### Medical History

July 2, 2018	Surgery to remove Lymph Node in Right Groin	(Dr. Cione -Plano)
July 5, 2018	Dr. Hughes (proctologist,hemorrhoid?) No, Cancer	(Plano)
July 10, 2018	Dr. Thuy Le – Oncologist, Consultation	(Plano)
July 11, 2018	PET Scan	(Plano)
July 12, 2018	Brain MRI	(Plano)
July 16, 2018	Surgery to remove Anal Mass	(Dr. Hughes - Plano)
July 25, 2019	Dr. Diab	(MD Anderson)
August 6-8, 2018	SCANS            CT – clear MRI - Clear	(MD Anderson)
August 10, 2018	Consultation w/ Surgical Team, Radiologist, Dr. Diab Consulation – Dr. Gershenwald, Surgical Oncologist Colonoscopy/Biopsy	(MD Anderson)
August 30, 2018	Surgery to remove lymph nodes in Right Leg and Groin Dr. Royal	(MD Anderson)
September 19, 2018	Dr. Royal – Post Op Appt	(MD Anderson)
September 24, 2018	Return to Work	
October 1, 2018	Dr. Bishop, Mold Simulation for Radiation	(MD Anderson)
October 11,15,18,22,25 2018	Targeted Radiation Rectal Area	(MD Anderson)
November 27-28, 2018	SCANS            CT- Metastasized to Lungs and Liver Stage 4 (MD Anderson) MRI Brain – Clear NO Chemo, Immunotherapy first	(MD Anderson)
December 4, 2018	Immunotherapy – Opdivo, Yervoy, #1, 1 <sup>st</sup> Cycle	(Dr. Le - Plano)
December 26, 2018	Immunotherapy – Opdivo, Yervoy, #2, 1 <sup>st</sup> Cycle	(Dr. Le - Plano)
January 9, 2019	Scans            Dr. Diab Ultrasound MRI Brain - Clear	(MD Anderson)
January 11, 2019	Port            CT – Tumors Grew – Changing to Chemo (CVD)	(Plano)

January 14-16, 2019	Chemo - CVD		(Plano)
January 21, 2019	Keytruda		(Plano)
February 4-6, 2019	Chemo – CVD		(Plano)
February 21, 2019	SCANS/Diab	CT – Some tumors smaller, some remain same. Mass behind Right Kidney concerning. Surgery not an option, too risky. Radiation – Yes	(MD Anderson)
February 25-27, 2019	Chemo – CVD		(Plano)
March 11, 2019	Immunotherapy	Opdivo, Yervoy	(Plano)
March 28, 2019	Radiologist, Dr. Welsh	Consultation and Mold Simulation	(MD Anderson)
April 1, 2019	Immunotherapy	Opdivo/Yervoy	(Plano)
April 4 <sup>th</sup> and 5 <sup>th</sup> , 2019	High Dose Targeted Radiation		(MD Anderson)
April 8-10, 2019	Low Dose Radiation		(MD Anderson)
April 17-18, 2019	SCANS/Diab		(MD Anderson)
	MRI – Clear		
	CT – tumors somewhat smaller		
April 22, 2019	Immunotherapy	Opdivo/Yervoy	(Plano)
May 6, 2019	Diarrhea started		
May 13, 2019	Immunotherapy	Opdivo/Yervoy	(Plano)
May 28-29, 2019	SCANS/Diab/Welsh		(MD Anderson)
	Colitis – Treatment Stopped		
June 3, 2019	Started High Dose Steroids		(Plano)
June 7, 2019	Rhemacaid Infusion		(Plano)
June 19, 2019	Hospitalized		(Plano Presby)
June 25, 2019	Discharged		
July 3-6, 2019	Colorado Trip		
July 8, 2019	Dr. Le – IV Fluids		(Plano)
July 10, 2019	Dr. Le – IV Fluids/Steroids up to 140mg/day		(Plano)
July 11-25, 2019	TPN – Nutritive IV		(In Home)
July 24, 2019	CT SCAN/Dr. Le - STABLE		(Plano)
August 14, 2019	Dr. Le – Follow up- To start Chemo (Abraxane) Per Dr Diab		
Aug 16, 23, 30, 2019	CHEMO – ABRAXANE 1 <sup>st</sup> Cycle		(Plano)

