

# Smarter Home Security

## Control for Door Locks and Garage Doors

Enhance your security with complete control and visibility over all the entry points to your home. An Alarm.com powered system seamlessly integrates door locks and garage door control to give you real-time insight and control.

## Remote Control

Use the app to instantly know the status of any door and easily lock or unlock doors, or raise and lower garage doors, no matter where you are.

## Alerts

Get reminders and custom notifications when a door is left open or to see who is entering the home.

## Unique User Codes

Give contractors and babysitters scheduled temporary access with unique lock codes, and get alerts whenever they lock or unlock the door.

## Automation and Triggers

Set your system to disarm automatically when you unlock a door or have the garage door close when the system is armed.

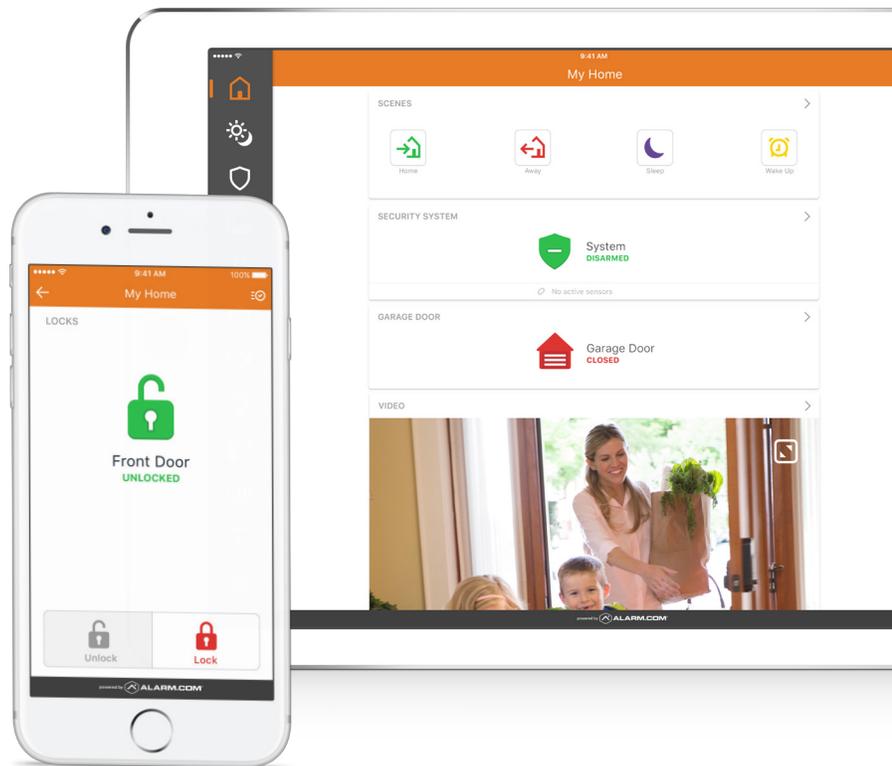

## It's All Connected

With your Alarm.com powered system, you can access best in class devices for your home solution needs.

## Control Access to Your Home

- Check to see if your doors are closed no matter where you are
- Remotely open and close garage door
- Automatically close the garage door and lock the front door when your system is armed
- Receive alerts if any entry point is left open
- Set rules to enable certain user codes to work only during specified periods
