1998-1999

The mission of Black Traditional Magnet Elementary School in partnership with parents and community is to provide students an opportunity to achieve and to be challenged in accordance with their ability in a safe, structured, disciplined, equitable environment, in order to prepare them for a constantly changing society.

As we complete our fifth year as a traditional magnet school, I am very proud of the progress our staff and students have made teaching and learning. We have focused on reading, writing, and mathematics and have made great improvements!

It is a joy to see students, dressed in their school uniforms, come to school daily knowing that they are at school to learn. I continue to be impressed with our kindergarten and first grade students who develop into very capable readers and writers in such a short time. It has been very satisfying to see children grow from these who are ready to succeed in middle school.

It is a privilege to work with our students, their supportive parents, and our excellent staff. These are the people who make Black Traditional Magnet a great school!

This class loves their stories. When Jr. Great Books time is announced they respond with overwhelmingly enthusiastic "yeahs" that can be heard down the hallway. They love our art projects and take great pride in their work. This class is so social that they really enjoy center time interacting with each other. Ms. Dunsworth

Our class has learned to respect other people and take care of the earth and animals. Reading is our favorite subject. We have written stories, done our 100 math facts in ten minutes, learned to spell, enjoyed science, health, music & art. Each one in our class is special. I wish a great future for these students.

What A Great Year!

Our class has come very far this year. We have had many great learning experiences, and we have a great love of learning new and exciting things. This class gets along with each other and is very helpful towards everyone. This has been an enjoyable first year at Black Traditional Magnet.

FRIENDS!

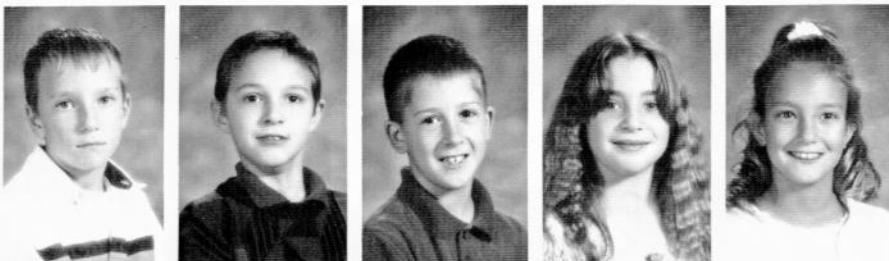

This is a wonderful group of boys and girls who enjoy their friendship with one another. They are hard workers, are anxious to learn, and have made exceptional progress. They have much to contribute to the future and I am sure there are many good things in store for them. It has been a privilege to be their teacher. Mrs. Brown

Rising Stars!

I feel very fortunate to have this class my first year at Black. These students have fun learning; they try hard to succeed. I look forward to seeing them grow and hearing from them later in life.

In 5th grade we learn fun stuff in Math like the perimeter of things. We learned about disabilities and took a half day to learn from a wheelchair. At Christmas we make a lot of things for our family. We are in D.A.R.E. and we learn things about drugs and how to say NO. 5th grade is fun so when I go home I can say I had fun today because I have fun every day. I also like recess because the boys let us play basketball. written by: Monique Metcalf
