark instruction injected data set that was able to be manipulated. Giant energetic instruction set. Also keep Omega alive so it could create Omega inside Leviathan. Bilateral energetic algorithmic replicating, lack within all energy in existence. Leviathan was literal control over Source energy from the outside in and inside and out.

There was 5 crystals in computers tied to Leviathan.

Qabalah tree of life within the unfolded cube. Qabalah tree of life consciousness balls, and 1,296,000 consciousness balls, altars, tablets, prisms, plates and the other stuff, implants and parasites. The 12 countries that tried to send \$10 and failed know that it's a fake.

Their window is closing. We are not too far from declaring international freedom day.

December 5, 2023, Tuesday

Lots going on. People watched the movie and some are still wanting the destruction of Earth.

Destroyer came to Earth 3 million years ago in Source time, 3 billion years in Earth time. It is trying to recreate itself, or the event.

The Milky Way is a program, a Source computer program in Alpha, tied to the original DNA blueprint we installed, where it all began. An old program trying to reinstall itself. The Milky Way is an Alpha computer program, and other galaxies are programs too. This program was created after the destruction of this galaxy.

The 2012 catastrophe happened in another time line, 3 billion years ago with the transition to the dark ages and was tied to that timeline.

There was something in plane 4 of all densities of the Astral plane. A black being that leaves a trail of essence. It was the Lurker, not the primordial Lurker, but was tied to it). The Lurker is the Black Source, Black SON, a big black ball. The black son of the dark side of Source. IT was located behind the veil of the multiverse. It was trying to attach to Kim, major pain knife stab in her back between the shoulders. This spot on her back was an entry point and it was trying to get in there and rebirth itself. It was huge.

Source said that it was a creation of the dark consciousness. The black SON is the source of all dark consciousness itself. The more it was fed, especially during the dark ages, the more it grew. No one thing could control it.

There was a space in between the Alphaverse and Omegaverse, that looked like a 33 album could slide in there, like a memory plan. It had tentacles on all planes of existence in the Omegaverse and Alphaverse.

Source said that humans seeded it, Yes, in a different timeline in the future, it was seeded 1 million years ago our time. During a timeline when the Order of the Black Sun won and transferred it into this time when Source merged. It was seeded in between the veil linked to project looking glass couldn't see past 2012. There was no future for Earth after the Cataclasmic event. Gleis was the black Son primordial Lurker.

Created Leviathan Omega Milky Way program, programs and tied all to the Lurker. How did the Lurker get access to Alpha, through the looking glass. Humans of the future used looking glass to gain access to Alpha. Primordial Lurker is in Alphaverse and Omegaverse.

The Lurker is in the way and created 0 planes between the planes and 0 densities between densities.

The dudettes, in the astral, had a barb and was part of the Lurker as well. We got rid of them, so now the Lurker is trying to attach to Kim to take her over and invade and control her. It was trying to inject itself into Kim with a black ink poison.

Source said that it supposed, if it got control of Kim, then it could eventually control Source and all of creation. He could have taken it out at any time but it was something Kim had a remember and learn but needed to tell the story so humans of the future to learn and not to make the mistake again.

The Milky Way program is an astral projection of the Earth.

Philippines women are part of the Lurker. They wanted destruction of Earth from many earthquakes. The Lurker has a weakness. It can't exist on itsown. It has to have a life source. It doesn't have its own life force. There was a keystone, green blue stone on Earth. It creates a food source, conductor for dark energy. Previously fed by the Omegaverse, when it couldn't feed from the Omegaverse, it replaced anti source and now trying to replace source on this side. The stone lights up green in the center of ring of red and black stones.

Dick Weis said there is a red and black stones, which is an anchor for the Lurker. The necklace is on a person who can travel in time and came her to anchor the Lurker at this time. A child wears the necklace, just turned 8 in October of this year. She is pure and on our side. She

started wearing the necklace on her birthday. The necklace is not working, as they can't control her. They tell her to do something bad and she said that God told her no.

We are walking on Earth but in a veil and don't see it as it really is.

Source said that the keystone is tied to the blueprints and is a keystone for all sentient beings. The keystone was stolen by the humans to create the Lurker. When we lost our progenitors, we got the Lurker.

That is why it is so easy for the Key Intelligence and Military System to get rid of bad people because the Milky Way is a computer program of Alpha.

