Get The Word Out! APHASIA!

OUR MISSION: The Mid-Atlantic Aphasia Conference is an independent aphasia support group with the goal of connecting people living with aphasia as well as those who care for individuals with aphasia in the tri-state area.

APHASIA (Uh-Fay-Zhuh) is a result of a STROKE or BRAIN INJURY, and affects a person's ability to communicate. It is important to remember that you are still a competent adult, you know what you want to say, you can make your own decisions and you are not deaf. Aphasia usually comes on suddenly from a stroke or brain injury. (<https://aphasia.org/what-is-aphasia/>)
