Limited Warranty

1. In the event that this puppy is found to be unhealthy by the opinion of a licensed veterinarian or has any physical problems that will limit the pup's quality of life- I will replace the pup of equal value as soon as one becomes available. You must take your puppy to a vet within 72 hours from the date of purchase to make this claim valid. The puppy must be returned to me promptly following examination. A written document from your vet is required. All warranties apply only to the original buyer. This is a limited warranty requiring a 72 hour exam time frame and 10 day overall health limit but is excluded to internal or external parasites including giardia and coccidia- proper preventive measures have been given by breeder but is not guaranteed. At no time is seller responsible for vet fees or refunds offered .X_____
2. Seller does not guarantee coat color, size or temperament of pup at maturity. If buyer is unable to keep pup for any reason during its lifetime you may return the dog to seller to find proper placement. This is not required but accepted! Original paperwork should accompany any returns X_____
3. Should your pup be veterinary diagnosed with a life threatening issue pertaining to congenital or hereditary issues within 1 year of life a replacement pup will be given of equal value. Buyer understands that the breed of pup may not be the same as original purchase due to potential changes in breeder's future goals.X_____
4. No warranties or guarantees are extended beyond above mentioned. Including but not limited to guarantees of fertility or undescended testicles, cancers or any other non congenital/hereditary issues that may/may not occur. X_____

STRONGLY RECOMMENDED!!!!

DO NOT take your pup to public places and allow on the ground until all routine vaccines have been given! This is usually around 4 months of age. Breeder can not guarantee against Parvo contamination (despite vaccines!) and is your responsibility to protect your pup. The pup is being sold with up to date shot records and internal parasite prevention. Internal & External parasite prevention MUST be continued routinely!