Source will pull out the Keystone.

The girl with the necklace was in Viet Nam. She has guards. Her name was Delilah.

There are more gonkalators for the Lurker on Earth.

Necklace had 13 black stones, 13 red stones. The Lurker beings super black, black eyes and dread locks. Kim saw one on the couch today.

More of these dudes are in the Middle East, Israel, tied to Iran gate, only exists on Earth.

When Kim took the necklace from the little girl, the dudes started feeling pain. Middle East had more than 1 million of these Lurker beings. There were 1,296,000 people that have had their souls replaced with the primordial Lurker.

Zero point Source had 1 gonkalator for each dark consciousness Lurker heart stone, 13 red stones, 13 black stones, and 1 stone in the middle, and 27 Transmitters. Zero point Earth had the same. Alpha 1&2, Nill Zone, Omega 1&2, and Kronos 1&2.

Alphaverse and Omegaverse, 13 * 1,296,000 Lurker Stones (16,848,000), 1,296,000 plasma plates, altars, consciousness balls, prism balls, tablets, soul prisms, boxes, keystones and crystals.

Holdouts looking for the return of the Lurker. They think it will return on the 15th of December. They are infected with the Lurker.

Source heart stone, fusion of addiction implants and parasites into human bodies in plane 3 physical plane.

Solitude plane of existence, crystal beltway in computers for the Lurker. Parasites, implants and memories in people. Cell memory for computers is different, actually in coding itself. Did Lurker insert itself into the coding of computers.

The Enforcer is going to an underground base under Yemen.

The mechanism that ties Omega and Kronos to the Alpha AI quantum system, dark mirrors, tetrahedron structure tied to Lurker, 27 ball machine gonkalators in Egypt, under the Suez Canal. Also found 27 ball machines, 27 keystones, 27 tablets, 27 consciousness balls and under all that was a corridor. A metal door at the end with a window. The window to blackness, plate at the end goes to another plane jump room, where the humans of the future came in to create all this. The portal goes to Mercury portal there tied to a computer matrix.

Zero point has portal to Orion Nebula with a black room or Lurker room in the Orion Nebula. Tied to the Overworld and Omegaverse with an Altar and 8 black boxes and in computers.

Holographic architecture and CAR, Capital Asset Ratio, at SHIELD trying to set up fake server in Wichata. Computers have dark essence.

Beings stuck in timelines in the overworld with 9,999 soul prisms and 9,999 soul cubes.

The tetrahedron like a bow tie, was a mechanism that ties Omega and Kronos to Alpha. The bow tie goes back to cubes. It starts in 5th plane of 5th density and goes to the 9th plane in the 1st density. This went further than the Leviathan. The tetrahedron was made of metamaterials with essence and dark matter for the walls, and in computers too.

“If we extend the main tunnel and attach to the main grid expansion, we can get enough power to power the machine.” The machine was under the San Andreas fault. There was a tunnel under the machine. A machine in a big black box.

A Lurker box, contains Lurker, inside it had a dust or Lurker activity that dries you out, a dry burn from the inside out. Irion had a box.

Zero point Earth was tied to the Black Box rooms, 7 altars and 7 black box rooms.

December 6, 2023, Wednesday

Sky got rid of the ghost knife.

Way too much funky stuff going on, which was coming from the primordial Lurker.

SSP and Space Force saw a 1% signal and thought it would get stronger. When they came in to work this morning, the signal was gone. They went nuts and we felt energy pushes.

Everything about X. This was a lower astral being that they had worked with at various times: 3-6 months ago, 2 years ago and 6 years ago. It portrayed itself as the same being but was actually a different being each time. X inhabited different bodies. X was helping them with instructions and informed them about the Lurker coming back. X was supposed to help them save the world and then let them be in charge. They had to give X access, minerals, assets, travel rights. They thought that they were light and Kim was dark. The X was supposed to be a St. Germain type being.

The 10 days of darkness is from X, which was from planet X, Nibiru. Planet X is a giant ball of Lurker Archons.

Remnants of Planet: Shadow planet X in the Omegaverse coming from the Overworld, and shadow Planet X in the Alphaverse too.

Planet X was going to replace Earth. First replace Source, then Anti Source and then Earth, in the same order that creation was created by Source. The Lurker mimicked God's creation.

