COMPANY PROFILE

MORE CHOICES. GREATER SELECTION. ONE SOURCE. SINCE 1992

Window City has built an organization that has become a leader in extruding and manufacturing vinyl windows and doors. We are recognized throughout North America for our design excellence, precision craftsmanship and state of the art technology necessary to produce windows and doors that meet the industry's demanding performance standards. By combining our fully automated window manufacturing capabilities with the latest door technology, Window City has the solutions to all your window and door requirements.

Our comprehensive knowledge of the window and door industry is one of our greatest strengths. We know the vinyl extrusion process, glass technology, home construction and the renovation industry. This knowledge and in-depth awareness enables us to understand and deliver the products that are needed today, even while we are researching and designing for tomorrow.

COMPOUNDING

Window City manufactures its own PVC compound made from top quality resin. This allows us to control the quality and consistency necessary to provide some of the most advanced extrusions in the marketplace today.

EXTRUSIONS

We design and extrude all of our window profiles, making our products exclusive to Window City. Our commitment to quality starts with the aesthetic and structural components of our products and continues throughout our manufacturing process.

AUTOMATED FABRICATION, WELDING AND CLEANING

Precision and quality are the standard for all Window City products. We leave nothing to chance during the manufacturing process. Our automated fabrication centers provide precision cutting and fabrication of the frames, sashes and accessories.

INSULATED GLASS UNITS

Window City manufactures all of its own insulated glass units resulting in consistent quality and the ability to offer several performance and security choices with Solar Solutions glass options.

ENERGY STAR® WINDOWS & DOORS WILL MAKE A DIFFERENCE IN YOUR HOME

SOLAR SOLUTIONS

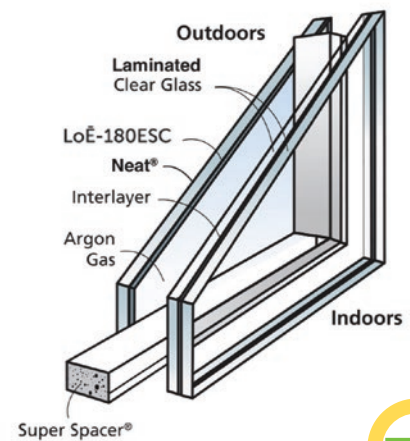

Window City's Solar Solutions glass options provide you with several choices to maximize your energy savings. Whether you are concerned with heating or cooling costs we have you covered. Energy Star® certified products help prevent green house gases and assist in the conservation of our natural resources.

Also available in: White, Coppertone, Bright Brass, Bright Chrome, and Western Pewter.

GRILLE & DIVIDED LITES

Grilles and divided lite options can add a whole new dimension to your home's appearance. Window City can create that unique architectural element by customizing both your internal or external grille selections. Custom grilles can be conveniently located between the glass for easy maintenance or for a more traditional look, on the exterior. Simulated divided Lite options are also available.

TRIM OPTIONS

All Window City products can be customized to meet your exact application requirements with our extensive accessory options that are factory applied and fully integrated into your windows. The possibilities are endless with either standard or custom interior and exterior accessories.

Heritage

COLLECTION

3 1/4" FRAME. TRADITIONAL DESIGN MEETS MODERN-DAY TECHNOLOGY

Traditional designs meet modern-day technology in our Heritage Collection of casement, awning and fixed windows. Our engineers have taken the classic contours of a hand-crafted wood window and combined them with the performance and durability of vinyl. The Heritage Collection will bring that timeless beauty to your home and add value without sacrificing quality. Our 3 1/4" fusion welded frame and sash offer superior strength.

4 1/2" FRAME.
THE FIRST
OF IT'S KIND

The attention to detail distinguishes the Heritage Maximum Collection of casement, awning and fixed windows, creating beautiful vistas throughout your home. Unlike any other window, our 4 1/2" fusion welded frame and sash offer superior strength. This is the slimmest profile in the industry today and has 40% less frame obstruction creating expansive views and increased daylight in any opening.

BAY WINDOWS

Bay windows are much desired by homeowners because of the way they project outwards to extend a home, creating more living space. From the interior they can become a graceful, sunlit place in the home and provide a panoramic view. The beauty of Bay windows can be greatly enhanced by our grille options and our accessory items. The durability and energy efficient features found in all Window City windows apply to our Bay windows. All Bay windows must be custom-built to specific applications.

BOW WINDOWS

Bow windows are welcomed by homeowners and frequently called for by architects because of their grand, sweeping curves that can turn a standard window opening into an appealing architectural enhancement. Bow windows are projection windows that have the benefit of adding space to a home.

Every Bow window is somewhat unique and therefore must be custom-built to the specifications of the space where it is to be installed.

ARCHITECTURAL SHAPES

Sophisticated curves, arches, circles and other geometric shapes, plus a willingness to accommodate the creative demands of the most demanding home designers keeps architects coming back consistently to Window City for windows that are more than mere windows.

The added advantage of our unlimited grille options can turn any window architectural concept into reality. Our Architectural Series windows can be used in new construction or as replacement windows.

Window City uses patented PVC mullions with steel reinforcements which add strength, performance and security. This allows us to produce much larger window units with a mix of both fixed and operating windows.

