# Your Property. Your Health. Our Priority.

DISINFECTION OF DURABLE SURFACES

## WHAT MAKES US DIFFERENT

**SWS Sanitized** is a program from SoftWash Systems™ where we have trained and are certified to utilize our revolutionary soft washing equipment to do bulk sanitation of durable surfaces. This is a service we have always provided, however, many of our customers' focus had been on esthetics. Today we find ourselves focusing on our true differentiator, which is when we clean a surface by soft washing. We are not just giving the germs, mold, bacteria and viruses a haircut and moving them around, we are actually disinfecting them. This has always been our goal, and this is the business we are in: sanitizing and disinfection of surfaces.

Our company is **SWS Sanitized Certified** and meets or exceeds the standards brought forth by performing an initial cleaning that removes and lowers the instance of germs, bacteria and viruses on surfaces.

## WHAT YOU CAN EXPECT

Soft washing is the alternative to pressure washing. We use water-based biodegradable chemicals that emulsify dirt and grime as well as sanitize the surface they are bonded to. The treatment lasts four to six times longer than pressure washing and uses one-third of the water.

By engaging an SWS Sanitized specialist, you will gain peace of mind that your premises have been disinfected using **Center for Disease Control (CDC)** and **World Health Organization (WHO)** guidelines.

Once we complete the sanitation of your facility, we will leave behind time-dated signage and/or decals promoting that the area has been properly sanitized. This will help you communicate to customers, clients and neighbors in this "new normal" that you are providing a sanitized environment for them to enjoy.
