**About MISN:** A community-based not-for-profit dedicated to health and wellness across the lifespan and access to health care for all. It offers programs in the Mid-Hudson region.

The **Director of Strategic Programs** is responsible for leading the development, execution, and oversight of key strategic initiatives that drive organizational growth and efficiency. This role ensures alignment between business objectives and program activities, fostering innovation and long-term success. The ideal candidate possesses strong leadership skills, analytical expertise, and the ability to work cross-functionally to enhance strategic operation.

#### **Responsibilities**

- Develop and implement strategic programs aligned with company goals and priorities.
- Oversee multiple initiatives for each department ensuring effective coordination and execution.
- Build partnerships with community organizations, healthcare providers, and donors to enhance program outreach and funding.
- Manage program budgets, grants, and reporting to ensure financial efficiency and compliance with funding requirements and established procedures/policies.
- Collaborate with leadership to identify new opportunities for expansion, innovation, and sustainable program growth.
- Advocate for health and wellness initiatives, representing the organization in public forums, conferences, and stakeholder meetings.
- Lead, coach, and supervise teams, fostering a culture of innovation, collaboration, and accountability
- Develop and implement best practices processes and procedures that enhance efficiency and effectiveness of the organization.
- Ensure appropriate staffing and responsible for hiring as needed.
- Conducts performance reviews for front office employees.
- Ability to travel to each location to supervise staff as needed.

#### **Qualifications:**

- Master's degree in Business Administration, Health, Strategy Management, or a related field.
- Experience in strategic program management, business development, or corporate strategy.
- Strong leadership and problem-solving capabilities.
- Excellent communication and stakeholder management skills.
- Ability to navigate complex projects and multi-functional teams.
- Proficiency in data analysis and decision-making tools.

- Valid driver's license; independent means of transportation for travel within Hudson Valley Region and beyond
