Preschool aftercare is separate from the K-6 afterschool program and should be scheduled through preschool registration.

Our Preschool program encourages children to become enthusiastic, life-long learners. Our goals are to aid in the development of time management, decision making, and problem solving skills in an age-appropriate manner. We believe that each student should have the opportunity to grow and learn at their own pace and to reach their own potential. Students will develop physically, mentally, socially, and spiritually as they are introduced to new concepts and skills. We desire to form a partnership between families and teachers and to promote a positive self-image in each child.

Concepts and Skills of Focus

- Faith- Students will be introduced to Bible stories and prayers
- Fine Motor Skills- Students will do various hands-on activities to strengthen hand muscles for them to evolve in skills including cutting, writing, coloring, and play.
- Gross Motor Skills- Improve progress on coordination and balance skills through play, running/jumping/climbing, movement songs, and daily activities.
- Pre-Reading and Literacy Skills- Counting, letter, and sound recognition are introduced and practiced daily. Story comprehension and critical thinking will be taught through reading aloud and group discussions.
- Social/Emotional Skills- Students learn to build relationships with peers and teachers. To develop their own readiness skills through books, songs, play and social interactions.
- Language Skills- Focusing on speaking in complete sentences, being able to voice needs, taking turns, retelling a story, saying familiar songs and nursery rhymes, correctly naming colors, objects, people, direction words, and rhyming words.
