

Why Titan?

Titan is proud to manufacture an industry leading product with an industry leading warranty, right here in the U.S.A.

USA Manufactured
Products Built to Last

High Efficient
High Definition LEDs

Gold Wire Bonds
within the LED

Extruded Aluminum Heat Sinks

Active Thermal Management

Titan Tough

Solid Core Aluminum
Circuit Boards

Our Tubes - 12-Year Warranty

Our Products Rated for
155,000 Hrs

0% Green Funding

OUR COMPETITORS

Made in China - Disposable
Products

Commodity Product where Price is
the Driving Factor

Silver Wire Bonds
within the LED

Diecast Heat Sinks

Passive Thermal Management

Not Built for Ruggedness

Fiberglass (FR4) Circuit
Boards Used

Tubes Warranty Between 3-7 Years

Rated from 50,000-100,000
Hours

Open-Ended Lease Agreement

WHY IT MATTERS:

In business for 10 years, Titan is a proven
and reliable partner

We produce a crisp, brilliant, bright and beautiful
quality of light unmatched in the industry

Silver corrodes causing color shift and
LED failures

Diecast heat sinks create air pockets that trap heat
and shorten product life cycle

Higher operating temperatures significantly reduce
product life

Titan products are engineered to withstand
harsh environments

Aluminum circuit boards dissipate heat, making it
work more efficiently

Our warranty has no restrictions, theirs are numerous

Longer life reduces the cost of the product

You own 100% of the product day 1. No tricks or games