Ultra Patio Door

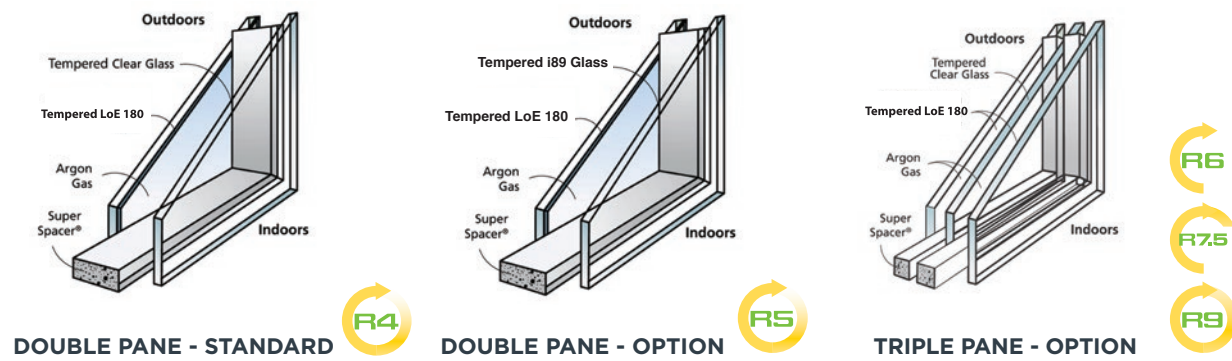

SLIDING COLLECTION

ULTIMATE STRENGTH & DURABILITY

The Ultra Patio Door Sliding Collection from Window City allows you to invite the outdoors into your home without sacrificing comfort or security. Ultra Sliding doors are not just for patios these days - they are at home in any room. Brighten your home with endless natural light and the beauty of the outdoors. Window City's Ultra Patio Door is available with all the necessary interior and exterior trim options to finish the job. The Ultra Patio Door Sliding Collection can be combined with several custom sidelites, transoms, grille and glass options.

GLASS

The standard Classic 10" Twin-Point patio door trim set handle hardware will add another element of beauty and security with exceptional durability on all finish options. Available in these finish options: White, Sandalwood, Sandstone, Charcoal, Flat Black, Dark Bronze, Satin Nickel, and Bright Brass.

Ultra Patio Door

SWING COLLECTION

UNMATCHED PERFORMANCE

Our Ultra Patio Door Swing Collection incorporates superior structural integrity along with quality and unmatched performance with our exclusive all uPVC and aluminum reinforced frame system. The structural reinforcement is strategically positioned to strengthen key areas of the frame that support the adjustable hinges and the standard multipoint hardware. It can be combined with several sidelites, transoms, grille and glass options along with the multiple operational configurations to create an entrance truly customized for you.

HARDWARE

AUTOMATIC MULTIPOINT LOCK SYSTEM

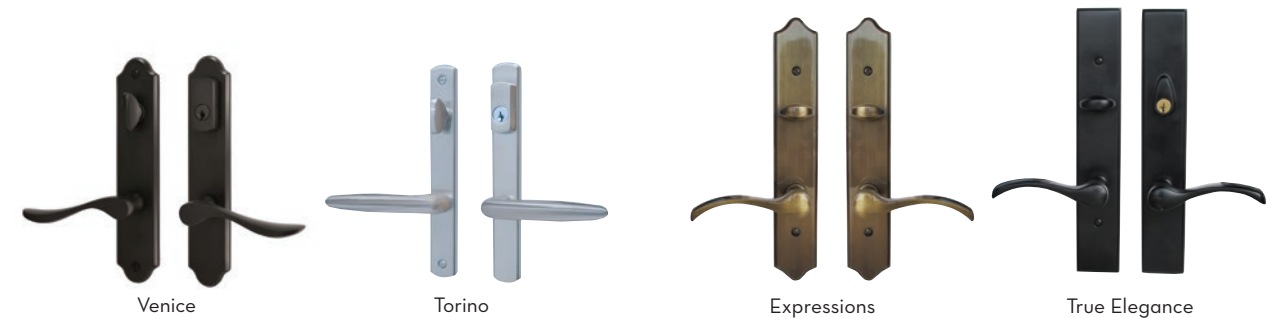

Simply Close the Door! As soon as the door is pulled shut, the Automatic latchbolts instantly throw 20mm bolts and are secured to prevent them from being forced back. By turning the key or the knob, it will engage the deadbolt and lock the top and bottom latchbolts to become a 3 deadbolt locking system.

ASTRAGAL MORTICE LOCK (STANDARD)

Used on the inactive panel of double doors. It has shoots on the top and bottom which extend into the frame to lock and secure the door.

HARDWARE

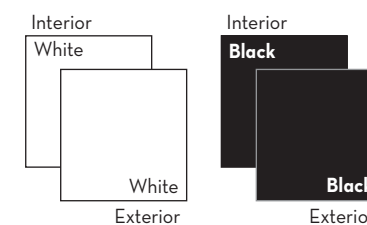

TRIM SET HANDLES 9"

TRIM SET HANDLES 12"

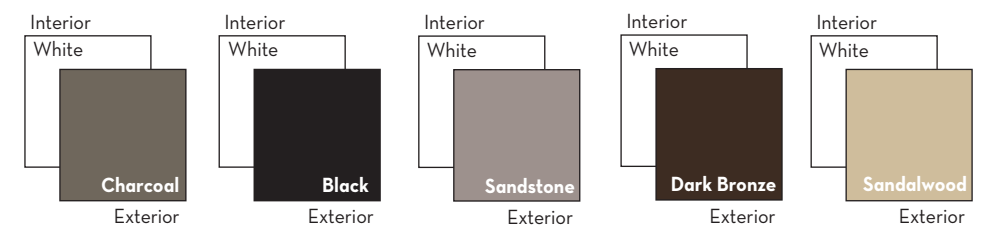

Available in these finish options: Black, Satin Nickel, Dark Bronze, Pewter, Antique Brass, and Polished Brass.