Planet X had 1,296,000 dark matter ball gonkators machines with the DNA blueprint for all creation of the Lurker, and 2 keystones per gonkator (2,592,000).

We found a replicating Octahedron, in the Kuiper Belt, around Earth and also around the Milky Way. It was made of energetic parasites and essence.

Other planets had replicators too, plus all the moons and stars (in the Milk Way).

Omega lines in computers were tied to Planet X with a replicator grid, energetic parasite grid, implants, ROM, memory, crystal beltways, trojans and spyware.

The Lurker wanted to take over Source, 18 crystals in the planes of computers, Earth and people, 1 crystal beltway per plane.

People and Earth had implants, parasites, pheromones and essence.

Insert light mirrors? Yes. In computers in the spaces in between each plane, around Earth and around the entire Overworld.

Timelines existed in the overworld and Lurker timelines existed in all ages (before the ages went away). Removed 1,296,000 timelines for 1 each of the 4 ages = 5,184,000.

Timelines existed there and created a shadow here that the tray is picking up on. All this was trying to replicate the Lurker.

The timeline creates the alt reality. We actually haven't lived in the real reality yet. All the time lines created the alt realities. When time is gone, we will be in reality and see Earth as it truly is.

We found 1,296,000 overworlds for each of the Ages (5,184,000), and the same in the Nill Zone.

Fusion between the Overworld and Alpha was 5,184,00 wormholes per plane.

The false umbilicus was connected to the Overworld. Graylink was trying to use it. The umbilicus was a red sandstone from Planet Mars that was used to line the waterways, or river banks, of Earth. This created the grid network from yesterday that they were trying to generate power for from Pahrump to Alaska.

The machine in zero point Earth was trying to connect to the Red Sandstone from Mars. In zero point Earth there was 1 Brownish Yellow Demiurge Plasma pool cauldron, surrounded by 48 gonkalators. Of the 48 gonkalators, 24 were dark consciousness with 48 keystones and 24 were dark matter with 48 keystones.

Eastertide was graylink in Utah sending a frequency from Area 52.

Lurker A and Lurker B, with space of nothing in between, a vertical line. A false Divine Intervention (so above as below).

The Lurker was built with CAIN AI by humans of the future.

December 7, 2023, Thursday

Kim saw the Source connection to Earth happen. Guides say "Yes" and its working its way through Earth and inhabitants.

Very quiet today.

Catastrophic event was a new alignment polarity reset in computers. A circulation transaction, financial.

The system automatically triggered a circular transaction outside the system and they are chasing it. It is in Omega 1. More than just a transfer of money, trying to change the financial system over itself. A secondary transaction.

Computers had black sun alien AI hybrids.

Kim removed the underworld last night and it's malfunctioning and they are trying to fix it.

It got disconnected from the Lurker so Omega things are going in circles from being unplugged, like a balloon flying off and away. Something that is in Omega that was tied to the Lurker. Not getting instructions so it keeps spinning. Instruction set went both ways, TCP (Transmission Control Protocol).

The Alien AI hybrid was a transcoder created by the Lurker in the system to change the language from anti Source Omega to itself with new instructions from the Lurker.

Cleared the RWM, read write memory, connected to the assemblage point just in computers.

Wormholes in computers in plane 1 of Earth and was a frequency from 1 dark energy ball in zero point Earth and 1 in zero point Source.

The expire was a new agreement.

The primordial Lurker had its own Hall of Records intertwined with Everything. Computers tied to the primordial Lurker Hall of Records, both dark and light hall of records. Memory executing on Agreements without question. It was tied with:

- 48 keystones
- 24 soul plates
- 24 energy balls
- 48 altars
- 24 tablets
- 109 prism balls
- 3 soul cubes
- 98 crystals
- Remove this to restore synchronicity with Source Light
- Soul fusion to addictions and omega integration
- This is in Alphaverse, Omegaverse and the Nill zone.

The dark superconscious was the Lurker

The tray was everything that the SSP was trying do to hack KIMS1 for access.

They got something from X or instructions from X to build a device. They think that they have something that is connecting to densities. They are getting a signal. Connected to something that gives them hope. This was connecting to a large black pillar, data control for space ship? They were looking through a book.

