

OUTDOOR FITNESS

Whether the experience is fast-paced with maximum effort or simply stretching under the sun, Outdoor Training System offers a comprehensive exercise system focused on improving strength, building muscle, increasing cardiovascular fitness, and burning fat. Place it along a fitness trail, work-out zone, high school or college field. Different exercise stations can be used as stand-alone events or configured together, creating the perfect outdoor training environment for either small groups or individual work-outs.

Movement is essential to life and to play. Motion play creates movement for children of all abilities and assists with many developmental areas, including increased spatial awareness, inner ear stimulation and balance motion can be soothing to children with sensory processing differences and offers an interactive activity for everyone to enjoy.

DESIGNED FOR EVERYONE: Teenagers, adults, older users and people with reduced mobility. Beginners, experienced or expert sportsmen and women.

This multi-functional equipment offers different exercises to strengthen the main muscles in your lower limbs and upper body.

The apparatus is ergonomically designed for comfort and safety (excellent back support).
