

## Summary

### HCI Researcher, Computational Designer and Architect

I worked as an **architect** and **computational designer** for 5+ years before starting PhD in **computer science** at MIT. My current research is in the field of **Human Computer Interaction** with focus on **tools for that enable adaptive learning of various skills**. My work is at the intersection of computational design and computer science and I am interested in interdisciplinary research with cognitive science, education and design.

## Academic Qualifications

2018 - present

### PhD Student, 3rd year

**Massachusetts Institute of Technology**, School of Engineering, Cambridge, USA  
Department of Electrical Engineering and Computer Science, GPA: 4.8/5.0

Research: Using Rapid Fabrication for Adaptive Learning - **Prof. Stefanie Mueller**

Courses: Computer Vision, Computer Graphics, Data Visualization, Machine Learning

2015 - 2017

### Master of Science (M.S.) in Computer Science (Dual Degree),

**Massachusetts Institute of Technology**, School of Engineering, Cambridge, USA  
Department of Electrical Engineering and Computer Science, GPA: 4.8/5.0

Thesis: Computing Cognitive Diversity | Advisor - **Prof. Patrick Winston**

2015 - 2017

### Master of Science in Architectural Studies (SMArchS),

**Massachusetts Institute of Technology**, School of Architecture, Cambridge, USA  
Design and Computation Group, GPA: 5.0/5.0

Thesis: Thirteen Ways of Looking | Advisor - **Prof. George Stiny**

2009 - 2011

### Master of Science (M.Sc.) in Architecture,

**Architectural Association School of Architecture**, London, UK

Emergent Technologies and Design group, Grade: Distinction

Thesis: Design and Fabrication of Dynamic Tensegrity Systems | Advisor - **Prof. Toni Kotnik**

2003 - 2008

### Bachelors in Architecture (B.Arch),

**Mumbai University**, Kamla Raheja Vidhyanidhi Institute of Architecture, Mumbai, India

Department of Architecture and Urban Studies, Grade: A

Thesis: Rehabilitating Communities in Gujarat through Design | Advisor - **Prof. Vandana Sinh**

## Publications (Human Computer Interaction)

2020 **Dishita Turakhia**, Harrison Allen, Stefanie Mueller. AdaptiProp: Adaptive Learning of Maker Skills for STEM education using Fabrication Games. *In Proceedings for Human Factors for Computer Interaction (CHI'20) (In Progress)*

2020 **Dishita Turakhia**, Stefanie Mueller. Adapt2Learn: Adaptive Tools for Motor Skill Learning. *Transactions of Computer Human Interaction (TOCHI) (submitted)*

## Publications (Computational Design and Architecture)

2016 **Dishita Turakhia**. Spatial Cognition: Significance of Scientific aspects in Architectural Design. *In Conference on Academy for Neuroscience in Architecture (ANFA)*

2016 Michael Budig, **Dishita Turakhia**. Crafting Skins. *In Proceedings for Association for Architectural Education (AAE)*

2013 **Dishita Turakhia**. Dynamic Tensegrity Systems. *In Conference on Computer-Aided Architectural Design Research in Asia (CAADRIA)*

2013 **Dishita Turakhia**. Generative Algorithm for Non-regular Dynamic Tensegrity Systems. *In Proceedings for Shape Modeling International (SMI)*

## Awards and Fellowships

- 2018 **Edwin S. Webster Graduate Fellowship**, Massachusetts Institute of Technology  
1 year tuition fellowship towards PhD from dept. of Electrical Engineering & Computer Science
- 2017 **Bill Mitchel Graduate Fellowship**, Massachusetts Institute of Technology  
Awarded research grant for SMArchS thesis on Socially Intelligent Machines
- 2016 **MISTI-Chile Grant**, Massachusetts Institute of Technology  
Awarded travel fund to design a origami robot using digital fabrication at UAI, Santiago, Chile
- 2015 **Research Fellowship**, Massachusetts Institute of Technology  
Awarded by dept. of Architecture, with Prof. Larry Sass - to develop modular digitally fabricated structural systems for affordable housing

## Grants (awarded to my PI, Stefanie Mueller for my current research projects on Adaptive Learning)

- 2020 **Microsoft Faculty Fellowship** (\$200k)
- 2019 **MIT Integrated Learning Initiative** (\$250k)
- 2018 **MIT.Nano** (\$200k)
- 2018 **NSF Career** (\$500k)
- 2018 **MIT Integrated Learning Initiative** (\$250k)

## Research Experience (Human Computer Interaction)

- 2017 - 2018 **Researcher**, Computer Science Artificial Intelligence Laboratory (CSAIL), MIT  
Human Computer Interaction Engineering (HCIE) Group | P.I. - **Prof. Stefanie Mueller**  
Research: Developed adaptive learning systems for motor skill learning

## Research Experience (Computational Design and Architecture)

- 2016 **Research Assistant**, School of Architecture and Planning (SA+P), MIT  
Computational Fabrication Group | P.I. - **Prof. Larry Sass**  
Research: Developed modular rapid fabrication technique for housing
- 2015 **Research Assistant**, Singapore University of Technology and Design  
Architecture and Sustainable Design | P.I. - **Prof. Michael Budig**  
Research: Studied structural properties of sheet assembly structures through experiments
- 2008 **Exchange Student Researcher**, Bern University of Applied Sciences, Switzerland  
Research: Studied Housing typologies in India (3 Cities) and Switzerland (1 City)

