

SMART FLEX

2019 PRODUCT CATALOGUE

About Smart Flex, Inc.

Our company is headquartered in the " Furniture Capital of the World " (High Point, North Carolina, USA). From our warehouse, we are able to serve all of North American retailers and customers.

Smart Flex, Inc. was conceived with the idea of bringing factory direct motorized adjustable bed frames and other innovative products to our retailers. Our mission is to help our retail partners to be profitable by providing value to their retail customers. This is made possible by offering high quality products with key features and functions at a very competitive price.

Although our company started in October of 2017, our management team has been in the bedding industry for more than fifteen years from manufacturing to distributing. In order to compete in today's challenging business environment, we will stay in the forefront of innovation and constantly monitor consumer demands and market trends.

Smart Flex, Inc. will tirelessly seek satisfaction from both our retail partners and consumers. Please contact us with questions or comments. Thank you for your support.