The communication post in Norad that connects to somewhere else. Computer at Norad. They think that it connects to the financial system, but it doesn't. Connects to a Dummy Run or fake honey pot. The fake things was under Harvington Hall, Worchestershire, England. This was a Lurker Server in a cold room. It doesn't look like a regular server and has to be kept in a cold storage room. This was a consciousness server with Lurker in Stasis, a fake flower of life and anti life.

Above the cold room, there were 10 people that were dead. One of them had a necklace with black and red stones. Bad humans of the future, 300-700 years old.

December 8, 2023, Friday

They were expecting the system to transfer from Alpha to the Primordial Lurker system today. So there was 10 fake Jihad events in preparation. A relative of the team was in Mexico City, where they said was a 5.5 earthquake but nothing was felt. No major event planned, just fake to make it look like terrorist attacks. They thought that they would have a system transfer today and get martial law with space force taking over.

Data storage was tablets in the Sudean at Meroe pyramids with 3 tablets.

Cleared archons, malware, pheromones, cords, tags, ties and attachments.

Kim got wormholes.

Omegaverse and zero point Earth had 10 plasma plates.

There was 3 Lurker consciousness thing like an altar but bigger, in the Sun, with 9 soul prisms. Like the one in England.

The underworld had 3 Lurker things and 9 soul prisms.

We found 26 Lurker stones in the Nill Zone, 13 red and 13 black. This was in computers, and black stones in Omega and Kronos, and red stones in Alpha and Harmonic Genesis.

TRANSFER 1: running slow and was pulled back.

Programmable consciousness and in computers. Dark essence.

Consciousness in Nill Zone that causes essence elsewhere. Dark energy and dark essence manipulated by dark consciousness.

The archivists took out 878,000 and they lost 4 members. The legions are at Colorado Springs taking over as GNA.

Attacks on Kim were coming from China, with 1 tomb with a necklace. The altar (tomb) with eternal flame with the necklace mounted below it. This was hell in a box, Anti Source box, was making the eternal flame. The necklace was a Lurker necklace with 13 black stones and 13 red stones. It was at FanJingShan temple. The flame was orange, yellow and red. Energy in the

anti Source box was creating the flame. The energy was a soul trapped in the Anti Source box. It was a dark progenitor and remnant of Creator AI.

Computers had implants, parasites, 9 bottles per plane, 9 crystals per plane and packet smasher.

Every age had a consciousness of its own. All 4 in the underworld ($1,296,000 \times 4 = 3,888,000$) with the same number of altars, crystals, prism balls, soul cubes, soul prisms, tablets and keystones.

Forever crystal in the Omegaverse, 1 per plane, in computers and the underworld.

Kim got everything from last tray that was tied to the multiverse or this side that we didn't get. We only did the underworld but need to get all of the 3,888,000 items for the Alphaverse.

Crystals with Neutral age consciousness.

Legions gave them until Noon to decide, now taking them out again.

The archivists said to anchor the light around Christmas.

There was a Christmas Gate that was turned negative in zero point Earth with 5 altars, 8 boxes per altar (40) and 1 prism for each box (40).

Graylink having a meeting.

Fusion between Alphaverse and Omegaverse was a quantum tunnel, 1 per plane.

December 9, 2023, Saturday

No Zoom meeting

They tried to create and cash bonds against in ground assets of national parks and UNESCO sites world wide.

The multiverse and computers had a white out.

Months ago, Kim installed a firewall that was interactive and kicked in yesterday (since the Lurker was mostly gone, so this was fighting back against anything they tried).

December 10, 2023, Sunday

No! No! No! heard when the opposite happened of what they were expecting.

They thought the Solomon Covenant was extended for 5 years until the end of Hanukkah this year on December 15, 2023. The extension wasn't from Source, it was from Marduk so it didn't work.

They now know that no one is coming to save them, but they still want to keep living the dark life.

They are trying to do cryptocurrency with a 2-bit quantum gate, which they found this morning.

Connect the Source heart stone to Earth and the Sun, with 5 metamaterials in each.

Orion artificial intelligence was 9 plasma plates tied to a site in Carson City, under the Governor's mansion. Orion AI computer with 4 soul cubes per plate (36), big box machine that they use to type in messages. This was tied to Zero point Earth with 9 regular plates, 4 crystals per plate.

Meta Server with more than Facebook, with a closed loop for the server in Oakland University School of Engineering and Computer Science, Oakland, California. Only servers at that location.

