

Subject: Request for Collaboration on Equine Welfare Initiatives

Dear Bill Moroney,

I hope this message finds you well.

I'm writing on behalf of our organization to express our interest in collaborating with the United States Equestrian Federation on efforts that support and advance equine welfare across our sport. As individuals who care deeply about the wellbeing of our horses and the long-term health of the equestrian community, we believe there is tremendous value in aligning initiatives and working together where goals overlap.

To help guide potential areas of collaboration, we would appreciate the opportunity to better understand USEF's current priorities. Specifically, it would be very helpful if you could share the three to five key initiatives or focus areas that USEF is currently prioritizing in the area of equine welfare. Our goal is to ensure that any work we undertake complements existing efforts rather than duplicating them. By understanding your current initiatives, we hope to identify meaningful opportunities to support, amplify, or collaborate on programs that benefit horses, trainers, and the broader equestrian community.

If possible, we would greatly appreciate a response within the next 10 days, as we are currently planning our upcoming organizational priorities and would like to thoughtfully consider where collaboration with USEF may be most impactful.

Thank you for the work you continue to do on behalf of horses and the sport. We look forward to working together and strengthening these efforts collectively.

Warm regards,

USETA Board Members
