THE *Pro Player* EXPERIENCE

This tournament is unique in the way that all players must sign up individually and are then drafted by our carefully selected general managers. Like a real NHL player, participants continue to belong to the same team for subsequent tournaments unless they are part of a transaction (trade with another player).

Like professional teams, participants experience playing with players younger or older than themselves while ensuring a safe environment for everyone (without contact). Players have the opportunity to showcase their skills as games are broadcasted live, and highlights are shared online!

An experience designed to give young players a pro player experience. We give them this experience by having them compete with official NHL game pucks, custom uniforms and championship rings and trophies, live lottery and draft, player interviews, and more! Champions celebrate like the pros with a ceremony on the ice, with a championship hat and a custom champion ring.
