# BOND A revolutionary polymer modified dry mudset.

Installs like Sand, Sets like Cement™

### **DRIVEWAYS**

Specifically Designed for Residential Driveways.

#### Installs like Sand, Sets like Cement™

DriBond was created to bond (1" or 30mm) thin pavers over existing concrete surfaces without removing existing concrete, which is a costly and time-consuming process. Ironically, if you remove the concrete, you're actually removing the best possible base for your pavers. DriBond is the first polymer modified bonding agent specifically developed for residential concrete driveways. It installs like sand and sets like cement in a fraction of the time it would take to install traditional pavers.

Customers now have that ability to transform an old, stained and cracked concrete driveway into a hardscape masterpiece within one to two days.

Over one million square feet of thin pavers have been installed over the past seven years utilizing the DriBond technology.

Updated technical data sheet and MSDS can be found on our website at www.pavertech.com.

#### POOL DECKS

- Specifically Developed for Pool Deck overlays
- Cost Efficient
- No Concrete Removal/Demo
- Quick & Easy Application
- Minimal Preparation Time
- Environmentally Friendly
- Prevents Paver Settling\*
- No Long Term Repairs
- Inhibits Mold/Grass/Weeds
- Reduces Installation Time, Resulting in Greater Profits

#### Installs like Sand, Sets like Cement™

DriBond is the perfect solution to brighten boring pool decks and make your outdoor oasis shine.

Concrete pool decks take a lot of abuse from foot traffic and harsh weather conditions. Thin pavers installed on your pool deck will add natural beauty and warmth to your existing landscape, and also increase the durability of your outdoor living space.

- Say goodbye to cracks, weeds and crumbling cement.
- Eliminate sand wash-out and prevent a breeding ground for mold and mildew.
- Eliminate low spots and uneven surfaces giving a stronger more resilient finish.

Give your pool deck that "WOW" factor... DriBond is a simple solution at a fraction of the cost.

Updated technical data sheet and MSDS can be found on our website at www.pavertech.com.

#### PORCHES & PATIOS

#### Installs like Sand, Sets like Cement™

Hardscapes installed with DriBond allow homeowners to extend their living space into the outdoors. Pavers and patio stones are known for their strength and longevity, and excel in harsh environments while providing the appropriate texture for slip resistance.

DriBond makes it easy to convert your current concrete patio into a beautifully designed hardscape living area your family will love.

There is simply no comparison between a regular concrete patio and a patio enhanced with designer pavers and/or natural stone. As you can see in our gallery, pavers and natural stone come in many shapes, sizes and colors.

Ask one of our professionals what would work best for your area and needs.

Updated technical data sheet and MSDS can be found on our website at www.pavertech.com.

#### SIDEWALKS & WALKWAYS

#### Installs like Sand, Sets like Cement™

Transform existing concrete walkways and commercial sidewalks into beautiful landscape masterpieces.

With DriBond and thin pavers, boring concrete walkways can be transformed into stunning architectural showpieces; an ideal solution for entryway sidewalks, garden paths and commercial walkways.

Beautiful walkways can transform your outdoor living area from a standard concrete path to a brilliantly designed outdoor hardscape showpiece. DRiBOND makes it easy to recondition existing concrete walkways and commercial sidewalks into beautiful hardscapes. Pavers are an ideal solution for entryway sidewalks, garden paths and most walkways around your property. Sidewalks and walkways can be easily matched to existing patio and/or driveway pavers to complete the design of your outdoors.

Updated technical data sheet and MSDS can be found on our website at www.pavertech.com.

## COMMERCIAL APPLICATIONS

- Specifically Developed for Commercial Applications
- Cost Efficient
- No Concrete Removal/Demo
- Quick & Easy Application
- Minimal Preparation Time
- Environmentally Friendly
- Prevents Paver Settling\*
- No Long Term Repairs
- Inhibits Mold/Grass/Weeds
- Reduces Installation Time, Resulting in Greater Profits

#### Installs like Sand, Sets like Cement™

DriBond is an incredibly strong and durable bonding agent, perfect for commercial applications such as car dealerships, hotel pool decks and walkways, government installations and high-traffic businesses.

The management team at Bob Steele Chevrolet was seeking a solution to update and enhance their expansive car dealership parking lots, driveways and service bays. Rather than demolish thousands of square feet of existing concrete and shut down business for weeks, they installed thin pavers directly over their existing concrete surfaces using DriBond and dramatically improved the property's overall appearance. This was done in a fraction of the time and for far less cost than a conventional paver installation.

Please contact us for to see how DriBond can improve your business or commercial property.

#### Product Specifications:

Bag Weight: 50lbs/22.7 kg

Bag Coverage Rate: Approx. 30 sq. feet (at depth of 3/8")

**ASTM C579, Compressive Strength:** 6,850 psi

ASTM C666, Freeze Thaw Ratio: 94% ASTM C308, Final Set-Time: 5:40

Maximum Depth: 1"
Maximum Variance: 5/8"

\* Wait 24hrs for foot traffic and 48hrs for vehicular traffic.
