4-Part Virtual Series | April 16 & 30 / May 14 & 21, 2025 | 12:30 pm - 1:30 pm

Dates & Time (12:30 pm - 1:30 pm)	Speaker & Topic
April 16	Altered Mental Status: Stroke Symptom or Stroke Mimic: Eleni Antzoulatos, MD
April 30	Post Circulation Stroke: Satyam Vashi, MD and Melanie Parker Barry, PT
May 14	Cerebral Venous Thrombosis: Audrey Nuccio, MD
May 21	ENRICH Trials and ICH Medical Management - Feras Akbik MD

OVERVIEW:

Join us for an insightful virtual series!

Whether you're a neurologist, emergency physician, nurse, or healthcare professional involved in stroke care, this conference will provide valuable, evidence-based strategies and tools to improve patient outcomes. Stroke Symptom or Stroke Mimic, Post-Circulation Stroke, CVT in women using oral contraceptives, strategies for medical treatment of ICH, and the groundbreaking ENRICH Trials.

You'll have the opportunity to hear from experts in the field, gain practical insights into the latest research, and deepen your understanding of emerging trends in stroke care. Additionally, you'll learn best practices in interdisciplinary collaboration to ensure that your stroke patients receive the highest quality care.

OBJECTIVES:

1. Identify and manage post-circulation stroke complications
2. Understand the significance of ENRICH trials
3. Apply evidence-based practices in stroke management
4. Promote interdisciplinary collaboration in stroke care
5. Understand the risk factors, diagnosis, and management of cerebral venous thrombosis in women using oral contraceptives (OC) or during pregnancy
