

BEHAVIORAL *Services*

**Compassionate Behavioral Therapy:
Growing Connections and Abilities**

Equine Assisted Behavior Therapy

We proudly partner with Flying Changes Virginia to provide Equine-Assisted ABA Therapy. This unique and compassionate approach combines Applied Behavior Analysis (ABA) with the therapeutic presence of horses to support autistic children or adults and those with other developmental disabilities.

Neurodiversity Coaching

Compassionate, empowering space for neurodivergent individuals to connect, learn, and thrive. These services go beyond education—they foster emotional well-being, resilience, and meaningful behavior change through personalized support and a strong sense of community.

Family Support Groups

Helping parents, guardians, and family members better understand and support their loved ones. Participants also gain access to resource navigation, advocacy training, and peer connection with others who truly understand their experiences.
