List of all american area codes

List of us area codes. Complete list of us area codes.

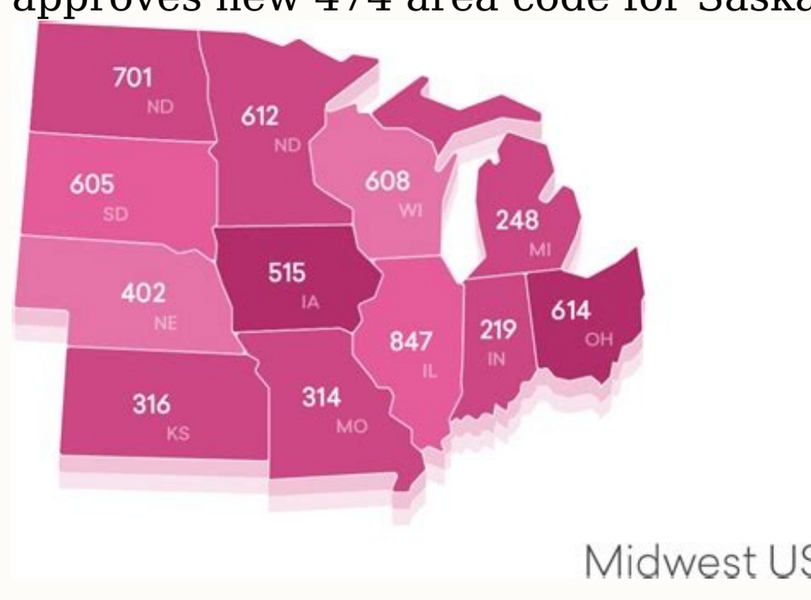

The North American Numbering Plan (NANP) divides the territories of its members into geographic numbering plan areas (NPAs). Each NPA is identified by one or more numbering plan area codes (NPA codes, or area codes), consisting of three digits that are prefixed to each local telephone number having seven digits. A numbering plan area with multiple area codes is called an overlay. Area codes are also assigned for non-geographic purposes. The rules for numbering NPAs do not permit the digits 0 and 1 in the leading position.[1] Area codes with two identical trailing digits are easily recognizable codes (ERC). NPAs with 9 in the second position are reserved for future format expansion.

Area codes in numerical order Area codes that are not in use are listed in italic type face; and unassignable codes are bolded. 200–299 Code Territory or use Date Notes 200 not in use; available for non-geographic assignment easily recognizable code (ERC) 201 New Jersey (Bergen County and Hudson County) 1947 created for all of New Jersey 1958: split to create 609 1991: split to create 908 1997: split to create 973 2001: overlaid by 551 202 Washington, D.C. 1947 2021: overlaid by 771 203 Southwestern Connecticut (Bridgeport, Danbury, New Haven, Waterbury, and southwestern Connecticut) 1947 created for all of Connecticut 1995: split to create 860 2009: overlaid by 475 204 Manitoba 1947 2012: overlaid by 431 2022: overlaid by 584 205 Alabama (Birmingham, Tuscaloosa, and parts of western and central Alabama) 1947 created for all of Alabama 1995: split to create 334 1998: split to create 256 2019: overlaid by 659 206 Washington (Seattle area) 1947 created for all of Washington 1957: split to create 509 1995: split to create 360 1997: split to create 425 and 253 207 Maine (all except Estcourt Station) 1947 208 Idaho 1947 2017: overlaid by 986 209 California (Stockton, Modesto, Merced, Tracy, San Andreas, and a part of central California extending into central Yosemite National Park) 1958 split of 916 1998: split to create 559 2022: overlaid by 350 210 Texas (San Antonio metropolitan area) 1992 split of 512 1997: split three ways to create 830 and 956 2017: overlaid by 726 211 Not assignable;
