### Limited Warranty

1. In the event that this puppy is found to be unhealthy by the opinion of a licensed veterinarian or has any physical problems that will limit the pup's quality of life- I will replace the pup of equal value as soon as one becomes available. You must take your puppy to a vet within 72 hours from the date of possession from breeder to make this claim valid. You are not REQUIRED to take your puppy to a veterinarian; however, this exam will validate the health of your pup as warranted in this agreement. The puppy must be returned to me promptly following examination should any life-threatening issue be diagnosed- please note exclusion on #5 below. A written document from your vet is required. All warranties apply only to the original buyer. This is a limited warranty and does not warranty against ANY internal or external parasites or bacteria including giardia, coccidia or campylobacter- proper preventive measures have been given by breeder but is not guaranteed. Puppies are highly susceptible to these bacteria and parasites and have a limited natural resistance to them. A puppy's transition to a new home or travel time will greatly increase his stress level making these issues duplicate and cause symptomatic loose stool. Any negligence in on buyer's fault is not covered. Including failure to follow vet's recommendations. Puppies commonly experience loose stool under stress and is not an indication in itself of a parasite/bacteria risk, however you should have your veterinarian examine any issues of concern. At no time is seller responsible for vet fees or refunds offered .X\_\_\_\_\_
2. Seller does not guarantee coat color or quality of, length, size or temperament of pup at maturity. If buyer is unable to keep pup for any reason during its lifetime you may return the dog to seller to find proper placement. This is not required but accepted! Original paperwork should accompany any returns , a relinquish of ownership agreement must be signed. Buyer is responsible for any transport expenses of return. X\_\_\_\_\_
3. Should your pup be veterinary diagnosed with a life-threatening issue pertaining to congenital or hereditary issues within 1 year of life a replacement pup will be given of equal value. Should death occur within 1 year of life due to suspect of congenital/hereditary issue, a necropsy report with official cause of death diagnosis must be submitted to breeder under warranty replacement agreement. The buyer understands that the breed of pup may not be the same as original purchase due to potential changes in breeder's future goals X\_\_\_\_\_
4. We do not support the practices of Banfield Veterinary chain. Any diagnosis found or advice given by Banfield will not be honored as part of this warranty. We recommend seeking a private veterinary clinic that supports responsible breeders. X\_\_\_\_\_
5. Tiny breeds can be subject to hypoglycemia, please familiarize yourself with the risks, causes and prevention of this issue. Stress of travel and new environment can add to this and is buyer's responsibility to be prepared. Buyer should also maintain proper access to food to minimize these risks. A common risk of some breeds is becoming overweight at a young age. Rapid growth and inappropriate weight gain increases stress on developing joints as well as other lifelong issues if allowed to remain overweight. It is important to learn the proper amount of diet and exercise that is appropriate for the size and age of your pupX\_\_\_\_\_
6. CDPA, CDDY, IVDD are extremely common traits & diseases found in dwarf and toy breeds. This warranty does not guarantee against the presence of these genes nor any potential risks as the genes are common in the genetic makeup of their size. No warranties or guarantees are extended beyond above mentioned. Including but not limited to guarantees of fertility or undescended testicles, delayed or missed at puppy exam malocclusions, color dilution alopecia, cancers, hernias missed or developed at puppy exam or ANY other non life threatening

congenital/hereditary issues that may/may not occur.. X\_\_\_\_\_

((page 2 of 2))

- 7. Breeder does not accept responsibility for any past misrepresentation of breed identity beyond registration status nor honor any discrepancies in breed ID testing or discrepancies in genetic testing results provided by any genetic testing Lab. X\_\_\_\_\_
- 8. **STRONGLY RECOMMENDED!!!!** DO NOT take your pup to public places and allow on the ground until all routine vaccines have been given! This is usually around 4 months of age. The breeder cannot guarantee against Parvo contamination (despite vaccines!) and is your responsibility to protect your pup. The pup is being sold with up to date shot records and internal parasite prevention. Internal & External parasite prevention **MUST** be continued routinely!
- 9. This agreement is governed by the laws in the state of Arkansas. If for any reason any part of this agreement should need legal action to enforce, that action will be initiated in the county of the Seller's residence.

**Non Breeding Rights**

The following agreement is non-breed specific, details specific to a breed will be noted:

Upon date of purchase \_\_\_\_\_ Buyer agrees that this dog/puppy is being purchased as a pet only with agreement to spay/neuter by age 2. Breed: \_\_\_\_\_

Breeding rights may be purchased at a later date for the additional fee of \$\_\_\_\_\_.

There is additional paperwork involved to the registrar company and this price may vary from the option at original purchase time.

If breeding rights are requested at a later date at minimum basic breed specific genetic health testing must be completed as well as OFA hip prelims on larger breeds. Breed: \_\_\_\_\_ qualifies for OFA clause.

If the dog has been bred accidentally or intentionally prior to finalizing release of breeding rights buyer will forfeit the option to purchase those rights.

**Breeding Rights**

This \_\_\_\_\_ breed dog/puppy has breeding rights upon agreement at original purchase date.      Yes      No      \_\_\_\_\_ (Initial by seller)
