"Specialized Services for
Children With
Special Needs"

Admissions: 562-869-0646

CurtisCARE

CurtisCARE

provides a continuum of early intervention services for children ages 0-3 who have been diagnosed with developmental delay or disability by

South Central Los Angeles Regional Center.

We promote early learning through play activities and socialization. Activities are provided according the Individualized Play Plan and the Initial assessment using the Hawaii Early Learning Program (HELP).

Achievement is noted and measured in each of the primary domains of learning, socialization, and physical functioning.

Parents and care providers are encouraged to visit in-person and participate in the delivery of the highest quality of care in our safe and secure environment.

Our programs are open five (5) days a week, 12 months a year with the exception of holidays.

"Specialized Services for Children with Needs"

Center Based Program HX0376 & HX0565

Daily activities are designed to stimulate growth and skill development to meet each child's individualized needs. They emphasize language, personal, social, cognitive and motor skills

Our teachers are trained Early Childhood Educators.

Classes are taught on a 1:3 staff to child ratio by teachers trained in Early Child education.

Home Based Program HX0360 & HX0566

In-Home Program serves children 0 to 3 in the family home on a 1:1 basis through our Early Interventionist who have completed 24+ units in Early Childhood Development.

Clinical Service Programs PX0649

Clinical Services are conducted on a 1:1 basis with Occupational and Speech Therapist and are available upon the authorization of the regional center.

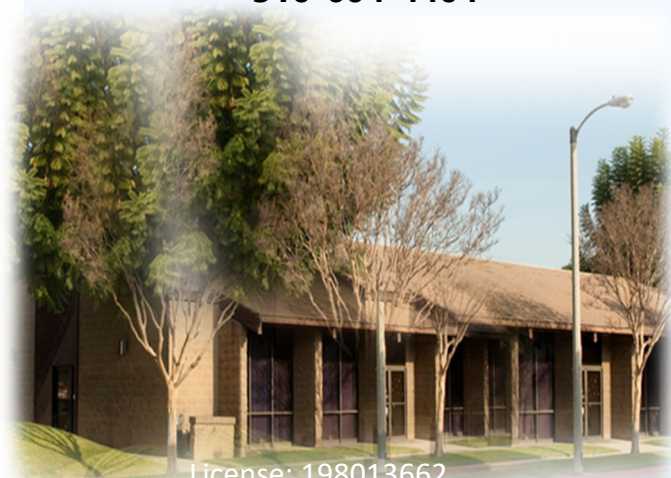

Early Intervention Services

Early Intervention Therapy can often help prevent or lessen the effects of a long-term disability.
