SUMMER SOUND INTENSIVE

JBT has established a stellar international reputation for our award-winning work with youth in musical theatre. In conjunction with Good Sounds Studio, we are thrilled to offer a Sound Technical Theater Workshop.

Sound is an integral part of any musical theatre production. However, there is much more to successfully running sound than riding the faders! In this intensive workshop led by an industry professional with decades of theater experience, technical theater students will have the opportunity to explore important topics like preparing your script, setting gain structure, preparing microphones, managing the microphone process, putting mics on actors for optimal performance, conducting mic checks, mixing the show, and more!

Tuition of \$125 includes instruction, materials and technical run crew performance experience. Register by visiting www.jeterbackyardtheater.com; payment is due within 10 days of registration. See online registration form for details regarding tuition, payment, and refund policies. Tuition is not refundable after May 1, 2025.

Campers must bring a refillable water bottle with their name on it. Campers have a 45 minute lunch break and should bring a bag lunch with a non-carbonated beverage. Please list allergies and pertinent medical information on the registration form.

Camp is held at the theater from 9:30AM to 3:30PM. Parents will pick up students for the Friday dinner break at 3:30PM and they should return at 5:45PM for the Technician's Call Time. The performance will begin at 7PM.
