Master your Boundaries. Conquer CMMC.

*ThornScan brings automation, visibility, and control together
- helping you master compliance across every boundary.*

- **Entity-Centric Management** - manage every organization or client from one dashboard.
- **Real-Time Compliance Visibility** - track progress, findings, and control status instantly.

*Clarity, control, and compliance -
one workspace.*

Auto-Generated **SSP** & **POA&M** Exports

Generate and export tailored audit-ready SSPs and POA&Ms - automatically built from live compliance data.

Whether you're a **DIB participant** preparing for certification or a **partner organization** managing multiple clients, **ThornScan** delivers accurate exports that mirror your real-time compliance posture.

- **Auto-Linked Findings** - populate automatically from control gaps
- **Dynamic Status Updates** - remediation progress updates in real time.

- **Evidence Integration** into an Artifact collection
- **Export-Ready Reports** - generate and share POA&M summaries instantly.

Export smarter - stay audit-ready.

Your Entire Compliance Ecosystem - *Unified*

Gain total visibility into your CMMC posture.

- **Centralized** Evidence & Documentation - store, search, and reference artifacts in one place.
- **Embedded CMMC framework** - alignment with NIST 800-171 controls and best practices built in.

The screenshot displays the ThornScan Assessment interface. On the left is a navigation sidebar with the ThornScan logo and a list of menu items: TEST Corporation (CMMC Level 2), Back to Dashboard, Level 2 Controls, POAMs, HW/SW Inventory, Artifacts, Scoping Guidance, and Compliance Vault. The main content area is titled 'ThornScan Assessment' and shows the user 'Julia Griffin' with a 'Logout' button. Below the title, there are navigation links: 'Back', 'CMMC Level 2', '110 Controls (Level 1-2)', and 'ACTIVE'. The main section is for 'TEST Corporation', with a description: 'Test Corporation competes for government contracts. Test corporation offers niche technical capabilities. Test corporation both primes and subs.' Below this, there are four summary cards: '14% Overall Implementation', '110 Applicable Controls', '3 Critical Controls Remaining', and '94 Not Implemented'. At the bottom, there is a 'Control Families' card showing '14'. A bottom navigation bar includes tabs for 'Controls (110)', 'POAMs', 'Policies', 'Artifacts', and 'Inventory'.

Metric	Value
Overall Implementation	14%
Applicable Controls	110
Critical Controls Remaining	3
Not Implemented	94
Control Families	14

Simplify, automate, and master CMMC.
