Get The Word Out! APHASIA!

OUR MISSION: The Mid-Atlantic Aphasia Conference is an independent aphasia support group connecting people living with aphasia and caregivers in New York, New Jersey, Pennsylvania, Delaware, Maryland, and Washington, D.C. We are HERE for YOU!

APHASIA (Uh-Fay-Zhuh) is a result of a STROKE or BRAIN INJURY, and affects a person's ability to communicate. It is important to remember that you are still a competent adult, you know what you want to say, you can make your own decisions and you are not deaf. Aphasia usually comes on suddenly from a stroke or brain injury. (<https://aphasia.org/what-is-aphasia/>)
