

## HERITAGE COLLECTION

Traditional designs meet modern day technology in our Heritage Collection of casement, awning and fixed windows. Our engineers have taken the classic contours of a hand crafted wood window and combined them with the performance and durability of vinyl. The Heritage Collection will bring that timeless beauty to your home and add value without sacrificing quality.

Our 3 1/4" fusion-welded frame and sash offer superior strength. Our standard hardware uses a Premium Hardware crank and a multi-point lever lock for ease of operation and security with eight different crank colour choices available.

Our standard unit is double-strength glass which comes with our warm edge S-Class super spacer with the option of triple pane glass with Argon, Krypton or a mix of Argon/Krypton gas.

Heritage Series: Casement, Awning, Fixed

*Heritage*  
COLLECTION

**HC-101 CASEMENT**

Casement windows offer top to bottom unobstructed views, structural integrity and wide open ventilation. They are hinged on the side so the sash swings outward either left or right depending on your needs. These windows open up to 90 degrees so you can easily clean both sides of the glass from the inside plus you can also remove our easy-clean screen for simple cleaning.

**HC-126 AWNING**

Awning windows allow the window sash to swing out and upwards and are typically hinged at the top. Our Awning windows open up to 45 degrees from the bottom letting air circulate freely, while providing a unique protective shield to keep rain out and come with an easy-clean removable screen.

**HC-176 CASEMENT**

Casement Fixed windows do not open and are designed with a structural frame to accommodate larger openings. The classical contours of the frame are designed to match the size and appearance of our casement and awning windows for an attractive and uniform look and operational versatility for your home.

**FIXED HC-151 SLIM-FIXED**

This Slim-Fixed window does not open but comes with a low profile design and a narrow frame to create a distinctive look and also maximizes the glass viewing area. Slim-Fixed windows can be ordered in an unlimited range of architectural shapes and curves to make custom design creations possible and incorporates structural and thermal chambers for superior strength in large openings.

## HERITAGE COLLECTION

The Heritage Collection of Hung and Sliding windows combine the classic look of a heritage window with today's technology and performance. The attention to detail continues with contoured sashes and frames recreating the hand crafted wood look.

Our 3 1/4" fusion-welded frame and sash offer superior strength plus a full aluminum reinforced interlocking sash to maximize security. We use a constant force stainless steel balance system to ensure smooth operation of the movable section(s). Our standard flush mounted low profile locks provide an unobstructed view with eight different Premium Hardware colour choices available.

Our standard unit is double-strength glass which comes with our warm edge S-Class super spacer with the option of triple pane glass with Argon, Krypton or a mix of Argon/Krypton gas.

Heritage Series: Hung, Sliders

*Heritage*  
COLLECTION

## HC-211 SINGLE HUNG

Hung windows are a traditional style of window found in many homes where the bottom sash slides up to open the window and the top sash is fixed. The sash also tilts in to permit easy exterior cleaning from the inside plus it comes with a removable easy to clean half screen.

## HC-261 DOUBLE HUNG

Double Hung windows can open from the top or bottom with an upper and lower sash that slide vertically past each other in a single frame allowing more flexibility in ventilation. This is a window style commonly seen in many elegant homes. Both sashes also tilt in to permit easy exterior cleaning from the inside and the window comes with a removable easy to clean full screen.

## HC-210 SINGLE SLIDER

Our Single Slider window has only one sash that slides horizontally within the frame with the other sash fixed. The normal slide is from left to right (viewed from the outside) but the opposite slide is available (must be specified when you order) and the sash tilts in for easy exterior cleaning from the inside. This window comes with a half screen that is on the opening end operation only and is removable for easy cleaning.

## HC-260 DOUBLE SLIDER

Our Double Slider window has both sashes that slide horizontally within the frame and are perfect for a large window area where maximum ventilation is required without obstructing the view. Both sashes move and tilt in for easy exterior cleaning from the inside and come with a full screen that is removable for easy cleaning.
