

**E-Med Training Services guides you through the daunting process of buying an AED and ensures that your facility complies with all the complicated reporting requirements.**

**Use this free buyer's checklist before purchasing your AED.**

### **AED Buyer's Checklist**

- Do you have Medical Direction in order to purchase an AED (FDA Requirement)?
- Have you obtained a Licensed Health Care Professional to assist with Cardiac Event Reviews?
- Do you have a Written AED Plan to meet SC State Law compliance?
- Have you performed a site assessment to ascertain the best location for the AED to reach the OSHA recommended **“Drop-to-Shock”** within 3-5 minutes?
- Do you plan to implement an AED Response plan to ensure personnel readiness in case of an emergency and to evaluate the program after a cardiac event?
- Do your employees have current CPR & AED Training? (Most states require certification)
  - If so when does it expire? \_\_\_\_\_
- Do your employees have current First Aid training to recognize potentially life-threatening conditions before they develop into sudden cardiac arrest? (OSHA Recommendation)
- Do your CPR & First Aid trained employees have current Blood Borne Pathogen training?
- What type of additional equipment are you considering? *Sustain life once you save it!*

**If you answered no to any of these questions, don't worry E-Med Training Services can assist you with all your AED program needs! Call us today!**