Sept 13,20,27, 2019	CHEMO – ABRAXANE 2 <sup>nd</sup> Cycle	(Plano)
September 30, 2019	Moved into new house!	
October 11, 2019	Dr. Le – Opted NOT to do this Chemo 9 Feels Crappy)	
October 17, 2019	SCANS/Dr. Diab - “Stable” Keytruda – once every 3 weeks IBrance – Chemo pill – once a day for 21 days, 7 off (not started) Iovance- Clinical Trial – TIL Therapy – UC Anschutz, Aurora	(MD Anderson)
November 1, 2019	Keytruda	(Plano)

.....

**University of Colorado – Anschutz Medical Center – Aurora, CO**

November 6, 2019	Consent for Clinical Trial LABS Examination for participation in Clinical trial Colonoscopy	Victoria Nuanes UC Health Lab Dr. Medina Dr. Alison Freeman
November 7, 2019	Pulmonary Test	UC Health Diagnostics
November 22, 2019	Pre-op Appts, Anesthesia & Dr.McCarter Tumor Resection R Groin	UC Health Anschutz
November 23, 2019	CT Chest, Abdomen, Pelvis UC Health Radiology, Outpatient Pavilion	Anschutz Med Center
<b>November 25, 2019</b>	<b>Surgery - Tumor Resection R Groin</b>	Dr. McCarter Anschutz OP Pavilion
December 6, 2019	Ct Scan, Brain MRI	Plano Presby, TX
December 10, 2019	Review Scan and MRI Results CT-Progression of disease Brain MRI – Lesion present – needs to be treated	Dr. Le – Plano, TX
December 11, 2019	Dr. Greenberg – Radiologist	Plano – TX Oncology
December 12, 2019	Dr. Wildridge – Ophthalmologist Conjunctivitis, UVItis Steroid eye drops and Antibiotic eye drops allowed until 12/18	Frisco

December 16, 2019	Recd Ins Approval for Radiation	
December 17 <sup>th</sup>	Radiation Planning Session	Plano – Texas Oncology 15 <sup>th</sup> Street Location
Dec 18, 19, 20& 23	Radiation Treatments to Brain Lesion

August 10, 2020	Follow up w/ Dr. Wildridge - Eyes <ul style="list-style-type: none"> <li>Next appt 9/23/2020.</li> </ul>	Frisco, TX
September 16, 2020	SCANS - Brain MRI, CT	Plano Presby

September 22, 2020	Dr. Medina SCAN Review	TeleHealth Appt.
	<ul style="list-style-type: none"> <li>• Scan results reflect most tumors shrinking or stable</li> <li>• PET scan in next couple weeks</li> <li>• Since trail, overall improvement, decrease in tumor size</li> <li>• The fact Chris feels good id a good sign that the cancer is going away</li> <li>• Brain MRI – Clear – no evidence of disease</li> </ul>	
September 25, 2020	Dr. Reddy – review results from 7.15.2020	
	<ul style="list-style-type: none"> <li>• Inflammation in lung has disapated on its own</li> <li>• Pathology report shows granuloma’s – a group of inflammatory cells collected together. Stems from the result of the T-cell therapy.</li> <li>• Follow up with Dr. Reddy if it worsens</li> </ul>	
October 6, 2020	Steroid Shot both eyes – Dr. Wang	TX
October 8, 2020	PET Scan          Plano Presby	Plano, TX
October 23, 2020	Review PET scan results w/ Dr. Medina	
	<ul style="list-style-type: none"> <li>• It appears Chris has has a near complete metabolic response to therapy which is reassuring.</li> <li>• Paratracheal node – recommends short interval PET to reassess with next scan.</li> <li>• Liver mass slightly increased on last CT but not uptake. May be residual viable melanoma.</li> <li>• Repeat PET-CT with next imaging to reassess liver mass and paratracheal LN.</li> </ul>	
November 12, 2020	Dr. Staulkup – Dermatologist	
	<ul style="list-style-type: none"> <li>• Skins is good</li> <li>• Removed gynecomastia from R nipple – 15 stiches <ul style="list-style-type: none"> <li>○ Typical w/ immunotherapy and/or marijuana</li> </ul> </li> </ul>	
December 1, 2020	Dr. Cione – Removed Port	Plano, TX
December 2, 2020	Dr. Wang – steroid shots in both eyes	Plano, TX
December 11, 2020	Review Scan results w/ Dr. Medina	Telehealth appt.
	<ul style="list-style-type: none"> <li>• CT Chest/Ab – Report shows stability</li> <li>• Lungs – Stable and does not show up on PET, shrinking</li> <li>• Liver – Same size as last scan – no uptake on PET scan <ul style="list-style-type: none"> <li>○ May – 13 mm</li> <li>○ Dec - 11 mm</li> </ul> </li> <li>• Kidney – Does not show on PET – Could be necrotic <ul style="list-style-type: none"> <li>○ May &amp; July – 23 mm</li> <li>○ Dec – 21 mm</li> </ul> </li> </ul>	
	Note: Trial will be published in the New England Journal of Medicine in Jan/Feb 2021	

