

EMANCIPATION OUTREACH TO HOSPITALS/CLINICS

LOOK AND LIVE

Once upon a time, the children of Israel while on their way to the Promised Land rebelled against the Lord and His servant, Moses. The Lord held them responsible for this sin and decided to deal with them by sending some fiery serpents (snakes) into their midst. The snakes started biting them and they were dying. They couldn't run away from this punishment because everywhere they turned, there were snakes. When they eventually saw that they were being dealt with by God and that the situation was becoming UNBEARABLE, they cried to God for mercy. They asked Moses to help them beg God, which he did. In response to their cry for mercy, the Lord instructed Moses to make a Brazen Fiery Serpent (a serpent made of bronze) and hang it on a pole. The Lord then said everyone who was bitten by the snakes and simply looks at the brazen serpent hung on the pole would live. That is, they were to simply look and live (Numbers 21: 4-9).

Now, just like the Israelites, most of our predicaments are direct results of sin, carelessness, ignorance, disobedience, insensitivity among others. Some of us are patients in hospitals today because we wouldn't listen to some warnings the Lord had been trying to pass across to us. Some of us are not sinners *per se* but the devil found a way of cheating us in the area of our health due to our ignorance of God's perfect health plan (3 John 2). However, there is good news. The Son of Man (Jesus Christ) has been lifted up for you also, and all you need do is to **LOOK AND LIVE** (John 3:14-15). So, have you been bitten by the *serpents of cancer, typhoid, pneumonia, leukemia, tuberculosis, arteriosclerosis, cardiovascular disorder, migraine, stomach ache, malaria, HIV/AIDS, jaundice, hepatitis, kidney stones, bad liver, glaucoma, cataracts, deafness, partial/total stroke, diabetes, goiter, hypertension, rheumatism, arthritis, enuresis, syphilis, staphylococcus, elephantiasis, onchocerciasis, paralysis, blindness, dumbness, fibroid, infertility, impotence, boils, bone and marrow diseases, gastrointestinal disorders, psychological/mental disorders, malnutrition, diarrhea, cholera or any other form of health challenge?* Don't panic, just look to Jesus in faith by saying **"Lord Jesus, I look up to You, please forgive my sins, save my soul and heal me today by Your mercy. Amen"**. That's it, it is DONE! Believe you are healed and give Him thanks.

Share your testimonies with others and also with us through our phone numbers or e-mail address. Your healing is permanent in Jesus' Name.
