SERVICES
FOR
CHILDREN
WITH
SPECIAL NEEDS"*

Admissions: 562-869-0646

CurtisCARE

CurtisCARE

provides a continuum of early services for children with and without

development delays and disabilities.

Our purpose is to promote learning through activity and socialization. Classes are taught by special service providers. Daily activities are organized according to child's Initial Assessment and Individualized Play Plan. Progress is measured daily and reported quarterly in each of the learning, primary domains of physical socialization and functioning.

Our multi Disciplinary Team includes Behaviorists, Speech & Language Pathologists, and Occupational Therapists.

Parents and care providers are encouraged to visit in-person and participate in the delivery of the highest quality of care in our safe and secure environment.

Center-Based Program HX0376

Activities are designed to stimulate growth and development to meet our children's individualized needs. The program emphasizes language, personal, social, cognitive, and motor skills.

Services are provided under the guidance of specialists in child development including

occupational, physical, and speech Therapy. Therapeutic services can often help prevent or lessen the effects of a long-term disability. Our teacher to child ratio is 1:3.

Homes-Based Program HX0360

We serve children from birth to three (3) years of age. Children receive up to three hours of intervention on a weekly basis by a qualified Early

intervention Specialist. Our home-based services are provided on a 1:1 basis and family

members are encouraged to participate.

Provides early start services to children up to three years of age who are at high risk of a development disability. Our program is open five (5) days a week, 12 months a year with the exception of holidays.
