*For Diabetes: Hemoglobin A1c (HbA1c) Poor Control (>9%) [Quality ID #001], Hospital-Wide, 30-Day,

All-Cause Unplanned Readmission (HWR) Rate for MIPS Eligible Clinician Groups [Measure #479], and Clinician and Clinician Group Risk-standardized Hospital Admission Rates for Patients with Multiple Chronic Conditions (MCC) [Measure #484], a lower performance rate indicates better measure performance.

*For Clinician and Clinician Group Risk-standardized Hospital Admission Rates for Patients with Multiple Chronic Conditions (MCC) [Measure #484], patients are excluded if they were attributed to Qualifying Alternative Payment Model (APM) Participants (QPs). Most providers participating in Track E and ENHANCED track ACOs are QPs, and so performance rates for Track E and ENHANCED track ACOs may not be representative of the care provided by these ACOs' providers overall. Additionally, many of these ACOs do not have a performance rate calculated due to not meeting the minimum of 18 beneficiaries attributed to non-QP providers.

Fraud and Abuse Waivers

- **ACO Participation Waiver:**

  The following information describes each arrangement for which our ACO seeks protection under the ACO Participation Waiver, including any material amendment or modification to a disclosed arrangement.

  - Parties to the arrangement: ACO WV and All ACOWV Participants Sharing Downside Risk
    - Date of arrangement: 06/06/2022
    - Items, services, goods, or facility provided: The ACO will retain the first one million dollars ($1,000,000) in shared savings payments ("Support/Off Find") in lieu of requiring the ACO's MSSP participant practices to make payments towards shared losses payable by the ACO to CMS (downside).
    - Date and nature of any amendments to the arrangement, if applicable: ACO Retention of Shared Savings Earned in Lieu of ACO Participants Sharing in Downside Risk.