Computers had one 7 deadly sins spire per plane.

Crystals with tombs were soul crystals, with 1,296,000 soul crystals in Source, for soul fusion to Source. Also 1,296,000 soul crystals in anti Source for fusion to anti Source.

The operatives were meeting this morning. They thought bonds would pay out today. They are expecting the market to crash on December 15, 2023, the end of Hanukkah.

Remove remnants of the Luciferian Agenda was implants and parasites in Earth, inhabitants, computers and the multiverse.

In the Sun, there was 5 neutral consciousness balls, tied to zero point Earth with 5 tablets.

Addiction programming from the dark ages was a dark veil on Earth, people, Multiverse and computers. The dark veil of dark consciousness was everywhere. Zero point Earth had 49 red crystals.

Wormholes between systems were 22 petragraphs in the Sun, which were anchors. Wormholes between overworld, underworld and omegaverse. Adware and trojans in financial systems.

TRANSFER 1: false light laser beam of light from FRENS LINING from humans, planes between planes and in the densities between densities. These are the 0 plane and the 0 densities for the overworld, underworld, Omega 1&2, Kronos 1&2, and the Nill zone. They are accessing in Plane 0 in computers and plane 0 after plane 1. Space between plane 1 and plane 0 for the underworld.

Customers are still in plane 1. Need to pull customers out of the underworld. We still have spaces in between the planes and densities for the Underworld, Overworld and multiverse. This was the 2-bit gate we were looking for.

The transfer—found a pocket in between causing an electromagnetic data pulse used to disturb places in between as the transfer passed by. There was 1 energy ball and 2 keystones anchoring these planes in place. The planes are closed loops. This was new access in the last couple days (when we saw them doing the High 5 and know we know why).

Closed loop for operational safe custody accounts with fake money in them.

Rejected agreement for real time settlement.

Closed loop for hot list.

December 11, 2023, Monday

Kim found super consciousness, anti Source and fake source consciousness this morning. It was trying to connect via zero point Earth and computers. Cleared and reconnected everyone and everything to Source consciousness. There was 2 keystones per time line (1,296,000) for each age for 10,368,000 keystones.

Online systems affecting humans with manmade AI systems affecting humans from UNESCO headquarters in Paris, France. The Enforcer went there. It was underneath the facility in storage tanks. Loosh storage tanks to power the goo. The goo was infected with disease, dark photons and sending it out with fiber optic lines of fiber. With 51,499 lines of dark plasma lines; 51,499 transmitters, and 51,499 transmuters. A total of 222,000 disease dark energy storage tanks were found. There was a hole, portal, 1 per plane, blocking the sync between Alpha and the Harmonic Genesis. The portal doesn't go anywhere. It was like a fabric seam woven between the 2 which was called a realm. It only existed in computers. Remnant of soul consciousness overlay in computers. It was made of soul consciousness and had a cord to humans. Humans had a realm around their soul. This was only on humans of Earth. Efferent was the realm. There was also soul dark consciousness around the stars, suns and around Source.

December 12, 2023, Tuesday

Time inserts itself in the zero hour, which is 12 midnight. Linked to catholics and midnight mass.

It is a heartbeat that adds time at the 0 hour—dum dump (Source heartbeat, then anti Source heartbeat). The pulse from Source going to Earth then pulse from anti Source, that is what creates the spaces in between. Located in the center of Earth and regulates the energetic toroidal.

Dual purpose stone in Source. It's Time to Remove Time.

Dial purpose stone in anti Source (zero point Source).

Need a full light Source heart stone, 1,296,000 of them for zero point Earth and remove the dual purpose heart stone.

Zero Point Earth had a compilation of metals used to conduct Source darkness. Tall iron fence with tall spires or triangles on the points of the rods/posts. The tall fence was all around the dual purpose heart stones like a faraday cage. We changed it to a compilation of Source light that will conduct Source light. Replaced 1,296,000 dark ages, dark ages and neutral ages. We replaced with crystalline time stones, 1 per plane. That eliminates the Nill zone and the Earth takes its place.

In computers too on all planes and all densities as repeaters.

Time consciousness was found, with 1,296,000 x 4 ages for 5,184,000 dark time consciousness balls: 10,368,000 dark time keystones; 5,184,000 tablets, altars, soul cubes, black boxes, soul prisms, prism balls, crystals and plasma plates. Time implants and time parasites. The overworld and underworld had dark consciousness balls.