\*\*\*\*\*

March 2, 2021            Steroid shots – both eyes            Dr. Wang            TX

March 3, 2021            Review Scans with Dr. Medina            Aurora, CO

- Scans done in TX at Plano Presby
- MRI, CT show stability and tumors continuing to shrink
- Chris feels great
- Headed to Winter Park for snowboarding, did really well!

May 25, 2021

- Left Breast Gynomastoma removed. Same as right breast.

May 25, 2021

- Steroid shots both eyes            Dr. Wang            TX

June 2, 2021            Scans            Plano Presby, TX

- Calcification of tumors in chest is extensive and causes soft tissue inflammation and some pain
- PT may help
- Scans look awesome
- Brian MRI – No evidence of Tumor
- Neck – Normal lymph nodes
- Lungs – tumors still shrinking
- Liver – Large tumor is gone, others getting smaller
- Kidney – spot is still the same size but not showing uptake on PET scan
- Next set of scans early September

June 3, 2021    Steroid shots both eyes            Dr. Wang            TX

July 2, 2021 PET SCAN            15<sup>th</sup> St. Plano, TX

- No evidence of disease.

July 7, 2021    Steroid shots both eyes            Dr. Wang            TX

July 29, 2021    3 Year Steriod shot – both eyes            Dr. Wang            TX

August 25, 2021            Scans            Plano Presby, TX

- Tumor sizes continues to shrink
- Brain MRI – Clear
- Lung and liver – tumors shrinking
- Great scans!

November 16, 2021                      Scans    Plano Presby, TX

- Dr. Medina Review – Telehealth
- Same as Aug 25,2021
- Small white matter noted on brain MRI. – not measurable at this time.

February 8, 2022                      Scans    Plano Presby, TX

- Dr. Medina – Telehealth
- CT was excellent- neck, lungs, liver and kidney tumor continue to get smaller
- Brian MRI – small 4 cm white matter visible and now measurable. Nov 16<sup>th</sup> Measurement now stated as 2 cm.
- Increasing T2 FLAIR hyperintensity within adjacent subcortical white matter.
- Could be from angle image was taken, Dr. Medina not overly concerned. Could be radiation necrosis.(scar tissue) from radiation. Might be problematic if it were to bleed.
- MRI in 6 weeks to monitor.
- NOTE: If Chris gets any unusual symptoms - vision, throwing up or seizures, do MRI sooner.

March 16, 2022                      Brian MRI    Plano Presby, TX

- White matter Unchanged from Feb 8<sup>th</sup> – may be slightly larger.
- Continue to monitor and repeat MRI in 6 weeks

May 9, 2022                              Scans and MRI    Plano Presby, TX

- CT good
- Brain MRI shows white matter
- Met w/ Dr. Medina in CO to review results
- 4 week course of steroids (5/17/21-6/10/21 60mg tapering 10 mg on day 6, then 10mg taper every 4 days through 6/10/22)
- Repeat MRI in CO at Anschutz 6/21/22
- Appt w/ neurosurgeon and Dr. Medina for review findings on 6/22/22