## Teaching Experience (Human Computer Interaction)

- 2020 (Fall) **Teaching Assistant**, School of Engineering, MIT  
Course: 6.928 - Leading Creative Teams | Instr. - **Prof. David Níno**  
Taught: Key leadership skills for creative problem-solving and team building
- 2018 (Fall) **Teaching Assistant**, School of Engineering, MIT  
Course: 6.810 - Engineering Interactive Technologies | Instr. - **Prof. Stefanie Mueller**  
Taught: Design and building of sensor, actuator based interactive hardware devices

## Teaching Experience (Computational Design and Architecture)

- 2017 (Fall) **Workshop Tutor**, Aalto Technical University  
Topic: Spatial Cognition in Design.  
Taught: Exploring immersive design UI for architects using AR, VR, and XR
- 2012 - 2014 **Visiting Tutor**, KRVA, Mumbai University  
Topic: Computational Design.  
Taught: Parametric design to 80+ architecture students
- 2011 - 2013 **Workshop Tutor**, Bhartiya Vidhyapeeth University  
Topic: Parametric design and construction of architectural structures (2 workshops)  
Taught: Parametric design, rapid prototyping, material testing and construction techniques

## Teaching Certification

2017 (Spring)

### **Kaufman Teaching Certification Program (KTCP), MIT**

Teaching + Learning Lab

Key skills learned: Developing new curriculum, course material, effective teaching techniques

## Mentoring Experience

2017 - Present

**Masters Students:** Yini Qi (2018), Or Oppenheimer (2019), Julia Lee (2019)

**Undergraduate Students:** Lotta Blumberg (2018), Andrew Wong (2018), Bobby Rauch (2019), Harrison Allen (2019), Maaya Prasad (2020), Joshua Verdejo (2020)

**Highschool Students:** Christian DeWeck (2018)

## Professional Experience (Computational Design and Architecture)

2013 - 2015

**Principal Architect,** Architexture Buro, Mumbai, India

Led design team for 2 major housing architecture projects in Goa, 3 interior projects (2 published), collaborated with product designer to fabricate recycled furniture from old magazines

2012 - 2013

**Project Architect,** Sameep Padora and Associates, Mumbai, India

Designed sensor based responsive facade for building using Arduino and Firefly. Computational design lead for 4 architecture and 2 interior projects

2011

**Architectural Assistant,** PLP Architecture, London, UK

Designed parametric structures and conducted environmental analysis for projects in Abu Dhabi, Ningbo city (award winning project), Paris, and London

2008 - 2009

**Architectural Intern,** BSR Architekten, Bern, Switzerland

Designed spatial planning for 3 competition projects in Bern (including winning project in Raiffeisen)

## Invited Talks

2020

**HarvardX,** Harvard University, Cambridge, USA

Topic: Adaptive Learning of Motor Skills

2019

**MIT iLi,** MIT, Cambridge, USA

Topic: Adaptive Learning of Motor Skills

2017

**TEDx Beacon Street,** Boston, USA

Topic: Can Computers be Creative?

2016

**Bridging Synapses,** San Diego, USA

Topic: Significance of Scientific aspects in Architectural Design

## Conference Volunteering (Human Computer Interaction)

2018 - present

**Reviewer:** UIST (2020), TOCHI (2019), IUI (2018), CHI-Play (2018)

**Student Volunteer:** CHI (2020), UIST (2019), CHI- Exec Comm SV (2018)

## Conference Volunteering (Computational Design and Architecture)

2016 - present

**Reviewer:** ASA (2016)

## Leadership Certification

2016

**GELP - Gordon Engineering Leadership Program,** MIT

Key skills learned: Leading creative teams, conflict management, negotiating conflicts effectively

## Outreach (Women Leadership, Diversity and Entrepreneurship)

2020 (Spring)

**Fellow,** Diversity, Equity and Inclusion (DEI, MIT)

Organized remote events to create awareness for diversity in graduate school life

2019 (Fall)

**Committee Member,** Graduate Women of Course 6 at MIT EECS (GW6)

Organized: Graduate Women Summit (2019)

- 2019 (Summer) **Conference Committee**, New England Graduate Women in STEM Engineering (NEGWISE)  
Organized: Summer retreat for graduate women in STEM from Brown, Brandeis, Harvard, MIT, Dartmouth, Northeastern, and Tufts University
- 2019 (Spring) **Conference Committee**, Graduate Women at MIT (GWAMIT)  
Organized: Fall conference on leadership and conducted workshops on giving TEDx talks
- 2017 (Fall) **Volunteer Instructor**, Canopy Tree,  
Taught: Ideation, market research, pitching demos to middle school students on their start-up ideas
- 2017 (Summer) **Instructor**, Global Startup Labs (GSL)  
Taught: Customer-centric product design, ideation for tech apps, design of user-interfaces, market research, business plan development and workflow design