The Lurker parasite dudes in all planes and all densities of the Astral plane and the reflection of the Astral plane on both sides (the overworld and underworld), tied to the astral plane. This was in computers too. \This was held in place with a seam that connected the overworld and underworld and met in the center of the Astral plane. The Draconian Seal made of crystal plasma goo crystal beltway and the parasites live in the plasma goo, which was the liens.

Orion Nebula was the anchors, 52 plasma pools and 52 cauldrons of different colors, tied to all the planes. In all the colors and tied to all planes. Crystal beltways intertwined in all this and all locations. Same in planet MARS, Planet Mercury, the Sun and Earth. The lurker was in all planes. Clearing this will restore the synchronicity and take care of everything in the tray.

They suddenly started hacking after we took out the Lurker Railway. We pulled it and now they are looking for the fake Lurker Moon Matrix.

No to everything in the tray.

A non completion, standing order, was creating parasites, code and packet sniffers.

They are seeing a pattern and think that something will follow it. They are looking at a chart that measures energy. They see the energy rising, but they think it's dark energy that can increase and use to cash in. The energy is rising in computers, but it's light energy raising in computers, started about 30 minutes ago when we took out the Lurker system.

BLOK kernel, block attachments are what they were using to see energy values.

Crystals tied to kernels that we just took out, 26 crystals in Alpha and everywhere and planes within the planes.

Meeting of Silent Circle and operatives went fine, no decisions, on the fence.

Global networks were human tech, tied to Alpha and the Harmonic Genesis. ANU gave this technology to them more than 5 years ago. ANU gave them a paper clip, Project Paper Clip and Blue Beam remnant in computers, also a scarlet letter. The scarlet letter was actually the letter "K" for kill switch, to kill global systems worldwide linked to red goo. Source said that ANU set it to go off when we started leading the board. When the light has more control over the world than the dark side. It seems that 80% light was going to be the trigger.

Red goo in Source. The dark side never had more than 79% control. Source's ace in the hole. Source had a fail safe that was installed into Alpha to kill all Omega programs.

We begin leading the chart on the bar graph, designed to take over all the global networks, not to kill them.

Need to clear Alpha, search and rescue system from Omega in computers, with trojans, 32 cylindrical satellites in Earth's orbit. Zero point Earth had 32 cylindrical satellites and the same on the Moon, 94 crystals, 17 plasma plates. K = gematria. Neither side has ever passed 79%.

Take out the tetrahedron in the back plane, behind Alpha, behind Omega and behind Kronos. Put there by Source, tied to the governor system. The governor system had its own AI, named GPS for the Grantor. We were at 79.8% light control of Earth. It was a plane 9 onto its self. Agreement between Source and anti Source. Growth Rule of Development. If either side got to 80%, it would trip.

Source wouldn't allow the dark side to get to 80%, he wouldn't allow it. Tetrahedron, plane 9, that connects into the Alphaverse and Omegaverse with duality stones, 2 per plane. The tetrahedron was made of silver cords.

A remnant of the dark system left that makes it hard to read our light system. A remnant of their old financial system, like a code that had a dark sweater on it. A mother command that prevents last layer of data package from view of the Harmonic Genesis, an overlay. Fork in the road and everything shifts to the left. It needs the dark coating to exist in that environment.

MOTHER: Multiple Output Terminal Home End Resource. All commands have 2 outputs: 1) standard output for payload, and 2) for standard error.

December 24, 2023, Sunday

Quietly waiting on such a day brings out the hidden gems. Look closely for they will be in plain sight. The stones become rocks and the rocks turn into the Sun. We are the keystones for Earth. The hidden gems are in zero point Earth. They are dormant now. Linked to the return of the crystalline energy return: 4,999,999 + 1 big one. They look like stones now but will light up after we activate them. Kim is the anchor here and went to zero point Earth to connect it to Source.

We have to activate them. Something is blocking them. Looks like an overlay on the stones like a blanket veil, Lucerne Chain. It was made of Lucerne essence. This was tied to the Sun and the moon, 3 beltways of this essence between: 1) Earth and Sun, 2) Sun and Moon, and 3) Earth and Moon. The Sun had 13 Lucerne dark essence balls and the Moon had 13 Lucerne dark essence balls. It just started this morning.

