

# BOLSOVER HORIZON 29

## Project Details

### **Type of Work Undertaken:**

Internal sub-base preparation, external sub-base preparation

Client: Snowden Seamless Flooring, McLaren Construction Group

Value: £100,000

Contract: JCT

Duration: 10 Weeks

During the summer months of 2025, Alwoodley Civils Ltd landed on Horizon 29 in Bolsover working for Snowden Seamless Flooring and closely with McLaren construction Group. We initially started with the internal subbase of around 15,000m2 with later lead us on to a 25,000m2 external yard surrounding the unit. We utilised our Bobcat T76 and T590 using both 2d and 3d machine control. The work flowed seamlessly, leaving plenty of work space prepped and levelled ready for the concrete to follow. Keeping to job schedules and hitting above our targets later secured us more work with our long lasting client helping us build an even better working relationship.
