180W - 63BR-3P-84-7-80
296W - 64BR-4P-112-9-80
360W - 66BR-6P-168-7-80

Why LED for Restaurants

1. Warm Color Temperatures—create a comfortable environment with a variety of warm color options (as warm as 2400K)
2. Dimming—LED are fully dimmable and work with many standard dimming systems.
3. Stylish—single optic design combines traditional appearance with beautiful spreads.

Dimming

Titan LED realizes just how important lighting controls and dimming systems are to restaurants. Therefore, we offer a wide range of fully dimmable LED options.

Please contact your sales representative to learn about our full line of LED products.