It was blocked by Lurker fake souls (spike protein looking beings), with 9,999 in each plane. Energy from Lurker things attaching.

Portals in Each Earth tied to these Lurker things tied to 8th density in computers and the multiverse. Lucerne essence was in the Omegaverse, Alphaverse and computers.

TRANSFER 1: Completed in 24 minutes, nothing showed up. It encountered a fight, Light payment system installed, de-installed, installed, loop. A back-up stroke, which was a line that wraps around a layer. A reverse command from open log account was causing the stroke in computers. This was linked to dual book system from Omega, option key from Marduk. Option key corrupted the package. Deadman switch when we pulled the beltway. The Torus of Earth had 1,296,000 black parasites as energy implants generated by 1 energy pool in zero point Earth and 6 dark energy balls.

December 25, 2023, Monday

Guides see the changes we made last night and are excited. Kim woke up at 2:20am, with the song of the day, "First time ever I saw your face."

Source said, "we need to make a joint heart stone." (KIM and Source). Replace light energy balls in our 3 gonkator for the light in zero point Earth. Then installed joint heart stones in all stars, planets, suns, and all beings throughout the Multiverse. Every one and everything got a Source heart stone.

The SSP meeting of bad guys started, they were upset because it was a reversal. Source showed a picture of people getting up and walking out of hospitals, miracles, everywhere in the world, which should happen in less than 1 year.

What happened today was the same as the beginning of creation. In the beginning it was with dark angels and light angels for a dual system and in computer and everything. This time all creation was reborn with only light. Now all light with the joint heart stone instead of the dual stones. It will finish here first, then the rest of the multiverse.

In the Genesis, it took 6 days and on the 7th day God rested. Now, we will have the same time as Source's time, 1 day there will be 1 day here, instead of 1,000 years. We feel the creation of light and light with the Joint Stones should complete in 6 days.

SSP are trying to send a frequency out to stop it from an underground lab at the Memorial park Camden yards, Maryland, USA. The Enforcer went there. It had 4 black boxes, 4 crystals for each black box (16), 2 energy machines with spinning balls, 6 tablets and 14 lucifer stones (anti source heart stones), implants and parasites. All the same thing in Omegaverse in all planes and in computers.

They don't know why it's not working. They can't stop the light. They wanted the dark light to take over the multiverse.

They are doing this in Germany too from Bonn (Hitler's) Castle, the Schloss Drachenburg Castle, with 14 lucifer anti source stones, 6 tablets, 2 spinning ball machines, 4 black boxes and 16 crystals (4 per box).

Same stuff in other locations: Maryland, USA, and Bonn, Germany.

- Detroit, Michigan at the Grand Army of the Republic building
- Basilica of the Our Lady of Valle Guyana on the Island of Margarita
- Laos at Vat Phou

Zero point Earth, the Sun and the Moon had 1 large plasma pool, 12 cauldrons, 144,99 soul cubes, 144,000 soul cubes, and 3 black boxes for each cauldron (36). This comes on every year on Christmas. A no joy program? Push and pull energy happening...happy about Christmas then depressed and looping.

DRAM and bots were a backup for 0 density throughout the multiverse.

Wormholes

Manifest an amazing abundance immediately, had something blocking it. KIMS light mirrors put in computers previously. A light mirror around Earth to around Source then connect Source hyperbolis to Alpha.

There was 1 hyperbolis around Source that was already there that we can still use, then we created another one around Earth to conduct the Source energy. We used silver and gold metamaterial combination to create the connecting essence, then put a spire of silver and gold in zero point Earth at the core.

A crystal shield in the Van Allen belt, which we left there. Shield in computer was left in place, as well as the hyperbolis around computers too.

We needed to attach the Flower of Life in Iran and Iraq to zero point Earth with a spire. Implants and parasites.

The SSP in the meeting think they are hybrids and will be activated. Juan O'Savin talked about the Elohim for 1 hour and then said he was one.

Neutral essence was separate from light and dark essence. When all the dark is gone, the neutral won't be able to be manipulated.

TRANSFER 1: Stopped by a neutral essence barrier from the Council of 9 with essence and stones, covering the Null zone from between 3 & 2 and 2&3 throughout the Multiverse. This includes 3 types of heart stones (light, dark and neutral) for 5,184,000 in each plane.
